RECENT IMPORTATION.

The Hydrocenioth, or Rain Bath.

EVERY thing connected with the cleanliness of the body; every thing which may act as a preventative of disease belongs to the province of hygeian medicine, which Mr. Selpneider has lately enriched with the precious discovery of his *Hydrocenion.*

The importation into France by Mr. Walz, of the apparatus necessary to the application of this new mode of baths, brass obtained for him the approbation of the society of practical medicine, in Paris, to whom he has submitted this process, and ensured him, from the public sanction of his new apparatus, a just reward for the services which has rendered to humanity.

These baths, the usefulness of which is generally acknowledged in France, both in a medicinal light, and more especially in that of public salubrity, present advantages too numerous not to be particularly mentioned, in order to recommend, to the public of New Orleans, the apparatus lately exported by Mr. Gicquel.

The liquid contained in a reservoir above, the bath and yielding to its weight passes necessarily, to the tubes of hydraulics, fitted at convenient tubes, fixed in a variety of ways, so as to issue through a great number of capillary apertures, which projects it in the form of a water spout on the surface of the whole body, for on one, or the other of its parts, according to the direct, or of the capillary apertures.

Simple or composed, natural or artificial waters, decoctions, aromatic tractures, spirituous distillations, can be at the same time of use in the hydrocenion, and the apparatus may be employed, not only as a bath but also in shower baths, which either with a liquid or with steam, as applied to the head, trunk, or limbs of the body.

In practical medicine, the use of this bath, from the various modes of its application has produced the happiest results; physicians have already obtained signal success in a variety of cases, such as gouty obstructions, glandular affections, contractions to muscles, scurvy, tardy excretions, weakness, exhaustion of every sort; tubercular and cutaneous affections; eruptions of every species, even to the worst kind; nervous weakness, and a great number of diseases in which it is equally necessary to *touch* animal economy.

Considered in the light of a powerful hygeian auxiliary, the use of the hydrocenion is not only salutary, but produces a healthful vigor, a development of strength which by no means result from the bath by the immersion process; the perpetual washing of the different parts of the body, by the means of the capillary sprinkling; the excitement produced on the skin by this repeated sprinkling, the general tone and agility, which are the consequences of it, the agreeable sensations, which it creates, the faculty of transmuting the steam into rain and the latter into the former; each and all of these are qualities of hygeia, too well known to require further explanation on the subject.

The rain bath differs from the immersion bath, in this respect; that in the use of the latter, the pression exercised by water on the body frequently produces a very great difficulty of breathing; a tendency of blood to the head, and hence headaches and vertigos.

The bath by aspersion, on the other hand, produces quite a contrary effect; the water, falling on the whole superficy of the body in small drops more or less tepid, assists perspiration; a gentle titillation is experienced in every part of the body; the process of respiration is regular; is gradually expands, the pulse acquires freshness without losing its regularity, and if the expression be allowed, the articulations become more vigorous; for that feeling of weakness, ever attendant on the bath by immersion, is never experienced. In conclusion the discovery of the hydrocenion may be considered as an additional luxury in domestic life; as well on account of the pleasurable sensations, which it creates, as the immense advantages of cleanliness, so very salutary to the body.

Baths, with Mr. Walz' apparatus can be taken warm, cold, or cold; as also medicated, nitrous, alcaline, exciting or steam and shower baths, the usefulness of which is very great though generally disregarded on account of the high expenses and infinite care attending the establishment of steam baths at home.

This new apparatus independently of the little space, which they take up in a room no ways interferes with the service of a household; and if the mere trifling details are taken into consideration ogers a saving of time, fuel and water. Manufactured in the shape of sundry movcibles, this same apparatus can adorn a dressing room, a parlor, or the most modest tenement: in the form of a book case or of a press it may be found an indispensible desideratum in a household.

Initiated into the secret of the process, Mr. Gicquel will take upon himself the setting up of the apparatus after the form and manner, which may be pointed out to him.

The public will be admitted to an inspection on the 1st of May next, at the establishment of the hydrocenion bath, Bourbon, between St. Anne and Maine streets. may 23

Your prescription and advice have succeeded with regard to my daughter, aged 7 years, and she has within the last fortnight completely recovered her eye sight. BEWARE OF COUNTERFEITS.

WHEREAS I have lately understood that a certain individual is now preparing and now vending throughout the United States, an imitation of my celebrated *Catholicon*, purporting to possess the same virtues, and as it is presumed it will be for sale in the city of New Orleans, the public are particularly cautioned against purchasing it. It is supposed to be similar to the Rob of L'Afficteur, or Syrop de Cousinier, which contains *corrosive sublimate*, and calculated to do much mischief. I trust the unsuspecting will be on their guard against these frauds, and purchase of no other persons but F. P. Duconge and Morgan & Co. who are my only authorized agents for New-Orleans, and from whom the *Genuine Potter's Catholicon* can be had fresh from my factory at Philadelphia

WM. POTTER,
Ninth street, Philadelphia.

POTTER'S CELEBRATED

Catholicon.

ONLY TWO DOLLARS PER BOTTLE.

☞ The component parts of this medicine are purely *Vegetable*—it is therefore one of the safest in the world! *A SOVEREIGN REMEDY* in diseases of the liver, ulserated sore throat, debility resulting from intemperance and dissipation, scrofula and king's evil, old and inveterate ulcers, pains in the bones, rheumatism, dyspepsia, or indigestion, diseases of the lungs, syphilis, blotches on the face and skin, white swelling of the joints, tetter, mercurial diseases, piles, &c.

The certificates of wonderful cures performed by the Catholicon, have become so numerous as to preclude their insertion in any newspaper.—The unrivalled and very extensive character which it has enjoyed, for the last six years, as a complete renovator, and *purifier* of the *blood* and *humors*, both in hospitals and in private practice, is a substantial basis for its future support. It has obtained its present great distinction by the extraordinary success which has attended it in the healing art, while every arcane and trick have been searched in vain for its parallel; its discovery is one of the most sacred boons that can be afforded to the unfortunate martyr of disease, and it is most sincerely hoped that the sympathy of the public will be witness to the promulgation of its inestimable merits. Proofs of the value of Potter's genuine Catholicon:—its healing powers: its usefulness as a general restorer of health: the city of Philadelphia alone could furnish thousands of witnesses, to contradict the base and malicious fabrications which daily emanate from the jealous.

What, we would ask, can be a stronger proof of its utility, than its success in the Pennsylvania Hospital, Philadelphia Alms House, and the Philadelphia and New-York Penitentiaries, and in other public institutions alike serviceable, where the eminent skill which presides over them had been exhausted in vain. *"These facts speak trumpet tongued"*—and *cannot be gainsaid.* It is much to be lamented that there are so many spurious mixtures manufactured in imitation of this invaluable medicine, some assuming to possess equal virtue, and vended under the same titles—some have gone to the daring extremity of refilling the old bottles with the labels on; whilst others, to filch the public, have published for their benefit the very *certificates* which the propriator of the *Genuine Catholicon* had obtained from those who were cured by his medicine, of various distressing diseases.

Thus has he been assailed in every form by envy, jealousy and fraud; and thereby prevented extending the usefulness of this great and long wished for remedy.

Just received, direct from the manufactory of the proprietor, a fresh supply of the *Genuine Potter's Catholicon*, and for sale at the whol sale and retail Drug, Medical and Chemic warehouses of
