Question 5a of 10 (1 The game of economics 201836)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following does not take place in the game of economics?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Distribution |  |
| B. | Consumption |  |
| $* \mathbf{C}$. | Evaluation | Correct! Evaluation is not necessarily a <br> part of the game of economics. |
| D. | Production |  |

Global I ncorrect Feedback
The correct answer is: Evaluation. Evaluation is not necessarily a part of the game of economics.

Question 5b of $\mathbf{1 0}$ ( 1 The game of economics 201837 )
Maximum Attempts: 1
Question Type: Multiple Choice

Maximum Score: 2
Question:

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The distribution of goods |  |
| B. | The allocation of resources |  |
| C. | The consumption of services |  |
| *D. | The reduction of waste | Correct! While waste may be reduced by <br> players in the game of economics, this is <br> not necessarily a part of that game. |

Global I ncorrect Feedback
The correct answer is: The reduction of waste. While waste may be reduced by players in the game of economics, this is not necessarily a part of that game.

Question 5c of $\mathbf{1 0 ( 1 \text { The game of economics 201838) }}$
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these activities is most essential to the game of economics?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | The production of goods and services. | Correct! The game of economics couldn't <br> be played without production. |
| B. | The reduction of waste products. |  |
| C. | The development of new products. |  |
| D. | The use of recyclable materials. |  |

Global I ncorrect Feedback
The correct answer is: The production of goods and services. The game of economics couldn't be played without production.

Question 6a of 10 ( 3 The game of economics 201843 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following situations is one where the goal of efficiency is being met?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | When you use up all of the available resources. |  |
| *B. | When you do something with as little waste as <br> possible. | Correct! Efficiency is the minimization of <br> waste. |
| C. | When you allocate resources to people who <br> deserve them. |  |
| D. | When you make sure you produce as much of <br> something as possible. |  |

Global I ncorrect Feedback
The correct answer is: When you do something with as little waste as possible. Efficiency is the minimization of waste.

## Question 6b of 10 ( 3 The game of economics 201844)

Question Type:
Maximum Score:
Question:

Multiple Choice
2
Which of the following describes an action that serves the goal of equity?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A student who eats her lunch before the lunch <br> period is given another lunch. |  |
| B. | A player with the fewest points is given more <br> points to help them catch up. |  |
| *. | A player who cheats at cards is eliminated <br> from the game. | Correct! Cheating is not fair, so <br> eliminating a cheater serves equity. |
| D. | A parent buys presents for all of the children <br> attending his child's birthday party. |  |

Global I ncorrect Feedback
The correct answer is: A player who cheats at cards is eliminated from the game. Cheating is not fair, so eliminating a cheater serves equity.

Question 6c of 10 ( 3 The game of economics 201845)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following actions best meets the goal of security?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | Wearing a seatbelt while riding in a car. | Correct! Seatbelts protect against harm <br> when accidents happen. |
| B. | Taking good notes in class. |  |

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | People cannot make good allocation decisions. |  |
| B. | Technology has not advanced far enough yet. |  |
| *C. | Demand will always be greater than supply. | Correct! No matter how much supply is <br> produced, people will always want more. |
| D. | There will always be too many people on the <br> Earth. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: Demand will always be |
| greater than supply. No matter how much |
| supply is produced, people will always want |
| more. |

Question 8b of $\mathbf{1 0}$ (1 Production 201858)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2

Question:
Which of the following explains why scarcity cannot be eliminated?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The Earth's population is too large to be <br> supported anymore. |  |
| B. | Humans are using the Earth's natural <br> resources too quickly. |  |
| $*$ C. | No matter how much is produced, people will <br> always want more. | Correct! Demand will always move out <br> ahead of supply. |
| D. | Technology has been used to increase demand <br> instead of supply. |  |

Global I ncorrect Feedback
The correct answer is: No matter how much is produced, people will always want more. Demand will always move out ahead of supply.

## Question 8c of 10 ( 1 Production 201859 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best explains what makes allocation decisions necessary?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | There are never enough goods and services to <br> satisfy all wants and needs. | Correct! Scarcity makes allocation <br> decisions necessary. |
| B. | People cannot agree on what kind of allocation <br> will be the most efficient. |  |
| C. | There are often different methods of producing <br> the same goods and services. |  |
| D. | Consumers usually disagree with each other <br> about which brands are the best. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: There are never enough |
| goods and services to satisfy all wants and |
| needs. Scarcity makes allocation decisions |
| necessary. |

Question 9a of 10 (1 Production 201867)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2

Question: What is the first question that needs to be answered when organizing an economy?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | How is production to be organized? |  |
| *B. | What is to be produced? | Correct! Before answering other <br> questions, players must decide what to <br> produce. |
| C. | How are goods and services to be distributed? |  |
| D. | What is the most effective allocation of <br> resources? |  |

Global I ncorrect Feedback
The correct answer is: What is to be produced? Before answering other questions, players must decide what to produce.

## Question 9b of 10 (1 Production 201868 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following does not need to be addressed when organizing an economy?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The organization of production. |  |
| B. | The distribution of goods and services. |  |
| C. | The allocation of resources. |  |
|  |  | Correct! Politics can affect the economy, <br> but the institutions of a political system <br> are not necessarily connected with <br> economic questions. |
| $*$ D. | The rules of political institutions. |  |

Global I ncorrect Feedback
The correct answer is: The rules of political institutions. Politics can affect the economy, but the institutions of a political system are not necessarily connected with economic questions.

## Global I ncorrect Feedback

The correct answer is: Purchase goods and services. Consumer purchases are an important influence on producers in a free-market system.

## Question 4a of 10 ( 2 Circular flow model 201885 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best explains why the free-market system follows a circular flow model?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The allocation of resources affects both <br> production and distribution. |  |
| B. | Goods and services are constantly recycled in <br> a circular manner. |  |
| *. | The free choices made by consumers and <br> producers influence each other. | Correct! In a free-market system, <br> consumers and producers influence each <br> other. |
| D. | Profits flow in a circular way back and forth <br> between consumers and producers. |  |

Global I ncorrect Feedback
The correct answer is: The free choices made by consumers and producers influence each other. In a free-market system, consumers and producers influence each other.

## Question 4 b of 10 ( 2 Circular flow model 201886 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following best explains how a free-market system has a circular flow of influences?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | In order to be efficient, producers recycle <br> resources back to nature. |  |
| *B. | Consumer decisions affect producers, and <br> producer decisions affect consumers. | Correct! In a free-market system, <br> consumers and producers influence each <br> other. |
| C. | The allocation choices made by the <br> government occur in natural cycles. |  |

D. Wages flow in a circular way back and forth between consumers and producers.

Global I ncorrect Feedback
The correct answer is: Consumer decisions affect producers, and producer decisions affect consumers. In a free-market system, consumers and producers influence each other.

Question 4c of $\mathbf{1 0}$ ( 2 circular flow model 201887 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following results from the fact that a free-market system is based on the free choices of consumers and producers?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | The free-market system has a circular flow of <br> influences. | Correct! The free-market system is <br> characterized by a circular flow model. |
| B. | Consumers and producers are often the same <br> people. |  |
| C. | Goals such as security and efficiency cannot be <br> met. |  |
| D. | The government can only command, but not <br> plan, the economy. |  |

Global I ncorrect Feedback
The correct answer is: The free-market system has a circular flow of influences. The freemarket system is characterized by a circular flow model.

## Question 5a of 10 ( 3 Free choice 201888)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following best explains how free choice is protected in a free-market system?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Consumers and producers protect their own <br> freedom by making economic decisions. |  |
| *B. | The government makes and enforces whatever <br> laws are needed to guarantee free choice. | Correct! Without laws to protect people, <br> coercion could take place. |

| C. | Workers pressure producers to provide them <br> with high enough wages to make free choices. |  |
| :--- | :--- | :--- |
| D. | Conflict and competition among producers <br> automatically lead to free choice for <br> consumers. |  |

Global I ncorrect Feedback
The correct answer is: The government makes and enforces whatever laws are needed to guarantee free choice. Without laws to protect people, coercion could take place.

Question 5b of 10 ( 3 Free choice 201889 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question: Which of the following best explains why competition is an important part of a free-market system?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Government regulation is needed when there <br> is too much competition. |  |
| B. | Producers need competition to force them to <br> produce. |  |
| C. | Competition guarantees that consumers have <br> resources. |  |
| *.. | Without competition, people wouldn't have a <br> lot of choices. | Correct! Competition leads to a wider <br> range of choices. |

Global I ncorrect Feedback
The correct answer is: Without competition, people wouldn't have a lot of choices.
Competition leads to a wider range of choices.

Question 5c of $\mathbf{1 0}$ ( 3 Free choice 201890 )

## Maximum Attempts: 1

Question Type: Multiple Choice
Maximum Score: 2
Question:

Which of the following is the reason why, in a free-market society, the government passes laws against theft, coercion, and fraud?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | To protect freedom of choice | Correct! The main purpose of the <br> government in a free-market society is to |

|  |  | protect free choice. |
| :--- | :--- | :--- |
| B. | To prevent innovation |  |
| C. | To plan an efficient economy |  |
| D. | To guarantee security and growth |  |

## Global I ncorrect Feedback

The correct answer is: To protect freedom of choice. The main purpose of the government in a free-market society is to protect free choice.

Question 6a of 10 ( 3 Property rights 201891 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why are rules protecting private property some of the most important rules in a free-market system?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Consumers all desire to own as much property <br> as they can. |  |
| *B. | Individuals need to own resources in order to <br> make free choices. | Correct! Property rights make sure <br> individuals have access to resources. |
| C. | Private property protects individuals from <br> unnecessary government control. |  |
| D. | Producers want to protect the profit they make <br> by selling property to consumers. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: Individuals need to own |
| resources in order to make free choices. |
| Property rights make sure individuals have |
| access to resources. |

## Question 6b of 10 ( 3 Property rights 201892 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains why property rights are necessary in a free-market system?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Market forces only work when everyone owns <br> some property. | Corre |

| *. | Property rights allow consumers and producers |
| :--- | :--- | :--- |
| to make free choices. |  | | Correct! Property rights guarantee that |
| :--- |
| people have access to the resources they |
| need to make free choices. |$|$| C. | Competition cannot exist if some own property <br> and others do not. |  |
| :--- | :--- | :--- |
| D. | The government cannot plan an efficient <br> economy without passing laws. |  |

Global I ncorrect Feedback
The correct answer is: Property rights allow consumers and producers to make free choices. Property rights guarantee that people have access to the resources they need to make free choices.

Question 6c of $\mathbf{1 0}$ ( 3 Property rights 201893 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following is necessary in addition to protection against theft, coercion, and fraud in order for consumers and producers to have freedom of choice?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Resources | Correct! Without resources, individuals <br> cannot make their own choices. |
| B. | Capital |  |
| C. | Profits |  |
| D. | Wages |  |

Global I ncorrect Feedback
The correct answer is: Resources. Without resources, individuals cannot make their own choices.

## Question 7a of $\mathbf{1 0}$ ( 2 Profit 201895 )

| Maximum Attempts: | 1 |
| :--- | :--- |
| Question Type: | Multiple Choice |
| Maximum Score: | 2 |
| Question: | Which of the following best explains the profit motive? |

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The motivation to work hard at a job in order |  |

|  | to buy more goods and services. |  |
| :--- | :--- | :--- |
| B. | The incentive to buy at a low price in order to <br> be able to sell at a higher price. |  |
| * C. | The desire to make money through the <br> production of goods and services. | Correct! The profit motive drives <br> producers. |
| D. | The decision to allow market forces to decide <br> on the price of goods and services. |  |

Global I ncorrect Feedback
The correct answer is: The desire to make money through the production of goods and services. The profit motive drives producers.

## Question 7b of $\mathbf{1 0}$ ( 2 Profit 201896 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains what market forces are?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The decisions of the government that decide <br> what will be produced. |  |
| *B. | The properties of a free-market system that <br> determine what the outcomes will be. | Correct! Market forces determine the <br> outcomes in a free-market system. |
| C. | The laws that govern whether a producer will <br> be able to buy low and sell high. |  |
| D. | The ways that producers coerce consumers <br> into buying at the highest price possible. |  |

Global I ncorrect Feedback
The correct answer is: The properties of a freemarket system that determine what the outcomes will be. Market forces determine the outcomes in a free-market system.

| D. | To guarantee security and growth |  |

## Global I ncorrect Feedback

The correct answer is: To protect freedom of choice. The main purpose of the government in a free-market society is to protect free choice.

Question 6a of 10 ( 3 Property rights 201891 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why are rules protecting private property some of the most important rules in a free-market system?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Consumers all desire to own as much property <br> as they can. |  |
| *B. | Individuals need to own resources in order to <br> make free choices. | Correct! Property rights make sure <br> individuals have access to resources. |
| C. | Private property protects individuals from <br> unnecessary government control. |  |
| D. | Producers want to protect the profit they make <br> by selling property to consumers. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: Individuals need to own |
| resources in order to make free choices. |
| Property rights make sure individuals have |
| access to resources. |

## Question 6b of 10 ( 3 Property rights 201892 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains why property rights are necessary in a free-market system?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Market forces only work when everyone owns <br> some property. | Corre |

| *. | Property rights allow consumers and producers |
| :--- | :--- | :--- |
| to make free choices. |  | | Correct! Property rights guarantee that |
| :--- |
| people have access to the resources they |
| need to make free choices. |$|$| C. | Competition cannot exist if some own property <br> and others do not. |  |
| :--- | :--- | :--- |
| D. | The government cannot plan an efficient <br> economy without passing laws. |  |

Global I ncorrect Feedback
The correct answer is: Property rights allow consumers and producers to make free choices. Property rights guarantee that people have access to the resources they need to make free choices.

Question 6c of $\mathbf{1 0}$ ( 3 Property rights 201893 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following is necessary in addition to protection against theft, coercion, and fraud in order for consumers and producers to have freedom of choice?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Resources | Correct! Without resources, individuals <br> cannot make their own choices. |
| B. | Capital |  |
| C. | Profits |  |
| D. | Wages |  |

Global I ncorrect Feedback
The correct answer is: Resources. Without resources, individuals cannot make their own choices.

## Question 7a of $\mathbf{1 0}$ ( 2 Profit 201895 )

| Maximum Attempts: | 1 |

| :--- | :--- | :--- |
| $* \mathbf{A .}$ | The development of e-commerce. | Correct! E-commerce did not exist before <br> the Internet. |
| B. | The standardization of distribution. |  |
| C. | The wide availability of information. |  |
| D. | The improvement of communication. |  |

Global I ncorrect Feedback
The correct answer is: The development of ecommerce. E-commerce did not exist before the Internet.

## Question 9a of 10 ( 3 E-commerce 202834 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following is the most direct benefit that consumers enjoy as a result of the Internet?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Online sales enable instant gratification. |  |
| B. | Packages arrive in the mail faster. |  |
|  |  | Correct! The wide availability of <br> information gives consumers a chance to <br> compare prices without having to go from <br> store to store. |
| C. | It is easier to compare prices. |  |
| D. | Online businesses don't need many employees. |  |

Global I ncorrect Feedback
The correct answer is: It is easier to compare prices. The wide availability of information gives consumers a chance to compare prices without having to go from store to store.

Question 9b of 10 ( 3 E-commerce 202835 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:

Which of the following is the most direct benefit businesses enjoy as a result of online sales?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | There is more competition among producers. |  |
| B. | Online sales have almost completely replaced <br> in-store sales. |  |
| C. | Consumers can shop for the best prices online. |  |
|  | Online businesses don't need to have as many | Correct! The reduction in the number of <br> employees is a direct benefit for <br> producers, allowing them to cut costs and <br> lower prices. |
| employees. | Low |  |

Global I ncorrect Feedback
The correct answer is: Online businesses don't need to have as many employees. The reduction in the number of employees is a direct benefit for producers, allowing them to cut costs and lower prices.

## Question 9c of $\mathbf{1 0}$ ( 3 E-commerce 202836 )

## Maximum Attempts: 1

Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is not a benefit brought to the consumer by online sales?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Online businesses don't need many <br> employees. | Correct! The reduction in the number of <br> employees is a direct benefit for <br> producers, not consumers. |
| B. | Product information is easily available. |  |
| C. | Shopping is more convenient. |  |
| D. | It is easy to compare prices. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: Online businesses don't |
| need many employees. The reduction in the |
| number of employees is a direct benefit for |
| producers, not consumers. |

## Question 10a of 10 ( 3 Internet 202838)

Maximum Attempts: 1
Question Type:
Maximum Score:
Question:
2

Multiple Choice

Which of the following best explains why improvements in
communication technology allow people to make better economic decisions?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Faster communication allows consumers to <br> avoid the information overload that makes <br> decisions harder to make. |  |
| *B. | Better communication makes it easier to get <br> the information needed to come to a well- <br> informed decision. | Correct! Information is crucial for making <br> good decisions. |
| C. | Improved communication devices make it <br> more convenient for people to talk with each <br> other while making decisions. |  |
| D. | Reductions in waiting time that result from <br> widely-available communication devices enable <br> consumers to avoid making hasty decisions. |  |

Global I ncorrect Feedback
The correct answer is: Better communication makes it easier to get the information needed to come to a well-informed decision. Information is crucial for making good decisions.

## Question 10b of $\mathbf{1 0}$ ( 3 Internet 202839 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following best shows how the Internet affects the economic decisions people make?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | The availability of information allows people to <br> consider more options. | Correct! Information is crucial for making <br> good decisions. |
| B. | Customer reviews are leading people to make <br> poorly-informed choices. |  |
| C. | The convenience of e-commerce is eliminating <br> most retail stores. |  |
| D. | Internet advertising is the most effective form <br> of advertising. |  |

## Global I ncorrect Feedback

The correct answer is: The availability of information allows people to consider more options. Information is crucial for making good decisions.

Question 10c of 10 ( 3 Internet 202840 )
Maximum Attempts: 1

Question Type:
Maximum Score:
Question:

Multiple Choice
2
Which of the following explains why the Internet can help people make better economic decisions?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Purchasing goods and services online is more <br> Convenient. |  |
| B. | Security measures guard people's private <br> information. |  |
| *C. | Information is crucial for making good <br> decisions. | Correct! The Internet gives people easier <br> access to more information, making well- <br> informed decisions more likely. |
| D. | Faster communication increases the amount of <br> economic activity. |  |

Global I ncorrect Feedback
The correct answer is: Information is crucial for making good decisions. The Internet gives people easier access to more information, making well-informed decisions more likely.

| *C. | Teams |  |
| D. | Rules | Correct! Many games have only individual |
| players, not teams. |  |  |

Global I ncorrect Feedback
The correct answer is: Teams. Many games have only individual players, not teams.

## Question 2a of 25 ( 1 Allocation 203447)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Economics is about allocating resources to produce and distribute which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Outcomes and properties |  |
| B. | Consumers and producers |  |
| *C. | Goods and services | Correct! Economics is about goods and <br> services. |
| D. | Wages and profits |  |

Global I ncorrect Feedback
The correct answer is: Goods and services.
Economics is about goods and services.

## Question 2b of 25 ( 1 Allocation 203448)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Economics is about allocating resources for doing which of the following processes involving goods and services?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $* \boldsymbol{\Delta}$. | Production and distribution | Correct! Economics involves decisions |

|  |  | about production and distribution. |
| :--- | :--- | :--- |
| B. | Consumption and destruction |  |
| C. | Innovation and efficiency |  |
| D. | Expansion and stagnation |  |

Global I ncorrect Feedback
The correct answer is: Production and distribution. Economics involves decisions about production and distribution.

## Question 2c of 25(1 Allocation 203449 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Economics is about doing which of the following with resources when it comes to the production and distribution of goods and services?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Expanding |  |
| B. | Reusing |  |
| *. | Allocating | Correct! Economics involves allocation <br> decisions. |
| D. | Discovering |  |

Global I ncorrect Feedback
The correct answer is: Allocating. Economics involves allocation decisions.

## Question 3a of 25 ( 3 decisions 203450)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is an example of an allocation decision?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Coal is set aside to burn as heating fuel. | Correct! Allocation decisions set aside <br> resources for a specific purpose. |
| B. | An assembly line is used to build cars. |  |
| C. | A hub-and-spoke network is used to ship <br> packages. |  |
| D. | A telephone factory is converted to make |  |

## Global I ncorrect Feedback

The correct answer is: Coal is set aside to burn as heating fuel. Allocation decisions set aside resources for a specific purpose.

## Question 3b of 25 ( 3 decisions 203451 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is an example of a production decision?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A gas station is expanded to accommodate <br> more cars at once. |  |
| B. | Crude oil is set aside to refine into gasoline for <br> cars. |  |
| C. | A pipeline is set up to get oil from wells to <br> refineries. |  |
| *D. | An assembly line is used to build cars. | Correct! The way production is organized <br> in a factory is a production decision. |

## Global I ncorrect Feedback

The correct answer is: An assembly line is used to build cars. The way production is organized in a factory is a production decision.

## Question 3c of 25 ( 3 decisions 203452 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following is an example of a distribution decision?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Diamonds are set aside to use for industrial <br> drills. |  |
| *B. | A pipeline is set up to get oil from wells to <br> refineries. | Correct! Getting a resource from one <br> place to another is a distribution decision. |
| C. | A telephone factory is converted to make <br> computers. |  |
| D. | A textile factory decides to use electric sewing <br> machines. |  |

## Global I ncorrect Feedback

The correct answer is: A pipeline is set up to get oil from wells to refineries. Getting a resource from one place to another is a distribution decision.
Question 4a of $\mathbf{2 5}$ ( 3 Goals 203462 )
Maximum Attempts: $\quad 1 \quad$ Multiple Choice
Question Type: $\quad 2$
Maximum Score: $\quad$ Which of the following describes an efficient outcome?
Question:

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A government program allocates food to the <br> needy. |  |
| *B. | A car is designed to waste as little fuel as <br> possible. | Correct! Efficiency is the minimization of <br> waste. |
| C. | Consumers are given the widest range of <br> choice possible. |  |
| D. | A company sets up retirement program for its <br> employees. |  |

Global I ncorrect Feedback
The correct answer is: A car is designed to waste as little fuel as possible. Efficiency is the minimization of waste.

## Question 4b of 25 ( 3 Goals 203463 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following describes a situation where the goal of growth is being pursued?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Consumers reduce the amount of materials <br> they recycle. |  |
| B. | A factory lays off workers to become more <br> efficient. |  |
| *. | A company opens a new factory and employs <br> more workers. | Correct! New jobs means economic <br> growth is taking place. |
| D. | The government establishes a retirement <br> program for its citizens. |  |

## Global I ncorrect Feedback

The correct answer is: A company opens a new factory and employs more workers. New jobs means economic growth is taking place.

Global I ncorrect Feedback
The correct answer is: Inflation. Inflation is a result of prices rising, not an economic goal.

## Question 5c of 25 ( 1 Goals 203467)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is not a goal pursued in the game of economics?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Efficiency |  |
| *B. | Stagnation | Correct! Stagnation is the lack of growth; <br> growth is one of the goals people pursue <br> in the game of economics. |
| C. | Growth |  |
| D. | Security |  |

Global I ncorrect Feedback
The correct answer is: Stagnation. Stagnation is the lack of growth; growth is one of the goals people pursue in the game of economics.

## Question 6a of 25 ( 2 Goals 203468 )

## Global I ncorrect Feedback

The correct answer is: Some economic goals are incompatible with each other. Pursuing one economic goal often gets in the way of achieving a different goal.

## Question 6b of 25 ( 2 Goals 203469 )

## Maximum Attempts: <br> 1

Question Type:
Maximum Score:
Question: Multiple Choice 2 Which of the following best explains why some economic goals are incompatible with each other?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Individuals must harm each other to get ahead <br> in life. |  |
| $*$ B. | People are often in conflict over what they <br> want. | Correct! Conflict leads to people pursuing <br> different and sometimes incompatible <br> goals. |
| C. | Both supply and demand cannot be sufficiently <br> allocated. |  |
| D. | Producers needs consumers more than <br> Consumers need producers. |  |

## Global I ncorrect Feedback

The correct answer is: People are often in conflict over what they want. Conflict leads to people pursuing different and sometimes incompatible goals

## Question 6c of 25 ( 2 Goals 203470 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
2
Question:
Which of the following best explains why goals are necessary for making allocation decisions?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Goods and services are only meaningful once <br> players have decided what goals to use them <br> for. |  |
| B. | Goods can only be distributed to consumers <br> once those consumers decide on their goals. |  |
| *. | The available resources cannot be used to <br> pursue every goal that each individual has. | Correct! Resources are limited, so goals <br> must be set for their use. |
| D. | Production goals can only be met when enough <br> resources are allocated by the government. |  |

Global I ncorrect Feedback
The correct answer is: The available resources cannot be used to pursue every goal that each individual has. Resources are limited, so goals must be set for their use.

## Question 7a of 25 (2 Resources 203475 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following questions must be asked about the use of resources in an economic system?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | What allocation will provide the fastest <br> growth? |  |
| B. | What is the most effective allocation? | Correct! Effectiveness of allocation is a <br> general goal shared by all economic <br> systems. |
| C. | What is the most secure allocation? |  |
| D. | What is the fairest allocation? |  |

Global I ncorrect Feedback
The correct answer is: What is the most effective allocation? Effectiveness of allocation is a general goal shared by all economic systems.

Question 7 b of 25 ( 2 Resources 203476 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: The need to get goods from producers to consumers raises which of the following basic questions?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | What is the most effective allocation? |  |
| *B. | How are goods and services to be distributed? | Correct! Goods must be distributed to get <br> them from the producers to the <br> consumers. |
| C. | How is production to be organized? |  |
| D. | What is to be produced? |  |

Global I ncorrect Feedback
The correct answer is: How are goods and services to be distributed? Goods must be distributed to get them from the producers to the consumers.

## Question 7c of 25 ( 2 Resources 203477)

Maximum Attempts: 1

Maximum Score:
Question:
Multiple Choice
2
Which of the following best explains why the game of economics cannot eliminate scarcity?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Human intellectual capacities are too limited to <br> allow them to make rational allocation <br> decisions. |  |
| B. | Technology has not advanced far enough to <br> create fully efficient systems of production and <br> distribution. |  |
| C. | The population of the Earth has grown too <br> large to be sustained by the available natural <br> resources. |  |
| *D. | No matter how much supply is produced, <br> people's demands will always increase to <br> exceed supply. | Correct! No matter how much is <br> produced, people will always want more. |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: No matter how much |
| supply is produced, people's demands will |
| always increase to exceed supply. No matter |
| how much is produced, people will always want |
| more. |

## Question 8b of 25 ( 2 Scarcity 203479 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following properties of economics results from the fact that people will always want more no matter how much is produced?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | There is scarcity that cannot be eliminated. | Correct! Scarcity cannot be eliminated <br> from the game of economics. |
| B. | Buying low and selling high is always possible. |  |
| C. | Voluntary exchanges will always lead to a fair <br> price. |  |
| D. | Supply and demand will eventually be in <br> balance with each other. |  |

Global I ncorrect Feedback

The correct answer is: There is scarcity that cannot be eliminated. Scarcity cannot be eliminated from the game of economics.

## Question 8c of 25 ( 2 scarcity 203480 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
2
Question:
Which of the following best explains why resources need to be allocated in the game of economics?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | There are always different production methods <br> for the same goods and services. |  |
| * B. | There are not enough resources to produce all <br> of the goods and services that everyone <br> wants. | Correct! Scarcity makes allocation <br> decisions necessary. |
| C. | Natural resources are often found in places far <br> from where they are used for production. |  |
|  | If sufficient resources are not set aside for <br> future production, scarcity cannot be <br> eliminated. |  |

Global I ncorrect Feedback
The correct answer is: There are not enough resources to produce all of the goods and services that everyone wants. Scarcity makes allocation decisions necessary.

## Question 9a of 25 (1 Capitalism 203482 )

Maximum Attempts: 1

Question: Which of the following goals does the government pursue in a socialist economic system?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Growth |  |
| *B. | Equity | Correct! In a socialist country, the <br> government runs the economy in order to <br> ensure a certain level of equity among the <br> citizens. |
| C. | Security |  |
| D. | Efficiency |  |

## Global I ncorrect Feedback

The correct answer is: Equity. In a socialist country, the government runs the economy in order to ensure a certain level of equity among the citizens.

Question 14a of 25 ( 2 Cost-benefit analysis 203501 )

| Maximum Attempts: | 1 |
| :--- | :--- |
| Question Type: | Multiple Choice |
| Maximum Score: | 2 |
| Question: | Cost-benefit analysis is a process that involves which of the following? |

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Calculating a budget for each expense. |  |
| *B. | Maximizing benefits and minimizing costs. | Correct! Cost benefit analysis helps to <br> maximize benefits. |
| C. | Accurately predicting the effects of every <br> decision. |  |
| D. | Determining the profit that results from <br> production decisions. |  |

Global I ncorrect Feedback
The correct answer is: Maximizing benefits and minimizing costs. Cost benefit analysis helps to maximize benefits.

Question 14b of 25 (2 Cost-benefit analysis 203502 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following describes the purpose of doing a cost-benefit analysis?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | To produce a spreadsheet predicting costs. |  |
| *B. | To make a decision that maximizes benefits. | Correct! Cost-benefit analysis is useful <br> when you want to get the most out of a <br> decision. |
| C. | To decide how much money to invest. |  |
| D. | To calculate the high and low price for a good. |  |

Global I ncorrect Feedback

The correct answer is: To make a decision that maximizes benefits. Cost-benefit analysis is useful when you want to get the most out of a decision.

Question 14c of 25 ( 2 Cost-benefit analysis 203503 )

| Maximum Attempts: | 1 |
| :--- | :--- |
| Question Type: | Multiple Choice |
| Maximum Score: | 2 |
| Question: | Cost-benefit analysis is similar to which of the following? |

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Making a decision by listing pros and cons. | Correct! Pros and cons are like benefits <br> and costs. |
| B. | Making decisions with a limited amount of <br> information. |  |
| C. | Using economic indicators to measure <br> economic health. |  |
| D. | Estimating prices to the nearest dollar. |  |

Global I ncorrect Feedback
The correct answer is: Making a decision by listing pros and cons. Pros and cons are like benefits and costs.

Question 15a of 25 ( 2 Cost-benefit analysis 203510 )

Maximum Attempts:
1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following results from the fact that costs and benefits are based on personal preferences?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Different types of information lead to the same <br> decision. |  |
| B. | Monetary factors are more important than <br> non-monetary factors. |  |
| *. | Both monetary and non-monetary factors are <br> taken into account. | Correct! There are many factors that go <br> into a person's calculation of costs and <br> benefits. |
| D. | The benefits will always be greater than the <br> costs. |  |

## Global I ncorrect Feedback

The correct answer is: Both monetary and nonmonetary factors are taken into account. There are many factors that go into a person's calculation of costs and benefits.

Question 15b of 25 ( 2 Cost-benefit analysis 203511)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains why minimizing costs is a rational way to make decisions?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Paying a cost means doing without something <br> good or accepting something bad. | Correct! Costs are whatever people want <br> to avoid. |
| B. | The maximum benefit can only be obtained by <br> paying the lowest cost possible. |  |
| C. | People calculate costs differently from each <br> other. |  |
| D. | All costs lead to benefits that outweigh the <br> costs. |  |

Global I ncorrect Feedback
The correct answer is: Paying a cost means doing without something good or accepting something bad. Costs are whatever people want to avoid.

Question 15c of 25 ( 2 Cost-benefit analysis 203512 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:

Which of the following best describes the kinds of decisions that result from using cost-benefit analysis?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | An outcome that is rational if only monetary <br> costs and benefits are included. |  |
| B. | A maximum amount of profit for both <br> producers and consumers. |  |
| C. | A high sale price for producers and low buying <br> price for consumers. |  |

An outcome with benefits that are greater than the costs.

Correct! Cost-benefit analysis is an attempt to maximize benefits.

Global I ncorrect Feedback
The correct answer is: An outcome with benefits that are greater than the costs. Cost-benefit analysis is an attempt to maximize benefits.

Question 16a of 25 ( 1 Cost-benefit analysis 203518)

```
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Calculations of cost and benefit are always which of the following?
```

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Subjective | Correct! The way people determine costs <br> and benefits varies from one individual to <br> another. |
| B. | Minimum |  |
| C. | Rational |  |
| D. | Resourceful |  |

Global I ncorrect Feedback
The correct answer is: Subjective. The way people determine costs and benefits varies from one individual to another.

Question 16b of 25 (1 Cost-benefit analysis 203519 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Because calculations of cost and benefit are subjective, they can be described by which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Result in the best decision. |  |
| *B. | Vary from one person to another. | Correct! Subjective decisions are different <br> for everybody. |
| C. | Require objective information. |  |
| D. | Turn out the same for everybody. |  |

Global I ncorrect Feedback

The correct answer is: Vary from one person to another. Subjective decisions are different for everybody.

## Question 16c of 25 ( 1 Cost-benefit analysis 203520 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question: Which of the following pairs of words best describes using cost-benefit analysis?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Physical and intellectual |  |
| B. | Efficient and fair |  |
| *C. | Rational and subjective | Correct! Cost-benefit analysis is part of <br> rational thinking but the calculations are <br> different for everybody. |
| D. | Maximizing and minimizing |  |

Global I ncorrect Feedback
The correct answer is: Rational and subjective.
Cost-benefit analysis is part of rational thinking but the calculations are different for everybody.

## Question 17a of 25 ( 1 Stagnation 203521 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
When the gross domestic product is neither growing nor shrinking, a country's economy is doing which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Inflating |  |
| B. | Producing |  |
| *C. | Stagnating | Correct! Stagnation is when there is <br> neither an increase or decrease in GDP. |
| D. | Expanding |  |

Global I ncorrect Feedback
The correct answer is: Stagnating. Stagnation is when there is neither an increase or decrease in GDP.

Question 17b of 25 (1 Stagnation 203522 )

Maximum Attempts: 1
Question Type:

Question:
2

Multiple Choice

Which economic indicator can show whether a country's economy is growing or stagnating?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Inflation Rate |  |
| *B. | Gross Domestic Product | Correct! GDP measures overall economic <br> activity. |
| C. | Corporate Profit Level |  |
| D. | Unemployment Rate |  |

Global I ncorrect Feedback
The correct answer is: Gross Domestic Product.
GDP measures overall economic activity.

Question 17c of 25 ( 1 Stagnation 203523)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
A country's economy is stagnating when the GDP is doing which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | Neither rising nor falling | Correct! Stagnation is when there is <br> neither an increase or decrease in GDP. |
| B. | Adjusted for inflation |  |
| C. | Doubling each year |  |
| D. | Increasing slowly |  |

Global I ncorrect Feedback
The correct answer is: Neither rising nor falling. Stagnation is when there is neither an increase or decrease in GDP.

Question 18a of 25 ( 2 Economic indicators 203525 )

## Maximum Attempts: <br> 1

Question Type: Multiple Choice
Maximum Score:
2

Question: Which of the following economic indicators would be most useful for figuring out how many goods are being sold to consumers?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Consumer Price Index |  |
| $*$ B. | Retail sales | Correct! Retail sales is the sale of goods <br> directly to consumers. |
| C. | New housing construction |  |
| D. | Gross Domestic Product |  |

Global I ncorrect Feedback
The correct answer is: Retail sales. Retail sales is the sale of goods directly to consumers.

Question 18b of 25 ( 2 Economic indicators 203526)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is measured by the inflation rate?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | The percentage rise in price levels. | Correct! The inflation rate measures how <br> fast prices are rising. |
| B. | The growth of housing construction. |  |
| C. | The overall value of goods and services. |  |
| D. | The amount of goods sold to consumers. |  |

Global I ncorrect Feedback
The correct answer is: The percentage rise in price levels. The inflation rate measures how fast prices are rising.

Question 18c of 25 ( 2 Economic indicators 203527)

## Maximum Attempts: <br> 1

Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following economic indicators would be most useful for figuring out whether the economy is growing quickly or slowly?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Inflation Rate |  |
| B. | New housing construction |  |

| C. | Corporate profits |  |
| :--- | :--- | :--- |
| *D. | Gross Domestic Product | Correct! The GDP measures the overall <br> activity in an economy. |

Global I ncorrect Feedback
The correct answer is: Gross Domestic Product. The GDP measures the overall activity in an economy.

Question 19a of 25 ( 3 Economic indicators 203528)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: The Gross Domestic Product goes down when which of the following occurs?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Imports increase faster than exports. | Correct! Imports are subtracted from <br> exports to calculate GDP, so rising <br> imports reduces GDP. |
| B. | Consumers spend more on luxury goods. |  |
| C. | There are too many unemployed workers. |  |
| D. | The government spends more than it takes in. |  |

Global I ncorrect Feedback
The correct answer is: Imports increase faster than exports. Imports are subtracted from exports to calculate GDP, so rising imports reduces GDP.

Question 19b of 25 ( 3 Economic indicators 203529)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
The gross domestic product goes up when there is which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Less government spending |  |
| B. | A rising unemployment rate |  |
| $*$ C. | More investment in businesses | Correct! Investment is one component of <br> GDP, so more investment increases GDP. |

D. A reduction in exports

Global I ncorrect Feedback
The correct answer is: More investment in businesses. Investment is one component of GDP, so more investment increases GDP.

