> Difference between French feeding and that of other nations.—There is no doubt in our French organization, and in our impressions, something more general than is found elsewhere philosophical, and political symptoms, should first enter our heads, in order that they shoul there assume the form requisite to procure their adoption in places which have not been the seat of their existence. From this we conclude that any thing which would be appropriate for us would necessarily satisfy foreigners, and that the ideas which the mass of our population had imbided would be sure in all cases to lead to conquest. It was announced that the movement to which France owes her reggeneration was about to be reproduced at Turin, Naples, Madrid, &c. before any thing was thought to the difference of climate, of geographical position, and above all, of civilization. All these illusions are very excusable, since they emanate from a generous sentiment which wishes the whole universepartake of our joy. It is, however, necessary to cuard against the errors to which it might give

HAGERSTOWN, MARYLAND, JUNE 1st, 1830. The Trustees of the Hagerstown Academy, ake pleasure in bearing testimony, as well to the correct gentlemanly deportment of Monsieur B. Tronchin, late professor of the French and Seatish languages in this institution, during his charge. By his judicious method of instuction, the class to which he gave lessons made the most satisfactory progress in their studies; and it has been entirely owing to the want of patronage in his department, that he has been bliged to leave his employment in the academy We cordially recommend Monsieur Trenchin to the public as an assiduous, efficient and intelligent instructor of the English, French and Spanish languages, to all desirous of employing such; and hope he may soon find the encourage ment he merits. (Signed.) J. REYNOLDS. President of the Board.

DEAD SIR:—Allow me to introduce to you 80 do. onions, the baner of this letter, Professor Tronchin, of 21 do. potatoes, and our Academy. Professor Tronchin visits Phil- 18 dez adelphia with a view of making an engagement in that city as teacher of the English. French and Spanish languages, as the patronage here in nov. 8 those studies is found hardly sufficient to give

him a suitable salary. Previous to our inviting Mr. Tronchin to this Academy. I conversed with Professor Value and Professor Fay, of New York, on the subject of his qualifications to teach the modern languages Professor Value assured me that he was better qualified to teach the French language than any other instructor he was acquainted with in New York; and Professor Fay gave me an account quite as satisfactory of his ability to teach Board of Trustees, the most satisfactory testibefore we invited him to our institution; and I can cheerfully add, that the success of these pupils of our seminary who have been under his instruction, has entirely justified the high opin-ion of those who knew him best in New York;

regret very much to part with him from our institution: but from the came I have mentioned it is likely he may embrace some other situation. llis manners as you will perceive, are those of a gondoman, and dignified; and I feel much eseem for his character every way. His knowledge of the English language is uncommonly weeful in almest any school. In permanship he exceds; and he possesses a practical acquaintance with the business of a counting house.— From what I have expressed, you will perceive that I can have no healtation in recommending Mr. Tronchin an a very, valuable teacher for any literary institution in our country, and if you can aid him in any manner in his views in your city, you will confer a great favor on me, and serve one whom I think worthy of your kind offices. I shall be pleased if you introduce him to my friend Doctor De Lancey; and perhaps if you make him acquainted with Mr. Johnson, of the High school it may promote his interest.

Gentleman-The bearer of this, Monaicur Tronchin, leaves this town in the morning for Philadelphia, in pursuit of a more agreeable and lucratite situation than can be afforded him in this place.—He has been teaching the French and panish languages, and writing, in my seminary for the last aix months, and much to my satisfaction; and I consider him entitled to much better patronage than he is likely ever to obtain in this ction of the country. He is not only a good French and Spanish scholar, but a very correct English scholar also; an advantage which few foreign leachers possess. He is besides an execulent houle keeper, and practised in teaching that branch size. Should you be able to render him any assistance, you will oblige exceedingly

Your despectfully, (Singued) ANNA M. INGLIS. HAGRESTOWN, Mp. June 7, 1830. It is with pleasure I give this testimony to the apability, assiduity, &c. of Mr. B. Trouchin as a teacher of the English, French and Spanish languages, who has resided in this town about eight menths. My son, a boy in his fifteenth year, wide seconishing progress while under his care, and I regret very much that he did not meet with patronage sufficient to justify his remaining here.
