THE LEGISLATURE.

Senate. Thursday, April 2, 1846. Shortly at cr assembling the Seriate took up the reports of the Commuteen of Elections in the contested election of Mr. Prescott, the St. Landry Sensitor.

Mr. Marks moved that the seat of Mr. Prescott be included assembly and a new abstract adapted. Mr. Marks moved that the seat of Mr. Prescott be declared vacant, and a new election ordered Mr. Kenker moved a division of the question. The first part of the motion, to declare Mr. Prescott's seat vacant, was carried unanimously. Upon the second branch of the mption, a long debate arose. Mr. Partam considered the majority report more specious than acid. He cited law, precedent and common sense to prove than the declaration of the report that the Senate could just go beyond a confirmation of the sitting member of a vacation of his seat, was totally unsound. The doctrie led to the absurdity of supposing that there was no reased for the most flagrant wrong.

The commissioners of the election sought to exclude the contestant from his seat, in account of an informatity for which they alone were responsible—These commissioners were the guilty porties, and yet they endeavored by their own less single connected with the section; and proved the grosses in neglect on the part of the commissioners, and yet they endeavored by their own is seat, in a commissioner were they endeavored by their own in part of the commissioners, and yet they endeavored by their own is seat, in a commissioner and the seat of the commissioners and yet they endeavored by their own in part of the commissioners, and yet they endeavored by their own in the part of the commissioners and the seat higherto occupied by Br. Prescott.

The discussion was continued by Mr. Porter who defended the majority report with considerable ingenity. Mr. Parlsan replied and Mr. Brankers made

I have to express the opinion, that a wise precaution demands such increase.

In my annual message of the 2d December last, I recommended to the favorable consideration of Constraint many, and the raising of an adequate military force to guard and protect such of our citizens as might think proper to emigrate to Oregon. Since that period, I have seen accases to modify these recommendations. On the contrary, reasons exist which, in tmy judgment, render it proper not only that they should be promptly carried into effect, but that additional provisions build be made for the public effect.

The consideration of such additional provision was brought before appropriate conunities of the two houses of Conurrses in answer to calis made by the mode of Churches and Electrosynary institutions.