Question 19c of 25 ( 3 Economic indicators 203530 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: The gross domestic product would increase significantly if which of the following occurred?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Investment were halved. |  |
|  |  | Correct! Private consumption is a major <br> component of GDP, so doubling <br> consumption would significantly increase <br> GDP. |
| *B. | Consumption doubled. |  |
| C. | Taxes were cut in half. |  |
| D. | Imports doubled. |  |

## Global I ncorrect Feedback

The correct answer is: Consumption doubled. Private consumption is a major component of GDP, so doubling consumption would significantly increase GDP.

Question 22a of 25 ( 2 Technology and productivity 203547 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Technological improvements lead to which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Increased allocation |  |
| *B. | Increased productivity | Correct! Advances in technology make the <br> productive process faster and more <br> efficient. |

| C. | Increased distribution |  |
| :--- | :--- | :--- |
| D. | Increased security |  |

Global I ncorrect Feedback
The correct answer is: Increased productivity. Advances in technology make the productive process faster and more efficient.

Question 22b of 25 ( 2 Technology and productivity 203548 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Consumers directly benefit from greater productivity because of which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Older devices are replaced with newer versions <br> more and more quickly. |  |
| B. | Fewer workers are needed to produce more <br> goods and services. |  |
| *C. | Goods and services are produced faster and <br> can be sold more cheaply. | Correct! Greater productivity allows <br> producers to produce more and charge <br> lower prices. |
| D. | The amount of natural resources needed to <br> sustain human wants and needs decreases. |  |

Global I ncorrect Feedback
The correct answer is: Goods and services are produced faster and can be sold more cheaply. Greater productivity allows producers to produce more and charge lower prices.

Question 22c of 25 ( 2 Technology and productivity 203549 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Technological advancements can improve productivity by doing which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Developing machines that reduce the human <br> effort needed to produce goods and services. | Correct! Reducing human effort helps <br> reduce waste and speeds up production. |
| B. | Inventing powerful machines that are less |  |

|  | dangerous to factory workers. |  |
| :--- | :--- | :--- |
| C. | Lengthening the assembly line so that more <br> workers can participate in production. |  |
| D. | Introducing better methods of production that <br> allow workers to earn higher wages. |  |

Global I ncorrect Feedback
The correct answer is: Developing machines that reduce the human effort needed to produce goods and services. Reducing human effort helps reduce waste and speeds up production.

Question 23a of 25(1E-commerce 203551)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best defines e-commerce?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Internet advertising |  |
| $*$ B. | Buying and selling online | Correct! E-commerce takes place when <br> people use the Internet to buy and sell <br> goods and services. |
| C. | Electronic production |  |
| D. | E-mail communication |  |

## Global I ncorrect Feedback

The correct answer is: Buying and selling online. E-commerce takes place when people use the Internet to buy and sell goods and services.

Question 23b of 25(1 E-commerce 203552)

| :--- | :--- | :--- |
| A. | Credit debt is more common. |  |
| B. | Internet advertising is effective. |  |
| C. | There are fewer stores to go to. | Correct! When buying online, you can <br> ship gifts without an extra trip to the post <br> office. |
| *D. | Shipping gifts is easy. |  |

Global I ncorrect Feedback
The correct answer is: Shipping gifts is easy. When buying online, you can ship gifts without an extra trip to the post office.

## Question 24c of 25 (2 E-commerce 203556)

## Maximum Attempts:

Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following does the Internet provide for online customers?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Security hazards |  |
| B. | Distribution |  |
| C. | Lower prices |  |
| *D. | Convenience | Correct! Online shopping saves time and <br> energy, making it much more convenient <br> for many people. |

Global I ncorrect Feedback
The correct answer is: Convenience. Online shopping saves time and energy, making it much more convenient for many people.

Question 25a of 25 ( 3 The Internet and economic decisions 203558)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
The Internet enables people to make better economic decisions because they can do which of the following?

|  | Choice | Feedback |
| :---: | :---: | :---: |
| A. | Avoid the information overload that makes it harder to choose one thing over another. |  |
| B. | Retrieve information quickly so that instant gratification is more possible. |  |
| * C. | Get the information that is necessary for making good choices. | Correct! Information is crucial for making good decisions. |
| D. | Find out whether or not certain products involve both monetary and non-monetary costs. |  |

Global I ncorrect Feedback
The correct answer is: Get the information that is necessary for making good choices. Information is crucial for making good decisions.

Question 25b of 25 ( 3 The Internet and economic decisions 203559 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: The Internet influences the economic decisions people make because of which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | E-commerce reduces the amount of <br> competition among producers. |  |
| $* \mathbf{B .}$ | The information that is accessible allows <br> consumers to consider every available option. | Correct! Information is crucial for making <br> good decisions. |
| C. | Advertising on the Internet is much easier to <br> ignore than other advertising. |  |
| D. | Consumers are too busy handling the overflow <br> of e-mail to make well-informed choices. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: The information that is |
| accessible allows consumers to consider every |

available option. Information is crucial for making good decisions.

Question 25c of 25 ( 3 The Internet and economic decisions 203560)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: The Internet helps consumers make well-informed decisions because of which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | It provides the information that is crucial for <br> making good choices. | Correct! The Internet gives people easier <br> access to more information, making well- <br> informed decisions more likely. |
| B. | E-commerce makes it more convenient to <br> purchase goods. |  |
| C. | It speeds up the pace of both production and <br> consumption. |  |
| D. | Private financial information can be handled <br> more securely. |  |

Global I ncorrect Feedback
The correct answer is: It provides the information that is crucial for making good choices. The Internet gives people easier access to more information, making well-informed decisions more likely.

| :--- |
| The correct answer is: The profit motive. The |
| quest for profit drives producers in a free- |
| market system. |

## Question 3a of 10 (1 PPF 209931)

## Maximum Attempts: <br> 1

Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following tools helps a producer set up an efficient system of production?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | A production possibilities frontier graph. | Correct! A production possibilities frontier <br> graph shows the maximum amounts of <br> two or more goods a person or group of <br> people can produce given the inputs <br> available. |

| B. | A market research department. |  |
| :--- | :--- | :--- |
| C. | An electric-powered assembly line. |  |
| D. | A determination of opportunity costs. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: A production possibilities |
| frontier graph. A production possibilities frontier |
| graph shows the maximum amounts of two or |
| more goods a person or group of people can |
| produce given the inputs available. |

Question 3b of 10 (1 PPF 209932)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best states the purpose of using a production possibilities frontier?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Pursuing the profit motive |  |
| B. | Maximizing revenue |  |
| C. | Balancing economic goals |  |
| *D. | Setting up efficient production | Correct! A production possibilities frontier <br> graph shows the maximum amounts of <br> two or more goods a person or group of <br> people can produce given the inputs <br> available. |

Global I ncorrect Feedback
The correct answer is: Setting up efficient production. A production possibilities frontier graph shows the maximum amounts of two or more goods a person or group of people can produce given the inputs available.

## Question 3c of 10 (1 PPF 209933)

## Maximum Attempts: 1

Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following statements best explains how using a production possibilities frontier (PPF) helps set up efficient production?

|  | Choice | Feedback |
| :--- | :--- | :--- |

| A. | A PPF helps predict whether gross domestic <br> product is rising or falling. |  |
| :--- | :--- | :--- |
| *B. | A PPF shows the maximum amount of goods <br> that can be produced with a given set of <br> inputs. | Correct! The PPF helps reduce waste by <br> maximizing output. |
| C. | A PPF allows a producer to calculate the cost of <br> producing one more unit of goods. |  |
| D. | A PPF allows a producer to balance supply and <br> demand in order to find the best selling price. |  |

Global I ncorrect Feedback
The correct answer is: A PPF shows the maximum amount of goods that can be produced with a given set of inputs. The PPF helps reduce waste by maximizing output.

## Question 5a of 10 ( 3 Market structures 209937 )

## Maximum Attempts: <br> 1

Question Type: Multiple Choice

Maximum Score:
Question:

2
Which of the following describes a situation where competition between producers exists?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A small number of producers command the <br> entire market for a certain good or service. |  |
| B. | One producer is the only one selling a good or <br> service with no close substitutes. |  |
| C. | Two or more producers are trying to sell the <br> same good or service to the same consumers. | Correct! When there are two or more <br> businesses pursuing the same specific <br> goal, there is competition. |
|  | The monetary benefits for one producer lead to <br> non-monetary costs for another producer. |  |

Global I ncorrect Feedback
The correct answer is: Two or more producers are trying to sell the same good or service to the same consumers. When there are two or more businesses pursuing the same specific goal, there is competition.

Question 5b of 10 ( 3 Market structures 209938)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2

Question: Which of the following describes a situation where monopolistic competition exists?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | When there is a small number of producers <br> selling identical products. |  |
| B. | When many producers are selling slightly <br> differentiated products. | Correct! Monopolistic competition means <br> that each producer has a monopoly on <br> their specific product, but the products <br> are close substitutes of each other. |
| C. | When fewer than five producers command the <br> entire market for a certain good or service. |  |
| D. | When a single producer is the only one selling <br> a good or service with no close substitutes. |  |

Global I ncorrect Feedback
The correct answer is: When many producers are selling slightly differentiated products. Monopolistic competition means that each producer has a monopoly on their specific product, but the products are close substitutes of each other.

## Question 5c of 10 ( 3 Market structures 209939)

## Global I ncorrect Feedback

The correct answer is: To graph the relationship between quantity supplied and price charged. A supply curve graphically demonstrates the different levels that producers are willing to supply at various prices.

Question 1c of 10 ( 1 supply and demand 220859 )

| Maximum Attempts: Question Type: |  | 1 <br> Multiple Choice |  |
| :---: | :---: | :---: | :---: |
|  |  |  |  |
| Maximum Score: |  | 2 |  |
| Question: |  | Which of the following best explains the purpose of a demand schedule? |  |
|  | Choice |  | Feedback |
| * A. | To show the level | of demand at various prices. | Correct! A demand schedule shows how much of something consumers will want at various prices. |
| B. | To demonstrate h | w supply affects demand. |  |
| C. | To indicate how su price. | pply and demand relate to |  |
| D. | To calculate how will use. | much of a good consumers |  |

Global I ncorrect Feedback
The correct answer is: To show the level of demand at various prices. A demand schedule shows how much of something consumers will want at various prices.

## Question 2a of $\mathbf{1 0}$ ( 2 Supply and demand 220860 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following most accurately describes how the equilibrium price of a good or service can be determined?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | By taking the opposite of the columns in a <br> supply schedule and a demand schedule. |  |
| *B. | By finding where the supply curve and the <br> demand curve intersect. | Correct! The equilibrium price is the price <br> at which quantity supplied equals quantity <br> demanded. |
| C. | By moving the supply curve right or left until it <br> matches the demand curve. |  |

D.

By doing market research to determine the maximum price consumers will pay.

Global I ncorrect Feedback
The correct answer is: By finding where the supply curve and the demand curve intersect. The equilibrium price is the price at which quantity supplied equals quantity demanded.

Question 2b of $\mathbf{1 0}$ ( 2 supply and demand 220861 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
The equilibrium price is located at which of the following points?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Where the supply and demand curves <br> intersect. | The equilibrium price is the price at which <br> quantity supplied equals quantity <br> demanded. |
| B. | Where the supply curve is at its lowest. |  |
| C. | Where the demand curve reaches its peak. |  |
| D. | Where the production possibilities frontier is <br> furthest to the right. |  |

Global I ncorrect Feedback
The correct answer is: Where the supply and demand curves intersect. The equilibrium price is the price at which quantity supplied equals quantity demanded.

Question 2c of 10 ( 2 supply and demand 220862 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following explains the factors responsible for setting prices in a free-market system?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The balance of costs and benefits. |  |
| B. | Revenue minus costs. |  |
| C. | The amount of scarcity. |  |
| *D. | Supply relative to demand. | Correct! Price is determined by how much <br> of a good or service is produced relative |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: Supply relative to |
| demand. Price is determined by how much of a |
| good or service is produced relative to how |
| badly consumers want it. |

Question 3a of 10 ( 3 Supply and demand 220864 )
Maximum Attempts: $\quad 1 \mathrm{l}$
Question Type: $\quad$ Multiple Choice
Maximum Score:
Question:

|  | Choice | Which of the following describes a situation in which a shortage occurs? |
| :--- | :--- | :--- |
| *A. | Consumers want more video-game systems <br> than the company can make. | Correct! A shortage occurs when demand <br> exceeds supply. |
| B. | There is inefficiency in the productive process <br> used to make cell phones. |  |
| C. | A computer company tries to charge too high a <br> price for a new laptop computer. |  |
| D. | A clothing store puts sweaters on sale to get <br> rid of them before the end of winter. |  |

Global I ncorrect Feedback
The correct answer is: Consumers want more video game systems than the company can make. A shortage occurs when demand exceeds supply.

Which of the following describes a situation in which a surplus occurs?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A car company tries to charge too high a price <br> for a new model of minivan. |  |
| B. | A cell phone company cuts its rates to attract <br> new customers. |  |
| $* \mathbf{C}$. | A publisher has printed more copies of a book <br> than people want to read. | Correct! A surplus occurs when supply <br> exceeds demand. |

$\square$ A clothing store puts bathing suits on sale to get rid of them before the end of summer.

Global I ncorrect Feedback
The correct answer is: A publisher has printed more copies of a book than people want to read. A surplus occurs when supply exceeds demand.

Question 3c of 10 ( 3 supply and demand 220866 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following describes a situation of scarcity?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A person lets the kids in the neighborhood use <br> his pool. |  |
| B. | Someone distributes free bottles of water at <br> the beach. |  |
| C. | Someone offers free advice about getting into <br> college. |  |
| *D. | A child charges friends for a ride on his new <br> bike. | Correct! Anything with a price is assumed <br> to be scarce. |

Global I ncorrect Feedback
The correct answer is: A child charges friends for a ride on his new bike. Anything with a price is assumed to be scarce.

Question 4a of 10 ( 3 Supply and demand 220867 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following describes a situation in which the price of a good would rise?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A new technology allows producers to increase <br> supply very quickly. |  |
| $* \mathbf{B}$. | Scarce natural resources make it more difficult <br> for producers to keep up with demand. | Correct! When supply decreases relative <br> to demand, prices rise. |
| $\mathbf{C}$. | Production is increased in order to catch up <br> with a sudden rise in demand. |  |

D. Consumers start using less of a good because more substitutes are available.

## Global I ncorrect Feedback

The correct answer is: Scarce natural resources make it more difficult for producers to keep up with demand. When supply decreases relative to demand, prices rise.

Question 4b of $\mathbf{1 0}$ ( 3 Supply and demand 220868 )

## Maximum Attempts: 1

Question Type: Multiple Choice
Maximum Score: 2
Question:

Which of the following describes a situation in which the price of a good would rise?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Consumers start using less of a good because <br> more substitutes are available. |  |
| B. | A new technology allows producers to increase <br> supply very quickly. |  |
| C. | Production is increased in order to catch up <br> with a sudden rise in demand. |  |
| *D. | Producers cannot make enough of a good <br> when that good becomes popular suddenly. | Correct! When demand increases relative <br> to supply, prices rise. |

Global I ncorrect Feedback
The correct answer is: Producers cannot make enough of a good when that good becomes popular suddenly. When demand increases relative to supply, prices rise.

## Question 4c of 10 ( 3 Supply and demand 220869)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following describes a situation in which the price of a good would fall?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | A new technology allows producers to increase <br> supply very quickly. | Correct! When supply increases relative to <br> demand, prices fall. |
| B. | Consumers start using more of a good because <br> there are fewer substitutes. |  |

| C. | Scarce natural resources make it more difficult <br> for producers to keep up with demand. |  |
| :--- | :--- | :--- |
| D. | Producers cannot make enough of a good <br> when that good becomes popular suddenly. |  |

Global I ncorrect Feedback
The correct answer is: A new technology allows producers to increase supply very quickly. When supply increases relative to demand, prices fall.

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following are necessary for production to take place?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Advertising to create demand. |  |
| *B. | The input of land, labor, and capital. | Correct! Land, labor, and capital are the <br> factors of production necessary for <br> anything to be made. |
| C. | Market research to determine the level of <br> demand. |  |
| D. | The creation of shipping networks to distribute <br> goods. |  |

Global I ncorrect Feedback
The correct answer is: The input of land, labor, and capital. Land, labor, and capital are the factors of production necessary for anything to be made.

## Question 5b of 10 ( 2 Factors of production 220871 )

## Maximum Attempts: 1

Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is a characteristic of the factors of production?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | Scarcity | Correct! Land, labor, and capital are <br> scarce, which is why allocation decisions <br> need to be made. |
| B. | Elasticity |  |

| C. | Non-excludability |  |
| :--- | :--- | :--- |
| D. | Shortage |  |

Global I ncorrect Feedback
The correct answer is: scarcity. Land, labor, and capital are scarce, which is why allocation decisions need to be made.

Question 5c of 10 ( 2 Factors of production 220872 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best describes what production accomplishes?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | An increase in supply that lowers prices. |  |
| B. | A reduction in the size of the labor force. |  |
| *C. | Value added to resources that already exist. | Producers take resources and change <br> them so that they have more value. |
| D. | Efficient use of natural resources. |  |

Global I ncorrect Feedback
The correct answer is: Value added to resources that already exist. Producers take resources and change them so that they have more value.

Question 6a of 10 ( 2 Utility 220873 )

```
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Opportunity cost is calculated by which of the following?
```

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Finding the value of the best option that is not <br> chosen. | Correct! Opportunity cost is what you give <br> up by not taking the choice that is second <br> best. |
| B. | Calculating the cost of time, energy, and <br> sacrifice. |  |
| C. | Subtracting all costs from the total benefit. |  |
| D. | Adding the value of all lost opportunities. |  |

Global I ncorrect Feedback

The correct answer is: Finding the value of the best option that is not chosen. Opportunity cost is what you give up by not taking the choice that is second best.

## Question 6b of $\mathbf{1 0}$ ( 2 utility 220874 )

## Maximum Attempts: <br> 1

Question Type: Multiple Choice
Maximum Score: 2
Question: The optimal use of a resource takes place when which of the following happens?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | There is a decrease in the marginal utility of a <br> decision. |  |
| B. | The supply and demand curves never <br> intersect. |  |
| C. | The opportunity cost is greater than the actual <br> cost. |  |
| *D. | The benefit is greater than the opportunity <br> cost. | Correct! When a resource is being put to <br> its optimal use, there is no way to get a <br> greater benefit out it. |

Global I ncorrect Feedback
The correct answer is: The benefit is greater than the opportunity cost. When a resource is being put to its optimal use, there is no way to get a greater benefit out it.

## Question 6c of 10 ( 2 Utility 220875 )

## Maximum Attempts: <br> 1

Question Type: Multiple Choice
Maximum Score: 2
Question: When the benefit of one particular use of a resource is greater than the opportunity cost, then that resource is which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Not scarce |  |
| *B. | Being used efficiently | Correct! When a resource is being put to <br> its optimal use, there is no way to get a <br> greater benefit out it. |
| C. | A normal good |  |
| D. | Non-excludable |  |

## Global I ncorrect Feedback

The correct answer is: Being used efficiently. When a resource is being put to its optimal use, there is no way to get a greater benefit out it.

## Question 7a of 10 ( 3 Utility 220876)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following describes a situation in which there would be decreasing marginal utility?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Buying normal goods as substitutes for inferior <br> goods. |  |
| B. | Buying luxury items that you cannot afford. |  |
| C. | Buying food in bulk to save money in the long <br> run. |  |
| *. | Buying a new car when you already have two <br> cars. | Correct! The utility of a car decreases <br> with the addition of each new one. |

Global I ncorrect Feedback
The correct answer is: Buying a new car when you already have two cars. The utility of a car decreases with the addition of each new one.

| :--- | :--- |
|  | The correct answer is: inferior. Inferior goods <br> have substitutes that people turn to as they get <br> more money. |

Question 9a of $\mathbf{1 0}$ ( 3 Types of goods 220882 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following is the best example of substitution?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | People walk out before the end of a movie <br> because the acting and the plot are terrible. |  |
| B. | Movie producers begin making more comedies <br> because they cost less to make than action <br> films. |  |
| C. | More people begin going to matinee movies <br> instead of night movies to save money on the <br> tickets. |  |
| *D. | People at the movie theater switch from <br> popcorn to candy because popcorn has gotten <br> too expensive. | Correct! Substitution occurs when people <br> switch from one good to another, usually <br> because the price has changed. |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: People at the movie |
| theater switch from popcorn to candy because |
| popcorn has gotten too expensive. Substitution |
| occurs when people switch from one good to |
| another, usually because the price has changed. |

## Question 9b of $\mathbf{1 0}$ ( 3 Types of goods 220883 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following is the best example of a fungible good?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | Potatoes | Correct! Goods are fungible whenever one <br> unit is as good as any other. |
| B. | Shoes |  |
| C. | Books |  |
| D. | Movies |  |

Global I ncorrect Feedback
The correct answer is: potatoes. Goods are fungible whenever one unit is as good as any other.

## Question 9c of $\mathbf{1 0}$ ( 3 Types of goods 220884 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is the best example of elastic demand?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | People buy gas for their cars no matter what it <br> costs. |  |
| *B. | People take fewer vacations as air fare gets <br> higher. | Correct! Demand is elastic when demand <br> falls with price. |
| C. | Producers purchase natural resources to make <br> goods. |  |
| D. | Producers ignore budget constraints to make <br> higher profit. |  |

Global I ncorrect Feedback
The correct answer is: People take fewer vacations as air fare gets higher. Demand is elastic when demand falls with price.

Question 10a of 10 ( 2 Types of goods 220886)

```
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
    Which of the following is a trait shared by all individual goods?
```

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Excludability | Correct! Individual goods are those that <br> an individual can enjoy to the exclusion of <br> everyone else. |
| B. | Elasticity |  |
| C. | Fungibility |  |
| D. | Inferiority |  |

Global I ncorrect Feedback
The correct answer is: excludability. Individual goods are those that an individual can enjoy to the exclusion of everyone else.

Global I ncorrect Feedback
The correct answer is: A free-rider problem. Public goods are non-excludable, so there is always the possibility of free riders.

## Question 10c of 10 ( 2 Types of goods 220888)

Maximum Attempts: 1
Question Type:
Maximum Score:
Question:
2

Multiple Choice

Which of the following best describes the difference between individual and public goods?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The usability of individual goods is never <br> reduced while the usability of public goods <br> declines because of free riders. |  |
| *B. | People cannot be excluded from using public <br> goods while they can be excluded from using <br> individual goods. | Correct! Public goods are non-excludable <br> because the public can enjoy them <br> without paying. |
| C. | Individual goods are always normal while <br> public goods may be normal or inferior. |  |
| D. | Demand for public goods is inelastic while <br> demand for individual goods is elastic. |  |

Global I ncorrect Feedback
The correct answer is: People cannot be excluded from using public goods while they can be excluded from using individual goods. Public goods are non-excludable because the public can enjoy them without paying.

## Quiz: Get a Job

Question 1a of 10 (1 Labor market 220931 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: From the point of view of producers, workers are both a resource and which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | An obstacle |  |
| *B. | A commodity | Correct! Labor is a useful service that can <br> be sold to producers. |
| C. | Output |  |
| D. | A product |  |

## Global I ncorrect Feedback

The correct answer is: A commodity. Labor is a useful service that can be sold to producers.

Question 1 b of 10 (1 Labor market 220932 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
Workers are able to sell their labor to producers because labor is which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A cost |  |
| $* \mathbf{B .}$ | A commodity | Correct! Labor is a useful service that <br> producers want to purchase. |
| C. | Good |  |
| D. | A product |  |

Global I ncorrect Feedback
The correct answer is: a commodity. Labor is a useful service that producers want to purchase.

## Question 2a of $\mathbf{1 0}$ ( 2 Labor market 220934)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains why the law of supply and demand has an effect on the labor market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | There is always a surplus of labor. |  |
| B. | Labor is a factor of production. |  |
| C. | Labor involves costs and benefits. |  |
| *D. | Labor is a commodity. | Correct! Like all commodities, labor has a <br> supply and a demand that affect its price. |

Global I ncorrect Feedback
The correct answer is: Labor is a commodity.
Like all commodities, labor has a supply and a demand that affect its price.

Question 2b of 10 ( 2 Labor market 220935)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Because labor is a commodity, wages are affected by which of the
following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Supply and demand | Correct! Like all commodities, labor has a <br> supply and a demand that affect its price. |
| B. | The circular flow model |  |
| C. | The GDP |  |
| D. | Government planning |  |

Global I ncorrect Feedback
The correct answer is: Supply and demand. Like all commodities, labor has a supply and a demand that affect its price

## Question 2c of 10 ( 2 Labor market 220936) <br> Maximum Attempts: 1 <br> Question Type: Multiple Choice <br> Maximum Score: 2 <br> Question: Because labor can be bought and sold in a market like any other commodity, the price of labor is partly determined by which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A production possibilities frontier. |  |
| B. | Cost-benefit analysis. |  |
| C. | The circular flow model. |  |
| *D. | The Law of Supply and Demand. | Correct! Like all commodities, labor has a <br> supply and a demand that affect its price. |

Global I ncorrect Feedback
The correct answer is: The Law of Supply and Demand. Like all commodities, labor has a supply and a demand that affect its price.

## Question 3a of 10 ( 1 Labor market 220937)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following states one reason why the labor market isn't a completely free market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $\boldsymbol{A}$. | Workers can't always change jobs when they | Correct! Skills and location limit workers |

|  | want to. | from changing jobs at will. |
| :--- | :--- | :--- |
| B. | Workers are also consumers. |  |
| C. | Not all producers need workers. |  |
| D. | Labor is a commodity that costs money to <br> purchase. |  |

## Global I ncorrect Feedback

The correct answer is: Workers can't always change jobs when they want to. Skills and location limit workers from changing jobs at will.

Question 3b of $\mathbf{1 0}$ ( 1 Labor market 220938)

## Maximum Attempts: <br> 1

Question Type:
Maximum Score:
Question: Multiple Choice
2
Which of the following is a restriction on both workers and producers that keeps the labor market from being a completely free market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Unemployment insurance. |  |
| B. | The reserve wage. |  |
| $*$ C. | The minimum wage. | Correct! The minimum wage prevents <br> workers and producers from freely <br> agreeing to very low wage levels. |
| D. | Workers' reluctance to move. |  |

Global I ncorrect Feedback
The correct answer is: The minimum wage. The minimum wage prevents workers and producers from freely agreeing to very low wage levels.

Question 3c of 10 ( 1 Labor market 220939 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains one of the restrictions on producers that keeps the labor market from being a completely free market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The government hires a lot of productive <br> workers. |  |
| $* \mathbf{B}$. | Workers aren't always available where they're | Correct! The labor pool isn't distributed so |

|  | needed. | that there's a supply of workers for every <br> demand. |
| :--- | :--- | :--- |
| C. | The reserve wage is often higher than the <br> minimum wage. |  |
| D. | Workers can't always get the education needed <br> to get better jobs. |  |

Global I ncorrect Feedback
The correct answer is: Workers aren't always available where they're needed. The labor pool isn't distributed so that there's a supply of workers for every demand.

Which of the following best explains the effect of immigration on the labor market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Immigrants usually only make minimum wage. |  |
| B. | Immigrants aren't allowed to work. |  |
| *C. | Immigration increases the supply of labor. | Correct! When people move into a <br> country, the size of the labor pool <br> increases. |
| D. | Immigration leads to a decrease in <br> consumption. |  |

Global I ncorrect Feedback
The correct answer is: Immigration increases the supply of labor. When people move into a country, the size of the labor pool increases.

Question 4b of 10 ( 3 Labor market 220941 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following explains why immigration can lead to a decrease in wages?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Immigration is controlled by the government. |  |

| B. | Immigration often results from outsourcing. |  |
| :--- | :--- | :--- |
| *. | Immigration increases the supply of labor. | Correct! When people move into a <br> country, the supply of labor increases and <br> this leads to a lower price for labor. |
| D. | Immigration leads to an increase in <br> consumption. |  |

Global I ncorrect Feedback
The correct answer is: Immigration increases the supply of labor. When people move into a country, the supply of labor increases and this leads to a lower price for labor.

## Question 4c of 10 ( 3 Labor market 220942 )

## Maximum Attempts: <br> 1

Question Type: Multiple Choice
Maximum Score: 2
Question: When immigration adds to the size of the domestic labor pool, which of the following is likely to occur?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Wages decrease. | Correct! When people move into a <br> country, the supply of labor increases and <br> this leads to a lower price for labor. |
| B. | Productivity increases. |  |
| C. | Consumption decreases. |  |
| D. | Minimum wage increases. |  |

Global I ncorrect Feedback
The correct answer is: Wages decrease. When people move into a country, the supply of labor increases and this leads to a lower price for labor.

## Question 5a of 10 ( 2 Labor unions 220943 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best explains the motivation to join a labor union?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | To prevent the minimum wage from going up. |  |

| B. | To promote economic growth. |  |
| :--- | :--- | :--- |
| C. | To prevent immigrants from getting jobs. |  |
| *D. | To gain greater bargaining power. | Correct! The collective bargaining power <br> of unions puts workers on a more equal <br> level with employers. |

Global I ncorrect Feedback
The correct answer is: To gain greater bargaining power. The collective bargaining power of unions puts workers on a more equal level with employers.

## Question 5b of $\mathbf{1 0}$ ( 2 Labor unions 220944 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:

Which of the following best explains what happens when workers join a labor union?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | The workers get greater bargaining power. | Correct! The collective bargaining power <br> of unions puts workers on a more equal <br> level with employers. |
| B. | Their wages decrease because of union dues. |  |
| C. | The government guarantees a minimum wage. |  |
| D. | Employers can prevent strikes and slowdowns. |  |

Global I ncorrect Feedback
The correct answer is: The workers get greater bargaining power. The collective bargaining power of unions puts workers on a more equal level with employers.

## Question 5c of $\mathbf{1 0}$ ( 2 Labor unions 220945 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains why collective bargaining increases the bargaining power of workers?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Collective bargaining prevents employers from <br> using strikebreakers. |  |

| B. | The reserve wage for union workers is much <br> higher. |  |
| :--- | :--- | :--- |
| C. | Labor is no longer a commodity when it is <br> negotiated collectively. |  |
| *D. | It's difficult for employers to replace their <br> entire work force. | Correct! Employers need their workers, <br> and collective bargaining prevents them <br> from letting go of one or two workers who <br> demand better wages and working <br> conditions. |

Global I ncorrect Feedback
The correct answer is: It's difficult for employers to replace their entire work force. Employers need their workers, and collective bargaining prevents them from letting go of one or two workers who demand better wages and working conditions.

Question:

Multiple Choice
2
Which of the following best describes why buying a home is an investment?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | When someone owns a home, he or she can <br> generally sell it in the future for more than the <br> original price. | Correct! Housing prices, like most prices, <br> tend to increase over time. |
| B. | The interest rates on home loans are generally <br> much lower than the interest rates on other <br> loans. |  |
| C. | Mortgage interest rates are so low that it's <br> better to invest money in a house than in the <br> stock market. |  |
| D. | Housing prices can go up and down quickly in <br> comparison to the overall inflation rate. |  |

Global I ncorrect Feedback
The correct answer is: When someone owns a home, he or she can generally sell it in the future for more than the original price. Housing prices, like most prices, tend to increase over time.

Question 3c of 10 ( 3 Owning versus renting 221284)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best describes why renting a place to live is generally cheaper than buying a home?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Mortgage interest rates are generally higher <br> than the interest rates on other loans. |  |
| B. | Housing prices can go up and down quickly in <br> comparison to the level of rents. |  |
| C. | Apartments and town houses are usually much <br> smaller than single-family houses. |  |
| *D. | Renters don't own anything as a result of their <br> payments, while homeowners do. | Correct! Because buying a home is a good <br> investment, there's a lot of demand for it, <br> which raises the prices. |

Global I ncorrect Feedback
The correct answer is: Renters don't own anything as a result of their payments, while homeowners do. Because buying a home is a good investment, there's a lot of demand for it, which raises the prices.

Question 4a of $\mathbf{1 0}$ ( 2 owning versus renting 221285 )

| A. | Monthly mortgage payments are generally less <br> than rent. |  |
| B. | It's easier to sell a house than it is to break a <br> rental agreement. |  |
| $*$ C. | Homeowners can make a profit on the sale of <br> their home. | Correct! Buying a home is an investment <br> while renting simply results in a transfer <br> of money to the landlord. |
| D. | Houses have more living space than <br> apartments. |  |

Global I ncorrect Feedback
The correct answer is: Homeowners can make a profit on the sale of their home. Buying a home is an investment while renting simply results in a transfer of money to the landlord.

## Question 5a of 10 ( 2 Supply and demand of housing 221288)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following concepts best describes the supply of housing?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Demographic |  |
| B. | Inelastic | Correct! The supply of housing can't <br> change very quickly because building <br> houses is expensive and takes a lot of <br> time. |
| C. | Irrational |  |
| D. | Marginal |  |

## Global I ncorrect Feedback

The correct answer is: inelastic. The supply of housing can't change very quickly because building houses is expensive and takes a lot of time.

## Question 5bof 10 ( 2 Supply and demand of housing 221289)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following best explains why the supply of housing doesn't automatically increase to meet rising demand?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The ever-increasing size of the population is <br> always increasing demand faster than supply <br> can grow. |  |
| B. | There's never enough capital investment to <br> meet the high cost of building new houses. |  |
| *. | The supply of housing can't change very <br> quickly because building houses is expensive <br> and takes a lot of time. | Correct! The supply of housing is inelastic. |
| D. | There are so many different kinds of housing <br> that it's difficult to predict what kind of housing <br> consumers are demanding. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: The supply of housing |
| can't change very quickly because building |
| houses is expensive and takes a lot of time. The |
| supply of housing is inelastic. |

Question 5c of $\mathbf{1 0}$ ( 2 Supply and demand of housing 221290)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best explains why the demand for housing is more flexible than the supply?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | People can move more easily than producers <br> can build new homes. | Correct! Demand for housing is elastic <br> while supply is inelastic. |
| B. | The increasing population always drives <br> demand upwards. |  |

| C. | New housing developments are being <br> constructed all the time. |  |
| :--- | :--- | :--- |
| D. | Low interest rates for mortgages make buying <br> a home very affordable. |  |

Global I ncorrect Feedback
The correct answer is: People can move more easily than producers can build new homes. Demand for housing is elastic while supply is inelastic.

## Question 6a of $\mathbf{1 0}$ ( 2 supply and demand of housing 221291)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
2
Question:
Which of the following describes one of the ways that the demographics of an area affect the price of housing in that area?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | An area with a lower population density won't <br> have enough construction workers to build <br> new houses quickly. |  |
| B. | Older people are more likely to stay in their <br> houses, creating a seller's market that keeps <br> prices low. |  |
| C. | When more people have children, their <br> incomes tend to be higher and the housing <br> prices are also higher. |  |
| *D. | An area with younger people will have a higher <br> demand for rentals and a lower demand for <br> buying. | Correct! Young people tend to favor the <br> flexibility of rentals over the benefits of <br> investing in a home. |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: An area with younger |
| people will have a higher demand for rentals |
| and a lower demand for buying. Young people |
| tend to favor the flexibility of rentals over the |
| benefits of investing in a home. |

Question 6b of $\mathbf{1 0}$ ( 2 Supply and demand of housing 221292 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:

Which of the following best explains why people with higher incomes favor buying a home over renting?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Buying is an investment, but it's also more <br> expensive. | Correct! People with higher incomes can <br> afford the greater housing expenses, <br> particularly because of the long-term <br> benefits of the investment. |
| B. | Single-family homes cost more and have more <br> bedrooms. |  |
| C. | Wealthier people prefer the flexibility of home <br> ownership. |  |
| D. | Landlords are often able to make a very high <br> income on their investment. |  |

## Global I ncorrect Feedback

The correct answer is: Buying is an investment, but it's also more expensive. People with higher incomes can afford the greater housing expenses, particularly because of the long-term benefits of the investment.

Question 6c of 10 ( 2 Supply and demand of housing 221293)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following describes one of the ways that the demographics of an area affect the price of housing in that area?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | An area with a lot of rental units will have a <br> higher population density and lower housing <br> prices. |  |
| *B. | An area with lots of families will have a higher <br> demand for houses than for apartments. | Correct! People with children tend to favor <br> the long-term benefits of buying over the <br> flexibility of renting. |
| C. | An area without good restaurants will result in <br> a lower population density and lower housing <br> prices. |  |
| D. | An area with wealthier people will increase the <br> amount of investment capital and keep prices <br> low. |  |

## Global I ncorrect Feedback

The correct answer is: An area with lots of families will have a higher demand for houses than for apartments. People with children tend to favor the long-term benefits of buying over the flexibility of renting.

Question 7a of 10 ( 3 Supply and demand of housing 221294)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following tends to result in an increase in the selling price of houses in an area?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | A decrease in mortgage interest rates. | Correct! When interest rates go down, <br> more people can afford to buy, increasing <br> competition among homebuyers and <br> driving up prices. |
| B. | An increase in property taxes. |  |
| C. | An increase in the construction of new homes. |  |
| D. | A decrease in the population of the city or <br> town. |  |

Global I ncorrect Feedback
The correct answer is: A decrease in mortgage interest rates. When interest rates go down, more people can afford to buy, increasing competition among homebuyers and driving up prices.

Question 7 b of 10 ( 3 Supply and demand of housing 221295 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following could result in some people being priced out of the option to buy a home?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A decrease in the population of the city or <br> town. |  |
| B. | An increase in the supply of housing. |  |
| *C. | An increase in mortgage interest rates. | Correct! Higher mortgage rates increase <br> the monthly housing payment, often to <br> such an extent that some people can't fit <br> the higher payment into their budget. |
| D. | A decrease in the average income in the city or <br> town. |  |

Global I ncorrect Feedback

The correct answer is: An increase in mortgage interest rates. Higher mortgage rates increase the monthly housing payment, often to such an extent that some people can't fit the higher payment into their budget.

Question 7 c of 10 ( 3 Supply and demand of housing 221296)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following tends to result in a decrease in the selling price of houses in an area?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | An increase in the income of new residents in <br> the city or town. |  |
| B. | An increase in the labor costs of construction. |  |
| C. | An increase in the population of the city or <br> town. |  |
|  |  | Correct! When interest rates go up, the <br> demand for buying houses is reduced, <br> forcing sellers to compete with each other <br> and bring down prices. |
| *. | An increase in mortgage interest rates. |  |

Global I ncorrect Feedback
The correct answer is: An increase in mortgage interest rates. When interest rates go up, the demand for buying houses is reduced, forcing sellers to compete with each other and bring down prices.

Question 8a of 10 ( 2 Supply and demand of housing 221297)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following is most likely to create a seller's market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | More investors decide to put their money into <br> construction. |  |
| B. | A factory laying off a lot of workers in the <br> area. |  |
| C. | A lot of people deciding to move out of the <br> vicinity. |  |

A rapid increase in the population of a city or town.

Correct! As population increases, competition among buyers increases, putting the sellers in a stronger position.

## Global I ncorrect Feedback

The correct answer is: A rapid increase in the population of a city or town. As population increases, competition among buyers increases, putting the sellers in a stronger position.

Question 8b of 10 ( 2 Supply and demand of housing 221298)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following situations would create a buyer's market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A rapid increase in the population of a city or <br> town. |  |
| B. | A factory laying off a lot of workers in the <br> area. | Correct! With a lot of layoffs, many <br> people are likely to be selling their <br> homes, which increases the supply of <br> housing relative to demand. |
| C. | A lot of construction workers moving away <br> from the area. |  |
| D. | The price of building materials going up faster <br> than the inflation rate. |  |

Global I ncorrect Feedback
The correct answer is: A factory laying off a lot of workers in the area. With a lot of layoffs, many people are likely to be selling their homes, which increases the supply of housing relative to demand.

## Question 8c of 10 ( 2 Supply and demand of housing 221299)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:

Which of the following situations is most likely to change a buyer's market into a seller's market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| * A. | The price of building materials suddenly going <br> up. | Correct! With a higher cost of building <br> materials, there will be less new-house |

|  |  | construction, making the existing supply <br> of housing more scarce and therefore <br> more valuable. |
| :--- | :--- | :--- |
| B. | A factory laying off a lot of workers in the <br> area. |  |
| C. | A natural disaster that drives away a lot of the <br> population. |  |
| D. | The government buys up a lot of houses to <br> build a new freeway. |  |

Global I ncorrect Feedback
The correct answer is: The price of building materials suddenly going up. With a higher cost of building materials, there will be less newhouse construction, making the existing supply of housing more scarce and therefore more valuable.

Question 10a of 10 ( 2 Population density 221400 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best describes the advantage of living in a suburban area?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Suburbs have the lowest population density of <br> any living area. |  |
| *B. | Suburbs give people access to city jobs along <br> with more living space. | Correct! Because of lower population <br> density than the nearby city, suburbs give <br> people more space for yards and privacy. |
| C. | Suburbs have the widest availability of low- <br> cost housing of any living area. |  |
| D. | Suburbs give people easy access to cultural <br> attractions and high-paying jobs. |  |

## Global I ncorrect Feedback

The correct answer is: Suburbs give people access to city jobs along with more living space. Because of lower population density than the nearby city, suburbs give people more space for yards and privacy.

## Question 10b of 10 ( 2 Population density 221401 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following describes one advantage of living in an urban area?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | There's easy access to cultural attractions. | Correct! People like living in cities <br> because of the restaurants, museums, <br> and other cultural attractions that are <br> available. |
| B. | Zoning laws help keep crime low. |  |
| C. | Apartment buildings provide a lot of privacy. |  |
| D. | High-rise developments reduce population <br> density. |  |

Global I ncorrect Feedback
The correct answer is: There's easy access to
cultural attractions. People like living in cities
because of the restaurants, museums, and other cultural attractions that are available.

Question 10c of 10 ( 2 Population density 221402 )
Maximum Attempts: 1

Question 3a of $\mathbf{1 0}$ ( 2 Trade 221477)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following is one result of international trade?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Trade reduces competition. |  |
| B. | Trade drives prices higher. |  |
| *C. | Trade creates new markets. | Correct! By getting goods from one area <br> to another, international trade often <br> results in new markets for goods that <br> were once available only in certain places. |
| D. | Trade increases protectionism. |  |

## Global I ncorrect Feedback

The correct answer is: Trade creates new markets. By getting goods from one area to another, international trade often results in new markets for goods that were once available only in certain places.

## Question 3b of $\mathbf{1 0}$ ( 2 Trade 221478 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains how trade enhances efficiency?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Trade gets productive resources from one <br> place to another where they're more needed. | Correct! By enabling productive resources <br> to go where they're needed, these <br> resources won't go to waste. |
| B. | Trade drives prices higher. |  |

| C. | Trade reduces competition. |  |
| :--- | :--- | :--- |
| D. | Trade increases protectionism. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: Trade gets productive |
| resources from one place to another where |
| they're more needed. By enabling productive |
| resources to go where they're needed, these |
| resources won't go to waste. |

## Question 3c of 10 ( 2 Trade 221479 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains how trade enables greater specialization among producers?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Trade enables producers to open up new <br> markets for their goods and services. |  |
| B. | Trade requires distribution networks and adds <br> one more step to the production process. |  |
| C. | Trade diversifies the market by bringing <br> specialized goods from around the world. |  |
| *D. | Trade allows people to focus on one kind of <br> production and trade for their other needs. | Correct! Without trade, people would <br> need to fulfill all of their needs <br> themselves instead of specializing in a <br> particular form of production. |

Global I ncorrect Feedback
The correct answer is: Trade allows people to focus on one kind of production and trade for their other needs. Without trade, people would need to fulfill all of their needs themselves instead of specializing in a particular form of production.

## Question 4a of 10 ( 1 Trade 221480 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is an example of a protectionist trade policy?

Feedback

| *. | A tariff | Correct! Tariffs raise the prices of <br> imports, thus protecting domestic <br> industry against international competition. |
| :--- | :--- | :--- |
| B. | Unions |  |
| C. | A sales tax |  |
| D. | The minimum wage |  |

## Global I ncorrect Feedback

The correct answer is: A tariff. Tariffs raise the prices of imports, thus protecting domestic
industry against international competition.

Question 4b of $\mathbf{1 0}$ ( 1 Trade 221481 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is an example of a government policy that protects domestic producers against international competition?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Trade triangles |  |
| B. | Income tax |  |
| *C. | Subsidies | Correct! Subsidies provide money to <br> domestic companies to allow them to <br> keep prices low and better compete with <br> foreign producers. |
| D. | Unemployment insurance |  |

Global I ncorrect Feedback
The correct answer is: Subsidies. Subsidies provide money to domestic companies to allow them to keep prices low and better compete with foreign producers.

## Question 4c of 10 ( 1 Trade 221482 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains the purpose of protectionist trade policies such as tariffs and subsidies?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | They make sure that governments have |  |

|  | enough money to pay for fiscal policies. |  |
| :--- | :--- | :--- |
| B. | They give foreign competitors access to new <br> markets around the world. |  |
| C. | They allow producers to sell their products <br> more cheaply than foreign competitors. | Correct! By giving financial assistance to <br> businesses in its own country, the <br> government can prevent foreign <br> competitors from underselling domestic <br> producers. |
|  | They enable producers to purchase productive <br> resources from everywhere in the world. |  |

Global I ncorrect Feedback
The correct answer is: They allow domestic producers to sell their products more cheaply than foreign competitors. By giving financial assistance to businesses in its own country, the government can prevent foreign competitors from underselling domestic producers.

Question 5a of 10 ( 1 Business cycle 221483)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following comes after a period of recession in the business cycle?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A boom |  |
| $*$ B. | Recovery | Correct! Recovery comes when more <br> people get hired and consumers begin <br> spending more. |
| C. | A drought |  |
| D. | Stagflation |  |

## Global I ncorrect Feedback

The correct answer is: Recovery. Recovery comes when more people get hired and consumers begin spending more.

| :--- | :--- | :--- |
| A. | A depression |  |
| *. | A boom | Correct! There's more spending and <br> employment during a recovery, which <br> leads to a period of increasing prosperity. |
| C. | A recession |  |
| D. | Hyperinflation |  |

## Global I ncorrect Feedback

The correct answer is: A boom. There's more spending and employment during a recovery, which leads to a period of increasing prosperity.

## Question 5c of 10 ( 1 Business cycle 221485 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following happens when unemployment increases during a recession?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | There's a depression. | Correct! Unemployment is already high <br> during a recession, and things get worse <br> when unemployment goes even higher. |
| B. | There's a recovery. |  |
| C. | There's a boom period. |  |
| D. | There's cost-push inflation. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: There's a depression. |
| Unemployment is already high during a |
| recession, and things get worse when |
| unemployment goes even higher. |

Question 6a of 10 ( 2 Business cycle 221486 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is one of the main causes of inflation?

|  | Choice | Feedback |
| :--- | :--- | :--- |

| A. | Wages drop so workers have to spend a higher <br> percentage of income on necessities. |  |
| :--- | :--- | :--- |
| B. | Rising unemployment cuts into national <br> income. |  |
| C. | Demand drops and forces producers to charge <br> more to meet their costs. |  |
| *. | Consumers demand goods faster than they can <br> be supplied. | Correct! When rising consumer demand <br> pushes up prices, there's demand-pull <br> inflation. |

Global I ncorrect Feedback
The correct answer is: Consumers demand goods faster than they can be supplied. When rising consumer demand pushes up prices, there's demand-pull inflation.

## Question 6b of 10 ( 2 Business cycle 221487)

## Maximum Attempts: 1

## Question Type: Multiple Choice

Maximum Score: 2
Question:
Which of the following best explains cost-push inflation?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Increasing wages for workers drive up the cost <br> of production, forcing producers to charge <br> more to meet their costs. | Correct! When the cost of production <br> rises, prices are driven upward. |
| B. | Rising prices for goods and services reduce <br> spending power and cut into consumer <br> demand. |  |
| C. | Wages drop so that workers have to spend a <br> higher percentage of income on the cost of <br> necessities. |  |
| D. | Consumers demand goods faster than they can <br> be supplied, increasing competition among <br> buyers. |  |

Global I ncorrect Feedback
The correct answer is: Increasing wages for workers drive up the cost of production, forcing producers to charge more to meet their costs. When the cost of production rises, prices are driven upward.

Question Type:
Maximum Score:
Question:

Multiple Choice
2
Which of the following is one of the main factors driving prices for goods and services upward?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Unemployment increases competition among <br> workers so that wages are pushed upwards. |  |
| B. | People demand more services from the <br> government so that there's a budget deficit. |  |
| *. | Production costs increase so that producers <br> need to charge more to make a profit. | Correct! When the cost of production <br> rises, prices are driven upward. |
| D. | Wages drop so that workers have to spend a <br> higher percentage of income on the cost of <br> necessities. |  |

Global I ncorrect Feedback
The correct answer is: Production costs increase so that producers need to charge more to make a profit. When the cost of production rises, prices are driven upward.

## Question 7a of 10 ( 1 Business cycle 221489 )

## Maximum Attempts: 1

Question Type: Multiple Choice
Maximum Score: 2
Question:

Which of the following is an exogenous factor that affects the business cycle?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Natural disasters. | Correct! Natural disasters have important <br> economic effects, but the economic <br> system cannot control the occurrence of <br> natural disasters. |
| B. | Fiscal and monetary policy. |  |
| C. | The level of unemployment. |  |
| D. | The Law of Supply and Demand. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: Natural disasters. Natural <br> disasters have important economic effects, but <br> the economic system cannot control the <br> occurrence of natural disasters. |

Question 7 bof 10 ( 1 Business cycle 221490 )
Maximum Attempts:
Question Type:
Multiple Choice
Maximum Score:
2
Question: Which of the following is an example of a monetary policy?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The government lowers taxes and increases <br> spending. |  |
| *B. | The government restricts the amount of <br> money that banks can lend. | Correct! Monetary policy concerns <br> government action to control the money <br> supply, and restricting the amount of <br> money that can be lent results in a <br> restricted money supply. |
| C. | The government pays for repairing damage <br> from a natural disaster. |  |
| D. | The government requires credit card <br> Companies to protect customers' privacy. |  |

## Global I ncorrect Feedback

The correct answer is: The government restricts the amount of money that banks can lend. Monetary policy concerns government action to control the money supply, and restricting the amount of money that can be lent results in a restricted money supply.

Question 7c of 10 ( 1 Business cycle 221491 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is an example of a fiscal policy?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A company lays off workers. |  |
| B. | A union goes on strike. |  |
| C. | Banks raise interest rates. |  |
| *D. | The government cuts taxes. | Correct! Fiscal policy concerns <br> government taxation and spending. |

Global I ncorrect Feedback
The correct answer is: The government cuts taxes. Fiscal policy concerns government taxation and spending.

Question 8a of 10 ( 3 Business cycle 221492 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question: Which of the following best describes the economic effect that results from the government running a budget deficit?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Consumers save less and spend more, bringing <br> prices down. |  |
| B. | Demand decreases, driving investors into other <br> areas. |  |
| *C. | Demand increases, pushing producers to <br> increase supply. | Correct! When the government spends <br> more than it takes in, the government not <br> only leaves more money in consumers' <br> pockets for them to spend, it gets in the <br> spending game too, both of which <br> increase demand. |
| D. | Consumers save more and spend less, <br> enabling long-term financial planning. |  |

## Global I ncorrect Feedback

The correct answer is: Demand increases, pushing producers to increase supply. When the government spends more than it takes in, the government not only leaves more money in consumers' pockets for them to spend, it gets in the spending game too, both of which increase demand.

Question 8b of 10 ( 3 Business cycle 221493 )

## Maximum Attempts: 1

Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best describes the economic effect that results from the government having a budget surplus?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Government spending increases, increasing <br> competition for goods and services and driving <br> prices up. |  |
| *B. | Overall demand decreases, reducing the <br> incentive for producers to increase production. | Correct! When the government spends <br> less than it takes in, there is less overall <br> demand. |

$\square$
C. Consumers save more and spend less, enabling long-term financial planning.
D. Banks have more deposits, enabling them to make more loans to investors.

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: Overall demand |
| decreases, reducing the incentive for producers |
| to increase production. When the government |
| spends less than it takes in, there is less overall |
| demand. |

## Question 8c of $\mathbf{1 0}$ ( 3 Business cycle 221494 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following best describes the economic effect that results when the government increases interest rates and restricts the lending of money?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Borrowing money becomes more expensive <br> and there is less investment in production. | Correct! When loans become more <br> expensive and harder to get, there's less <br> capital to invest in raising production <br> levels. |
| B. | The economy grows as investments result in <br> larger profits. |  |
| C. | Government spending drives up prices because <br> of greater competition for goods and services. |  |
| D. | Consumers save more money and spend less <br> buying goods and services. |  |

## Global I ncorrect Feedback

The correct answer is: Borrowing money becomes more expensive and there is less investment in production. When loans become more expensive and harder to get, there's less capital to invest in raising production levels.

Question 9a of 10 ( 2 Advantages of large companies 221495 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best explains why a large company can undersell small retailers?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Large companies can offer workers lower <br> wages because they provide more jobs. |  |
| B. | Large companies have fewer expenses <br> associated with overhead. |  |
| C. | Large companies can pay their employees less <br> because they do unskilled jobs. |  |
|  |  | Large companies can negotiate better prices <br> with wholesalers. |
| goods, giving them the ability to pay <br> lower prices and still give wholesalers a <br> healthy profit. |  |  |

Global I ncorrect Feedback
The correct answer is: Large companies can negotiate better prices with wholesalers. Large companies buy more goods, giving them the ability to pay lower prices and still give wholesalers a healthy profit.

Question 9b of 10 ( 2 Advantages of large companies 221496 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
Which of the following best explains one of the benefits provided by economies of scale?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | A larger customer base enables retailers to pay <br> lower prices for wholesale goods. | Correct! A larger customer base lets <br> companies buy in bulk at the best <br> possible prices. |
| B. | Large online businesses can use their Web site <br> to advertise effectively. |  |
| C. | A wide assortment of goods gives consumers <br> better choices and lower prices. |  |
| D. | Large companies can offer workers lower <br> wages because they provide more jobs. |  |

Global I ncorrect Feedback
The correct answer is: A larger customer base enables retailers to pay lower prices for wholesale goods. A larger customer base lets companies buy in bulk at the best possible prices.

Question 9c of $\mathbf{1 0}$ ( 2 Advantages of large companies 221497)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
2
Question:
Which of the following best explains why large companies pay less for goods from wholesalers?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Large companies are able to increase the <br> efficiency of wholesale production. |  |
| B. | Large companies are able to pay for the goods <br> they purchase in cash. |  |
| C. | Large companies have better-paid employees <br> who are better negotiators. |  |
| *D. | Large companies can buy all or most of a <br> wholesaler's stock. | Correct! The smaller number of <br> transactions and negotiations that are <br> required for doing business with a large <br> lompany reduces the costs to <br> wholesalers, enabling them to offer a <br> lower price. |

Global I ncorrect Feedback
The correct answer is: Large companies can buy all or most of a wholesaler's stock. The smaller number of transactions and negotiations that are required for doing business with a large company reduces the costs to wholesalers, enabling them to offer a lower price.

| Maximum Attempts: | 1 |
| :--- | :--- |
| Question Type: | Multiple Choice |
| Maximum Score: | 2 |
| Question: | Which of the following accurately describes a surplus? |

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Consumer demand for a certain car is below <br> the number of cars that are produced. | Correct! A surplus occurs when supply <br> exceeds demand. |
| B. | The production costs for a certain car are <br> below the sale price of that car. |  |
| C. | A car company tries to charge too high a price <br> for a car and has to reduce the price. |  |
| D. | A reduction in the cost of steel enables a car <br> company to reduce the sale price of its cars. |  |

Global I ncorrect Feedback
The correct answer is: Consumer demand for a certain car is below the number of cars that are produced. A surplus occurs when supply exceeds demand.

Question 2c of 25 ( 2 Supply and demand 221679)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question

Which of the following accurately describes the effect of a situation of scarcity?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A car company has a slow-down in sales, <br> driving it to offer a cash-back rebate. |  |
| * B. | There's a shortage of oil, pushing car <br> companies into researching alternative fuels. | Correct! Scarcity is a condition in which <br> resources are limited. |
| C. | A car company produces fewer cars than <br> consumers demand, leading to a rise in prices. |  |
| D. | There's a reduction in the cost of steel, <br> enabling a car company to reduce the sale <br> price of its cars. |  |

Global I ncorrect Feedback

The correct answer is: There's a shortage of oil, pushing car companies into researching alternative fuels. Scarcity is a condition in which resources are limited.

Question 3a of 25 ( 3 Supply and demand 221680)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
In which of the following situations would the price of a good be most likely to increase?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | An increase in production costs results from a <br> rise in wages. | Correct! When production costs increase, <br> the price generally rises as well. |
| B. | A rise in demand happens too quickly for <br> producers to increase production to keep up. |  |
| C. | A breakthrough in productive technology <br> enables a company to increase its output. |  |
| D. | There's a sudden increase in the number of <br> companies competing to sell the good. |  |

## Global I ncorrect Feedback

The correct answer is: An increase in production costs results from a rise in wages. When production costs increase, the price generally rises as well.

## Question 3b of 25(3 Supply and demand 221681)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
2
Question:
In which of the following situations would the price of a good be most likely to increase?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The level of production rises to catch up with a <br> sudden rise in consumer demand. |  |
| *B. | A rise in demand happens too quickly for <br> producers to increase production to keep up. | Correct! When demand increases relative <br> to supply, prices rise. |
| C. | The development of a new energy source <br> reduces production costs for a company. |  |
| D. | There's a sudden increase in the number of <br> companies competing to sell the good. |  |

## Global I ncorrect Feedback

The correct answer is: A rise in demand happens too quickly for producers to increase production to keep up. When demand increases relative to supply, prices rise.

Question:
What happens when someone orders a second dessert when he or she is already full from the first dessert?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | There's a decrease in overall demand. |  |
| B. | The production of desserts becomes less <br> efficient. |  |
| C. | There's an increase in the economies of scale. |  |
| *D. | The second dessert has less utility than the <br> first dessert. | Correct! There's decreasing marginal <br> utility when eating more food as you get <br> more full. |

Global I ncorrect Feedback
The correct answer is: The second dessert has less utility than the first dessert. There's decreasing marginal utility when eating more food as you get more full.

## Question 4c of 25 ( 3 Marginal utility 221685 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following occurs when someone buys a third winter coat?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Decreasing marginal utility | Correct! The utility of a new winter coat is <br> decreased if you already have a winter <br> coat. |
| B. | Elasticity |  |
| C. | Substitution |  |

D. Efficient production

Global I ncorrect Feedback
The correct answer is: Decreasing marginal utility. The utility of a new winter coat is decreased if you already have a winter coat.

## Question 5a of 25 ( 3 Elasticity 221690 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following accurately describes a situation in which substitution occurs?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | A restaurant starts using margarine instead of <br> butter because butter becomes more <br> expensive. | Correct! Substitution occurs when <br> consumers switch from one good to <br> another, usually because the price has <br> changed. |
| B. | A restaurant adds decaffeinated coffee to its <br> menu because more customers have asked for <br> this drink. |  |
| C. | Consumers boycott a restaurant because the <br> waiters aren't paid minimum wage. |  |
| D. | People give up eating pasta and bread because <br> they want to lose weight. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: A restaurant starts using |
| margarine instead of butter because butter |
| becomes more expensive. Substitution occurs |
| when consumers switch from one good to |
| another, usually because the price has changed. |

Question 5b of 25 ( 3 Elasticity 221691 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following accurately describes a situation in which consumers have inelastic demand?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | People start using maple syrup because they <br> are making a larger income. |  |

| B. | People give up eating red meat in order to <br> have a healthier heart. |  |
| :--- | :--- | :--- |
| $*$ C. | People cannot quit drinking coffee even though <br> they want to cut down on caffeine intake. | Correct! Demand is inelastic when people <br> cannot give up using a good or service. |
| D. | People don't go to a restaurant because there <br> are no vegetarian-only dishes offered. |  |

Global I ncorrect Feedback
The correct answer is: People cannot quit drinking coffee even though they want to cut down on caffeine intake. Demand is inelastic when people cannot give up using a good or service.

## Question 5c of 25 ( 3 Elasticity 221692 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following accurately describes a situation in which consumers have elastic demand?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A company starts using sugar instead of corn <br> syrup because its revenues are up. |  |
| $*$ B. | People give up eating pasta and bread because <br> they want to lose weight. | Correct! Demand is elastic when people <br> can give up using a good or service. |
| C. | Consumers boycott a restaurant because the <br> waiters aren't paid minimum wage. |  |
| D. | A restaurant starts using margarine instead of <br> butter because butter becomes more <br> expensive. |  |

Global I ncorrect Feedback
The correct answer is: People give up eating pasta and bread because they want to lose weight. Demand is elastic when people can give up using a good or service.

## Question 6a of 25 ( 2 Types of goods 221693 )

Maximum Attempts: 1

| *A. | Non-excludability | Correct! Public goods are such that <br> consumers cannot be excluded from <br> enjoying them even if they don't pay. |
| B. | Inefficiency |  |
| C. | Inelasticity |  |
| D. | Non-inferiority |  |

## Global I ncorrect Feedback

The correct answer is: Non-excludability. Public goods are such that consumers cannot be excluded from enjoying them even if they don't pay.

## Question 6b of 25 ( 2 Types of goods 221694 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is a problem for the production of public goods?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | The possibility of free riders. | Correct! Public goods are non-excludable, <br> so there is always the possibility of free <br> riders. |
| B. | Inefficient production. |  |
| C. | Rivalry among consumers. |  |
| D. | An increasing demand curve. |  |

## Global I ncorrect Feedback

The correct answer is: The possibility of free riders. Public goods are non-excludable, so there is always the possibility of free riders.

## Question 6c of 25 ( 2 Types of goods 221695 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following accurately describes one way that individual goods differ from public goods?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $* \boldsymbol{A}$. | People can be excluded from using individual | Correct! Individual goods are excludable |

|  | goods if they don't pay. | while public goods are non-excludable. |
| :--- | :--- | :--- |
| B. | All individual goods are normal goods. |  |
| C. | Demand for individual goods is always <br> inelastic. |  |
| D. | Consumer rivalry results in decreasing <br> marginal utility for individual goods. |  |

Global I ncorrect Feedback
The correct answer is: People can be excluded from using individual goods if they don't pay. Individual goods are excludable while public goods are non-excludable.

Question 7a of 25 ( 2 Labor market 221696 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is one of the major factors determining the level of wages?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The production possibilities frontier. |  |
| B. | The law of diminishing marginal return. |  |
| *C. | The law of supply and demand. | Correct! Like all commodities, labor has a <br> supply and a demand that affect its price. |
| D. | The level of production costs. |  |

## Global I ncorrect Feedback

The correct answer is: The law of supply and demand. Like all commodities, labor has a supply and a demand that affect its price.

## Question 7b of 25 ( 2 Labor market 221697)

## Maximum Attempts:

Question Type: Multiple Choice
Maximum Score: 2
Question:

All of the following factors affect the level of wages except which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The law of supply and demand. |  |
| B. | Minimum-wage laws. |  |

| C. | The actions of labor unions. |  |
| :--- | :--- | :--- |
| *D. | The production possibilities frontier. | Correct! The production possibilities <br> frontier is used to determine how to have <br> efficient production. |

## Global I ncorrect Feedback

The correct answer is: The production possibilities frontier. The production possibilities frontier is used to determine how to have efficient production.

## Question 7c of 25 ( 2 Labor market 221698)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
2
Question:
All of the following factors affect the level of wages except which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The size of the labor pool. |  |
| B. | The level of immigration. |  |
| $*$ C. | The gross domestic product. | Correct! The gross domestic product <br> measures overall economic activity. |
| D. | The actions of labor unions. |  |

## Global I ncorrect Feedback

The correct answer is: The gross domestic product. The gross domestic product measures overall economic activity.

Question 8a of 25 ( 2 Labor market 221699 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following limits the freedom of workers in the labor market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | The inflexibility of the work force. | Correct! Certain jobs require certain levels <br> of experience, training, and/or education, <br> which means that not anyone can take <br> every available job. |
| B. | The availability of education. |  |

| C. | The level of the minimum wage. |  |
| :--- | :--- | :--- |
| D. | The existence of industrial robots. |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: The inflexibility of the |
| work force. Certain jobs require certain levels of |
| experience, training, and/or education, which |
| means that not anyone can take every available |
| job. |

Question 8b of 25 ( 2 Labor market 221700 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following limits the freedom of both employers and workers in the labor market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The operations of collective bargaining. |  |
| B. | The availability of educated workers. |  |
|  |  | Correct! The minimum wage prevents <br> workers and producers from freely <br> agreeing to very low wage levels |
| *. | The existence of a minimum wage. |  |
| D. | The problem of monopolistic competition. |  |

Global I ncorrect Feedback
The correct answer is: The existence of a minimum wage. The minimum wage prevents workers and producers from freely agreeing to very low wage levels.

## Question 8c of 25 ( 2 Labor market 221701 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains one of the restrictions on producers that keeps the labor market from being a completely free market?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Immigration increases the size of the available <br> labor pool. |  |
| B. | The government has millions of bureaucratic <br> workers. |  |

| $*$ C. | Workers don't always have the education <br> required to perform certain jobs. | Correct! An adequate labor pool isn't <br> always available for the jobs that need to <br> be done. |
| :--- | :--- | :--- |
| D. | Unions represent workers in collective <br> bargaining situations. |  |

Global I ncorrect Feedback
The correct answer is: Workers don't always have the education required to perform certain jobs. An adequate labor pool isn't always available for the jobs that need to be done.

## Question 9a of 25 ( 2 Labor market 221705)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Because immigration can result in an increase in the supply of labor, immigration can result in which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | An increase in the bargaining power of unions. |  |
| B. | Severe restrictions on citizenship. |  |
| C. | The passage of minimum-wage laws. |  |
| *D. | A general decrease in wages. | Correct! When the size of the labor pool <br> increases, wages tend to decrease. |

Global I ncorrect Feedback
The correct answer is: A general decrease in wages. When the size of the labor pool increases, wages tend to decrease.

## Question 9b of 25 ( 2 Labor market 221706 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is most likely to lead to a general decrease in wages?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Immigration | Correct! When people move into a <br> country, the supply of labor increases and <br> this leads to a lower price for labor. |
| B. | Elastic demand |  |

| C. | An economic recovery |  |
| :--- | :--- | :--- |
| D. | Public goods |  |

Global I ncorrect Feedback
The correct answer is: Immigration. When people move into a country, the supply of labor increases and this leads to a lower price for labor.

## Question 9c of 25 ( 2 Labor market 221707)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Immigration can result in a general decrease in wages because immigration does which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Increases the supply of labor. | Correct! Wages often go down when the <br> supply of labor increases. |
| B. | Affects the gross domestic product. |  |
| C. | Leads to government regulation of unions. |  |
| D. | Reduces overall consumption. |  |

Global I ncorrect Feedback
The correct answer is: Increases the supply of labor. Wages often go down when the supply of labor increases.

## Question 10a of 25 ( 2 Labor market 221709 )

## Maximum Attempts: <br> 1

2

Multiple Choice

Which of the following leads to an increase in bargaining power for workers?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | An increase in the supply of labor. |  |
| B. | Minimum-wage laws. |  |
| C. | Protectionist trade policies. |  |
|  |  | Correct! The collective bargaining power <br> of unions puts workers on a more equal <br> level with employers. |
| D. | The existence of unions. |  |

## Global I ncorrect Feedback

The correct answer is: The existence of unions.
The collective bargaining power of unions puts workers on a more equal level with employers.

## Question 10b of 25 ( 2 Labor market 221710)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following best explains how unions help workers get better wages?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | The collective bargaining power of unions puts <br> workers on a more equal level with employers. | Correct! Collective bargaining gives <br> workers more power in contract <br> negotiations. |
| B. | Unions provide workers with the educational <br> opportunities needed to get the best-paying <br> jobs. |  |
| C. | Work slowdowns sponsored by unions help <br> employers cut production costs and increase <br> sales. |  |
| D. | The high level of union dues pushes workers <br> into demanding better wages so they can <br> afford their dues. |  |

## Global I ncorrect Feedback

The correct answer is: The collective bargaining power of unions puts workers on a more equal level with employers. Collective bargaining gives workers more power in contract negotiations.

Question 10c of 25 ( 2 Labor market 221711)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best explains why unions give workers more power in contract negotiations?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Employers aren't legally allowed to reject a <br> Contract from a union. |  |
| $* \mathbf{B .}$ | Employers can't fire an entire union because of <br> the difficulty of replacing every worker. | Correct! Employers need their workers, <br> and collective bargaining prevents them |

|  |  | from letting go of one or two workers who <br> demand better wages and working <br> conditions. |
| :--- | :--- | :--- |
| C. | Unions are able to provide workers with the <br> education they need. |  |
| D. | Unions can provide a supply of strikebreakers. |  |

## Global I ncorrect Feedback

The correct answer is: Employers can't fire an entire union because of the difficulty of replacing every worker. Employers need their workers, and collective bargaining prevents them from letting go of one or two workers who demand better wages and working conditions.

Question 11a of 25 ( 2 Labor market 221712 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is intended to demonstrate to an employer the importance of cooperating with workers?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | A stock offer. |  |
| B. | A boost in production. |  |
| *C. | A work slowdown. | Correct! A slowdown is supposed to show <br> an employer how important the <br> cooperation of workers is to the <br> productive process. |
| D. | A collective agreement. |  |

Global I ncorrect Feedback
The correct answer is: A work slowdown. A slowdown is supposed to show an employer how important the cooperation of workers is to the productive process.

Question 14a of 25 ( 3 Housing 221722)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following housing decisions provides a person with both housing and an investment?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Subletting a condominium. |  |
| B. | Renting an apartment. |  |
| C. | Selling a share in a cooperative. |  |
| *D. | Buying a single-family home. | Correct! Buying a home gives people a <br> residence and also allows them to sell <br> their house, often for more than they <br> originally paid, which makes it an <br> investment. |

Global I ncorrect Feedback
The correct answer is: Buying a single-family home. Buying a home gives people a residence and also allows them to sell their house, often for more than they originally paid, which makes it an investment.

## Question 14b of 25 ( 3 Housing 221723)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following housing decisions gives a person the best chance to make a profit on his or her investment?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| * | Buying a single-family home in a city. | Correct! Housing prices in cities generally <br> increase more quickly than anywhere <br> else. |
| B. | Building condominiums in an exurb. |  |
| C. | Renting an apartment. |  |
| D. | Purchasing land in a rural area. |  |

Global I ncorrect Feedback
The correct answer is: Buying a single-family home in a city. Housing prices in cities generally increase more quickly than anywhere else.

## Question 14c of 25 ( 3 Housing 221724)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains why buying a single-family home in a city is a good investment?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Mortgage payments on houses are generally <br> lower than rent on urban apartments. |  |
| *. | Housing prices in cities generally increase <br> more quickly than anywhere else. | Correct! Because housing prices in the <br> city increase so quickly, it's possible to <br> make a large profit on the sale of a <br> single-family home in an urban area. |
| C. | Low crime rates in the city make it safe to <br> invest in a single-family home. |  |
| D. | Living in the city puts people in closer <br> proximity to high-paying jobs. |  |

Global I ncorrect Feedback
The correct answer is: Housing prices in cities generally increase more quickly than anywhere else. Because housing prices in the city increase so quickly, it's possible to make a large profit on the sale of a single-family home in an urban area.

| B. | Labor |  |
| C. | Food |  |
| D. | Transportation |  |

Global I ncorrect Feedback
The correct answer is: Housing. The supply of housing can't change very quickly because building houses is expensive and takes a lot of time.

## Question 15b of 25 ( 2 Elasticity 221726)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following results from the fact that housing is expensive and time-consuming to build?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Investing in housing is very risky. |  |
| *B. | The supply of housing is inelastic. | Correct! The supply of housing can't <br> change very quickly. |
| C. | The demand for housing grows slowly. |  |
| D. | Population density goes up and down quickly. |  |

Global I ncorrect Feedback
The correct answer is: The supply of housing is inelastic. The supply of housing can't change very quickly.

## Question 15c of 25 ( 2 Elasticity 221727)

## Maximum Attempts: <br> 1

Question Type: Multiple Choice
Maximum Score:
2
Question:
Which of the following best explains why the supply of housing often cannot keep up with increases in demand?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Demographic changes make the demand for <br> housing unpredictable. |  |
| B. | Banks do not like to invest in new-house <br> construction. |  |
| *C. | Housing is expensive and time-consuming to <br> build. | Correct! The supply of housing can't <br> change very quickly while demand can. |
| D. | Zoning laws prevent real-estate developers <br> from being creative. |  |

## Global I ncorrect Feedback

The correct answer is: Housing is expensive and time-consuming to build. The supply of housing can't change very quickly while demand can.

Question 16a of 25 ( 3 Housing 221728)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

The selling price of houses would be most likely to increase if there were a decrease in which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The population of the city or town. |  |
| B. | Government regulation. |  |
| C. | The construction of new homes. |  |
|  |  | Correct! When interest rates go down, <br> more people can afford to buy, increasing <br> competition among home-buyers and <br> driving up prices. |
| *. | Mortgage interest rates. |  |

Global I ncorrect Feedback
The correct answer is: Mortgage interest rates. When interest rates go down, more people can afford to buy, increasing competition among home-buyers and driving up prices.

Question 16b of 25 ( 3 Housing 221729)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Consumers are most likely to be priced out of the option to buy a home when there's an increase in which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Investment in housing construction. |  |
| B. | The supply of housing. |  |
|  |  | Correct! Higher mortgage rates increase <br> the monthly housing payment, often to <br> such an extent that some people can't fit <br> the higher payment into their budget. |
| C. | Mortgage interest rates. |  |
| D. | Government subsidies to home-buyers. |  |

Global I ncorrect Feedback
The correct answer is: Mortgage interest rates. Higher mortgage rates increase the monthly housing payment, often to such an extent that some people can't fit the higher payment into their budget.

Question 16c of 25 ( 3 Housing 221730 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: The selling price of houses would be most likely to decrease if there were first a decrease in which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| $*$ A. | Construction workers' wages. | Correct! Construction costs are a major <br> factor in the cost of housing. |
| B. | Mortgage interest rates. |  |
| C. | The unemployment rate. |  |
| D. | New-housing construction. |  |

Global I ncorrect Feedback
The correct answer is: Construction workers' wages. Construction costs are a major factor in the cost of housing.

Maximum Score: 2
Question:

If the price of building materials suddenly increased by a large amount, there would most likely be which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Shift to a seller's market. | Correct! With a higher cost of building <br> materials, there will be less new-house <br> construction, making the existing supply <br> of housing more scarce and therefore <br> more valuable. |
| B. | Rush to build new houses. |  |
| C. | A decrease in property taxes. |  |
| D. | Increase in mortgage interest rates. |  |

## Global I ncorrect Feedback

The correct answer is: Shift to a seller's market. With a higher cost of building materials, there will be less new-house construction, making the existing supply of housing more scarce and therefore more valuable.

Question 18a of 25 ( 2 Population density 221734 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following areas gives people access to both high-paying jobs and more living space?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Exurbs |  |
| B. | The city |  |
| C. | Rural areas |  |
| *D. | The suburbs | Correct! Because of lower population <br> density than the nearby city, suburbs give <br> people more space for yards and privacy. |

Global I ncorrect Feedback
The correct answer is: The suburbs. Because of lower population density than the nearby city, suburbs give people more space for yards and privacy.

Multiple Choice

Which of the following areas provides residents with close access to
high-paying jobs and cultural attractions?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | The city | Correct! People like living in cities <br> because of the restaurants, museums, <br> and other cultural attractions that are <br> available along with the availability of <br> high-paying jobs. |
| B. | Exurbs |  |
| C. | Rural areas |  |
| D. | The suburbs |  |

Global I ncorrect Feedback
The correct answer is: The city. People like living in cities because of the restaurants, museums, and other cultural attractions that are available along with the availability of highpaying jobs.

Question 18c of 25 ( 2 Population density 221736)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
Which of the following has the lowest housing prices and the smallest population density?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Inner-city neighborhoods |  |
| B. | High-rise apartments |  |
| $*$ C. | Rural areas | Correct! Rural areas are more sparsely <br> populated and have lower average <br> housing prices than other areas. |
| D. | Suburban developments |  |

Global I ncorrect Feedback
The correct answer is: Rural areas. Rural areas are more sparsely populated and have lower average housing prices than other areas.

Question 19a of 25 ( 1 Supply and demand 221737)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2

Question: A calculation of the amount that the average person can afford to buy is a way of measuring which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Standard of living | Correct! The standard of living is a <br> measurement of how many goods and <br> services the average person can afford to <br> buy. |
| B. | The inflation rate |  |
| C. | National income |  |
| D. | Unemployment |  |

## Global I ncorrect Feedback

The correct answer is: Standard of living. The standard of living is a measurement of how many goods and services the average person can afford to buy.

Question 19b of 25 ( 1 Supply and demand 221738 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: An increase in the standard of living results from an increase in which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Production costs |  |
| B. | Unemployment |  |
| $*$ C. | Income | Correct! The standard of living goes up <br> when people can afford to buy more. |
| D. | Consumer demand |  |

Global I ncorrect Feedback
The correct answer is: Income. The standard of living goes up when people can afford to buy more.

Question 19c of 25 ( 1 Supply and demand 221739)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
When either prices go down or income goes up, there is an increase in which of the following?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| * | The standard of living | Correct! When either prices fall or <br> incomes rise, people can afford to buy <br> more goods and services. |
| B. | Unemployment |  |
| C. | The inflation rate |  |
| D. | The gross domestic product |  |

## Global I ncorrect Feedback

The correct answer is: The standard of living. When either prices fall or incomes rise, people can afford to buy more goods and services.

## Question 20a of 25 ( 2 Trade 221740 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is most likely to create new markets?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Fiscal policy |  |
| B. | Competition |  |
| C. | Protectionism |  |
|  |  | Correct! By getting goods from one area <br> to another, trade often results in new <br> markets for goods that were once <br> available only in certain places. |
| $*$ D. | Free trade | labl\| |

Global I ncorrect Feedback
The correct answer is: Free trade. By getting goods from one area to another, international trade often results in new markets for goods that were once available only in certain places.

| B. | Allowing workers to bargain collectively. |  |
| :--- | :--- | :--- |
| $*$ C. | Increasing taxes to pay for greater military <br> spending. | Correct! Fiscal policy concerns taxation <br> and spending by the government. |
| D. | Setting up an unemployment insurance <br> program. |  |

Global I ncorrect Feedback
The correct answer is: Increasing taxes to pay for greater military spending. Fiscal policy concerns taxation and spending by the government.

## Question 24c of 25 (3 Policy 221755 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:

2
Which of the following is an example of the use of fiscal policy by the U.S. government?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | The Department of Transportation increases <br> spending on highway repairs. | Correct! Fiscal policy concerns taxation <br> and spending by the government. |
| B. | Congress makes it illegal for the police union <br> to go on strike. |  |
| C. | The Federal Reserve Bank lowers the interest <br> rate on loans to corporations. |  |
| D. | The Supreme Court rules that unions have the <br> right to collective bargaining. |  |

## Global I ncorrect Feedback

The correct answer is: The Department of Transportation increases spending on highway repairs. Fiscal policy concerns taxation and spending by the government.

Question 25a of 25 ( 3 Economies of scale 221757)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following results from a large company's ability to take advantage of economies of scale?

|  | Choice | Feedback |
| :--- | :--- | :--- |

| * A. | The company can offer goods more cheaply <br> than smaller retailers. | Correct! Large companies buy more goods <br> from wholesalers, which allows them to <br> pay lower prices and pass the savings on <br> to customers. |
| :--- | :--- | :--- |
| B. | The company can hire fewer workers for lower <br> wages. |  |
| C. | The company can rely on better technology for <br> production. |  |
| D. | The company can more effectively use the <br> Internet for advertising. |  |

Global I ncorrect Feedback
The correct answer is: The company can offer goods more cheaply than smaller retailers. Large companies buy more goods from wholesalers, which allows them to pay lower prices and pass the savings on to customers.

Question 25 b of 25 ( 3 Economies of scale 221758)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains why large companies have an advantage over smaller companies?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The production possibilities frontier is wider for <br> a larger company. |  |
| B. | Decreasing marginal utility enables more <br> efficient production. |  |
| C. | Increasing the scale of production leads to a <br> reduction in inputs. |  |
| *D. | Economies of scale make it possible to offer <br> lower prices. | Correct! A larger customer base lets <br> companies buy in bulk at the best <br> possible prices and pass the savings on to <br> consumers. |

Global I ncorrect Feedback
The correct answer is: Economies of scale make it possible to offer lower prices. A larger customer base lets companies buy in bulk at the best possible prices and pass the savings on to consumers.

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following best explains why wholesalers can offer lower prices to larger customers?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *. | Large companies can buy all or most of a <br> wholesaler's stock, reducing the wholesaler's <br> administrative costs. | Correct! The smaller number of <br> transactions and negotiations that are <br> required for doing business with a large <br> company reduces the costs to <br> wholesalers, enabling them to offer a <br> lower price. |
| B. | Large companies are able to take advantage of <br> increasing marginal utility to outbid smaller <br> competitors. |  |
| C. | Large companies can use the power of <br> collective bargaining to give them an <br> advantage over wholesalers. |  |
|  | Large companies are able to pay for the goods <br> they purchase in cash, giving wholesaler's the <br> possibility to invest in the stock market. |  |

Global I ncorrect Feedback
The correct answer is: Large companies can buy all or most of a wholesaler's stock, reducing the wholesaler's administrative costs. The smaller number of transactions and negotiations that are required for doing business with a large company reduces the costs to wholesalers, enabling them to offer a lower price.

## Quiz: Take It to the Bank

Question Type: Multiple Choice
Maximum Score:
Question:

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Government planners issue commands to all <br> producers. |  |
| *B. | Goods and services are exchanged without the <br> use of money. | Correct! A barter system involves the <br> direct exchange of goods and services. |
| C. | Workers don't specialize in particular tasks in <br> the productive process. |  |
| D. | A central bank controls the kinds of monetary <br> exchanges that take place. |  |

Global I ncorrect Feedback
The correct answer is: Goods and services are exchanged without the use of money. A barter system involves the direct exchange of goods and services.

Question 1b of 10 ( 2 Mediums of exchange 225790 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following involves the direct exchange of goods and services without the use of money as a medium of exchange?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | A barter system | Correct! In a barter system, goods and <br> services are exchanged without the use of <br> money. |
| B. | A free-market system |  |
| C. | A government-planned system |  |
| D. | A fractional reserve banking system |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: A barter system. In a |

barter system, goods and services are exchanged without the use of money.

Question 1c of 10 (2 Mediums of exchange 225791)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best explains how the invention of money affected the barter system?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | The invention of money drastically reduced the <br> value of goods used in the barter system |  |
| B. | The invention of money had no effect on the <br> barter system |  |
| *. | The invention of money supplemented the <br> barter system by providing a nonperishable <br> medium of exchange | Correct! Money is a more durable medium <br> of exchange than most barter goods. |
| D. | The invention of money completely replaced <br> the barter system with a free-market system |  |

Global I ncorrect Feedback
The correct answer is: The invention of money supplemented the barter system by providing a nonperishable medium of exchange. Money is a more durable medium of exchange than most barter goods.

## Question 2a of 10 (2 Mediums of exchange 225792)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following pairs is most similar to each other?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Commodity money and digital money |  |
| B. | Barter goods and fiat money |  |
| C. | Digital money and barter goods |  |
| *D. | Fiat money and digital money | Correct! Digital money is a form of fiat <br> money that only has value because it has <br> been declared to have value. |

Global I ncorrect Feedback

The correct answer is: Fiat money and digital money. Digital money is a form of fiat money that only has value because it has been declared to have value.

Question 2 b of 10 ( 2 Mediums of exchange 225793 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following has no value except as a medium of exchange?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Gold coins |  |
| *B. | Fiat money | Correct! Fiat money only has value <br> because the government declares that it <br> has value. |
| C. | Barter goods |  |
| D. | Commodity money |  |

Global I ncorrect Feedback
The correct answer is: Fiat money. Fiat money only has value because the government declares that it has value.

## Question 2c of $\mathbf{1 0}$ (2 Mediums of exchange 225794 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is a form of fiat money that is commonly used today?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| *A. | Digital money | Correct! Digital money exists only as <br> numbers transmitted from computer to <br> computer, and these numbers only have <br> value because the government declares <br> that they do. |
| B. | Commodity money |  |
| C. | Non- perishable money |  |
| D. | Credit cards |  |

| Global I ncorrect Feedback |
| :--- |
| The correct answer is: Digital money. Digital |

money exists only as numbers transmitted from computer to computer, and these numbers only have value because the government declares that they do.

Question 3a of $\mathbf{1 0}$ ( 2 Mediums of exchange 225795)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains the difference between fiat money and commodity money?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Commodity money must be a precious metal <br> that people will value because of its beauty <br> and usefulness. |  |
| B. | Commodity money is used in a barter system <br> while fiat money is used in a free-market <br> system. |  |
| *. | Commodity money can be used for some other <br> purpose while fiat money can only be used as <br> a medium of exchange. | Correct! Fiat money does not have any <br> value in itself; it has value only as a <br> medium of exchange. |
| D. | Commodity money has value because <br> someone declares that it has value while fiat <br> money has value in itself. |  |

Global I ncorrect Feedback
The correct answer is: Commodity money can be used for some other purpose while fiat money can only be used as a medium of exchange. Fiat money does not have any value in itself; it has value only as a medium of exchange.

Question 3b of $\mathbf{1 0}$ ( 2 Mediums of exchange 225796 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following most accurately explains why fiat money has value?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Fiat money has value because it is a good that <br> can be used for some purpose. |  |
| *B. | Fiat money has value because the government | Correct! Fiat money does not have any |

|  | declares that it has value. | value in itself; it has value only as a <br> medium of exchange. |
| :--- | :--- | :--- |
| C. | Fiat money has value because it is a precious <br> metal that people value in itself. |  |
| D. | Fiat money has value because it allows people <br> to barter for goods and services. |  |

Global I ncorrect Feedback
The correct answer is: Fiat money has value because the government declares that it has value. Fiat money does not have any value in itself; it has value only as a medium of exchange.

Question 3c of $\mathbf{1 0}$ (2 Mediums of exchange 225797)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following most accurately explains why commodity money has value?

|  | Choice | Feedback |
| :--- | :--- | :--- |
| A. | Commodity money must be a precious metal <br> that people will value because of its beauty <br> and usefulness. |  |
| B. | Commodity money only has value because the <br> government declares that it has value. |  |
| C. | Commodity money only has value because it <br> functions as an efficient medium of exchange. |  |
|  | Commodity money is a good that can be used <br> as a medium of exchange or for some other <br> purpose. | Correct! Commodity money can function <br> as either a useful good or as a medium of <br> exchange. |

## Global I ncorrect Feedback

The correct answer is: Commodity money is a good that can be used as a medium of exchange or for some other purpose. Commodity money can function as either a useful good or as a medium of exchange.

Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best describes a fractional reserve banking system?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
A banking system in which banks have only \\
partial control over the interest rates they \\
charge on loans.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
A banking system in which banks keep a \\
portion of deposits on hand to satisfy their \\
customer's demands for withdrawals.
\end{tabular} & \begin{tabular}{l} 
Correct! In a fractional reserve banking \\
system, banks are required to keep a \\
certain amount of deposits on hand.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
A banking system in which a large portion of \\
the bank's assets are digital money rather than \\
bills and coins.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
A banking system in which net worth is \\
calculated by subtracting a fraction of liabilities \\
from assets.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A banking system in which banks keep a portion of deposits on hand
to satisfy their customer's demands for withdrawals. In a fractional reserve banking system, banks are required to keep a certain amount of deposits on hand.

Question 5bof 10 ( 2 Banking system 225802 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following explains why the government sets a required reserve ratio for private banks?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline * A. & \begin{tabular}{l} 
To make sure banks don't run out of money \\
when customers make withdrawals.
\end{tabular} & \begin{tabular}{l} 
Correct! The bank's reserves assure that \\
the bank has enough money on hand to \\
give to customers who want to make \\
withdrawals.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
To allow the government to control the interest \\
rate charged on loans.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
To prevent banks from printing too much \\
money and causing inflation.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
To enable the regulation of risk levels in the \\
decision process of offering loans.
\end{tabular} & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: To make sure banks \\
don't run out of money when customers make \\
withdrawals. The bank's reserves assure that \\
the bank has enough money on hand to give to \\
customers who want to make withdrawals. \\
\hline
\end{tabular}

Question 5c of \(\mathbf{1 0}\) ( 2 Banking system 225803)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following most accurately describes what banks do with their excess reserves?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Banks invest excess reserves in the currency \\
exchange market in order to stabilize their \\
nation's currency.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Banks keep excess reserves on hand to meet \\
lustomer's demands for withdrawals during a \\
bank run.
\end{tabular} & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l||l||l|}
\hline\(*\) C. & \begin{tabular}{l} 
Banks use excess reserves to make loans to \\
customers so that they can make profits on \\
the interest.
\end{tabular} & \begin{tabular}{l} 
Correct! Excess reserves are those assets \\
above the required reserve ratio, which \\
are assets that the bank is free to loan \\
out.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Banks spend excess reserves on expenses \\
such as rent and salaries that are related to \\
operating the bank.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Banks use excess reserves to make loans to customers so that they can make profits on the interest. Excess reserves are those assets above the required reserve ratio, which are assets that the bank is free to loan out.

\hline \hline A. & The U.S. Mint & \\
\hline \hline B. & Congress & \\
\hline \hline *. & The Federal Reserve Bank & \begin{tabular}{l} 
Correct! The Fed sets the required reserve \\
ratio and controls interest rates.
\end{tabular} \\
\hline D. & The Department of the Treasury & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: The Federal Reserve Bank. The Fed sets the required reserve ratio and controls interest rates.

\section*{Question 7c of 10 (1 Banking system 225809)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Monetary policy in the United States is carried out primarily by which of the following agencies?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & The Department of the Treasury & \\
\hline \hline B. & The U.S. Mint & \\
\hline \hline C. & The Small Business Association & \\
\hline \hline *D. & The Federal Reserve Bank & \begin{tabular}{l} 
Correct! The Fed sets the required \\
reserve ratio and controls interest rates.
\end{tabular} \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The Federal Reserve Bank. The Fed sets the required reserve ratio and controls interest rates.

Question 8a of \(\mathbf{1 0}\) ( 2 Banking system 225810 )
Maximum Attempts: 1
Question Type:
Maximum Score:
Question:

Multiple Choice
2
Which of the following best describes the purpose of raising and lowering the required reserve ratio?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
To stimulate economic growth by making it \\
less expensive for producers to get loans.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
To manage the economy by increasing or \\
decreasing the amount of loans being made.
\end{tabular} & \begin{tabular}{l} 
Correct! By raising and lowering the \\
required reserve ratio, the Fed can \\
increase or decrease the money supply, \\
which enables the government to manage \\
economic growth.
\end{tabular} \\
\hline C. & \begin{tabular}{l} 
To regulate the activity of private banks to \\
assure an equitable distribution of wealth.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
To make sure that government spending does \\
not result in either a surplus or deficit.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: To manage the economy by increasing or decreasing the amount of loans being made. By raising and lowering the required reserve ratio, the Fed can increase or decrease the money supply, which enables the government to manage economic growth.

Question 8b of \(\mathbf{1 0}\) ( 2 Banking system 225811 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains why raising the discount rate affects the money supply?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
When the discount rate is high, banks have \\
less incentive to give loans because they make \\
less profit on these loans.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
When the discount rate is high, banks can loan \\
out a larger portion of their reserves.
\end{tabular} & \\
\hline \hline & \begin{tabular}{l} 
When the discount rate is high, banks keep \\
more reserves on hand to avoid paying a lot to \\
borrow from the Fed.
\end{tabular} & \begin{tabular}{l} 
Correct! With a high discount rate, banks \\
lare taking a bigger risk by loaning out a \\
lot of their reserves, so they generally \\
keep more than the required reserve ratio \\
to minimize their risk.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
When the discount rate is high, banks are able \\
to charge lower interest rates so that more \\
people can afford to take loans.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: When the discount rate is high, banks keep more reserves on hand to avoid paying a lot to borrow from the Fed. With a high discount rate, banks are taking a bigger risk by loaning out a lot of their reserves, so they generally keep more than the required reserve ratio to minimize their risk.

Which of the following best explains why raising the required reserve ratio results in a decrease in the money supply?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
When the required reserve ratio is high, banks \\
have less incentive to give loans because they \\
make less profit on these loans.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
When the required reserve ratio is high, the \\
inflation rate goes up and people spend less \\
money.
\end{tabular} & \\
\hline \hline *C. & \begin{tabular}{l} 
When the required reserve ratio is high, banks \\
must loan out a smaller portion of their \\
reserves, resulting in fewer loans.
\end{tabular} & \begin{tabular}{l} 
Correct! When banks aren't able to loan \\
out as much money, there is less money \\
in circulation.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
When the required reserve ratio is high, banks \\
charge higher interest rates that make loans \\
less affordable to many people.
\end{tabular} & \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: When the required \\
reserve ratio is high, banks must loan out a \\
smaller portion of their reserves, resulting in \\
fewer loans. When banks aren't able to loan out \\
as much money, there is less money in \\
circulation. \\
\hline
\end{tabular}

A. & Utility & Which of the following is a stockholder's share of a company's profits? \\
\hline \hline B. & Certificates & Feedback \\
\hline \hline C. & Revenue & \\
\hline \hline & & \begin{tabular}{l} 
Correct! A dividend is paid on each share \\
of stock based on the company's overall \\
profits.
\end{tabular} \\
\hline *D. & Dividends &
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Dividends. A dividend is paid on each share of stock based on the company's overall profits.

Question 2 b of 10 ( 1 Investing in the stock market 226135 )

Maximum Attempts:
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best describes a dividend?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & The percentage ownership of a corporation & \\
\hline \hline\(* \mathbf{B .}\) & \begin{tabular}{l} 
A share of a company's profit paid to each \\
stockholder
\end{tabular} & \begin{tabular}{l} 
Correct! A dividend is paid on each share \\
of stock based on the company's overall \\
profits.
\end{tabular} \\
\hline \hline C. & The difference between costs and revenues & \\
\hline \hline D. & The increase in a person's investment & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A share of a company's profit paid to each stockholder. A dividend is paid on each share of stock based on the company's overall profits.

Question 2c of \(\mathbf{1 0}\) ( 1 Investing in the stock market 226136 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following accurately describes a capital gain?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline\(*\) A. & An increase in the value of an investment & \begin{tabular}{l} 
Correct! When someone's investment \\
increases, they realize a capital gain.
\end{tabular} \\
\hline \hline B. & An upward trend in prices & \\
\hline \hline C. & A rise in the standard of living & \\
\hline \hline D. & The difference between costs and revenues & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: An increase in the value of an investment. When someone's investment increases, they realize a capital gain.

Question 3a of \(\mathbf{1 0}\) ( 2 Investing in the stock market 226137)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2

Question: Which of the following most accurately describes one of the powers of stockholders?
\begin{tabular}{|l||l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Stockholders determine the size of dividends \\
paid to investors.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Stockholders manage the daily business of a \\
company.
\end{tabular} & \\
\hline \hline & C. & \begin{tabular}{l} 
Stockholders can sell their shares in the \\
company at any time.
\end{tabular} \\
\hline D. & \begin{tabular}{l} 
Stockholders are given discounts on the \\
company's products.
\end{tabular} & \begin{tabular}{l} 
Correct! Stockholders don't have much \\
direct power over the operations of a \\
company, but they can sell their share of \\
ownership at will.
\end{tabular} \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Stockholders can sell their shares in the company at any time. Stockholders don't have much direct power over the operations of a company, but they can sell their share of ownership at will.

Question 3b of \(\mathbf{1 0}\) ( 2 Investing in the stock market 226138 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of the following most accurately states one of the risks of being a stockholder?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Stockholders can go deeply into debt if the \\
company goes into debt.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Stockholders don't get any voice in the \\
running of the company.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Stockholders must pay all of their dividends to \\
the government.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
Stockholders aren't guaranteed a return on \\
their investment.
\end{tabular} & \begin{tabular}{l} 
Correct! Stockholders only get a return on \\
their investment if the company makes a \\
profit or the price of the stock goes up.
\end{tabular} \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Stockholders aren't guaranteed a return on their investment. Stockholders only get a return on their investment if the company makes a profit or the price of the stock goes up.

Question 3c of 10 ( 2 Investing in the stock market 226139)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question: Which of the following represents the most direct power that stockholders have over the operations of a company?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Stockholders can sell their shares at any time \\
for any price.
\end{tabular} & \\
\hline \hline *. & \begin{tabular}{l} 
Stockholders can vote for the members of the \\
board of directors.
\end{tabular} & \begin{tabular}{l} 
Correct! Although stockholders can sell \\
their shares if they're not pleased with \\
the way the company is run, their more \\
direct power is over the membership of \\
the board of directors, which runs the \\
company on a daily basis.
\end{tabular} \\
\hline C. & \begin{tabular}{l} 
Stockholders can request a review of the \\
company's practices.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Stockholders can determine the prices of the \\
company's products.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Stockholders can vote for the members of the board of directors. Although stockholders can sell their shares if they're not pleased with the way the company is run, their more direct power is over the membership of the board of directors, which runs the company on a daily basis.

Multiple Choice

When a market is volatile, it is described by which of the following?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Remains stable over a long period of time. & \\
\hline \hline B. & Provides specialized goods and services. & \\
\hline \hline\(*\) C. & Changes quickly and to great extremes. & \begin{tabular}{l} 
Correct! Prices in a volatile market go up \\
and down very quickly.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Has an overall trend of gradually increasing \\
prices.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Changes quickly and to great extremes. Prices in a volatile market go up and down very quickly.

Question 1b of \(\mathbf{1 0}\) (1 Markets 226457)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
The level of volatility in a market measures which of the following?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
How much interest is required to buy in that \\
market.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
How quickly prices go up and down in that \\
market.
\end{tabular} & \begin{tabular}{l} 
Correct! Prices in a volatile market go up \\
and down very quickly.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
How useful the products are that are sold in \\
that market.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
How much profit investors expect to make in \\
that market.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: How quickly prices go up and down in that market. Prices in a volatile market go up and down very quickly.

Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & Which of the following is not a commodity?
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & Corn dogs & \begin{tabular}{l} 
Correct! A corn dog is processed, so it is \\
not a commodity.
\end{tabular} \\
\hline B. & Crude oil & \\
\hline \hline C. & Cocoa & \\
\hline \hline D. & Coffee & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Corn dogs. A corn dog is processed, so it is not a commodity.

Question 4a of 10 (1 Investments 226465 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains what a futures contract is?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
A contract setting the price and date for a \\
commodity purchase.
\end{tabular} & \begin{tabular}{l} 
Correct! A futures contract obligates the \\
parties to engage in a transaction at some \\
later time, usually when the commodity is \\
available for purchase.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
A contract preventing the future sale or \\
exchange of a particular good.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
A contract setting the price for the exchange of \\
two foreign currencies.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
A contract limiting the future liability of one set \\
of partners if a business fails.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A contract setting the price and date for a commodity purchase. A futures contract obligates the parties to engage in a transaction at some later time, usually when the commodity is available for purchase.

Question:

Multiple Choice
2
Which of the following best explains why commodity futures contracts are transferable?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
They can be renegotiated at a future time in \\
case the commodity isn't available.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
They can be bought and sold but the obligation \\
in the contract remains valid.
\end{tabular} & \begin{tabular}{l} 
Correct! When a contract is transferable, \\
the terms of the original contract remain \\
in force even if the original parties sell the \\
contract to someone else.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
They can be turned into either forward \\
contracts or currency-exchange contracts.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
They can be redeemed with the government \\
for their equivalent value in bonds.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: They can be bought and sold but the obligation in the contract remains valid. When a contract is transferable, the terms of the original contract remain in force even if the original parties sell the contract to someone else.

Question 4c of \(\mathbf{1 0}\) ( 1 Investments 226467 )
\begin{tabular}{ll} 
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & Which of the following best explains what a forward contract is?
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & A contract to deliver a particular commodity to \\
a buyer sometime in the future.
\end{tabular} \begin{tabular}{l} 
Correct! A forward contract obligates the \\
parties to engage in a transaction at some \\
later time, usually when the commodity is \\
available for purchase.
\end{tabular}\(|\)\begin{tabular}{l|l|l|}
\hline B. & \begin{tabular}{l} 
A contract setting a specific price for the \\
exchange of two foreign currencies.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
A contract limiting the future liability of one set \\
of partners if a business fails.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
A contract obligating two parties to split \\
payment for a service from a third party.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback

The correct answer is: A contract to deliver a particular commodity to a buyer sometime in the future. A forward contract obligates the parties to engage in a transaction at some later time, usually when the commodity is available for purchase.

Question 5a of \(\mathbf{1 0}\) ( 2 Investments 226468 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains why a bondholder is similar to a bank?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Bondholders take deposits and issue \\
withdrawals just as banks do.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Bondholders determine the risk level of bonds \\
just as banks determine the risk level of loans.
\end{tabular} & \\
\hline \hline *. & \begin{tabular}{l} 
Bondholders loan money to bond issuers just \\
as banks loan money to customers.
\end{tabular} & \begin{tabular}{l} 
Correct! Issuing a bond is similar to \\
taking a loan.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Bondholders keep some of their assets in \\
reserve just as banks do.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Bondholders loan money to bond issuers just as banks loan money to customers. Issuing a bond is similar to taking a loan.

Question 5b of \(\mathbf{1 0}\) ( 2 Investments 226469 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2
Which of the following best explains what happens when a company or government issues bonds?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The company or government pays bondholders \\
to provide a specific good or service.
\end{tabular} & \\
\hline \hline\(* \mathbf{B .}\) & \begin{tabular}{l} 
The company or government goes into debt to \\
those who purchase the bonds.
\end{tabular} & \begin{tabular}{l} 
Correct! Unlike stocks, which sell equity, \\
bonds are a form of debt.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
The company or government sells a partial \\
interest in its enterprise to bondholders.
\end{tabular} & \\
\hline \hline
\end{tabular}
D. The company or government can spend money that doesn't yet exist.

Global I ncorrect Feedback
The correct answer is: The company or government goes into debt to those who purchase the bonds. Unlike stocks, which sell equity, bonds are a form of debt.

Question 5c of \(\mathbf{1 0}\) ( 2 Investments 226470 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains the purpose of issuing a bond?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline A. & To stabilize a currency. & \\
\hline \hline *B. & To raise money. & \begin{tabular}{l} 
Correct! When a company or government \\
issues a bond, they are going into debt to \\
bondholders in order to raise money.
\end{tabular} \\
\hline C. & To manage an economy. & \\
\hline \hline D. & To help consumers purchase services. & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: To raise money. When a company or government issues a bond, they are going into debt to bondholders in order to raise money.

\hline A. & A \$5 item costs half as much in euros. & \\
\hline B. & A \$5 item costs more than five euros. & \\
\hline \hline\(*\) C. & A \$5 item costs less than five euros. & \begin{tabular}{l} 
Correct! When each euro buys more than \\
one dollar, the euro price of any item is a \\
smaller number than the dollar price.
\end{tabular} \\
\hline D. & A \$5 item costs twice as much in euros. & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A \(\$ 5\) item costs less than five euros. When each euro buys more than one dollar, the euro price of any item is a smaller number than the dollar price.

\section*{Question 9a of 10 ( 2 Currency exchange 226480 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:

2
Which of the following best explains the difference between a fixed currency and a floating currency?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The amount of goods that a floating currency \\
will buy changes while the amount of goods a \\
fixed currency will buy is established by the \\
government.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
The value of a floating currency fluctuates \\
wildly while the value of a fixed currency \\
changes only slightly.
\end{tabular} & \\
\hline \hline & \begin{tabular}{l} 
The exchange rate for a floating currency is \\
determined by the price of gold while the
\end{tabular} & \\
exchange rate for a fixed currency never \\
changes.
\end{tabular}

The price of a floating currency is determined by the currency exchange market while the price of a fixed currency is connected to the price of some other commodity.

Correct! The exchange rate of floating currencies is determined by the free market.

Global I ncorrect Feedback
The correct answer is: The price of a floating currency is determined by the currency exchange market while the price of a fixed currency is connected to the price of some other commodity. The exchange rate of floating currencies is determined by the free market.

Question 9b of 10 ( 2 Currency exchange 226481 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best explains what happens when a currency is pegged to the U.S. dollar?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
The value of the pegged currency goes up and \\
down depending on the exchange rate of the \\
U.S. dollar.
\end{tabular} & \begin{tabular}{l} 
Correct! Pegging a currency to the U.S. \\
dollar gives that currency the same \\
stability as the U.S. dollar, keeping its \\
exchange rate from fluctuating too wildly.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
The exchange rate for the pegged currency is \\
exactly the same as the exchange rate of the \\
U.S. dollar.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The pegged currency can be used \\
interchangeably with U.S. dollars to purchase \\
goods and services.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The U.S. Treasury gets to determine the \\
exchange rate between U.S. dollars and the \\
pegged currency.
\end{tabular} & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: The value of the pegged \\
currency goes up and down depending on the \\
exchange rate of the U.S. dollar. Pegging a \\
currency to the U.S. dollar gives that currency \\
the same stability as the U.S. dollar, keeping its \\
exchange rate from fluctuating too wildly. \\
\hline
\end{tabular}

\section*{Question 9c of \(\mathbf{1 0}\) ( 2 Currency exchange 226482 )}

Maximum Attempts:
Question Type: Multiple Choice

\hline \hline A. & The government takeover of a business & \\
\hline \hline B. & The establishment of a new business & \\
\hline \hline\(*\) C. & The first sale of stock to the public & \begin{tabular}{l} 
Correct! A company goes public with an \\
initial public offering (IPO) that involves \\
the first sale of stock to the public.
\end{tabular} \\
\hline D. & The beginning of the productive process & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The first sale of stock to the public. A company goes public with an initial public offering (IPO) that involves the first sale of stock to the public.

Question 6c of \(\mathbf{1 0}\) ( 1 Initial public offering 226757 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best describes the purpose of an initial public offering (IPO)?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & To raise money to fund a company's activities & \begin{tabular}{l} 
Correct! An IPO raises money that is used \\
to pay for operating expenses or an \\
expansion of the business.
\end{tabular} \\
\hline B. & To prevent the company from being taken over & \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline C. & \begin{tabular}{l} 
To allow the government to regulate the \\
company's activities
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
To give investors a say in the membership of \\
the board of directors
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: To raise money to fund a company's activities. An IPO raises money that is used to pay for operating expenses or an expansion of the business.

\section*{Question 7a of \(\mathbf{1 0}\) ( 2 Initial public offering 226758)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is one advantage for a company that goes public?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Management retains control of the company & \\
\hline B. & The pressure to make profits is reduced & \\
\hline C. & A greater labor pool is available for hire & \\
\hline \hline *D. & Money is raised without going into debt & \begin{tabular}{l} 
Correct! Going public is a form of equity \\
financing that involves selling some \\
ownership in the business rather than \\
taking a loan.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Money can be raised without going into debt. Going public is a form of equity financing that involves selling some ownership in the business rather than taking a loan.

Question 7b of \(\mathbf{1 0}\) ( 2 Initial public offering 226759 )

\section*{Maximum Attempts: 1}

Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following is one disadvantage for a company that goes public?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & The company goes deeply into debt. & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l||l|l|}
\hline \hline *B. & The pressure to make profits is increased. & \begin{tabular}{l} 
Correct! With investors wanting their \\
investment to pay off, the management of \\
a company faces stronger pressure to \\
make higher profits.
\end{tabular} \\
\hline C. & Workers are able to bargain collectively. & \\
\hline D. & Executives are forced to take stock options. & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The pressure to make profits is increased. With investors wanting their investment to pay off, the management of a company faces stronger pressure to make higher profits.

Question:

Multiple Choice
2
Which of the following most accurately explains why fiat money differs from commodity money?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Fiat money can also be used as a productive \\
input.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
Fiat money only has value as a medium of \\
exchange.
\end{tabular} & \begin{tabular}{l} 
Correct! While commodity money can also \\
be used for another purpose, fiat money \\
does not have any value in itself; it has \\
value only as a medium of exchange.
\end{tabular} \\
\hline C. & \begin{tabular}{l} 
Fiat money has value because it is a precious \\
metal such as gold.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Fiat money has value because it enables the \\
barter system to work.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Fiat money only has value as a medium of exchange. While commodity money can also be used for another purpose, fiat money does not have any value in itself; it has value only as a medium of exchange.

\section*{Question 2c of 25 (2 Mediums of exchange 227335)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following most accurately explains why fiat money has no value in itself?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Fiat money is not a durable commodity. & \\
\hline \hline *B. & \begin{tabular}{l} 
Fiat money has only a single use as a medium \\
of exchange.
\end{tabular} & \begin{tabular}{l} 
Correct! Unlike commodity money, which \\
can function as either a useful good or as \\
a medium of exchange, fiat money is only \\
useful as a medium of exchange.
\end{tabular} \\
\hline C. & \begin{tabular}{l} 
Fiat money only has value as long as the free- \\
market system exists.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Fiat money is always a precious metal that \\
only has value because of its beauty.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Fiat money has only a single use as a medium of exchange. Unlike
commodity money, which can function as either a useful good or as a medium of exchange, fiat money is only useful as a medium of exchange.

\section*{Question 5a of 25 ( 3 Government policies 227342)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following can the Fed accomplish by raising or lowering the required reserve ratio?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *A. & Increase or decrease the money supply & \begin{tabular}{l} 
Correct! By raising and lowering the \\
required reserve ratio, the Fed can
\end{tabular} \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline & & \begin{tabular}{l} 
increase or decrease the money supply, \\
which enables the government to manage \\
economic growth.
\end{tabular} \\
\hline B. & Reduce housing prices & \\
\hline \hline C. & Prevent a budget deficit & \\
\hline \hline D. & Ensure an equitable distribution of wealth & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Increase or decrease the money supply. By raising and lowering the required reserve ratio, the Fed can increase or decrease the money supply, which enables the government to manage economic growth.

Question 5b of 25 ( 3 Government policies 227343 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following accurately describes how raising the required reserve ratio reduces the money supply?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline \multirow{2}{*}{ A. } & \begin{tabular}{l} 
When the required reserve ratio is raised, \\
banks must raise interest rates so that fewer \\
people can afford to take loans.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
When the required reserve ratio is raised, \\
banks must loan out a smaller portion of their \\
reserves, resulting in fewer loans.
\end{tabular} & \begin{tabular}{l} 
Correct! When banks aren't able to loan \\
out as much money, there is less money \\
in circulation.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
When the required reserve ratio is raised, \\
banks have less incentive to give loans \\
because they make less profit on these loans.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
When the required reserve ratio is raised, \\
banks can loan out a larger portion of their \\
reserves, leaving less of a supply on hand.
\end{tabular} & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: When the required \\
reserve ratio is raised, banks must loan out a \\
smaller portion of their reserves, resulting in \\
fewer loans. When banks aren't able to loan out \\
as much money, there is less money in \\
circulation.

Question Type:
Maximum Score:
Question:

Multiple Choice
2
Which of the following accurately describes how lowering the required reserve ratio increases the money supply?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
When the required reserve ratio is lowered, \\
banks can loan out more money.
\end{tabular} & \begin{tabular}{l} 
Correct! When banks are able to loan out \\
more money, there is more money in \\
circulation.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
When the required reserve ratio is lowered, \\
banks make less profit on money loaned out.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
When the required reserve ratio is lowered, \\
the inflation rate goes up and people spend \\
less money.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
When the required reserve ratio is lowered, \\
banks charge lower interest rates that make \\
loans more affordable.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: When the required reserve ratio is lowered, banks can loan out more money. When banks are able to loan out more money, there is more money in circulation.

\section*{Question 6a of 25 ( 2 Government policies 227345 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following explains how Treasury bonds can have an effect on the size of the money supply?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The use of Treasury bonds to pay for \\
government expenses leads to increased \\
inflation
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
The Federal Reserve Bank can buy and sell \\
Treasury bonds to raise or lower bank deposits
\end{tabular} & \begin{tabular}{l} 
lorrect! By buying and selling Treasury \\
bonds, the Fed can affect the amount of \\
bank deposits, which influences the \\
amount of loans that banks are able to be \\
made.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
The existence of Treasury bonds increases \\
competition among banks to offer low-interest \\
loans
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The government can avoid running a budget \\
deficit and reducing the money supply by \\
issuing Treasury bonds
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: The Federal Reserve Bank can buy and sell Treasury bonds to raise or lower bank deposits. By buying and selling Treasury bonds, the Fed can affect the amount of bank deposits, which influences the amount of loans that banks are able to be made.

Question 6b of 25 ( 2 Government policies 227346 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following best explains why the money supply is decreased when the government issues bonds?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & \begin{tabular}{l} 
The purchase of bonds reduces the bond \\
buyers' bank accounts
\end{tabular} & \begin{tabular}{l} 
Correct! When bonds are sold, the \\
government takes money out of \\
circulation because it gets the bonds' \\
buyers money from these sales.
\end{tabular} \\
\hline B. & \begin{tabular}{l} 
The sale of bonds enables the government to \\
run a budget surplus
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The issuing of bonds increases competition \\
among private banks
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The trading of bonds interferes with other \\
types of economic activity
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The purchase of bonds reduces the bond buyers' bank accounts. When bonds are sold, the government takes money out of circulation because it gets the bonds' buyers money from these sales.

\section*{Question 6c of 25 ( 2 Government policies 227347)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:

Which of the following best explains why the money supply is increased when the Fed buys T -bonds on the open market?
\begin{tabular}{|l|l||l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The purchase of bonds increases the demand \\
both for bonds purchases and for money in \\
general
\end{tabular} & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l||l||l|}
\hline \hline B. & \begin{tabular}{l} 
The purchase of bonds reduces the available \\
supply of bonds, which drives up bond prices
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The purchase of bonds leads to a reduction in \\
the discount rate, which provides banks with \\
an incentive to loan more money
\end{tabular} & \\
\hline \hline & \begin{tabular}{l} 
The purchase of bonds increases the amount \\
of deposits in people's bank accounts, which \\
enables banks to loan more money
\end{tabular} & \begin{tabular}{l} 
Correct! When the Fed adds money to \\
someone's bank balance, it's adding \\
money to the money supply, and also \\
making it possible for banks to put more \\
money into circulation through loans.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The purchase of bonds increases the amount of deposits in people's bank accounts, which enables banks to loan more money. When the Fed adds money to someone's bank balance, it's adding money to the money supply, and also making it possible for banks to put more money into circulation through loans.

\section*{Question 7a of 25 ( 3 Government policies 227348) \\ Maximum Attempts: 1 \\ Question Type: Multiple Choice \\ Maximum Score: 2 \\ Question: Which of the following describes the most likely effect of the sale of a new batch of Treasury bonds?}
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & An increase in unemployment & \\
\hline \hline B. & A reduction in the inflation rate & \\
\hline \hline C. & An increase in the money supply & \\
\hline \hline *. & A decrease in the money supply & \begin{tabular}{l} 
Correct! By selling bonds, the government \\
takes money out of circulation by getting \\
that money from the bonds' buyers.
\end{tabular} \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: A decrease in the money supply. By selling bonds, the government takes money out of circulation by getting that money from the bonds' buyers.

Correct! Socially responsible investors \\
may be interested in making a profit, but \\
they have other interests, as well, such as \\
fair treatment of workers or \\
environmental protection.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
A company that attempts to provide fair wages \\
and good working conditions to its employees
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
A company that does more to protect the \\
environment than the government requires
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A company that puts profit-maximization above all other considerations. Socially responsible investors may be interested in making a profit, but they have other interests as well, such as fair treatment of workers or environmental protection.

time, usually when the commodity is available \\
for purchase; this obligation can be transferred \\
from one party to another. \\
\hline
\end{tabular}

Question 16b of 25 ( 2 Commodities market 227379 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Commodity futures contracts can be bought and sold on the open market for which of the following reasons?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Unsold commodities will be bought at fair \\
market value by the federal government.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
Futures contracts remain valid even if the \\
original parties to the contract sell the rights.
\end{tabular} & \begin{tabular}{l} 
Correct! Futures contracts are \\
transferable so that the terms of the \\
original contract remain in force even if \\
the original parties sell the contract to \\
someone else.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
Commodity purchase contracts can be \\
renegotiated at a future time in case the \\
commodity isn't available.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Currency-exchange rates fluctuate, changing \\
the amount of profit that can be made on a \\
particular commodity.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Futures contracts remain valid even if the original parties to the contract sell the rights. Futures contracts are transferable so that the terms of the original contract remain in force even if the original parties sell the contract to someone else.

Question 16c of 25 ( 2 Commodities market 227380 )

Maximum Attempts: 1
Question Type:
Maximum Score:
Question:
2

Multiple Choice

Commodity brokers use forward and futures contracts for which of the following reasons?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Commodities come from many different \\
countries with very different currency \\
exchange rates.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
The seasonal nature of many commodities \\
would lead to wide variations in supply and \\
price without these contracts.
\end{tabular} & \begin{tabular}{l} 
Correct! Forward and futures contracts \\
allow buyers and sellers to determine the \\
price and date of delivery for commodities \\
that are not yet available, which helps to \\
level out supply and price so that there \\
are not wide fluctuations in these prices \\
throughout the year.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
The riskiness of commodity production means \\
that many commodity producers go bankrupt \\
before harvest time.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The raw, unprocessed nature of commodities \\
means that there is always a third party to any \\
commodity-purchase contract.
\end{tabular} & \\
\hline
\end{tabular}

> Global I ncorrect Feedback
> The correct answer is: The seasonal nature of many commodities would lead to wide variations in supply and price without these contracts. Forward and futures contracts allow buyers and sellers to determine the price and date of delivery for commodities that are not yet available, which helps to level out supply and price so that there are not wide fluctuations in these prices throughout the year.

Question 17a of 25 ( 2 Investing 227381)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following best explains how bondholders and banks serve a similar function?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *A. & They are both holders of someone else's debt. & \begin{tabular}{l} 
Correct! Issuing a bond is similar to \\
taking a loan, so bondholders and banks \\
both have someone else in their debt.
\end{tabular} \\
\hline B. & They both take deposits and issue withdrawals. & \\
\hline \hline C. & \begin{tabular}{l} 
They are both required to reserve certain \\
assets.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
They both have to charge government- \\
determined interest rates.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: They are both holders of someone else's debt. Issuing a bond is similar to taking a loan, so bondholders and banks both have someone else in their debt.

\section*{Question 17 b of 25 ( 2 Investing 227382 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following is most similar to the act of buying a bond?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Paying taxes. & \\
\hline \hline\(* \mathbf{B .}\) & Giving a loan. & \begin{tabular}{l} 
Correct! Bondholders have someone else \\
in their debt, so buying a bond is like
\end{tabular} \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline & & loaning money. \\
\hline \hline C. & Exchanging currency. & \\
\hline \hline D. & Buying a share of stock. & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Giving a loan.
Bondholders have someone else in their debt, so buying a bond is like loaning money.

Question 17c of 25 ( 2 Investing 227383)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following actions can the government take to raise money?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Sell stocks. & \\
\hline \hline \multirow{2}{*}{ B. } & Issue bonds. & \begin{tabular}{l} 
Correct! When a government issues a \\
bond, it is going into debt to bondholders \\
in order to raise money.
\end{tabular} \\
\hline C. & Lower interest rates. & \\
\hline \hline D. & Exchange currencies. & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Issue bonds. When a government issues a bond, it is going into debt to bondholders in order to raise money.

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following describes a condition that is LEAST favorable for conducting an IPO?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & A bubble & \\
\hline \hline B. & A recession & \begin{tabular}{l} 
Correct! When the economy is struggling \\
as it is during a recession, it's difficult to \\
have a successful IPO because investors \\
don't have as much money to invest and \\
they're generally looking for a more sure \\
thing than any IPO can offer.
\end{tabular} \\
\hline C. & A bear market & \\
\hline D. & An economic boom & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A recession. When the economy is struggling as it is during a recession, it's difficult to have a successful IPO because investors don't have as much money to invest and they're generally looking for a more sure thing than any IPO can offer.

Question 24b of 25 ( 3 Initial public offering 227403 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following describes a condition that is favorable for conducting an IPO?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & A crash & \\
\hline \hline B. & A recession & \\
\hline \hline C. & A bear market & \\
\hline \hline *D. & A bull market & \begin{tabular}{l} 
Correct! When prices in the stock market \\
are rising, an IPO has a much better \\
chance of success.
\end{tabular} \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A bull market. When prices in the stock market are rising, an IPO has a much better chance of success.

Question 24c of 25 ( 3 Initial public offering 227404 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following would be most likely to lead to a successful IPO?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & An increase in the discount rate by the Fed & \\
\hline \hline * B. & \begin{tabular}{l} 
A company offering an IPO during a bull \\
market
\end{tabular} & \begin{tabular}{l} 
Correct! When prices in the stock market \\
are rising, an IPO has a much better \\
chance of success.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
An Internet company offering a brand new \\
service
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
A prospectus that is realistic about the \\
Company's debts
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A company offering an IPO during a bull market. When prices in the stock market are rising, an IPO has a much better chance of success.

Question 25a of 25 ( 2 Initial public offering 227405 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: A company can secure additional capital without going into debt by doing which of the following?
\begin{tabular}{|l|l|l|}
\hline \hline *A. & Going public & \begin{tabular}{l} 
Correct! Going public is a form of equity \\
financing that involves selling some \\
ownership in the business rather than \\
taking a loan.
\end{tabular} \\
\hline B. & Taking a business loan & \\
\hline C. & Buying out another company & \\
\hline \hline D. & Bargaining for wage reductions & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Going public. Going public is a form of equity financing that involves selling some ownership in the business rather than taking a loan.

Question 25 b of 25 ( 2 Initial public offering 227406 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: When a company goes public, there is often which of the following?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & An increase in debt payments & \\
\hline \hline B. & An increase in its bond rating & \\
\hline \hline C. & A reduction in productive efficiency & \\
\hline \hline & & \begin{tabular}{l} 
Correct! With investors wanting their \\
investment to pay off, the management \\
of a publicly traded company faces \\
stronger pressure to make higher profits.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Greater pressure to make bigger profits. With investors wanting their investment to pay off, the management of a publicly traded company faces stronger pressure to make higher profits.

Question 25c of 25 ( 2 Initial public offering 227407)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
When a company goes public, it faces which of the following?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline A. & Hostile takeovers & \\
\hline \hline B. & Strengthened unions & \\
\hline \hline C. & Increased interest rates & \\
\hline \hline *D. & More government regulation & \begin{tabular}{l} 
Correct! A publicly traded company faces \\
government regulations regarding the \\
public-disclosure of its finances and \\
operations.
\end{tabular} \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: More government regulation. A publicly traded company faces government regulations regarding the publicdisclosure of its finances and operations.

Question 6a of \(\mathbf{1 0}\) ( 2 Types of goods 232407)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why is it necessary for the government to force people to pay taxes?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
People with high incomes don't want to pay \\
higher taxes.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Many people object to the transfer payments \\
that taxes cover.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Defense contracts charge the government high \\
prices to provide weapons.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
The public goods the government provides \\
suffer from a free-rider problem.
\end{tabular} & \begin{tabular}{l} 
Correct! The free market is incapable of \\
providing public goods because they are \\
non-excludable.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The public goods the government provides suffer from a free-rider problem. The free market is incapable of providing public goods because they are nonexcludable.

Question Type:
Maximum Score:
Question:

Multiple Choice
2
Why must public goods be provided by the government instead of the free market?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
Public goods are non-excludable, so they suffer \\
from a free-rider problem.
\end{tabular} & \begin{tabular}{l} 
Correct! Because public goods can be \\
enjoyed without paying and profit is \\
impossible, the free market fails to \\
provide them.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
Public goods provide security that is essential \\
to living a free life.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Public goods are desirable, so citizens demand \\
government action.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Public goods prevent foreign competition from \\
hurting domestic producers.
\end{tabular} & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Public goods are nonexcludable, so they suffer from a free-rider problem. Because public goods can be enjoyed without paying and profit is impossible, the free market fails to provide them.

\hline \hline & Global I ncorrect Feedback \\
\hline \hline & The correct answer is: Department of J ustice: \\
government agency; Corporation for Public \\
Broadcasting: government corporation; \\
Grumman Corporation: government contractor. \\
\hline
\end{tabular}

Question 10a of 10 ( 2 Government production 232419 )
\begin{tabular}{ll} 
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & What makes government contracts unique?
\end{tabular}
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & They involve competitive bidding. & \\
\hline \hline B. & They aren't part of the federal budget. & \\
\hline \hline C. & They are paid off with bonds instead of money. & \\
\hline \hline & & \begin{tabular}{l} 
Correct! Private businesses must comply \\
with the same obligations that govern all \\
government operations, including the \\
responsibility to maintain a drug-free \\
workplace and enforce non-discrimination \\
policies.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: They create obligations normally applied to government agencies. Private businesses must comply with the same obligations that govern all government operations, including the responsibility to maintain a drug-free workplace and enforce non-discrimination policies.

Question 10b of 10 ( 2 Government production 232420 )
```

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why does the government sometimes use no-bid contracts?

```
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline *A. & to protect national security & \begin{tabular}{l} 
Correct! Normally, government contracts \\
must be awarded in full and open \\
competition, but considerations of secrecy \\
and national security can override that \\
requirement.
\end{tabular} \\
\hline B. & to prevent fraud & \\
\hline \hline C. & to allow for a balanced budget & \\
\hline \hline D. & to avoid budget deficits & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: to protect national security. Normally, government contracts must be awarded in full and open competition, but considerations of secrecy and national security can override that requirement.

Question 10c of 10 ( 2 Government production 232421)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
In what situation would the government use a no-bid contract?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & to produce a public good & \\
\hline \hline B. & if tariff revenues are high & \\
\hline \hline *C. & in the case of an emergency & \begin{tabular}{l} 
Correct! Normally, government contracts \\
must be awarded in full and open \\
competition, but situations of compelling \\
urgency can override that requirement.
\end{tabular} \\
\hline \hline D. & when there's a budget surplus & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: in the case of an emergency. Normally, government contracts must be awarded in full and open competition, but situations of compelling urgency can override that requirement.

\section*{Quiz: The Government Is a Referee}

\section*{Question 1a of 10 ( 2 Unfair business practices 232473 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question: Why does the government need to regulate the free market to protect competition?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Competition by itself cannot make companies \\
efficient and innovative.
\end{tabular} & \\
\hline \hline *. & \begin{tabular}{l} 
Producers driven by the profit motive seek to \\
reduce their competition.
\end{tabular} & \begin{tabular}{l} 
Correct! Eliminating competition enables \\
producers to charge higher prices and \\
make greater profits.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
The government would always have a budget \\
surplus if it didn't protect competition.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Foreign producers are able to undersell \\
domestic producers and drive them out of \\
business.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Producers driven by the profit motive seek to reduce their competition. Eliminating competition enables producers to charge higher prices and make greater profits.

Question 1 b of 10 ( 2 Unfair business practices 232474 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these gives companies an anticompetitive impulse?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & efficiency & \\
\hline \hline B. & market research & \\
\hline \hline \multirow{2}{*}{.} & the profit motive & \begin{tabular}{l}

that are eventually passed along to \\
consumers in the form of higher prices.
\end{tabular} \\
*C. & passed on to the consumer & \\
\hline \hline D. & covered by transfer payments & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: passed on to the consumer. Complying with consumer-protection regulations costs producers money, which increases production costs that are eventually passed along to consumers in the form of higher prices.

Question 8b of \(\mathbf{1 0}\) ( 2 Consumer protection regulations 232495 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Who ultimately pays for compliance with government regulations?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & consumers & \begin{tabular}{l} 
lorrect! Complying with consumer- \\
protection regulations costs producers \\
money, which increases production costs \\
that are eventually passed along to \\
consumers in the form of higher prices.
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline B. & the government & \\
\hline \hline \(\mathbf{C .}\) & producers & \\
\hline \hline \(\mathbf{D .}\) & workers & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: consumers. Complying with consumer-protection regulations costs producers money, which increases production costs that are eventually passed along to consumers in the form of higher prices.

Question 8c of \(\mathbf{1 0}\) ( 2 Consumer protection regulations 232496 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is done with the costs of complying with consumer-protection regulations?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
eventually passed on to consumers in the form \\
of higher prices
\end{tabular} & \begin{tabular}{l} 
Correct! Complying with consumer- \\
regulations costs producers money, which \\
increases production costs that are \\
eventually passed along to consumers in \\
the form of higher prices.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
absorbed by producers who are forced to cut \\
into profits
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
reduced by transfer payments enabled by \\
revenue tariffs
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
shouldered by workers in the form of \\
decreased wages
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: eventually passed on to consumers in the form of higher prices.
Complying with consumer-protection regulations costs producers money, which increases production costs that are eventually passed along to consumers in the form of higher prices.

Question 9a of 10 (1 Federal budget 232497 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of these enables the government to make up for a budget
deficit?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & monetary policy & \\
\hline \hline B. & regressive taxation & \\
\hline \hline C. & defense contractors & \\
\hline \hline *D. & the bond market & \begin{tabular}{l} 
Correct! The government issues bonds to \\
cover the costs that exceed its revenues.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: the bond market. The government issues bonds to cover the costs that exceed its revenues.

Question 9b of 10 ( 1 Federal budget 232498 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: In order to make up for a budget deficit, the government can do what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & reduce tariffs & \\
\hline \hline *. & issue bonds & \begin{tabular}{l} 
Correct! The government gets money \\
from bondholders to cover the difference \\
between revenues and spending.
\end{tabular} \\
\hline C. & increase the money supply & \\
\hline \hline D. & start government corporations & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: issue bonds. The government gets money from bondholders to cover the difference between revenues and spending.

\section*{Question 9c of 10 ( 1 Federal budget 232499 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

When the government runs a budget deficit, what must it eventually do in order to pay back its debt?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Cut spending & \\
\hline
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline \hline B. & print more money & \\
\hline \hline \multirow{2}{*}{ C. } & have a budget surplus & \begin{tabular}{l} 
Correct! Budget deficits must eventually \\
be balanced by budget surpluses so that \\
the government can pay back those it \\
owes money to.
\end{tabular} \\
\hline D. & reduce regulations & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: have a budget surplus.
Budget deficits must eventually be balanced by budget surpluses so that the government can pay back those it owes money to.

Question 10a of 10 ( 3 Consumer protection regulations 232500 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: How do antitrust laws affect the circular flow of the free-market system?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & They increase the collection of taxes. & \\
\hline \hline B. & They slow the flow of investment. & \\
\hline \hline & & \begin{tabular}{l} 
Correct! Antitrust laws increase the \\
number of producers, providing a wider \\
channel for expenditures to flow.
\end{tabular} \\
\hline *. & They speed up the flow of capital and wages. & \\
\hline D. & They decrease consumption. & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: They speed up the flow of capital and wages. Antitrust laws increase the number of producers, providing a wider channel for expenditures to flow.

\end{tabular} \\
\hline D. & International trade & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Consumer confidence. When consumers know that they are protected, they have more confidence that the products they buy are safe and truthfully advertised.

Question 14c of 25 ( 2 Consumer protection regulations 233412 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: One drawback to consumer-protection regulations is that they lead to what?
\begin{tabular}{|c|c|c|}
\hline & Choice & Feedback \\
\hline * A. & Higher prices & Correct! Complying with consumerprotection regulations costs producers money, and they pass these costs along to consumers. \\
\hline B. & A recession & \\
\hline C. & More taxation & \\
\hline D. & A budget deficit & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Higher prices. Complying with consumer-regulations costs producers money, and they pass these costs along to consumers.

Question 15a of 25 (2 Consumer protection regulations 233413)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why do government regulations lead to higher prices for consumers?
\begin{tabular}{|l|l||l|}
\hline & Choice & Feedback \\
\hline \hline A. & Most regulations result in transfer payments. & \\
\hline \hline B. & Enforcement of these regulations raises taxes. & \\
\hline \hline C. & \begin{tabular}{l} 
Regulations have a diminishing marginal \\
utility.
\end{tabular} & \\
\hline
\end{tabular}

The costs of compliance are passed on to the consumer.

Correct! Complying with consumerprotection regulations costs producers money, which increases production costs that are eventually passed along to consumers in the form of higher prices.

Global I ncorrect Feedback
The correct answer is: The costs of compliance are passed on to the consumer. Complying with consumer-regulations costs producers money, which increases production costs that are eventually passed along to consumers in the form of higher prices.

that are eventually passed along to \\
consumers in the form of higher prices.
\end{tabular} \\
\hline B. & They limit the input of natural resources. & \\
\hline \hline C. & Wages reductions decrease purchasing power. & \\
\hline \hline D. & \begin{tabular}{l} 
Taxes must be raised to enforce these \\
regulations.
\end{tabular} & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Producers pass along the costs of compliance. Complying with consumerprotection regulations costs producers money, which increases production costs that are eventually passed along to consumers in the form of higher prices.

\section*{Question 15c of 25 ( 2 Consumer protection regulations 233415 )}

Maximum Attempts:
Question Type:
Maximum Score:
Question:

Multiple Choice
2
What does complying with consumer-protection regulations do?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Pushes investors away from the commodity \\
market
\end{tabular} & \\
\hline \hline *B. & Increases production costs and raises prices & \begin{tabular}{l} 
Correct! Complying with consumer- \\
protection regulations costs producers \\
money, which increases production costs \\
that are eventually passed along to \\
consumers in the form of higher prices.
\end{tabular} \\
\hline \hline C. & Leads to reduced wages and increased taxes & \\
\hline \hline D. & Requires a regressive system of taxation & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Increases production costs and raises prices. Complying with consumer-protection regulations costs producers money, which increases production costs that are eventually passed along to consumers in the form of higher prices.

Question 16a of 25 ( 2 Consumer protection regulations 233416 )
\begin{tabular}{ll} 
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & Consumer-protection regulations do not involve what?
\end{tabular}
\begin{tabular}{|c|c|c|}
\hline & Choice & Feedback \\
\hline A. & Government spending & \\
\hline B. & Government safety testing & \\
\hline * C. & Government censorship & Correct! The government censors to control the population, not to protect consumers. \\
\hline D. & Government oversight of the production & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Government censorship.
The government censors to control the population, not to protect consumers.

Question 16b of 25 ( 2 Consumer protection regulations 233417 )

Maximum Attempts: 1
Question Type:
Maximum Score:
Question:
2

Multiple Choice

Which of these is not necessary for the enforcement of consumer-
protection regulations?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Safety testing & \\
\hline \hline B. & Budget allocations & \\
\hline \hline\(*\) C. & Censorship & \begin{tabular}{l} 
Correct! The government censors to \\
control the population, not to protect \\
consumers.
\end{tabular} \\
\hline D. & Government agencies & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Censorship. The government censors to control the population, not to protect consumers.

Question 16c of 25 ( 2 Consumer protection regulations 233418 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is one thing the government must do to enforce consumerprotection regulations?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Create income tax brackets & \\
\hline \hline *. & Test new products for safety and effectiveness & \begin{tabular}{l} 
Correct! The government makes sure that \\
the products that are brought to market \\
are safe for consumers to use, and that \\
they do what they're supposed to do.
\end{tabular} \\
\hline \hline C. & Pass environmental-protection laws & \\
\hline \hline D. & Prevent cartels from limiting production levels & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Test new products for safety and effectiveness. The government makes sure that the products that are brought to market are safe for consumers to use, and that they do what they're supposed to do.

\end{tabular}

Question: Which of these is an example of a land-use law?
\begin{tabular}{|l||l|l|}
\hline & Choice & Feedback \\
\hline \hline *. & A residential zoning ordinance & \begin{tabular}{l} 
Correct! A zoning ordinance that restricts \\
owners from building anything but \\
residences is an example of a land-use \\
law.
\end{tabular} \\
\hline B. & A regulation against pollution & \\
\hline \hline C. & A law against children working in mines & \\
\hline \hline D. & A tax on the value of a house & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A residential zoning ordinance. A zoning ordinance that restricts owners from building anything but residences is an example of a land-use law.

Question 19c of 25 ( 3 Limiting economic choices 233427 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2

Question:
Which of these is an example of a trade restriction?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & A tax on all sales & \\
\hline \hline *B. & A tariff on imported cars & \begin{tabular}{l} 
Correct! Tariffs restrict trade by making it \\
more expensive to buy imported goods, \\
thus limiting imports.
\end{tabular} \\
\hline \hline C. & A zoning ordinance & \\
\hline \hline D. & A law against cartels & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: A tariff on imported cars. Tariffs restrict trade by making it more expensive to buy imported goods, thus limiting imports.

Question 20a of 25 ( 2 Limiting economic choices 233428)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
The government might enact a price ceiling in order to accomplish what?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Prevent rationing & \\
\hline \hline B. & Increase supply & \\
\hline \hline *. & Protect the poor & \begin{tabular}{l} 
Correct! By keeping prices to a certain \\
maximum, price ceilings guarantee that \\
certain basics are affordable to everyone.
\end{tabular} \\
\hline \hline D. & Get out of debt & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Protect the poor. By keeping prices to a certain maximum, price ceilings guarantee that certain basics are affordable to everyone.

Question 20b of 25 ( 2 Limiting economic choices 233429)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
The government might enact a price floor in order to accomplish what?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Increase demand & \\
\hline B. & Prevent a budget deficit & \\
\hline C. & Reduce the money supply & \\
\hline \hline *D. & Protect producers & \begin{tabular}{l} 
Correct! By guaranteeing a minimum \\
price for certain goods, producers are \\
protected from going out of business \\
because of lack of revenue.
\end{tabular} \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Protect producers. By guaranteeing a minimum price for certain goods, producers are protected from going out of business because of lack of revenue.

Question 20c of 25 ( 2 Limiting economic choices 233430)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

The government can prevent the shortages that accompany price ceilings by doing what?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & Rationing & \begin{tabular}{l} 
Correct! By rationing the goods with a \\
price ceiling, the government can make \\
sure that an adequate supply of that good \\
is assured for everyone.
\end{tabular} \\
\hline B. & Issuing bonds & \\
\hline \hline C. & Printing more money & \\
\hline \hline D. & Providing public goods & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Rationing. By rationing the goods with a price ceiling, the government can make sure that an adequate supply of that good is assured for everyone.

Question 21a of 25 ( 2 Limiting personal choices 233431)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
What is the purpose of freezing someone's assets?
\begin{tabular}{|l||l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & To reduce unemployment & \\
\hline \hline *B. & To reduce crime & \begin{tabular}{l} 
Correct! Freezing assets prevents \\
terrorists and criminals from accessing \\
their bank accounts, which limits their \\
criminal activities.
\end{tabular} \\
\hline \hline C. & To restrict trade & \\
\hline \hline D. & To pay off the national debt & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Reduce crime. Freezing assets prevents terrorists and criminals from accessing their bank accounts, which limits their criminal activities.

\section*{Quiz: It's a Small World}

\section*{Question 1a of 10 ( 1 Globalization 238732 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Globalization creates greater what?
\begin{tabular}{|l||l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Opportunities for monopolies and oligopolies to \\
form
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Incentives to use protective tariffs, subsidies, \\
and quotas
\end{tabular} & \\
\hline \hline\(*\) C. & \begin{tabular}{l} 
Interconnections among the people and \\
economies of the world
\end{tabular} & \begin{tabular}{l} 
Correct! Globalization is bringing the \\
countries of the world closer together.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Production and labor costs for producers in \\
developing countries
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Interconnections among the people and economies of the world.
Globalization is bringing the countries of the world closer together.

Question 1b of 10 ( 1 Globalization 238733 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

The increasing interconnectedness of peoples and countries around the world is known as what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & Globalization & \begin{tabular}{l} 
Correct! Globalization is bringing the \\
countries of the world closer together.
\end{tabular} \\
\hline B. & Rationalization & \\
\hline \hline C. & Specialization & \\
\hline \hline D. & Transportation & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Globalization.
Globalization is bringing the countries of the
world closer together.

Question 1c of 10 ( 1 Globalization 238734 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
The process of globalization involves an increase in what?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Wages for workers in developing countries & \\
\hline \hline B. & \begin{tabular}{l} 
The use of protective tariffs, subsidies, and \\
quotas
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Market concentration in manufacturing \\
industries
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
The mobility of goods, services, labor, and \\
capital
\end{tabular} & \begin{tabular}{l} 
lorrect! Globalization results in greater \\
and more free flows of economic goods \\
and services.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The mobility of goods, services, labor, and capital. Globalization results in greater and more free flows of economic goods and services.

\section*{Question 2a of 10 ( 2 Specialization 238735 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is required for specialization to take place?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Labor unions & \\
\hline \hline *B. & A division of labor & \begin{tabular}{l} 
Correct! Dividing up tasks allows workers \\
or countries to specialize in something \\
specific.
\end{tabular} \\
\hline C. & Globalization & \\
\hline \hline D. & International trade & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: A division of labor.
Dividing up tasks allows workers or countries to specialize in something specific.

Question 2b of \(\mathbf{1 0}\) ( 2 Specialization 238736 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: The division of labor among workers or countries enables what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & Specialization & \begin{tabular}{l} 
Correct! Dividing up tasks allows workers \\
or countries to specialize in something \\
specific.
\end{tabular} \\
\hline B. & Free trade & \\
\hline \hline C. & Consumption & \\
\hline \hline D. & Globalization & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Specialization. Dividing up tasks allows workers or countries to specialize in something specific.

Question 2c of 10 ( 2 Specialization 238737 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: When tasks in an economy are specialized, which of the following exists?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Trading bloc & \\
\hline \hline *. & Division of labor & \begin{tabular}{l} 
Correct! Dividing up tasks allows workers \\
or countries to specialize in something \\
specific.
\end{tabular} \\
\hline C. & Assembly line & \\
\hline \hline D. & Exchange regime & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Division of labor. Dividing up tasks allows workers or countries to specialize in something specific.

Question 3a of 10 ( 2 Specialization 238738)

Question 3 b of 10 ( 2 Specialization 238739)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What limits specialization in the global economy?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Infrastructure & \\
\hline \hline *B. & Trade barriers & \begin{tabular}{l} 
Correct! Protectionism requires countries \\
to provide more for themselves.
\end{tabular} \\
\hline C. & Multinational corporations & \\
\hline \hline D. & Different national currencies & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Trade barriers.
Protectionism requires countries to provide more for themselves.

Question 3c of \(\mathbf{1 0}\) ( 2 Specialization 238740 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Increasing specialization within the global economy depends on what?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline \(\boldsymbol{\Delta}\). & International trade & Correct! In order to specialize, countries \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline & & \begin{tabular}{l} 
need to trade with each other for the \\
goods and services they don't produce \\
themselves.
\end{tabular} \\
\hline B. & Trade barriers & \\
\hline C. & Favorable climate & \\
\hline \hline D. & Strict banking regulations & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: International trade. In order to specialize, countries need to trade with each other for the goods and services they don't produce themselves.

\section*{Question 4a of 10 ( 2 Specialization 238741 )}

\section*{Maximum Attempts: \\ 1}

Question Type: Multiple Choice
Maximum Score: 2
Question: When does one country have an absolute advantage over another country?
\begin{tabular}{|l|l||l|}
\hline & Choice & Feedback \\
\hline \hline A. & When its workers earn higher wages & \\
\hline B. & When its infrastructure is more advanced & \\
\hline \hline C. & When its government charges lower taxes & \\
\hline \hline *.D. & When its production costs are lower & \begin{tabular}{l} 
Correct! Absolute advantage comes when \\
a country has more efficient production.
\end{tabular} \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: When its production costs are lower. Absolute advantage comes when a country has more efficient production.

Question 4b of 10 ( 2 Specialization 238742 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: When does one country have a comparative advantage over another country?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & When its trade barriers are higher & \\
\hline \hline *B. & When the opportunity cost of its production is & Correct! Comparative advantage comes \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline & Iower & \begin{tabular}{l} 
when a country gives up less in order to \\
produce a particular good.
\end{tabular} \\
\hline \hline C. & When its infrastructure is more advanced & \\
\hline \hline D. & \begin{tabular}{l} 
When its workers don't need to be paid as \\
much
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: When the opportunity cost of its production is lower. Comparative advantage comes when a country gives up less in order to produce a particular good.
\begin{tabular}{ll} 
Question 4c of \(\mathbf{1 0}\) ( 2 Specialization 238743 ) \\
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & When might a country specialize in producing a particular good?
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
When it has high opportunity costs for \\
producing that good
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
When it has a well-developed productive \\
infrastructure
\end{tabular} & \\
\hline \hline\(*\) C. & \begin{tabular}{l} 
When it has an absolute advantage in \\
production of that good
\end{tabular} & \begin{tabular}{l} 
Correct! Having an advantage in \\
production makes it a good idea for a \\
country to specialize and export the good \\
to other countries.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
When its costs of transportation are \\
particularly low
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: When it has an absolute advantage in production of that good. Having an advantage in production makes it a good idea for a country to specialize and export the good to other countries.

\section*{Question 5a of 10 ( 1 Specialization 238744 )}

\section*{Question 6a of 10 ( 2 specialization 238747 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is one of the benefits of increasing economic interdependence?
\begin{tabular}{|l||l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Increased economic sovereignty & \\
\hline \hline\(* \mathbf{B .}\) & Greater economic growth & \begin{tabular}{l} 
Correct! Interdependence enables \\
specialization, which promotes growth
\end{tabular} \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline & & \begin{tabular}{l} 
because specialized production is more \\
efficient.
\end{tabular} \\
\hline \hline C. & Higher tax revenues for all governments & \\
\hline \hline D. & Improved protection for domestic producers & \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: Greater economic \\
growth. Interdependence enables specialization, \\
which promotes growth because specialized \\
production is more efficient. \\
\hline
\end{tabular}

\section*{Question 6b of 10 ( 2 Specialization 238748 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is one of the downsides of increasing economic interdependence?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Higher prices for goods and services & \\
\hline \hline B. & Reduced tax revenues for all governments & \\
\hline \hline\(*\) C. & Loss of control over the national economy & \begin{tabular}{l} 
Correct! Countries become subject to \\
global market forces when their \\
economies are interdependent.
\end{tabular} \\
\hline \hline D. & A lower standard of living around the world & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Loss of control over the national economy. Countries become subject to global market forces when their economies are interdependent.

\section*{Question 6c of 10 ( 2 Specialization 238749 )}

\section*{Maximum Attempts: 1}

Question Type: Multiple Choice
Maximum Score: 2
Question: What effect does increasing economic interdependence have on the countries of the world?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & \begin{tabular}{l} 
Growing international trade and rising \\
standards of living
\end{tabular} & \begin{tabular}{l} 
Correct! Interdependence enables \\
specialization, which leads to efficient \\
trade and economic growth that drives up \\
standards of living.
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline B. & Greater power for international organizations & \\
\hline \hline C. & \begin{tabular}{l} 
Trade wars and the increase of protective \\
trade policies
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
A loss of comparative advantage for developed \\
countries
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Growing international trade and rising standards of living.
Interdependence enables specialization, which leads to efficient trade and economic growth that drives up standards of living.

\section*{Question 7a of \(\mathbf{1 0}\) ( 2 Global patterns 238750 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following was not an economic effect of colonization?
\begin{tabular}{|l||l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Greater trade restrictions & \\
\hline \hline B. & A one-way flow of wealth & \\
\hline \hline \multirow{2}{*}{ C. } & Global economic development & \begin{tabular}{l} 
Correct! Because of trade restrictions and \\
underdevelopment, colonization did not \\
lead to overall global development.
\end{tabular} \\
\hline \hline D. & Privileged access to colonial markets & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Global economic development. Because of trade restrictions and underdevelopment, colonization did not lead to overall global development.

Question 7b of \(\mathbf{1 0}\) (2 Global patterns 238751)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: During the period of colonization, developed countries did what?
\begin{tabular}{|l||l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Raised the standard of living worldwide & \\
\hline \hline B. & Helped their colonies build their infrastructure & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline\(* \mathbf{C}\). & Extracted resources from their colonies & \begin{tabular}{l} 
Correct! Colonization involved a one-way \\
flow of wealth from colonies to colonizers.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Lowered trade barriers to promote economic \\
growth
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Extracted resources from their colonies. Colonization involved a one-way flow of wealth from colonies to colonizers.

Question 7c of \(\mathbf{1 0}\) ( 2 Global patterns 238752 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What was the relationship between colonizing countries and their colonies?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The colonizers provided a market for goods \\
produced in their colonies.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
The colonizers used the resources of their \\
colonies to grow their own economies.
\end{tabular} & \begin{tabular}{l} 
Correct! Colonization involved a one-way \\
flow of wealth from colonies to colonizers.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
The colonizers exchanged investment capital \\
for luxury goods from their colonies.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The colonizers helped their colonies build their \\
infrastructure to foster economic \\
independence.
\end{tabular} & \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: The colonizers used the \\
resources of their colonies to grow their own \\
economies. Colonization involved a one-way \\
flow of wealth from colonies to colonizers. \\
\hline
\end{tabular}

Question 8a of \(\mathbf{1 0}\) ( 1 Global patterns 238753)

\section*{Maximum Attempts: 1}

Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following does not promote greater international trade?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & The reduction of trade barriers & \\
\hline \hline B. & Improvements in communication & \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline\(*\) C. & Higher tax and tariff levels & \begin{tabular}{l} 
Correct! Trade restrictions lead to reduced \\
international trade because trade has \\
higher costs when there are high taxes \\
and tariffs.
\end{tabular} \\
\hline D. & The development of infrastructure & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Higher tax and tariff levels. Trade restrictions lead to reduced international trade because trade has higher costs when there are high taxes and tariffs.

Question 8b of \(\mathbf{1 0}\) ( 1 Global patterns 238754 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of the following does not promote increased international trade and economic growth?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Industrialization & \\
\hline \hline B. & Trade liberalization & \\
\hline \hline C. & Technological improvements & \\
\hline \hline & & \begin{tabular}{l} 
Correct! Trade restrictions lead to reduced \\
international trade because trade has \\
higher costs when there are high taxes \\
and tariffs.
\end{tabular} \\
\hline D. & High tariffs & \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: High tariffs. Trade \\
restrictions lead to reduced international trade \\
because trade has higher costs when there are \\
high taxes and tariffs. \\
\hline
\end{tabular}

Question 8c of \(\mathbf{1 0}\) ( 1 Global patterns 238755 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is an important factor promoting increased international trade?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & The reduction of trade barriers & \begin{tabular}{l} 
Correct! Reducing tariffs, quotas, and \\
subsidies promotes international trade
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l||l|l|}
\hline & & \begin{tabular}{l} 
because the costs of trade are reduced \\
when trade barriers are taken down.
\end{tabular} \\
\hline B. & The decrease of workers' wages & \\
\hline \hline C. & \begin{tabular}{l} 
The regulation of the international banking \\
system
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The comparative advantage of developed \\
countries
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The reduction of trade barriers. Reducing tariffs, quotas, and subsidies promotes international trade because the costs of trade are reduced when trade barriers are taken down.

Question 9a of \(\mathbf{1 0}\) ( 3 Global patterns 238756)
Maximum Attempts: 1
Question Type: Matching
Maximum Score: 2
Question:
Match each current trend in the global economy with one of its economic effects.
\begin{tabular}{|l|l|c|l|}
\hline & Choice Text & \begin{tabular}{c} 
Correct \\
Match
\end{tabular} & Match Text \\
\hline & A. Increased communication & B. & Greater mobility of goods and labor \\
\hline & B. Trade liberalization & D. & Economic growth in developing countries \\
\hline C. Infrastructure development & C. & Improved production and transportation \\
\hline D. Industrialization & A. & Outsourcing in the high-tech industry \\
\hline
\end{tabular}

The correct answer is: Improved \\
communication: Facilitates international \\
business and trade. Reduction of trade barriers: \\
Allows for a greater mobility of goods and labor. \\
Development of infrastructure: Reduces \\
production and transportation costs.
\end{tabular} \\
& \begin{tabular}{l} 
Industrialization: Enables economic growth in \\
developing countries.
\end{tabular} \\
\hline
\end{tabular}

Question 10a of 10 ( 2 Global patterns 238759 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
What is one negative effect of current patterns in global trade?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Lower production costs in developing countries & \\
\hline \hline B. & Reduced prices for goods and services & \\
\hline \hline C. & Slow economic growth worldwide & \\
\hline \hline & Job loss and wage decreases in developed \\
Countries
\end{tabular}\(\quad\)\begin{tabular}{l} 
Correct! Developed countries are losing \\
jobs to countries where wages and other \\
production costs are lower.
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Job loss and wage decreases in developed countries. Developed countries are losing jobs to countries where wages and other production costs are lower.

\section*{Question 10b of 10 ( 2 Global patterns 238760 )}
\begin{tabular}{ll} 
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & What is one of the drawbacks to globalization?
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Developing countries are industrializing and \\
improving infrastructure at a rapid rate.
\end{tabular} & \\
\hline \hline\(* \mathbf{B}\). & Countries and businesses must reduce wages & Correct! International competition for \\
\hline \hline
\end{tabular}
\(\left.\begin{array}{|l|l|l|}\hline \hline & \text { paid to workers in order to attract foreign } \\ \text { investment. }\end{array} \quad \begin{array}{l}\text { investment puts countries into the } \\ \text { position of having to offer the lowest } \\ \text { possible production costs, particularly } \\ \text { wages, to lure producers into their } \\ \text { economy. }\end{array}\right\}\)

> \begin{tabular}{|l} \hline Global I ncorrect Feedback \\ \hline \hline The correct answer is: Countries and businesses \\ must reduce wages paid to workers in order to \\ attract foreign investment. International \\ competition for investment puts countries into \\ the position of having to offer the lowest \\ possible production costs, particularly wages, to \\ lure producers into their economy. \\ \hline \end{tabular}

Question 10c of 10 ( 2 Global patterns 238761 )

Maximum Attempts: 1
Question Type: Multiple Choice

Maximum Score: 2
Question:
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Wealth is concentrated in developed countries. & \\
\hline \hline B. & \begin{tabular}{l} 
Economic growth in developing countries is \\
slowing.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Jobs are moved from developed to developing \\
countries.
\end{tabular} & \\
\hline \hline \multirow{2}{|l|}{} & & \begin{tabular}{l} 
Consumers pay lower prices for goods and \\
services.
\end{tabular} \\
\begin{tabular}{l} 
lower production costs, particularly \\
because of reduced wages that result \\
from international competition for \\
investment, and those lower costs are \\
passed on to the consumer in the form of \\
lower prices.
\end{tabular} \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Consumers pay lower prices for goods and services. Globalization has resulted in lower production costs, particularly because of reduced wages that result from international competition for investment, and those lower costs are passed on to the
consumer in the form of lower prices.

\section*{Quiz: The Challenges of Globalization}

\section*{Question 1a of \(\mathbf{1 0}\) ( 2 Effects of Globalization 239237 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question: Which of the following is not a hazard of globalization?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Unequal economic development & \\
\hline \hline B. & Environmental damage & \\
\hline \hline C. & Exploitation of workers & \\
\hline \hline *D. & Increased prices & \begin{tabular}{l} 
Correct! Globalization tends to lead to \\
lower prices as international competition \\
drives countries to offer lower production \\
costs to lure investment.
\end{tabular} \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Increased prices.
Globalization tends to lead to lower prices as international competition drives countries to offer lower production costs to lure investment.

Question 1 b of 10 ( 2 Effects of Globalization 239238 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Globalization can lead to radically unequal economic growth because of what?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline A. & Cultural and political disruptions & \\
\hline B. & The mobility of investment capital & \\
\hline \hline C. & A lack of world economic government & \\
\hline \hline *D. & An unequal distribution of economic power & \begin{tabular}{l} 
Correct! Economic growth is easier for \\
countries that already have advanced \\
economies and well-established \\
infrastructure and industrial capacity.
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline The correct answer is: An unequal distribution \\
\hline
\end{tabular}
of economic power. Economic growth is easier for countries that already have advanced economies and well-established infrastructure and industrial capacity.

\section*{Question 1c of 10 ( 2 Effects of Globalization 239239 )}

Maximum Attempts: 1
Question Type: Multiple Choice

Maximum Score: 2
Question: Why do globalization and increasing interdependence pose risks to the global economy?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *A. & \begin{tabular}{l} 
Disruptions in one place have effects \\
everywhere.
\end{tabular} & \begin{tabular}{l} 
Correct! Globalization brings \\
interdependence, which makes countries \\
mutually vulnerable to economic \\
problems.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
There is no consistent set of international \\
regulations.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Worldwide competition leads to market \\
concentration.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Global production cannot be as efficient as \\
national production.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Disruptions in one place have effects everywhere. Globalization brings interdependence, which makes countries mutually vulnerable to economic problems.

Question 2a of \(\mathbf{1 0}\) ( 2 Effects of Globalization 239240 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of these has occurred during the most recent period of globalization?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & \begin{tabular}{l} 
The income gap between rich and poor \\
countries has widened.
\end{tabular} & \begin{tabular}{l} 
Correct! The benefits of globalization are \\
disproportionately going to the developed \\
countries with the well-established \\
infrastructure and industrial capacities \\
needed to take advantage of increasing \\
international trade.
\end{tabular} \\
\hline \hline B. & Currency instability has led to a slowdown of & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline & international trade. & \\
\hline \hline C. & \begin{tabular}{l} 
Developed countries have extracted natural \\
resources from colonies.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
More trade wars have flared up because of the \\
increasing use of protective tariffs.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The income gap between rich and poor countries has widened. The benefits of globalization are disproportionately going to the developed countries with the wellestablished infrastructure and industrial capacities needed to take advantage of increasing international trade.

Question 2b of 10 ( 2 Effects of Globalization 239241 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is one of the negative effects of globalization?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
A slowdown of growth in high technology \\
industries
\end{tabular} & \\
\hline \hline *. & \begin{tabular}{l} 
An increasing income gap between rich and \\
poor countries
\end{tabular} & \begin{tabular}{l} 
Correct! The benefits of globalization are \\
disproportionately going to the developed \\
countries with the well-established \\
infrastructure and industrial capacities \\
needed to take advantage of increasing \\
international trade.
\end{tabular} \\
\hline C. & \begin{tabular}{l} 
Underdeveloped countries losing jobs to \\
developed countries
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Runaway inflation undermining purchasing \\
power in developed countries
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: An increasing income gap between rich and poor countries. The benefits of globalization are disproportionately going to the developed countries with the well-established infrastructure and industrial capacities needed to take advantage of increasing international trade.

\section*{Question 2c of \(\mathbf{1 0}\) ( 2 Effects of Globalization 239242 )}

Question Type:
Maximum Score:
Question:

Multiple Choice
2
The most recent period of globalization increased the global GDP at the same time it did what else?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Reduced both prices and wages & \\
\hline \hline B. & Led to smaller profits for businesses & \\
\hline \hline C. & \begin{tabular}{l} 
Led to runaway unemployment in developed \\
countries
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
Widened the income gap between rich and \\
poor countries
\end{tabular} & \begin{tabular}{l} 
Correct! The benefits of globalization are \\
disproportionately going to the developed \\
countries with the well-established \\
infrastructure and industrial capacities \\
needed to take advantage of increasing \\
international trade.
\end{tabular} \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Widened the income gap between rich and poor countries. The benefits of globalization are disproportionately going to the developed countries with the well-established infrastructure and industrial capacities needed to take advantage of increasing international trade.

Question 3a of \(\mathbf{1 0}\) ( 2 Country Developement 239243 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following characterizes developing countries?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Rich natural resources & \\
\hline \hline B. & Rapid economic growth & \\
\hline \hline C. & High-tech infrastructure & \\
\hline \hline *D. & A low standard of living & \begin{tabular}{l} 
Correct! People in developing countries \\
have low incomes compared to people in \\
developed countries.
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l|}

\hline \hline The correct answer is: A low standard of living. \\
People in developing countries have low \\
incomes compared to people in developed \\
countries. \\
\hline
\end{tabular}

Question 3b of 10 ( 2 Country Developement 239244 )

\section*{Maximum Attempts: \\ 1}

Question Type: Multiple Choice
Maximum Score:
2
Question: What is the main difference between developed countries and developing countries?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline A. & The rate of economic growth & \\
\hline B. & The amount of natural resources & \\
\hline \hline\(*\) C. & The income level and standard of living & \begin{tabular}{l} 
Correct! People in developing countries \\
have less purchasing power than people \\
in developed countries.
\end{tabular} \\
\hline \hline D. & The level of tariffs and subsidies & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The income level and standard of living. People in developing countries have less purchasing power than people in developed countries.

\section*{Question 3c of 10 ( 2 Country Developement 239245 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is the largest difference between developed and developing countries?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & The average lifespan & \\
\hline \hline\(* \mathbf{B}\). & The level of wealth & \begin{tabular}{l} 
Correct! People in developing countries \\
have less purchasing power than people \\
in developed countries.
\end{tabular} \\
\hline \hline C. & The type of industries & \\
\hline \hline D. & The amount of natural resources & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The level of wealth.
People in developing countries have less
purchasing power than people in developed countries.

Question 4a of 10 ( 2 Country Developement 239246)

Maximum Attempts:
Question Type:
Maximum Score:
Question:
\begin{tabular}{|l||l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & They are shifting to industrial production. & \\
\hline \hline B. & They are enacting protective trade policies. & \\
\hline \hline & & \begin{tabular}{l} 
Correct! Many countries are too \\

opportunities presented by increasing \\
international trade.
\end{tabular} \\
\hline C. & They are left on the margins of globalization. \\
\hline \hline D. & \begin{tabular}{l} 
They are experiencing increasing economic \\
growth rates.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: They are left on the margins of globalization. Many countries are too underdeveloped to take advantage of the opportunities presented by increasing international trade.

Question 4b of 10 ( 2 Country Developement 239247 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which two countries are the biggest and most successful of the "new globalizers"?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Iran and Iraq & \\
\hline \hline *B. & China and India & \begin{tabular}{l} 
Correct! China and India are rapidly \\
developing and taking advantage of the \\
opportunities presented by increasing \\
international trade.
\end{tabular} \\
\hline C. & Japan and Germany & \\
\hline \hline D. & The United States and Canada & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: China and India. China and India are rapidly developing and taking advantage of the opportunities presented by increasing international trade.

\section*{Question 4c of 10 ( 2 Country Developement 239248 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question: What has happened recently in the group of countries known as the "new globalizers"?
\begin{tabular}{|c|c|c|}
\hline & Choice & Feedback \\
\hline A. & There has been a slowdown in economic growth rates. & \\
\hline B. & There has been an increase in both wealth and poverty. & \\
\hline * C. & There has been a dramatic increase in international trade. & Correct! Countries like China and India are rapidly developing and taking advantage of the opportunities presented by increasing international trade. \\
\hline D. & There has been a big loss of jobs to underdeveloped countries. & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: There has been a dramatic increase in international trade. Countries like China and India are rapidly developing and taking advantage of the opportunities presented by increasing international trade.

Question 5a of 10 ( 2 Country Developement 239249 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
What is the main reason why some developing countries fear the increase of free-trade policies around the world?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
Their industries are too weak to compete with \\
foreign competitors.
\end{tabular} & \begin{tabular}{l} 
Correct! Developing countries have little \\

developed countries. \\
\hline
\end{tabular}

\section*{Question 5b of 10 ( 2 Country Developement 239250 )}

Maximum Attempts:
Question Type:
Maximum Score:
Question:

Multiple Choice
2
Why have many developing countries failed to benefit from the spread of free trade around the world?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Developing countries don't possess the natural \\
resources needed to fuel industrial production.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Developing countries owe so much debt that \\
their governments aren't able to invest in \\
infrastructure improvement.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Developed countries have stopped giving large \\
amounts of foreign aid at the same time that \\
trade barriers have come down.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
Developed countries continue to maintain high \\
tariffs on the agricultural goods that \\
developing countries export in large numbers.
\end{tabular} & \begin{tabular}{l} 
Correct! While free-trade policies are the \\
norm for global trade, the agricultural \\
industry is a major exception to this \\
trend.
\end{tabular} \\
\hline
\end{tabular}

> Global I ncorrect Feedback
> The correct answer is: Developed countries continue to maintain high tariffs on the agricultural goods that developing countries export in large numbers. While free-trade policies are the norm for global trade, the agricultural industry is a major exception to this trend.

\section*{Question 5c of \(\mathbf{1 0}\) ( 2 Country Developement 239251 )}

\section*{Maximum Attempts: 1}

Question Type: Multiple Choice
Maximum Score: 2
Question:
How do developed countries maintain an advantage over developing countries in international trade?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
They invest large amounts of money in high- \\
technology productive processes.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
They reduce their levels of foreign aid as \\
developing countries lower their trade barriers.
\end{tabular} & \\
\hline \hline *C. & \begin{tabular}{l} 
They maintain high tariffs on the agricultural \\
goods that many developing countries export.
\end{tabular} & \begin{tabular}{l} 
Correct! While free-trade policies are the \\
norm for global trade, the agricultural \\
industry is a major exception to this \\
trend.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
They use trade embargoes to prevent \\
developing countries from exporting \\
manufactured goods.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: They maintain high tariffs on the agricultural goods that many developing countries export. While free-trade policies are the norm for global trade, the agricultural industry is a major exception to this trend.

Question 6a of \(\mathbf{1 0}\) ( 1 Effects of Globalization 239252 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Globalization has increased which of the following throughout the world?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Trade sanctions & \\
\hline \hline\(* \mathbf{B .}\) & The migration of workers & \begin{tabular}{l} 
Correct! Globalization increases the flow \\
of all factors of production, labor, \\
investment, and natural resources.
\end{tabular} \\
\hline C. & Environmental regulations & \\
\hline \hline D. & The use of renewable energies & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: The migration of workers. Globalization increases the flow of all factors of production, labor, investment, and natural resources.

Question 6b of 10 ( 1 Effects of Globalization 239253 )

\section*{Maximum Attempts: 1}

Question Type: Multiple Choice

Maximum Score:
Question:

2
What has contributed to the increase in labor migration during the recent period of globalization?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The WTO has succeeded in eliminating many \\
immigration laws.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
The number of repressive governments has \\
decreased drastically.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Companies are investing in countries that have \\
favorable labor laws.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
Workers are going to developed countries in \\
search of better-paying jobs.
\end{tabular} & \begin{tabular}{l} 
Correct! Globalization increases the \\
mobility of all factors of production, \\
including labor.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Workers are going to developed countries in search of better-paying jobs. Globalization increases the mobility of all factors of production, including labor.

\section*{Question 6c of 10 ( 1 Effects of Globalization 239254 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is happening in the information technology sector of the global economy?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *A. & \begin{tabular}{l} 
Many information technology jobs are shifting \\
from developed countries to the new \\
globalizers.
\end{tabular} & \begin{tabular}{l} 
lorrect! Globalization increases the \\
mobility of all factors of production, \\
including labor.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
Automation has reduced the total number of \\
information technology jobs worldwide.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Wages for information technology jobs are \\
increasing faster than in other industries.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The use of scarce natural resources has \\
accelerated the pace of technological \\
development.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Many information technology jobs are shifting from developed countries to the new globalizers. Globalization increases the mobility of all factors of production, including labor.

Question 7a of 10 ( 2 Effects of Globalization 239255 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why does globalization contribute to the rise of international terrorism?
\begin{tabular}{|l||l||l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Globalization has enabled terrorists to raise \\
more money to support their activities.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Globalization has created new environmental \\
problems that threaten millions of lives.
\end{tabular} & \\
\hline \hline *. & \begin{tabular}{l} 
Globalization has resulted in turmoil and \\
dislocation for many people around the world.
\end{tabular} & \begin{tabular}{l} 
Correct! The downsides of globalization \\
are felt by many people who often have \\
nowhere to turn other than violence.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Globalization has made governments weaker \\
and less able to pursue a national security \\
strategy.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Globalization has resulted in turmoil and dislocation for many people around the world. The downsides of globalization are felt by many people who often have nowhere to turn other than violence.

\section*{Question 7b of \(\mathbf{1 0}\) ( 2 Effects of Globalization 239256 )}

\section*{Maximum Attempts: 1}

Question Type: Multiple Choice
Maximum Score: 2
Question: Why has globalization enabled countries that abuse human rights to continue to do so?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
New technologies enable repressive \\
governments to censor the news more \\
effectively.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Companies taking advantage of low labor costs \\
don't make trouble for repressive \\
governments.
\end{tabular} & \begin{tabular}{l} 
Correct! Companies are more interested \\
in profits than in human rights, so they \\
generally don't have a problem with the \\
style of a government as long as the \\
investment climate is safe and production \\
costs are low.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
The lack of a world government makes it \\
problematic to define universal norms of \\
human rights.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Companies taking advantage of low labor costs don't make trouble for repressive governments. Companies are more interested in profits than in human rights, so they generally don't have a problem with the style of a government as long as the investment climate is safe and production costs are low.

Question 7c of 10 ( 2 Effects of Globalization 239257 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why has globalization resulted in increasing environmental damage around the world?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Improvements in technology have enabled \\
companies to introduce more efficient \\
productive processes.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Companies are able to benefit from lower labor \\
costs that enable them to use natural \\
resources more efficiently.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Weak governments are less and less able to \\
enforce the environmental regulations that \\
protect against pollution.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
The profit motive drives companies that are \\
competing in the global marketplace to exploit \\
natural resources.
\end{tabular} & \begin{tabular}{l} 
Correct! Increasing international \\
competition means that producers must \\
be as efficient as possible, and protecting \\
the environment involves extra costs that \\
many producers can't shoulder without
\end{tabular} \\
losing business.
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The profit motive drives companies that are competing in the global marketplace to exploit natural resources. Increasing international competition means that producers must be as efficient as possible, and protecting the environment involves extra costs that many producers can't shoulder without losing business.

Question 9a of \(\mathbf{1 0}\) ( 2 Effects of Globalization 239261 )
Maximum Attempts: 1
Question Type: Multiple Choice

Maximum Score:
Question:
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Some foreign countries have better working \\
conditions.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Cheap imports can force U.S. companies out of \\
business.
\end{tabular} & \begin{tabular}{l} 
Correct! Lower labor costs in foreign \\
countries enable foreign producers to \\
export inexpensive products to the United \\
States.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
Other countries have more advanced \\
technologies in their textile mills.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
U.S. textile companies can make more money \\
insourcing jobs to foreign countries.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Cheap imports can force U.S. companies out of business. Lower labor costs in foreign countries enable foreign producers to export inexpensive products to the United States.

Question 9b of \(\mathbf{1 0}\) ( 2 Effects of Globalization 239262 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is most directly responsible for job loss in the United States?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & The trade deficit & \\
\hline \hline B. & Protective tariffs & \\
\hline \hline C. & Foreign investment & \begin{tabular}{l} 
Correct! Lower labor costs in foreign \\
countries enable foreign producers to \\
export inexpensive products to the United \\
States.
\end{tabular} \\
\hline \hline *D. & Cheap imported goods & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Cheap imported goods. Lower labor costs in foreign countries enable foreign producers to export inexpensive products to the United States.
```

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why do lower labor costs in other countries lead to job loss in the
United States?

```
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Lower labor costs allow foreign producers to \\
make higher profits.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
Lower labor costs enable producers to export \\
inexpensive products to the United States.
\end{tabular} & \begin{tabular}{l} 
Correct! Lower labor costs enable foreign \\
producers to send cheap exports to the \\
United States, underselling U.S. \\
producers.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
Lower labor costs provide an incentive for \\
workers to migrate to foreign countries.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Lower labor costs give foreign producers an \\
incentive to insource their production.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Lower labor costs enable producers to export inexpensive products to the United States. Lower labor costs enable foreign producers to send cheap exports to the United States, underselling U.S. producers.

Question 10a of 10 ( 2 Effects of Globalization 239264 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
How do people in the United States benefit from globalization?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Economic growth & \begin{tabular}{l} 
Correct! Because the United States has \\
such a powerful economy and well- \\
developed productive capacity, it is in a \\
good position to take advantage of the \\
opportunities presented by increased \\
international trade.
\end{tabular} \\
\hline B. & Wage increases & \\
\hline \hline C. & Greater exports & \\
\hline \hline D. & Job security & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Economic growth.
Because the United States has such a powerful
economy and well-developed productive
capacity, it is in a good position to take advantage of the opportunities presented by increased international trade.

Question 10b of 10 ( 2 Effects of Globalization 239265 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: How does globalization hurt the United States economy?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & By bringing wage reductions & \begin{tabular}{l} 
Correct! Lower labor costs abroad force \\
workers in the United States to accept \\
wage cuts if they don't want to lose their \\
jobs to offshoring or outsourcing.
\end{tabular} \\
\hline B. & By leading to tariff reductions & \\
\hline \hline C. & By increasing international trade & \\
\hline \hline D. & By increasing foreign investment & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: By bringing wage reductions. Lower labor costs abroad force workers in the United States to accept wage cuts if they don't want to lose their jobs to offshoring or outsourcing.

\hline \hline D. & All of the above & \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: Increased security \\
\hline
\end{tabular}
> concerns. Globalization can bring both terrorism and foreign ownership of critical infrastructure.

\section*{Test (CS): The Global Game Board}

Question 1a of 25 ( 2 Global Economy Terms 239268 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: In order for a country to specialize its production, what must there be?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & A global economy & \\
\hline \hline B. & A free-market system & \\
\hline \hline C. & Government subsidies & \\
\hline \hline & & \begin{tabular}{l} 
Correct. Specialization can exist when \\
production is divided among different \\
countries.
\end{tabular} \\
\hline *. & An international division of labor & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: An international division of labor. Specialization can exist when production is divided among different countries.

Question 1b of 25 ( 2 Global Economy Terms 239269 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
The existence of an international division of labor among countries enables those countries to have what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline A. & A gross domestic product & \\
\hline \hline B. & Social welfare programs & \\
\hline \hline *. & Specialized production & \begin{tabular}{l} 
Correct. Specialization can exist when \\
production is divided among different \\
countries.
\end{tabular} \\
\hline D. & Protectionist policies & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Specialized production. Specialization can exist when production is divided among different countries.

Question 1c of 25 ( 2 Global Economy Terms 239270 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: The global economy can have specialized production because of what?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Trade sanctions & \\
\hline \hline B. & World Bank loans & \\
\hline \hline C. & The free-market system & \\
\hline \hline *D. & The international division of labor & \begin{tabular}{l} 
Correct. Specialization can exist when \\
production is divided among different \\
countries.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The international division of labor. Specialization can exist when production is divided among different countries.

Question 2a of 25 ( 3 Global Economy Terms 239271 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Country X would have an absolute advantage over Country Y in the production of automobiles under what conditions?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Country X's workers earn higher wages. & \\
\hline \hline B. & Country Y subsidizes its automobile industry. & \\
\hline \hline *C. & Country X can manufacture cars more cheaply. & \begin{tabular}{l} 
Correct. Absolute advantage comes when \\
a country has more efficient production.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Country Y has a protective tariff on car \\
imports.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Country X can manufacture cars more cheaply. Absolute advantage comes when a country has more efficient production.

\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
International trade leads to trade wars that \\
require countries to increase their productive \\
capabilities.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
International trade results in a gain of \\
comparative advantage for developing \\
countries.
\end{tabular} & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: International trade enables specialization, which brings increased efficiency and greater competition. Efficiency and competition drive up the standard of living because prices are pushed down along with production costs, enabling consumers to buy more.

\section*{Question 5a of 25 ( 2 Global Economy Terms 239280 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Which of these best characterizes the flow of wealth during the period of colonization?
\begin{tabular}{|l||l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
There was a one- way flow of investment from \\
Europe to Asia.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
There was uneven industrialization in favor of \\
the underdeveloped colonies.
\end{tabular} & \\
\hline \hline *. & \begin{tabular}{l} 
There was a one-way flow of wealth from the \\
colonies to their colonial masters.
\end{tabular} & \begin{tabular}{l} 
Correct. Colonizers extracted resources \\
and wealth from their colonies to their \\
own exclusive benefit.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
There was mutual benefit from the flow of \\
goods back and forth between colonies and \\
their colonizers.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: There was a one-way flow of wealth from the colonies to their colonial masters. Colonizers extracted resources and wealth from their colonies to their own exclusive benefit.

\section*{Question 5b of 25 ( 2 Global Economy Terms 239281 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What was the result of developed countries extracting resources from their colonies?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
There was a one-way flow of wealth favoring \\
the colonizers.
\end{tabular} & \begin{tabular}{l} 
Correct. Colonizers extracted resources \\
and wealth from their colonies to their \\
own exclusive benefit.
\end{tabular} \\
\hline B. & \begin{tabular}{l} 
Developed countries lost jobs to the colonies \\
because labor was cheaper there.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The colonizers used these resources to help \\
the colonies build their infrastructure.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Trade wars began among the colonies to \\
attract investment from developed countries.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: There was a one-way flow of wealth favoring the colonizers. Colonizers extracted resources and wealth from their colonies to their own exclusive benefit.

Question 5c of 25 ( 2 Global Economy Terms 239282)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: How did the colonizers benefit from the colonies they controlled?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Workers in the colonizing countries were able \\
to push for higher wages.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
The colonizers used the resources of their \\
colonies to grow their own economies.
\end{tabular} & \begin{tabular}{l} 
Correct. Colonizers extracted resources \\
and wealth from their colonies to their \\
own exclusive benefit.
\end{tabular} \\
\hline C. & \begin{tabular}{l} 
Luxury goods manufactured in the colonies \\
brought tariff revenues to the colonizers.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The revenues generated from running colonies \\
helped the colonizers lower their tariffs.
\end{tabular} & \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: The colonizers used the \\
\hline
\end{tabular}
resources of their colonies to grow their own economies. Colonizers extracted resources and wealth from their colonies to their own exclusive benefit.

\section*{Question 6a of 25 ( 1 Global Economy Terms 239283)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why do high tariff levels restrict international trade?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
There is a decreasing marginal return on sales \\
when tariff levels are high.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
It is more difficult to protect domestic \\
producers when there are high tariffs.
\end{tabular} & \\
\hline \hline\(*\) C. & \begin{tabular}{l} 
Traded goods cost more when there are high \\
tariffs, and this limits their sale.
\end{tabular} & \begin{tabular}{l} 
Correct. The higher prices for goods that \\
have tariffs attached to them leads to \\
reduced sales and less trade.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
High tariff levels make it difficult for countries \\
to enforce consumer-protection regulations.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Traded goods cost more when there are high tariffs, and this limits their sale. The higher prices for goods that have tariffs attached to them leads to reduced sales and less trade.

\section*{Question 6b of 25 (1 Global Economy Terms 239284 )}

\section*{Maximum Attempts: \\ 1}

Question Type: Multiple Choice
Maximum Score: 2
Question:
Why do protective tariffs lead to reduced international trade?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
There is a decreasing marginal return on sales \\
when imports are protected.
\end{tabular} & \\
\hline \hline\(*\) B. & \begin{tabular}{l} 
Protective tariffs increase the price of goods \\
and limit the sale of those goods.
\end{tabular} & \begin{tabular}{l} 
Correct. The higher prices for goods that \\
have tariffs attached to them leads to \\
reduced sales and less trade.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
Other countries usually respond to protective \\
tariffs with boycotts and embargoes.
\end{tabular} & \\
\hline \hline D. & Domestic producers have less incentive to & \\
\hline
\end{tabular}
increase production when they're protected.
Global I ncorrect Feedback
The correct answer is: Protective tariffs increase the price of goods and limit the sale of those goods. The higher prices for goods that have tariffs attached to them leads to reduced sales and less trade.

Question 6c of 25 ( 1 Global Economy Terms 239285 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why does reducing trade barriers promote increased international trade?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
Free trade leads to lower prices and greater \\
sales.
\end{tabular} & \begin{tabular}{l} 
Correct. The higher prices for goods that \\
have tariffs attached to them leads to \\
reduced sales and less trade, so reducing \\
those tariffs increases sales and creates \\
incentives for trade.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
The reduction of tariffs also lowers workers' \\
wages.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The loss of subsidies causes businesses to \\
increase profits.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The free market gives domestic producers an \\
absolute advantage.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Free trade leads to lower prices and greater sales. The higher prices for goods that have tariffs attached to them leads to reduced sales and less trade, so reducing those tariffs increases sales and creates incentives for trade.

Question 8a of 25 ( 2 Effects of Globalization 239289 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why does globalization give countries an incentive to reduce wages for their workers?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *A. & \begin{tabular}{l} 
Lower production costs help lure foreign \\
investment.
\end{tabular} & \begin{tabular}{l} 
Correct. International competition for \\
investment puts countries into the \\
position of having to offer the lowest \\
possible production costs, particularly \\
wages, to lure producers into their \\
economy.
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline B. & \begin{tabular}{l} 
Multinational corporations don't have to \\
bargain collectively.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Increased international trade reduces the \\
demand for skilled labor.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Globalization reduces the cost of goods and \\
services for consumers.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Lower production costs help lure foreign investment. International competition for investment puts countries into the position of having to offer the lowest possible production costs, particularly wages, to lure producers into their economy.

Question 8b of 25 ( 2 Effects of Globalization 239290 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why does globalization lead to a reduction in wages in developed countries?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Labor unions have moved their operations to \\
developing countries.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
A high volume of international trade reduces \\
the demand for skilled labor.
\end{tabular} & \\
\hline \hline *C. & \begin{tabular}{l} 
Increased mobility allows producers to move \\
jobs to lower-cost labor markets.
\end{tabular} & \begin{tabular}{l} 
Correct. International competition for \\
investment puts countries into the \\
position of having to offer the lowest \\
possible production costs, particularly \\
wages, to lure producers into their \\
economy.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Globalization results in lower prices that give \\
workers greater purchasing power.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Increased mobility allows producers to move jobs to lower-cost labor markets. International competition for investment puts countries into the position of having to offer the lowest possible production costs, particularly wages, to lure producers into their economy.

Question 9a of 25 ( 2 Effects of Globalization 239292 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why do central banks play an important role in the global economy?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & They are able to limit capital mobility. & \\
\hline \hline *B. & They set each country's monetary policies. & \begin{tabular}{l} 
Correct. The policies of central banks \\
influence the money supply, which affects \\
the supply of money available for \\
international trade.
\end{tabular} \\
\hline \hline C. & They regulate the currency exchange market. & \\
\hline \hline D. & \begin{tabular}{l} 
They print all of the money used for \\
international trade.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: They set each country's monetary policies. The policies of central banks influence the money supply, which affects the supply of money available for international trade.

\section*{Question 9b of 25 ( 2 Effects of Globalization 239293 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why do the actions of central banks have an important effect on the global economy?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Monetary policy is an important tool for \\
protecting domestic industries.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Interest rates on government bonds are \\
responsible for foreign investment.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The amount of capital mobility is dependent on \\
regulations enforced by central banks.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
Control of the money supply determines how \\
much money is available for international \\
trade.
\end{tabular} & \begin{tabular}{l} 
Correct. The size of the money supply is a \\
central factor determining how much \\
economic growth can take place.
\end{tabular} \\
\hline
\end{tabular}

> \begin{tabular}{l}  Global I ncorrect Feedback \\ \hline \hline The correct answer is: Control of the money \\ supply determines how much money is available \\ for international trade. The size of the money \\ supply is a central factor determining how much \\ economic growth can take place. \end{tabular}

Question 9c of 25 ( 2 Effects of Globalization 239294 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why do central banks play an important role in the global economy?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
They charge tariffs on trades that take place in \\
the currency exchange market.
\end{tabular} & \\
\hline \hline *. & \begin{tabular}{l} 
They control the foreign currency reserves that \\
are used for international trade.
\end{tabular} & \begin{tabular}{l} 
Correct. The amount of currency available \\
for international trade has an effect on \\
the volume of that trade and on the \\
growth of the global economy.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
They prevent foreign companies from \\
removing profits from their national economy.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
They have control over the interest rates \\
charged on the debts owed by their \\
governments.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: They control the foreign currency reserves that are used for international trade. The amount of currency available for international trade has an effect on the volume of that trade and on the growth of the global economy.

Question 10a of 25 ( 1 Global Economy Terms 239295)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is a gift of money from one government to another?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *. & Foreign aid & \begin{tabular}{l} 
Correct. Foreign aid is money given by \\
one country to another.
\end{tabular} \\
\hline B. & Trade sanctions & \\
\hline \hline C. & No-interest loans & \\
\hline \hline D. & Agricultural subsidies & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Foreign aid. Foreign aid is money given by one country to another.

Correct. The IMF uses its economic power \\
to impose policy recommendations on \\
struggling countries.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
The IMF wants to help governments in \\
developing countries to eliminate poverty.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: The IMF wants to help struggling countries better manage their economies. The IMF uses its economic power to impose policy recommendations on struggling countries.

Question 12c of 25 ( 2 International Organizations 239303)
\begin{tabular}{ll} 
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & Why does the IMF impose conditions on its loans?
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline & Choice & Feedback \\
\hline \hline A. & To promote the free-market system & \\
\hline \hline B. & To rid the world of command economies & \\
\hline \hline\(* \mathbf{C .}\) & \begin{tabular}{l} 
To help manage the economies of struggling \\
countries
\end{tabular} & \begin{tabular}{l} 
Correct. The IMF uses its economic power \\
to impose policy recommendations on \\
struggling countries.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
To impose uniform regulations on the \\
international banking system
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: To help manage the economies of struggling countries. The IMF uses
its economic power to impose policy

Question 13a of 25 (2 International Organizations 239304)
\begin{tabular}{|c|c|c|}
\hline \multicolumn{3}{|l|}{Maximum Attempts: 1} \\
\hline Question Type: & \multicolumn{2}{|l|}{Multiple Choice} \\
\hline \multicolumn{3}{|l|}{Maximum Score:} \\
\hline \multicolumn{3}{|l|}{Question: What is the main purpose of the loans made by the World Bank?} \\
\hline & Choice & Feedback \\
\hline * A. & To help countries achieve sustainable development & Correct. The World Bank loans money not to make a profit but to help countries develop and become more independent. \\
\hline B. & To make profits for its shareholders & \\
\hline C. & To help create multilateral trade agreements & \\
\hline D. & To prevent future economic crises & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: To help countries achieve sustainable development. The World Bank loans money not to make a profit but to help countries develop and become more independent.

Question 13b of 25 ( 2 International Organizations 239305 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why does the World Bank charge little or no interest on the loans it makes?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
Its main purpose is to promote development, \\
not make profits.
\end{tabular} & \begin{tabular}{l} 
Correct. The World Bank loans money not \\
to make a profit but to help countries \\
develop and become more independent, \\
so it doesn't need to charge much \\
interest.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
It gives only short-term emergency loans to \\
very needy countries.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
It wants to get countries to accept its loans \\
along with its policy recommendations.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Its loans are for such large amounts that no \\
country could afford to pay interest on them.
\end{tabular} & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Its main purpose is to promote development, not make profits. The World Bank loans money not to make a profit but to help countries develop and become more independent, so it doesn't need to charge much interest.

Question 13c of 25 ( 2 International Organizations 239306)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What does the World Bank hope will result from the loans it makes to developing countries?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Increased ability to profit from exports & \\
\hline \hline B. & An improved climate for foreign investment & \begin{tabular}{l} 
Correct. The World Bank loans money to \\
help countries develop and become more \\
independent, which fosters an improved \\
investment climate for foreign companies.
\end{tabular} \\
\hline C. & \begin{tabular}{l} 
A reduction in the taxes charged to their \\
citizens
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Stabilized exchange rates for their national \\
Currencies
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: An improved climate for foreign investment. The World Bank loans money to help countries develop and become more independent, which fosters an improved investment climate for foreign companies.

\section*{Question 14a of 25 ( 2 International Organizations 239307)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: How does the WTO help stabilize the global economy?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
By preventing large swings in currency \\
exchange rates
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
By providing money to bail countries out of \\
emergency situations
\end{tabular} & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline \hline C. & \begin{tabular}{l} 
By keeping central banks from enacting radical \\
monetary policies
\end{tabular} & \\
\hline \hline\(*\) D. & \begin{tabular}{l} 
By assuring that producers will have open \\
access to necessary resources
\end{tabular} & \begin{tabular}{l} 
Correct. Free trade increases international \\
trade, making it easier for producers to \\
acquire the productive resources they \\
need.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: By assuring that producers will have open access to necessary resources. Free trade increases international trade, making it easier for producers to acquire the productive resources they need.

Question 14b of 25 ( 2 International Organizations 239308)
\begin{tabular}{ll}

\end{tabular}
\(\square\) practices; Offshoring: Reduce production costs; Foreign aid: Help needy governments.

\section*{Question 16a of 25 ( 2 Effects of Globalization 239313)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why has globalization led to an increasing income gap between rich and poor countries?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
Countries with well-established infrastructure \\
and productive capacities have more \\
competitive industries.
\end{tabular} & \begin{tabular}{l} 
Correct. The benefits of globalization \\
mostly go to those countries with the \\
economic structures that enable them \\
take advantage of increasing international \\
trade.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
The reduced production costs provided by low \\
wages in developing countries enable \\
companies to make larger profits.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Reduced transportation costs have enabled \\
developed countries to extract more natural \\
resources from their colonies.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Laborers from developing countries migrate to \\
developed countries in search of better-paying \\
jobs.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Countries with wellestablished infrastructure and productive capacities have more competitive industries. The benefits of globalization mostly go to those countries with the economic structures that enable them take advantage of increasing international trade.

Question 16b of 25 ( 2 Effects of Globalization 239314 )
Maximum Attempts: 1

Question Type:
Maximum Score:
Question:

Multiple Choice
2
Why are the majority of the world's countries left on the margins of globalization?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline * A. & \begin{tabular}{l} 
Many countries are too underdeveloped to take \\
advantage of the opportunities presented by \\
increasing international trade.
\end{tabular} & \begin{tabular}{l} 
Correct. The benefits of globalization \\
mostly go to those countries with the \\
economic structures that enable them
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l||l|l|}
\hline & & \begin{tabular}{l} 
take advantage of increasing international \\
trade.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
Many countries don't have sufficient natural \\
resources to fuel high levels of industrial \\
production.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Many countries continue to rely on \\
protectionist policies that limit their imports \\
and exports.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Many countries have laws requiring such high \\
wages that foreign producers don't want to \\
invest.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Many countries are too underdeveloped to take advantage of the opportunities presented by increasing international trade. The benefits of globalization mostly go to those countries with the economic structures that enable them take advantage of increasing international trade.

\section*{Question 16c of 25 ( 2 Effects of Globalization 239315 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why hasn't globalization benefited the majority of the world's underdeveloped countries?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Underdeveloped countries rely on exporting \\
agricultural goods to developed countries.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Underdeveloped countries use protectionist \\
policies to isolate themselves from \\
international trade.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Underdeveloped countries don't have the \\
natural resources needed to fuel high levels of \\
industrial production.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
Underdeveloped countries don't have the \\
productive capacities necessary to take \\
advantage of increasing international trade.
\end{tabular} & \begin{tabular}{l} 
Correct. The benefits of globalization \\
mostly go to those countries with the \\
economic structures that enable them \\
take advantage of increasing international \\
trade.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Underdeveloped countries don't have the productive capacities necessary to take advantage of increasing
international trade. The benefits of globalization mostly go to those countries with the economic structures that enable them take advantage of increasing international trade.

Question 18a of 25 ( 2 Country Developement 239319)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2

Question:
Why don't developing countries usually benefit from free-trade policies?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The only way they can collect revenues is \\
through tariffs.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
They rely primarily on agricultural exports for \\
their income.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
They have little economic power to influence \\
the global economy.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
Their industries are too weak to compete in \\
the international market.
\end{tabular} & \begin{tabular}{l} 
Correct. Developing countries have little \\
infrastructure or industrial capacity, \\
making their domestic industries weak in \\
comparison to those in developed \\
countries.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Their industries are too weak to compete in the international market. Developing countries have little infrastructure or industrial capacity, making their domestic industries weak in comparison to those in developed countries.

Question 18 b of 25 ( 2 Country Developement 239320 )
Maximum Attempts: 1
Question Type: Multiple Choice

Maximum Score: 2
Question: Why don't many developing countries benefit from the spread of free trade?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & They have large trade deficits. & \\
\hline \hline *. & They have weak domestic industries. & \begin{tabular}{l} 
Correct. Developing countries have little \\
infrastructure or industrial capacity, \\
making their domestic industries weak in \\
comparison to those in developed \\
countries.
\end{tabular} \\
\hline C. & They cannot afford to give foreign aid. & \\
\hline \hline D. & \begin{tabular}{l} 
They don't possess important natural \\
resources.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: They have weak domestic industries. Developing countries have little infrastructure or industrial capacity, making their domestic industries weak in comparison to those in developed countries.

Question 18c of 25 (2 Country Developement 239321 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Because most developing countries have weak domestic industries, they do not benefit from what?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline A. & Foreign aid & \\
\hline B. & IMF advice & \\
\hline \hline C. & World Bank loans & \\
\hline \hline *D. & Free-trade policies & \begin{tabular}{l} 
Correct. Weak domestic industries cannot \\
compete in the international market \\
without protection from their government.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Free-trade policies. Weak domestic industries cannot compete in the international market without protection from their government.

advantage of low labor costs don't make trouble \\
for repressive governments. Companies that \\
want to make profits generally don't have a \\
problem with the style of a government in \\
countries where they do business as long as the \\
investment climate is safe and production costs \\
are low. \\
\hline
\end{tabular}

Question 20b of 25 ( 2 Effects of Globalization 239326 )

Question Type:
Maximum Score:
Question:

Multiple Choice
2
Why don't companies that do business in countries where human rights are violated tend to fight against these abuses?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
They tend to care more about a safe \\
investment climate than about human rights.
\end{tabular} & \begin{tabular}{l} 
Correct. If production costs are low and \\
their investments are secure, companies \\
that want to make profits generally don't \\
have a problem with the style of a \\
government in countries where they do \\
business.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
They lack the political influence to do anything \\
about the problems.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
They must obey the laws of the countries \\
where they invest.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
They don't directly benefit from the abusive \\
policies.
\end{tabular} & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: They tend to care more about a safe investment climate than about human rights. If production costs are low and their investments are secure, companies that want to make profits generally don't have a problem with the style of a government in countries where they do business.

\section*{Question 20c of 25 ( 2 Effects of Globalization 239327 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: How has globalization helped work against human rights violations around the world?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *A. & \begin{tabular}{l} 
Improved global communications brings these \\
abuses to the world's attention.
\end{tabular} & \begin{tabular}{l} 
Correct. Media coverage helps bring \\
pressure on abusive governments so that \\
governments might change their ways.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
Companies have boycotted abusive \\
governments as a punishment for these \\
practices.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Revolutions against abusive governments have \\
made the investment climate insecure.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Violating human rights is too costly to be \\
profitable in the competitive international \\
marketplace.
\end{tabular} & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Improved global communications brings these abuses to the world's attention. Media coverage helps bring pressure on abusive governments to change their ways

Question 21a of 25 ( 2 Effects of Globalization 239328 )
\begin{tabular}{|c|c|c|}
\hline \multicolumn{3}{|l|}{Maximum Attempts: 1} \\
\hline Question Type: & \multicolumn{2}{|l|}{Multiple Choice} \\
\hline \multicolumn{3}{|l|}{Maximum Score: 2} \\
\hline \multicolumn{3}{|l|}{Question: Why is globalization potentially damag} \\
\hline & Choice & Feedback \\
\hline A. & Future production relies on safeguarding the earth's limited natural resources. & \\
\hline B. & Most governments can't afford to enforce environmental-protection regulations. & \\
\hline * C. & Protecting the environment increases production costs and reduces competitiveness. & Correct. Increasing international competition means that producers must be as efficient as possible, and protecting the environment involves extra costs that many producers can't shoulder without losing business. \\
\hline D. & Technology has improved to the point where environmental protection is unnecessary. & \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline The correct answer is: Protecting the \\
environment increases production costs and \\
reduces competitiveness. Increasing \\
international competition means that producers \\
must be as efficient as possible, and protecting \\
the environment involves extra costs that many \\
producers can't shoulder without losing \\
business.
\end{tabular}

Question 21b of 25 ( 2 Effects of Globalization 239329 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
What is the primary reason that globalization leads to greater global pollution?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline
\end{tabular}
\begin{tabular}{|l||l|l|}
\hline *A. & \begin{tabular}{l} 
Environmental protection is expensive, and \\
reduces a company's competitiveness in the \\
global market.
\end{tabular} & \begin{tabular}{l} 
Correct. Increasing international \\
competition means that producers must \\
be as efficient as possible, and protecting \\
the environment involves extra costs that \\
many producers can't shoulder without \\
losing business.
\end{tabular} \\
\hline B. & \begin{tabular}{l} 
Increased carbon monoxide output results \\
from both industrialization and infrastructure \\
development.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Environmental regulations are enforced by \\
nations rather than an international \\
organization.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Companies that outsource and offshore their \\
production have to use more energy to \\
transport their finished goods.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Environmental protection is expensive, and reduces a company's competitiveness in the global market. Increasing international competition means that producers must be as efficient as possible, and protecting the environment involves extra costs that many producers can't shoulder without losing business.

\section*{Question 21c of 25 ( 2 Effects of Globalization 239330 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:

Why does globalization lead to increasing environmental damage?
\(\left.\begin{array}{|l|l|l|}\hline & \text { Choice } & \text { Feedback } \\
\hline \hline \text { A. } & \begin{array}{l}\text { Sustainable development relies on the } \\
\text { increasing use of non-renewable energy } \\
\text { sources. }\end{array} & \begin{array}{l}\text { Environmental-protection regulations increase } \\
\text { compliance costs and decrease economic } \\
\text { competitiveness. }\end{array}\end{array} \begin{array}{l}\text { Correct. Complying with environmental } \\
\text { regulations is costly, so companies try to } \\
\text { avoid setting up production in countries } \\
\text { that have such regulations. }\end{array}\right]\)\begin{tabular}{|l|l|}
\hline \hline C. & \begin{tabular}{l} 
Technological development leads to less \\
pollution but greater consumption of non- \\
renewable energy.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Consumer boycotts and government \\
regulations undermine companies' attempts to \\
reduce their output of waste.
\end{tabular} \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback

The correct answer is: Environmental-protection regulations increase compliance costs and decrease economic competitiveness. Complying with environmental regulations is costly, so companies try to avoid setting up production in countries that have such regulations.

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why has globalization led to some job loss in the United States?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Excessive spending by U.S. consumers has led \\
to a budget deficit.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Protective tariffs prevent the United States \\
from having a trade surplus.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Foreign investment has shifted to developing \\
countries.
\end{tabular} & \\
\hline \hline *D. & Labor costs are lower in other countries. & \begin{tabular}{l} 
Correct. Lower labor costs in foreign \\
countries enable foreign producers to \\
export inexpensive products to the United \\
States, underselling domestic producers
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: Labor costs are lower in \\
other countries. Lower labor costs in foreign \\
countries enable foreign producers to export \\
inexpensive products to the United States, \\
underselling domestic producers who have to \\
lay off workers to survive. \\
\hline
\end{tabular}

\section*{Question 23c of 25 ( 2 Effects of Globalization 239336 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why do lower labor costs in other countries lead to job loss in the United States?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Workers migrate in search of better-paying \\
jobs.
\end{tabular} & \\
\hline \hline * B. & \begin{tabular}{l} 
It enables foreign producers to undersell \\
domestic producers.
\end{tabular} & \begin{tabular}{l} 
Correct. When domestic producers lose \\
sales to inexpensive imports, they have to \\
cut jobs to survive.
\end{tabular} \\
\hline C. & \begin{tabular}{l} 
Foreign producers are able to insource and \\
make higher profits.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Foreign governments can charge higher tariffs \\
and make more revenues.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: It enables foreign producers to undersell domestic producers. When domestic producers lose sales to inexpensive imports, they have to cut jobs to survive.

Question:
2

What has been the main benefit of globalization for the United States?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & Economic growth & \begin{tabular}{l} 
Correct. Because the United States has \\
such a powerful economy and well- \\
developed productive capacity, it is in a
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline & & \begin{tabular}{l} 
good position to take advantage of the \\
opportunities presented by increased \\
international trade.
\end{tabular} \\
\hline B. & Increased wages & \\
\hline \hline C. & Increased exports & \\
\hline \hline D. & Greater job security & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Economic growth.
Because the United States has such a powerful economy and well-developed productive capacity, it is in a good position to take advantage of the opportunities presented by increased international trade.

Question 24b of 25 ( 2 Effects of Globalization 239338 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
What has been the main drawback of globalization for the United States?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Higher prices & \\
\hline \hline\(*\) B. & Wage reductions & \begin{tabular}{l} 
Correct. Lower labor costs abroad force \\
workers in the United States to accept \\
wage cuts if they don't want to lose their \\
jobs to offshoring or outsourcing.
\end{tabular} \\
\hline \hline C. & Lost tariff revenues & \\
\hline \hline D. & Slow economic growth & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Wage reductions. Lower labor costs abroad force workers in the United States to accept wage cuts if they don't want to lose their jobs to offshoring or outsourcing.

\section*{Question 24c of 25 ( 2 Effects of Globalization 239339 )}

\section*{Maximum Attempts:}

Question Type: Multiple Choice
Maximum Score:
Question:
2

Which of these is a problem that globalization poses for the U.S. government?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Loss of tariff revenues & \\
\hline \hline *B. & Increased security concerns & \begin{tabular}{l} 
Correct. Globalization can bring both \\
terrorism and foreign ownership of critical \\
infrastructure.
\end{tabular} \\
\hline C. & Migration of U.S. workers abroad & \\
\hline \hline D. & Opposition to its human rights abuses & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Increased security concerns. Globalization can bring both terrorism and foreign ownership of critical infrastructure.

Question 25a of 25 ( 2 Effects of Globalization 239340 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
All of the following have been negative effects of globalization except what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & A greater gap between rich and poor countries & \\
\hline \hline B. & Great damage to the environment & \\
\hline \hline C. & Increased international terrorism & \\
\hline \hline & & \begin{tabular}{l} 
Correct. Globalization tends to lead to \\
lower prices as international competition \\
drives countries to offer lower production \\
costs to lure investment.
\end{tabular} \\
\hline *. & Higher prices for consumers & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Higher prices for consumers. Globalization tends to lead to lower prices as international competition drives countries to offer lower production costs to lure investment.

Question 25b of 25 ( 2 Effects of Globalization 239341)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2

What is one reason why some people are critical of globalization?

\section*{\(\square\) Choice}

Feedback
\begin{tabular}{|l|l|l|}
\hline\(*\) A. & \begin{tabular}{l} 
It leads to increased damage to the \\
environment.
\end{tabular} & \begin{tabular}{l} 
Correct. International competition for \\
foreign investment makes it difficult for \\
countries to justify enacting \\
environmental-protection regulations.
\end{tabular} \\
\hline B. & \begin{tabular}{l} 
It undermines the purchasing power of \\
consumers.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
It gives governments too much control over \\
the global economy.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
It provides only comparative advantage \\
instead of absolute advantage.
\end{tabular} & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: It leads to increased damage to the environment. International competition for foreign investment makes it difficult for countries to justify enacting environmental-protection regulations.

Question 25c of 25 ( 2 Effects of Globalization 239342 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is a reason why many don't support globalization?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
It undermines the purchasing power of \\
consumers.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
It only benefits a handful of the world's \\
countries.
\end{tabular} & \begin{tabular}{l} 
Correct. Many countries, particularly the \\
most underdeveloped, are left on the \\
margins of globalization and are actually \\
falling farther behind in the global \\
economy.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
lt gives too much power to repressive \\
governments.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
It leads to increased environmental-protection \\
costs.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: It only benefits a handful of the world's countries. Many countries, particularly the most underdeveloped, are left on the margins of globalization and are actually falling farther behind in the global economy.

Question:

2
People come to different decisions using cost-benefit analysis even under the same conditions because costs and benefits are both what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Absolute & \\
\hline \hline *B. & Subjective & \begin{tabular}{l} 
Correct! Subjective calculations vary from \\
person to person depending on the values \\
and beliefs of each individual.
\end{tabular} \\
\hline C. & Non-monetary & \\
\hline \hline D. & Utilities & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Subjective. Subjective calculations vary from person to person depending on the values and beliefs of each individual.

Question 3a of 10 ( 2 cost-benefit analysis 242043 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Besides tuition, what is one cost of attending college?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Decreased earning potential & \\
\hline \hline B. & Time spent attending high school & \\
\hline \hline & & \begin{tabular}{l} 
Correct! By going to college, future \\
earning potential is increased but present \\
earning potential is limited by the time \\
spent on schoolwork.
\end{tabular} \\
\hline *. & Missed opportunities to earn income & \\
\hline D. & Discretionary spending on entertainment & \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \begin{tabular}{l} 
The correct answer is: Missed opportunities to \\
earn income. By going to college, future earning \\
potential is increased but present earning \\
potential is limited by the time spent on \\
schoolwork.
\end{tabular} \\
\hline
\end{tabular}

Question 3b of 10 ( 2 cost-benefit analysis 242044 )
Maximum Attempts: 1
Question Type: Multiple Choice

Maximum Score:
Question:

2
What is one of the monetary benefits of attending college?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Improved quality of life & \\
\hline \hline *B. & Increased earning potential in the future & \begin{tabular}{l} 
Correct! College graduates earn a lot \\
more money over their lifetimes than \\
people who don't graduate from college.
\end{tabular} \\
\hline C. & Missed opportunities to earn income & \\
\hline \hline D. & The ability to choose a satisfying job & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Increased earning potential in the future. College graduates earn a lot more money over their lifetimes than people who don't graduate from college.

\section*{Question 3c of 10 ( 2 Cost-benefit analysis 242045 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is one of the non-monetary benefits of attending college?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & The ability to choose a satisfying job & \begin{tabular}{l} 
Correct! A college education makes a \\
person a more desirable job candidate, \\
giving them a greater selection of jobs \\
and the ability to make more choices.
\end{tabular} \\
\hline B. & Time spent in the classroom & \\
\hline \hline C. & A chance to avoid going into debt & \\
\hline \hline D. & Increased earning potential in the future & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The ability to choose a satisfying job. A college education makes a person a more desirable job candidate, giving them a greater selection of jobs and the ability to make more choices.

Question 4a of 10 (1 Renting 242046 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2

Question:
Which of the following describes what a lease is?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Utility & \\
\hline \hline B. & Payment & \\
\hline \hline\(*\) C. & Contract & \begin{tabular}{l} 
Correct! A lease creates binding \\
obligations that are enforceable by law.
\end{tabular} \\
\hline \hline D. & Insurance & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Contract. A lease creates binding obligations that are enforceable by law.

\section*{Question 4b of 10 (1 Renting 242047 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: When you rent an apartment, you make a monthly payment to whom?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & A bank & \\
\hline \hline B. & A broker & \\
\hline \hline C. & An insurance agent & \\
\hline \hline *. & A landlord & \begin{tabular}{l} 
Correct! The landlord is the owner of the \\
building where your apartment is located.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A landlord. The landlord is the owner of the building where your apartment is located.

\section*{Question 4c of 10 (1 Renting 242048 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: \(\quad\) A lease is an agreement that renters make with whom?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Bank & \\
\hline \hline\(* B\). & Landlord & \begin{tabular}{l} 
Correct! A lease creates a binding \\
obligation between tenants of an \\
apartment and the owner of the building
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l||l|l|}
\hline & & in which the apartment is located. \\
\hline \hline C. & Parents & \\
\hline \hline D. & Stockbroker & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Landlord. A lease creates a binding obligation between tenants of an apartment and the owner of the building in which the apartment is located.

Question 5a of 10 (1 Renting 242049)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
In addition to rent, people who live in apartments often have to pay for what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Repairs to the apartment & \\
\hline \hline B. & Property taxes & \\
\hline \hline\(*\) C. & Utility bills & \begin{tabular}{l} 
Correct! The landlord sometimes pays for \\
utilities, but it's more common for tenants \\
to have to pay these bills.
\end{tabular} \\
\hline \hline D. & Homeowner's insurance & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Utility bills. The landlord sometimes pays for utilities, but it's more common for tenants to have to pay these bills.

Question 5b of 10 ( 1 Renting 242050)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of the following are not expenses that apartment dwellers have to pay?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & The mortgage & \begin{tabular}{l} 
Correct! Although rent money often goes \\
towards the mortgage, the landlord is \\
responsible for paying any mortgage on \\
the apartment building.
\end{tabular} \\
\hline B. & Utility bills & \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline C. & Monthly rent & \\
\hline \hline D. & A security deposit & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The mortgage. Although rent money often goes towards the mortgage, the landlord is responsible for paying any mortgage on the apartment building.

\section*{Question 5c of \(\mathbf{1 0}\) (1 Renting 242051)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these helps a landlord pay for damage that renters cause to their apartments?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Mortgage & \\
\hline \hline *. & Security deposit & \begin{tabular}{l} 
Correct! Tenants who don't damage their \\
apartments get the security deposit back, \\
so the security deposit is an incentive for \\
tenants to take good care of their \\
apartments.
\end{tabular} \\
\hline C. & Excise tax & \\
\hline D. & Deductible & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Security deposit. Tenants who don't damage their apartments get the security deposit back, so the security deposit is an incentive for tenants to take good care of their apartments.

Question: & What does liability insurance cover?
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
The medical and car repair bills for anyone else \\
involved in an accident you caused
\end{tabular} & \begin{tabular}{l} 
Correct! Liability is your financial \\
responsibility for something, but liability \\
insurance places that responsibility onto \\
the insurance company.
\end{tabular} \\
\hline B. & \begin{tabular}{l} 
Medical bills for yourself and anyone else in \\
your car in case of an accident
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The bills for yourself and your car if someone \\
without insurance caused the accident
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The repair of damage caused to your car when \\
someone else was at fault in the accident
\end{tabular} & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: The medical and car repair bills for anyone else involved in an accident you caused. Liability is your financial responsibility for something, but liability insurance places that responsibility onto the insurance company.

Question 9b of 10 ( 2 Insurance 242062 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What does collision coverage insure?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The costs of compensating someone else \\
injured in an accident you caused
\end{tabular} & \\
\hline \hline *. & \begin{tabular}{l} 
The repair of damage caused to your car when \\
you caused the accident
\end{tabular} & \begin{tabular}{l} 
Correct! Some car insurance policies only \\
cover the other car, but collision covers \\
your car even if you were at fault.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
Medical bills for yourself and anyone else in \\
your car in case of an accident
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The bills for yourself and your car if someone \\
without insurance caused the accident
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The repair of damage caused to your car when you caused the accident. Some car insurance policies only cover the other car, but collision covers your car even if you were at fault.

Question 9c of \(\mathbf{1 0}\) ( 2 Insurance 242063)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What does medical coverage on an auto insurance policy cover?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The repair of damage caused to your car when \\
you caused the accident
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
The costs of compensating someone else \\
injured in an accident you caused
\end{tabular} & \\
\hline C. & The medical and car repair bills for anyone & \\
\hline
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline \hline & else involved in an accident you caused & \\
\hline \hline *D. & \begin{tabular}{l} 
Medical bills for yourself and anyone else in \\
your car in case of an accident
\end{tabular} & \begin{tabular}{l} 
Correct! Many car accidents involve both \\
car repair bills and medical bills; this kind \\
of insurance makes sure that both are \\
covered.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Medical bills for yourself and anyone else in your car in case of an accident. Many car accidents involve both car repair bills and medical bills; this kind of insurance makes sure that both are covered.

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why do banks pay their customers interest on the money in their savings accounts?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline A. & \begin{tabular}{l} 
The government requires all savings accounts \\
to pay interest.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
The bank charged interest when it loaned that \\
money to someone else.
\end{tabular} & \begin{tabular}{l} 
Correct! Interest on a savings account is a \\
partial share of the profits derived from \\
the use of the money.
\end{tabular} \\
\hline C. & \begin{tabular}{l} 
Interest payments make it more worthwhile \\
for customers to stay loyal.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
High interest rates provide customers with an \\
incentive to choose a particular bank.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The bank charged interest when it loaned that money to someone else. Interest on a savings account is a partial share of the profits derived from the use of the money.

\section*{Question 2bof 10 ( 2 Checking and savings 242139 )}

Maximum Attempts:

Maximum Score: & 2 \\
Question: & When can a bank repossess someone's car?
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & When the owner buys a used car & \\
\hline
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline B. & When the owner gets into an accident & \\
\hline \hline C. & When the owner cancels the insurance & \\
\hline \hline *D. & \begin{tabular}{l} 
When the owner defaults on the loan \\
payments
\end{tabular} & \begin{tabular}{l} 
Correct! The car is the collateral that \\
secures a car loan, and nonpayment of \\
any loan involves taking the collateral.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: When the owner defaults on the loan payments. The car is the collateral that secures a car loan, and nonpayment of any loan involves taking the collateral.

\section*{Question 2b of 10 ( 2 Loans 242214 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these provides a bank with collateral on a car loan?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & The buyer's home & \\
\hline \hline B. & A savings account & \\
\hline \hline *C. & The car itself & \begin{tabular}{l} 
Correct! Collateral is anything of value \\
that the lender can take if the loan \\
doesn't get repaid, and a car is a thing of \\
value that people taking out car loans \\
possess.
\end{tabular} \\
\hline \hline D. & The driver's credit history & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The car itself. Collateral is anything of value that the lender can take if the loan doesn't get repaid, and a car is a thing of value that people taking out car loans possess.

\section*{Question 2c of 10 ( 2 Loans 242215 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why are car loans always secured with collateral?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Drivers are required to carry collision & \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline & insurance on leased cars. & \\
\hline \hline *B. & \begin{tabular}{l} 
The car can always be repossessed if the \\
owner stops paying off the loan.
\end{tabular} & \begin{tabular}{l} 
Correct! Collateral is anything of value \\
that the lender can take if the loan \\
doesn't get repaid, and a car is a thing of \\
value that all people taking out car loans \\
possess.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
Car loans build the depreciation of the car's \\
value into the total cost of the loan.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Banks are unwilling to give out car loans \\
unless the buyer has a big savings account.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The car can always be repossessed if the owner stops paying off the loan. Collateral is anything of value that the lender can take if the loan doesn't get repaid, and a car is a thing of value that all people taking out car loans possess.

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:

Which of these describes how a five/one ARM mortgage works?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The monthly payment is one-fifth of the total \\
purchase price of the house.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
The interest rate is fixed for five years and \\
then changes every year afterward.
\end{tabular} & \begin{tabular}{l} 
Correct! The five/one ARM gives \\
homeowners certainty about their \\
mortgage payments during the early \\
years of their loan.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
The interest rate charged on the mortgage is \\
five times the normal interest rate.
\end{tabular} & \\
\hline \hline D. & The annual fees on the mortgage are only & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: The interest rate is fixed for five years and then changes every year afterward. The five/ one ARM gives homeowners certainty about their mortgage payments during the early years of their loan.

\section*{Question 4c of 10 ( 2 Mortgages 242221 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these describes how a fixed-rate mortgage works?
\begin{tabular}{|l|l||l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The property taxes on a fixed-rate mortgage \\
never get any higher.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
The purchase price of the house never goes up \\
with a fixed-rate mortgage.
\end{tabular} & \\
\hline \hline \multirow{2}{*}{ C. } & \begin{tabular}{l} 
The monthly payment on a fixed-rate \\
mortgage never changes.
\end{tabular} & \begin{tabular}{l} 
Correct! A fixed-rate mortgage \\
guarantees the homeowner a fixed \\
monthly payment no matter what else \\
happens to the economy.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
The bank gets paid all of the interest before \\
the principal on the loan goes down.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The monthly payment on a fixed-rate mortgage never changes. A fixedrate mortgage guarantees the homeowner a fixed monthly payment no matter what else happens to the economy.

\end{tabular}

\section*{Question 8a of 10 ( 2 Credit cards 242231 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What's the purpose of a credit report?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
To enable the IRS to check the accuracy of \\
taxpayers' tax return forms
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
To make it easier for consumers to obtain \\
loans to make major purchases
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
To provide customers with information about \\
the fees associated with a credit card account
\end{tabular} & \\
\hline \hline & To help banks determine if people should be \\
given a loan or credit card
\end{tabular}\(\quad\)\begin{tabular}{l} 
Correct! Credit reports provide a credit \\
card issuer with applicants' credit \\
histories to show whether they are a good \\
risk or not.
\end{tabular}

Global I ncorrect Feedback
The correct answer is: To help banks determine if people should be given a loan or credit card. Credit reports provide a credit card issuer with applicants' credit histories to show whether they are a good risk or not.

Question 8b of \(\mathbf{1 0}\) ( 2 Credit cards 242232 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why is it important for people to maintain a good credit history?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
So that the IRS won't investigate them for tax \\
fraud
\end{tabular} & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline B. & \begin{tabular}{l} 
So that it's easier to list the expenses on their \\
personal budget
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
So that they know all of the fees associated \\
with their credit cards
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
So that they have an easier time getting loans \\
and credit cards
\end{tabular} & \begin{tabular}{l} 
Correct! Everyone's credit history is \\
recorded on a credit report that banks \\
and other financial institutions use to \\
determine whether or not the person is a \\
good risk for a loan or credit card.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: So that they have an easier time getting loans and credit cards. Everyone's credit history is recorded on a credit report that banks and other financial institutions use to determine whether or not the person is a good risk for a loan or credit card.

Question 8c of \(\mathbf{1 0}\) ( 2 Credit cards 242233 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: How do credit card companies use a person's credit report?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
To figure out if that person has been using a \\
budget
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
To determine if that person should be given a \\
loan or credit card
\end{tabular} & \begin{tabular}{l} 
Correct! Credit reports provide a credit \\
card issuer with applicants' credit \\
histories to show whether they are a good \\
risk or not.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
To help them figure out ways to pay off their \\
outstanding debt
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
To calculate how much interest the person is \\
owed on their account
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: To determine if that person should be given a loan or credit card. Credit reports provide a credit card issuer with applicants' credit histories to show whether they are a good risk or not.

Question Type:
Maximum Score:
Question:

Multiple Choice
2
Which of these credit card features would be best for customers who think they might not be able to pay their balance at the end of each month?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & No fees for cash advances & \\
\hline \hline B. & A high balance transfer limit & \\
\hline \hline & & \begin{tabular}{l} 
Correct! The annual percentage rate \\
(APR) is the interest on the money that \\
remains unpaid, so someone who thinks \\
they'll have unpaid bills will want to keep \\
those interest payments as low as \\
possible.
\end{tabular} \\
\(*\) C. & A low annual percentage rate & \\
\hline D. & An annual fee that can be waived & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: A low annual percentage rate. The annual percentage rate (APR) is the interest on the money that remains unpaid, so someone who thinks they'll have unpaid bills will want to keep those interest payments as low as possible.

\section*{Question 9b of \(\mathbf{1 0}\) ( 3 Credit cards 242235 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of these credit card features would be best for customers who think they might need to use their credit card to borrow money?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *A. & No fees for cash advances & \begin{tabular}{l} 
Correct! The cash advance is a way for \\
credit card customers to give themselves \\
a loan by taking money out of an ATM.
\end{tabular} \\
\hline B. & A long grace period & \\
\hline C. & Low fees for balance transfers & \\
\hline \hline D. & An annual fee that can be waived & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: No fees for cash advances. The cash advance is a way for credit card customers to give themselves a loan by taking money out of an ATM.

Question 9c of 10 ( 3 Credit cards 242236 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these credit card features would be best for customers who often forget to send in their payments on time?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & No fees for cash advances & \\
\hline \hline B. & A low late payment fee & \begin{tabular}{l} 
Correct! Late payment fees punish \\
customers who don't pay their bills on \\
time; these customers are also subject to \\
interest payments on the unpaid balance.
\end{tabular} \\
\hline \hline C. & A small charge for balance transfers & \\
\hline \hline D. & No penalties for exceeding the spending limit & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A low late payment fee. Late payment fees punish customers who don't pay their bills on time; these customers are also subject to interest payments on the unpaid balance.

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."
Which of these is not a primary concern of socially responsible consumers?
- OA. Price
- OB. Sustainability
- C. Labor practices
- OD. Environmental damage

Question 4c of \(\mathbf{1 0}\) ( 1 Social responsibility 242266 )
1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."

Socially responsible consumers prefer to buy from companies that use what?A. Tax deductions
-
B. Inexpensive labor
- \(\mathbf{C}\)
C. Mediation services
- ○
D. Renewable resources

\section*{Question 5a of 10 ( 3 Social responsibility 242267 )}

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."

Which of these is a renewable resource?
- ○
A. Oil
- ○B. Iron
- C. Trees
- D. Coal

\section*{Question 5bof 10 ( 3 Social responsibility 242268)}

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."

Which of these is a nonrenewable resource?
- ○
A. Trees
- ○
B. Coal
- C. Fresh water
- DD. Solar power

Question 5c of 10 ( 3 Social responsibility 242269 )
1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."
Which of these production practices promotes sustainable development?
- A. An assembly line
- B. Offshoring production
- C. The use of renewable resources
- OD. Bidding for government contracts

Question 6a of 10 ( 3 Social responsibility 242270 )
1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."

Which of these is a way that individuals can be socially responsible?
- ○
A. By using less energy
- B. By refusing to pay taxes
- OC. By participating in brain drain
- OD. By decreasing marginal utility

\section*{Question 6b of 10 ( 3 Social responsibility 242271 )}

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."
Which of these is a way that businesses can be socially responsible?
- A. By boycotting protective tariffs
- B. By minimizing pollution from production
- C. By charging the lowest prices possible
- OD. By preventing immigrants from getting jobs

\section*{Question 6c of 10 ( 3 Social responsibility 242272 )}

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."

How can the government promote socially responsible production?
- OA
A. By reducing tariffs and other trade barriers
- B. By enforcing consumer-protection regulations
- C. By punishing anticompetitive business practices
- D. By passing environmental-protection regulations

Question 7a of 10 ( 2 Consumer complaints 242273 )
1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."
How can the Better Business Bureau help consumers resolve their complaints?
- OA. By preventing fraud
- B. By investigating cartels
- C. By providing mediation services
- OD. By enforcing antitrust laws

\section*{Question 7b of \(\mathbf{1 0}\) ( 2 Consumer complaints 242274 )}

1 attempt ( 2 points possible)
Multiple Choice: Please select the best answer and click "submit."
Which of these actions can the Consumer Product Safety Commission take to help protect consumers?
- A. Force a store to issue store credit
- OB. Recall an unsafe product
- OC. Make a company repair a damaged product
- OD. Mediate a disagreement between a consumer and a store

\section*{Question 7c of 10 ( 2 Consumer complaints 242275 )}

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."
How can the news media help protect consumers?
- A. By issuing a recall on an unsafe product
- OB. By helping consumers organize boycotts
- C. By giving consumers advice on how to make a personal budget
- D. By investigating and exposing bad products and business practices

Question 8a of 10 ( 2 Consumer complaints 242276 )
1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."

Small-claims court is a place for which of the following?
- A. People to resolve financial differences
- B. Warrantees to be redeemed
- OC. The government to punish cartels
- OD. Customers to return damaged goods

\section*{Question 8b of 10 ( 2 Consumer complaints 242277 )}

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."
What is one benefit of going to small-claims court to fight against wrongdoing by a business?
- A. You don't need to pay a lawyer to handle your case.
- B. The government provides you with a lawyer.
- C. Juries often award large damage settlements.
- D. The Better Business Bureau will handle your complaint.

\section*{Question 8c of \(\mathbf{1 0}\) ( 2 Consumer complaints 242278 )}

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."
Consumers can go to small-claims court when what happens?
- A. They want to use free mediation services.
- B. Consumer-protection regulations don't exist.
- C. Other ways of resolving their complaint fail.
- OD. They discover that a product is misrepresented.

Question 9a of 10 ( 3 consumer complaints 242279 )
1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."
What is the main reason why a boycott might not be successful?
- OA. The company is able to spend more money lobbying the government.
- OB. Many consumers won't stay away from a company that offers the lowest prices.
- OC. Companies will only change their ways if their sales and profits are affected.
- OD. The news media often refuses to cover boycotts for fear of driving away advertisers.

\section*{Question 9b of 10 ( 3 consumer complaints 242280 )}

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."

How has the Internet helped boycotters?
- OA. It has increased competition by introducing online retail sales.
- B. It enables outsourcing and helps companies keep their production costs down.
- OC. It makes it easy for consumers to share their product reviews with each other.
- OD. It enables boycotters to organize and publicize their activities more easily.

\section*{Question 9c of 10 ( 3 Consumer complaints 242281 )}

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."
What is one sacrifice that boycotters often have to make?
- OA. They pay higher prices.
- B. They lose their jobs.
- C. They suffer from brain drain.
- OD. They have reduced Internet access.

Question 10a of \(\mathbf{1 0}\) ( 2 Consumer complaints 242282 )
1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."

Consumers can use lobbying to accomplish what?
- A. To force labor unions to accept wage cuts
- OB. To get the government to pass new laws
- C. To pressure companies to change their ways
- DD. To prevent countries from using trade barriers

Question 10b of \(\mathbf{1 0}\) ( 2 consumer complaints 242283 )
1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."
Which of these would consumers use lobbying to accomplish?
- A. The passage of new laws punishing offensive behaviors by companies
- B. A favorable resolution of a personal complaint against a particular store
- C. A reduction in sales or profits to pressure a company to change its ways
- D. Gaining the attention of corporate executives by creating negative news stories

\section*{Question 10c of 10 ( 2 Consumer complaints 242284 )}

1 attempt (2 points possible)
Multiple Choice: Please select the best answer and click "submit."

Why can consumers have influence over politicians?
- A. Consumers are able to boycott politicians' re-election campaigns.
- B. Corporations use profits from consumers to lobby the government.
- C. Politicians rely on the votes of consumers to keep them in office.
- DD. Government agencies are required to address consumer complaints.

Question 1a of 25 ( 1 Cost-benefit analysis 241430 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why do economic decisions vary from person to person even under the same circumstances?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & The value of money is generic. & \\
\hline \hline *B. & Costs and benefits are subjective. & \begin{tabular}{l} 
Correct! Subjective calculations vary from \\
person to person.
\end{tabular} \\
\hline C. & Different people expect different returns. & \\
\hline \hline D. & \begin{tabular}{l} 
Utility decreases differently for different \\
people.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Costs and benefits are subjective. Subjective calculations vary from person to person.

\section*{Question 1b of 25 ( 1 Cost-benefit analysis 241431)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Because subjective decisions are based on a person's unique values and beliefs, economic decisions \(\qquad\) _.
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline\(*\) A. & vary from person to person & \begin{tabular}{l} 
Correct! Subjective calculations vary from \\
person to person.
\end{tabular} \\
\hline B. & follow a personal production frontier & \\
\hline \hline C. & can be reduced to utility preferences & \\
\hline \hline D. & are always based on monetary considerations & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: vary from person to person. Subjective calculations vary from person to person.

Question 1c of 25 (1 Cost-benefit analysis 241432 )

Maximum Attempts:
Question Type:
Maximum Score:
Question: Why do people come to different decisions using cost-benefit analysis even under the same conditions?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & All values are ultimately monetary. & \\
\hline \hline *. & Costs and benefits are both subjective. & \begin{tabular}{l} 
Correct! Subjective calculations vary from \\
person to person depending on their \\
values and beliefs.
\end{tabular} \\
\hline \hline C. & Investment payoffs vary as time goes forward. & \\
\hline \hline D. & \begin{tabular}{l} 
Different people live under different \\
governments.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Costs and benefits are both subjective. Subjective calculations vary from person to person depending on their values and beliefs.

Question 2a of 25 ( 2 Cost-benefit analysis 241433 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these most accurately describes the costs and benefits of using a credit card?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
Credit cards are convenient but can result in \\
debt.
\end{tabular} & \begin{tabular}{l} 
Correct! The benefit of credit cards is that \\
you can buy before paying, but this can \\
result in debt by spending money you \\
don't have.
\end{tabular} \\
\hline B. & \begin{tabular}{l} 
Credit cards charge low interest on high-cost \\
items.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Credit cards cost money to use but result in \\
lower prices.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Credit cards expand purchasing power but \\
produce waste.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Credit cards are
convenient but can result in debt. The benefit of
credit cards is that you can buy before paying, but this can result in debt by spending money you don't have.

\section*{Question 2 b of 25 ( 2 Cost-benefit analysis 241434 ) \\ Maximum Attempts: 1 \\ Question Type: Multiple Choice \\ Maximum Score: 2 \\ Question: \\ Which of these describes the costs and benefits of taking a college loan?}
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
College loans help increase future earning \\
power but result in a long-term commitment to \\
monthly payments.
\end{tabular} & \begin{tabular}{l} 
Correct! A college education is expensive, \\
but it provides a higher earning power. \\
Some of these increased earnings go \\
toward paying for the loans.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
College loans require students to work while \\
studying but they cost less than conventional \\
loans.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
College loans reduce tuition payments but \\
increase total educational costs because of \\
interest payments.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
College loans help students with academic and \\
athletic skill overcome financial hardships.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: College loans help increase future earning power but result in a long-term commitment to monthly payments. A college education is expensive, but it provides a higher earning power. Some of these increased earnings go toward paying for the loans.

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:

Which of these describes the costs and benefits of getting a mortgage?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Mortgages help people pay for college but \\
involve lots of paperwork.
\end{tabular} & \\
\hline \hline *B. & \begin{tabular}{l} 
Mortgages enable people to buy houses but \\
result in large interest payments.
\end{tabular} & \begin{tabular}{l} 
Correct! Mortgages are large loans that \\
enable purchases that most people could \\
never make even with years of saving up.
\end{tabular} \\
\hline \hline
\end{tabular}
\begin{tabular}{|l||l|l|}
\hline & & \begin{tabular}{l} 
but the interest on a mortgage adds up to \\
nearly the price of the house.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
Mortgages prevent government regulation of \\
property but involve higher taxes.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Mortgages provide a replacement for lost or \\
damaged possessions but come with high fees.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Mortgages enable people to buy houses but result in large interest payments. Mortgages are large loans that enable purchases that most people could never make even with years of saving up, but the interest on a mortgage adds up to nearly the price of the house.

\hline A. & It keeps prices low. & \\
\hline \hline B. & It allows them get debit cards. & \\
\hline \hline *C. & It makes it easier for them to get loans. & \begin{tabular}{l} 
Correct! A person's credit history tells \\
banks and credit card companies whether \\
or not that person is a good risk.
\end{tabular} \\
\hline D. & It helps them reduce their housing costs. & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: It makes it easier for them to get loans. A person's credit history tells banks and credit card companies whether or not that person is a good risk.

Question 17b of 25 ( 2 Credit 241488 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question: \(\quad\)\begin{tabular}{l|l|l|}
\hline & Maintaining a good credit history makes it easier to do what? \\
\hline & Choice & Feedback \\
\hline \hline *. & Get a loan & \begin{tabular}{l} 
Correct! A person's credit history tells \\
banks and credit card companies whether \\
or not that person is a good risk.
\end{tabular} \\
\hline \hline B. & Save money & \\
\hline \hline C. & Increase revenues & \\
\hline \hline D. & Go to college & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Get a loan. A person's credit history tells banks and credit card companies whether or not that person is a good risk.

\section*{Question 17c of 25 ( 2 Credit 241489 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these makes it easier for a person to get a credit card?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & An angel investor & \\
\hline \hline B. & Liability insurance & \\
\hline \hline\(*\) C. & A good credit history & \begin{tabular}{l} 
Correct! A person's credit history tells \\
banks and credit card companies whether \\
or not that person is a good risk.
\end{tabular} \\
\hline D. & A low-interest mortgage & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A good credit history. A person's credit history tells banks and credit card companies whether or not that person is a good risk.

\section*{Question 18a of 25 ( 3 Credit 241490 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
What kind of a credit card can customers with a bad credit history get?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & One with no annual fee & \\
\hline \hline *B. & One that's secured by collateral & \begin{tabular}{l} 
Correct! People with a bad credit history \\
have difficulty getting credit cards unless \\
they can provide some kind of security for \\
the credit card company to lower the risk \\
of issuing them the card.
\end{tabular} \\
\hline \hline C. & One that has a low cash advance fee & \\
\hline \hline D. & One with a low annual percentage rate & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: One that's secured by collateral. People with a bad credit history have difficulty getting credit cards unless they can provide some kind of security for the credit card company to lower the risk of issuing them the card.

\section*{Question 18b of 25 ( 3 Credit 241491)}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these credit card features would be best for customers who want to pay off the balance on a high-interest credit card?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & A long grace period & \\
\hline \hline B. & No fees for cash advances & \\
\hline \hline \multirow{2}{*}{.} & Low fees for balance transfers & \begin{tabular}{l} 
Correct! Balance transfers allow \\
customers to pay off one credit card with \\
another.
\end{tabular} \\
\hline D. & An annual fee that can be waived & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Low fees for balance transfers. Balance transfers allow customers to pay off one credit card with another.

\section*{Question 18c of 25 ( 3 Credit 241492 )}

\section*{Maximum Attempts:}

Question Type:
Maximum Score:
Question:

Multiple Choice
2
Which of these fees is the biggest problem for customers who need to
use their credit card to take money from an ATM?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Overlimit fee & \\
\hline \hline B. & Late payment fee & \\
\hline \hline\(*\) C. & Cash advance fee & \begin{tabular}{l} 
Correct! Cash advance fees are charges \\
for using a credit card like a bank card.
\end{tabular} \\
\hline D. & Balance transfer fee & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Cash advance fee. Cash advance fees are charges for using a credit card like a bank card.

\section*{Question 19a of 25 ( 2 Credit 241493)}

\section*{Maximum Attempts: \\ 1}

Question Type: Multiple Choice
Maximum Score: 2
Question: What is the annual percentage rate (APR) on a credit card?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & The credit card's maximum spending limit & \\
\hline \hline *B. & \begin{tabular}{l} 
The amount of interest charged on unpaid \\
balances
\end{tabular} & \begin{tabular}{l} 
Correct! The APR is the same as the \\
interest rate on the money loaned by the \\
credit card company.
\end{tabular} \\
\hline C. & \begin{tabular}{l} 
The expected return on the credit card \\
company's investments
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The percentage of a person's income they can \\
spend each year
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The amount of interest charged on unpaid balances. The APR is the same as the interest rate on the money loaned by the credit card company.

Question 19b of 25 ( 2 Credit 241494 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is the grace period on a credit card?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline A. & \begin{tabular}{l} 
The amount of time a person has to wait to get \\
approved for the card
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
The amount of years a person has to have \\
worked before being able to get a card
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The number of months the customer has to \\
pay off a balance transferred from another \\
card
\end{tabular} & \\
\hline \hline & \begin{tabular}{l} 
The number of days the customer can wait to \\
pay for purchases without being charged \\
interest
\end{tabular} & \begin{tabular}{l} 
Correct! The grace period for most cards \\
is about a month, giving the customer \\
time to pay off each month's purchases \\
before interest charges begin accruing.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The number of days the customer can wait to pay for purchases without being charged interest. The grace period for most cards is about a month, giving the customer time to pay off each month's purchases before interest charges begin accruing.

\section*{Question 19c of 25 ( 2 Credit 241495 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & A loan to purchase a used car & \\

\hline \hline C. & A coupon payment on a government bond & \\
\hline \hline *. & \begin{tabular}{l} 
The use of a credit card to take money from an \\
ATM
\end{tabular} & \begin{tabular}{l} 
Correct! Many credit cards can be used to \\
take money from an ATM.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The use of a credit card to take money from an ATM. Many credit cards can be used to take money from an ATM.

\section*{Question 20a of 25 ( 2 Consumer protection 241496 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of these protects customers who purchase defective products?
\begin{tabular}{|l||l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & A boycott & \\
\hline \hline B. & Mediation & \\
\hline \hline & & \begin{tabular}{l} 
Correct! A warranty is a good feature to \\
look for because it ensures that the \\
consumer gets what he or she is paying \\
for.
\end{tabular} \\
\hline C. & A warranty & \\
\hline \hline D. & Shopper's insurance & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A warranty. A warranty is a good feature to look for because it ensures
that the consumer gets what he or she is paying for.

Question 20 b of 25 ( 2 Consumer protection 241497 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these can be used to protect consumers from unsafe products?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Small-claims court & \\
\hline \hline \multirow{2}{*}{ B. } & A recall & \begin{tabular}{l} 
Correct! A recall is an order to a company \\
to remove a product from stores if the \\
product is discovered to be dangerous.
\end{tabular} \\
\hline C. & A warranty & \\
\hline \hline D. & A receipt & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A recall. A recall is an order to a company to remove a product from stores if the product is discovered to be dangerous.

Question 20c of 25 ( 2 Consumer protection 241498 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question
Which of the following does not protect consumers?

\section*{- \(\quad\) Choice}

Feedback
\begin{tabular}{|l|l|l|}
\hline \hline A. & A recall & \\
\hline \hline \hline B. & A boycott & \begin{tabular}{l} 
Correct! A boycott is a way for consumers \\
to try to influence the behavior of \\
companies.
\end{tabular} \\
\hline C. & A warranty & \\
\hline \hline D. & Antitrust laws & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: A boycott. A boycott is a way for consumers to try to influence the behavior of companies.

Question 21a of 25 ( 2 Brand name 241499 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What's the difference between a brand-name and a generic product?
\begin{tabular}{|l||l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & The quality of the product & \\
\hline \hline B. & The side effects of the product & \\
\hline \hline \multirow{2}{*}{\begin{tabular}{l|l|l|} 
& The company that sells the product & \begin{tabular}{l} 
Correct! Brand-name and generic \\
products are very similar and sometimes \\

\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: A brand-name good. Brand-name and generic products are very similar and sometimes identical except for the seller and the label.

Question 22a of 25 ( 1 Social responsibility 241502 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is one of the primary concerns of socially responsible consumers?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Low price & \\
\hline \hline B. & Socialism & \\
\hline
\end{tabular}
\begin{tabular}{|l||l|l|}
\hline \hline\(*\) C. & Sustainability & \begin{tabular}{l} 
Correct! Socially responsible consumers \\
want to support companies that use \\
sustainable and low-impact production \\
methods.
\end{tabular} \\
\hline D. & Customer service & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Sustainability. Socially responsible consumers want to support companies that use sustainable and low-impact production methods.

Question 22b of 25(1 Social responsibility 241503)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these would a socially responsible company use?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Product marketing & \\
\hline \hline B. & Tariff protections & \\
\hline \hline C. & Mediation services & \\
\hline \hline \multirow{2}{*}{ D. } & Renewable resources & \begin{tabular}{l} 
Correct! Socially responsible companies \\
use sustainable and low-impact \\
production methods.
\end{tabular} \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Renewable resources.
Socially responsible companies use sustainable and low-impact production methods.

\section*{Question 22c of 25 ( 1 Social responsibility 241504 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
A socially responsible consumer might boycott a company that uses what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & Child labor & \begin{tabular}{l} 
Correct! Socially responsible consumers \\
oppose companies that exploit their \\
workers, including those that use child \\
laborers.
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline B. & The assembly line & \\
\hline \hline C. & Tariffs & \\
\hline \hline D. & Sustainable production methods & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Child labor. Socially responsible consumers oppose companies that exploit their workers, including those that use child laborers.

Question 23a of 25 ( 2 Social responsibility 241505 )
Maximum Attempts: 1
Question Type: Multiple Choice

Question: Why might a letter-writing campaign get a company to change its business practices?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The company could end up spending a lot of \\
money answering all of the letters.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
The government wants to keep both \\
consumers and companies from burdening the \\
postal system.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Consumers use letter-writing campaigns to get \\
the government to pass favorable legislation.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
The company might fear that the letter-writing \\
campaign will become a boycott if it doesn't \\
respond.
\end{tabular} & \begin{tabular}{l} 
Correct! Letter-writing campaigns contain \\
a veiled threat that nonresponsiveness \\
could result in a boycott.
\end{tabular} \\
\hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline The correct answer is: The company might fear \\
that the letter-writing campaign will become a \\
boycott if it doesn't respond. Letter-writing \\
campaigns contain a veiled threat that \\
nonresponsiveness could result in a boycott. \\
\hline
\end{tabular}

Question 23b of 25 ( 2 Social responsibility 241506 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why might a company respond to a letter-writing campaign launched by a group of concerned consumers?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline A. & \begin{tabular}{l} 
The letters demonstrate the moral wrongness \\
of the company's actions.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
The letters contain a veiled threat that \\
economic pressure could follow.
\end{tabular} & \begin{tabular}{l} 
Correct! Letter-writing campaigns often \\
precede a boycott and warn the company \\
that it needs to change in order to avoid a \\
boycott.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
The company could end up spending a lot of \\
money answering all of the letters.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The company might want to prevent the \\
consumer group from lobbying the \\
government.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The letters contain a veiled threat that economic pressure could follow. Letter-writing campaigns often precede a boycott and warn the company that it needs to change in order to avoid a boycott.

Question 23c of 25 ( 2 Social responsibility 241507 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is the purpose of a letter-writing campaign conducted by a group of consumers?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline * A. & \begin{tabular}{l} 
To get a company to change its business \\
practices voluntarily
\end{tabular} & \begin{tabular}{l} 
Correct! A letter-writing campaign is a \\
less intrusive method than a boycott or \\
lobbying to get a company to change its \\
ways.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
To force a company to comply with \\
government regulations
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
To inspire politicians to pass consumer- \\
protection regulations
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
To organize and publicize a boycott against a \\
company
\end{tabular} & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: To get a company to change its business practices voluntarily. A letter-writing campaign is a less intrusive method than a boycott or lobbying to get a company to change its ways.

Question 24a of 25 ( 3 Social responsibility 241508)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
A boycott would not be successful under what circumstance?
\begin{tabular}{|l|l||l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The company spent a lot of money lobbying \\
the government.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
The government decided to make the \\
company's practices illegal.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Many of the company's executives quit \\
because of economic pressure.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
Most consumers didn't stay away from the \\
company.
\end{tabular} & \begin{tabular}{l} 
Correct! Unless enough consumers share \\
the goals of the boycotters strongly \\
enough to participate, the boycott \\
probably won't hurt the company's profits \\
enough to have an impact.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Most consumers didn't stay away from the company. Unless enough consumers share the goals of the boycotters strongly enough to participate, the boycott probably won't hurt the company's profits enough to have an impact.

Question 24b of 25 ( 3 Social responsibility 241509 )
\begin{tabular}{ll} 
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & What does it take for a consumer boycott to be successful?
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
The boycott must significantly reduce the \\
target company's profits.
\end{tabular} & \begin{tabular}{l} 
Correct! A boycott can bring economic \\
pressure for change if it impacts a \\
company's bottom line.
\end{tabular} \\
\hline B. & \begin{tabular}{l} 
The boycott must succeed in replacing \\
traditional sales with online sales.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The boycott must be conducted by consumers, \\
producers, and the government.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The boycott must bring the target company's \\
offensive practices to the attention of the news \\
media.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback

The correct answer is: The boycott must significantly reduce the target company's profits. A boycott can bring economic pressure for change if it impacts a company's bottom line.

Question 24c of 25 ( 3 Social responsibility 241510 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Participating in a boycott often involves a sacrifice because the boycotters end up doing what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Going to jail & \\
\hline \hline\(*\) B. & Paying higher prices & \begin{tabular}{l} 
Correct! Boycotters commit themselves to \\
avoiding a certain company, usually a \\
company with low prices.
\end{tabular} \\
\hline \hline C. & Having their wages reduced & \\
\hline \hline D. & Losing their re-election campaigns & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Paying higher prices. Boycotters commit themselves to avoiding a certain company, usually a company with low prices.

Question 25a of 25 ( 2 Social responsibility 241511 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
How can consumers get the government to pass laws preventing companies from engaging in offensive behaviors?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & By striking & \\
\hline \hline *B. & By lobbying & \begin{tabular}{l} 
Correct! Citizens can use their power as \\
voters to get the government to pass laws \\
regulating the behavior of companies.
\end{tabular} \\
\hline C. & By boycotting & \\
\hline D. & By sanctioning & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback

The correct answer is: By lobbying. Citizens can use their power as voters to get the government to pass laws regulating the behavior of companies.

Question 25 bof 25 ( 2 Social responsibility 241513 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these might result in the government passing a law preventing companies from engaging in unfair or offensive business practices?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Striking & \\
\hline \hline *B. & Lobbying & \begin{tabular}{l} 
Correct! Citizens can use their power as \\
voters to get the government to pass laws \\
regulating the behavior of companies.
\end{tabular} \\

\hline \hline & Choice & Feedback \\
\hline \hline A. & Benefits & \\
\hline \hline B. & Consumption & \\
\hline \hline *. & Resources & \begin{tabular}{l} 
Correct! Allocation decisions involve \\
setting aside resources for a particular \\
use.
\end{tabular} \\
\hline D. & Utility & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Resources. Allocation decisions involve setting aside resources for a particular use.

Question 1c of 30(1 The game of economics 242919)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: In an economic system, decisions need to be made about productive resources and which of the following?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *A. & Allocation & \begin{tabular}{l} 
Correct! Allocation decisions involve \\
setting aside resources for a particular \\
use.
\end{tabular} \\
\hline B. & Growth & \\
\hline C. & Protection & \\
\hline \hline D. & Sustainability & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Allocation. Allocation decisions involve setting aside resources for a particular use.

Question 2a of 30 ( 3 The game of economics 242920 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these government policies pursues the economic goal of equity?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Protecting consumers from fraud & \\
\hline \hline *B. & Providing welfare benefits & \begin{tabular}{l} 
Correct! Welfare benefits distribute \\
financial resources more evenly \\
throughout society.
\end{tabular} \\
\hline \hline C. & Preventing monopolies & \\
\hline \hline D. & Ending a recession & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Providing welfare benefits. Welfare benefits distribute financial resources more evenly throughout society.
```

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these government policies pursues the economic goal of
growth?

```
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Keeping taxes low & \\
\hline \hline *. & Increasing the money supply & \begin{tabular}{l} 
Correct! A bigger money supply makes a \\
greater amount of economic activity \\
possible.
\end{tabular} \\
\hline \hline C. & Borrowing money using bonds & \\
\hline \hline D. & Protecting consumers from fraud & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Increasing the money supply. A bigger money supply makes a greater amount of economic activity possible.

Question 2c of 30 ( 3 The game of economics 242922 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these government policies pursues the economic goal of freedom?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Ending a recession & \\
\hline \hline B. & Avoiding a budget deficit & \\
\hline \hline C. & Increasing the money supply & \\
\hline \hline *D. & Protecting consumers from fraud & \begin{tabular}{l} 
Correct! Choices are only free if they're \\
made with full and accurate information.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Protecting consumers from fraud. Choices are only free if they're made with full and accurate information.

Question 3a of 30 ( 2 The game of economics 242923)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2

Question:
What is the purpose of a free-market system?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
To protect the conditions that enable \\
specialization
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
To stimulate the growth of the gross domestic \\
product
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
To raise the standard of living for everyone in \\
the country
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
To allow consumers and producers to make \\
their own decisions
\end{tabular} & \begin{tabular}{l} 
Correct! The free-market system leaves \\
economic decisions up to the free choices \\
of consumers and producers.
\end{tabular} \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: To allow consumers and producers to make their own decisions. The free-market system leaves economic decisions up to the free choices of consumers and producers.

Question 3b of \(\mathbf{3 0}\) ( 2 The game of economics 242924 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Which of these is one of the principles of a free-market system?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
The gross domestic product must be as large \\
as possible.
\end{tabular} & \\
\hline \hline\(* \mathbf{B .}\) & \begin{tabular}{l} 
The government must prevent consumers from \\
being coerced.
\end{tabular} & \begin{tabular}{l} 
Correct! A coerced choice is not a free \\
choice.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
Productive resources must be protected \\
against overexploitation.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Public goods must be provided to secure a high \\
standard of living.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The government must prevent consumers from being coerced. A coerced choice is not a free choice.

Question 3c of \(\mathbf{3 0}\) ( 2 The game of economics 242925 )
Maximum Attempts: 1
Question Type: Multiple Choice
\[
\begin{array}{ll}
\text { Maximum Score: } & 2 \\
\text { Question: } & \text { Which of these is required to have a free-market system? }
\end{array}
\]
\begin{tabular}{|l||l|l|}
\hline & Choice & Feedback \\
\hline \hline *. & Laws against theft, fraud, and coercion & \begin{tabular}{l} 
Correct! In order to have free choice, \\
people must have their property and \\
persons protected and have access to \\
accurate information.
\end{tabular} \\
\hline B. & Government provision of public goods & \\
\hline \hline C. & Tight control over the money supply & \\
\hline \hline D. & Sustainable development & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Laws against theft, fraud, and coercion. In order to have free choice, people must have their property and persons protected and have access to accurate information.

Question 4a of \(\mathbf{3 0}\) ( 2 The game of economics 242926 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why do economists measure the gross domestic product?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
To see how much economic activity there is in \\
a particular country
\end{tabular} & \begin{tabular}{l} 
Correct! The GDP is the total of all goods \\
and services produced in an economy.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
To estimate how much the government must \\
tax to avoid a budget deficit
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
To enable the Fed to decide whether to \\
increase or decrease the money supply
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
To determine whether consumers and \\
producers are making free choices
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: To see how much economic activity there is in a particular country. The GDP is the total of all goods and services produced in an economy.

Question 4b of \(\mathbf{3 0}\) ( 2 The game of economics 242927 )

Maximum Attempts:
Question Type:

1
Multiple Choice
Maximum Score: \(\quad 2 \quad\) What does the inflation rate indicate?
Question:
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & How far in debt the government is & \\
\hline B. & How much the minimum wage has increased & \\
\hline \hline\(*\) C. & How quickly prices are rising & \begin{tabular}{l} 
Correct! Inflation is a measurement of \\
price increases over time.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
How much interest is being charged on \\
mortgages
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: How quickly prices are rising. Inflation is a measurement of price increases over time.

\section*{Question 4c of \(\mathbf{3 0}\) ( 2 The game of economics 242928 )}

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these economic indicators is most likely to be high during a recession?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Retail sales & \\
\hline \hline B. & Gross domestic product & \\
\hline \hline \multirow{2}{*}{ C. } & Unemployment rate & \begin{tabular}{l} 
Correct! A recession is characterized by \\
inflation, high unemployment, and slow \\
growth of GDP.
\end{tabular} \\
\hline D. & Per capita personal income & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Unemployment rate. A recession is characterized by inflation, high unemployment, and slow growth of GDP.

Question 5a of 30 ( 3 The game of economics 242929 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
How does the assembly line benefit the economy?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline \hline A. & It enables low taxation. & \\
\hline \hline B. & It provides maximum utility. & \\
\hline \hline C. & It keeps distribution costs low. & \\
\hline \hline *. & It increases productivity. & \begin{tabular}{l} 
Correct! The assembly line cuts down on \\
wasted motion and enables workers to \\
learn their tasks better.
\end{tabular} \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: It increases productivity. The assembly line cuts down on wasted motion and enables workers to learn their tasks better.

Question 5b of \(\mathbf{3 0}\) ( 3 The game of economics 242930 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: How does use of cargo containers benefit the economy?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & By decreasing pollution & \\
\hline \hline *B. & By keeping distribution costs low & \begin{tabular}{l} 
Correct! Since the advent of containerized \\
cargo shipping methods, distribution costs \\
for goods have plummeted to around 1\% \\
of the retail price.
\end{tabular} \\
\hline \hline C. & By preventing protective tariffs & \\
\hline \hline D. & By generating renewable energy & \\
\hline \hline
\end{tabular}
\begin{tabular}{l}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: By keeping distribution \\
costs low. Since the advent of containerized \\
cargo shipping methods, distribution costs for \\
goods have plummeted to around 1\% of the \\
retail price.
\end{tabular}

Question 5c of 30 ( 3 The game of economics 242931)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: How has the Internet benefited the economy?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
By making it difficult for repressive \\
governments to censor their citizens
\end{tabular} & \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline B. & \begin{tabular}{l} 
By lowering overhead costs for retailers and \\
driving prices to all-time lows
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
By providing the government with a more \\
efficient means of collecting taxes
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
By improving communication and allowing \\
greater trade and specialization
\end{tabular} & \begin{tabular}{l} 
Correct! Better communication makes it \\
easier for businesses to diversify and do \\
business around the world.
\end{tabular} \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: By improving communication and allowing greater trade and specialization. Better communication makes it easier for businesses to diversify and do business around the world.

Question 6a of \(\mathbf{3 0}\) ( 2 The game of economics 242932 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: In a free-market system, consumers let producers know what they want to buy and how much they're willing to pay through what?
\begin{tabular}{|l||l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Boycotts & \\
\hline \hline B. & Their credit reports & \\
\hline \hline C. & Collective bargaining & \\
\hline \hline & & \begin{tabular}{l} 
Correct! Producers pay attention to \\
consumer behavior in order to profit more \\
from that behavior.
\end{tabular} \\
\hline *. & Their purchases & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Their purchases.
Producers pay attention to consumer behavior in order to profit more from that behavior.

Question 6b of 30 ( 2 The game of economics 242933 )

\section*{Maximum Attempts: \\ 1}

\section*{Question Type: Multiple Choice}

Maximum Score: 2

\section*{Question:}

In order to know what people want to buy and how much they're willing to pay, producers pay attention to what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline
\end{tabular}
\begin{tabular}{|l||l|l|}
\hline \hline A. & The size of the money supply & \\
\hline \hline B. & Interest rates set by the Fed & \\
\hline \hline\(*\) C. & Consumers' purchases & \begin{tabular}{l} 
Correct! Producers pay attention to \\
consumer behavior in order to profit more \\
from that behavior.
\end{tabular} \\
\hline \hline D. & Economic indicators & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Consumers' purchases. Producers pay attention to consumer behavior in order to profit more from that behavior.

Question 6c of \(\mathbf{3 0}\) ( 2 The game of economics 242934 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: \(\quad\) Producers use market research in order to do what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & Find out what consumers want to buy & \begin{tabular}{l} 
Correct! Producers pay attention to \\
consumer behavior in order to profit more \\
from that behavior.
\end{tabular} \\
\hline B. & Drive other companies out of business & \\
\hline \hline C. & Make better investment decisions & \\
\hline \hline D. & Keep the costs of production low & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Find out what consumers want to buy. Producers pay attention to consumer behavior in order to profit more from that behavior.

Question 7a of 30 ( 1 The game of economics 242935 )

Maximum Attempts:
Question Type:
Maximum Score:
Question:

Multiple Choice
2
Utility is a measure of what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Value & \\
\hline \hline B. & Money & \\
\hline
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline C. & Usefulness & \\
\hline \hline *D. & Satisfaction & \begin{tabular}{l} 
lorrect! Utility is the amount of \\
subjective satisfaction an individual \\
consumer gets from a particular act of \\
consumption.
\end{tabular} \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Satisfaction. Utility is the amount of subjective satisfaction an individual consumer gets from a particular act of consumption.

Question 7 b of 30 ( 1 The game of economics 242936 )

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:

The satisfaction that consumers get from their purchases is known as what?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & Utility & \begin{tabular}{l} 
Correct! Utility is the amount of \\
subjective satisfaction an individual \\
consumer gets from a particular act of \\
consumption.
\end{tabular} \\
\hline B. & Marginalism & \\
\hline \hline C. & Subjectivity & \\
\hline \hline D. & Materialism & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Utility. Utility is the amount of subjective satisfaction an individual consumer gets from a particular act of consumption.

Question 7c of \(\mathbf{3 0 ( 1 ~ T h e ~ g a m e ~ o f ~ e c o n o m i c s ~ 2 4 2 9 3 7 ) ~}\)
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Consumers use cost-benefit analysis in order to maximize what?
\begin{tabular}{|l||l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Productivity & \\
\hline \hline B. & Rationality & \\
\hline
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline *C. & Utility & \begin{tabular}{l} 
Correct! Cost-benefit analysis helps \\
consumers get the greatest satisfaction \\
out of their decisions.
\end{tabular} \\
\hline D. & Value & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Utility. Cost-benefit analysis helps consumers get the greatest satisfaction out of their decisions.

Question 8a of \(\mathbf{3 0}\) ( 2 The game of economics 242938 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
The purpose of advertising is to do what?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Keep prices low & \\
\hline \hline B. & Create a monopoly & \\
\hline \hline\(*\) C. & Influence consumer behavior & \begin{tabular}{l} 
Correct! Advertisers hope to get \\
consumers to buy more of their products.
\end{tabular} \\
\hline D. & Conduct market research & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Influence consumer behavior. Advertisers hope to get consumers to buy more of their products.

Question 8b of \(\mathbf{3 0}\) ( 2 The game of economics 242939 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: A consumer who is reluctant to take chances has a high level of what?
\begin{tabular}{|l|l|l|}

Question 11a of 30 ( 3 The game of economics 242947)

Maximum Attempts:
Question Type:
Maximum Score:
Question:

1
Multiple Choice
2
According to the law of supply and demand, when supply increases what else happens?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Demand will decrease. & \\
\hline \hline B. & Productivity will decrease. & \\
\hline C. & Quantity supplied will decrease. & \\
\hline \hline *D. & Prices will decrease. & \begin{tabular}{l} 
Correct! An increase in supply means \\
consumers don't have to compete with \\
each other as much, which drives down \\
the price they're willing to pay.
\end{tabular} \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Prices will decrease. An increase in supply means consumers don't have to compete with each other as much, which drives down the price they're willing to pay.

Question 11b of 30 ( 3 The game of economics 242948 )

\section*{Maximum Attempts: 1}

Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is most likely to lead to a decrease in the price of a good?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
Demand decreases and supply remains the \\
same.
\end{tabular} & \begin{tabular}{l} 
Correct! A decrease in demand for a fixed \\
supply means consumers don't have to \\
compete with each other as much, which \\
drives down the price they're willing to \\
pay.
\end{tabular} \\
\hline B. & Demand increases and supply decreases. & \\
\hline \hline C. & Demand increases as fast as supply increases. & \\
\hline \hline D. & \begin{tabular}{l} 
Demand decreases and supply decreases the \\
same amount.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Demand decreases and supply remains the same. A decrease in demand for a fixed supply means consumers don't have
to compete with each other as much, which drives down the price they're willing to pay.

Question 11c of 30 ( 3 The game of economics 242949 )
Maximum Attempts: 1

\end{tabular}

Question 13a of 30 ( 2 The game of economics 242953 )

\section*{Maximum Attempts: 1}

Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is most likely to lead to an increase in wages?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline A. & Outsourcing and offshoring & \\
\hline B. & The use of an assembly line & \\
\hline \hline & & \begin{tabular}{l} 
Correct! Labor unions give workers \\
greater bargaining power because they all \\
stand together against the employer when \\
negotiating wages.
\end{tabular} \\
\hline *. & The formation of a labor union & \\
\hline D. & A government with a budget surplus & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: The formation of a labor union. Labor unions give workers greater bargaining power because they all stand together against the employer when negotiating wages.

Question 13b of 30 ( 2 The game of economics 242954 )
Maximum Attempts: 1
Question Type: Multiple Choice

Maximum Score:
Question:

What is likely to happen if the size of the labor pool suddenly increases?
\begin{tabular}{|l|l||l|}
\hline & Choice & Feedback \\
\hline \hline A. & Prices will go up. & \\
\hline \hline B. & Profits will decrease. & \\
\hline \hline C. & The minimum wage will rise. & \begin{tabular}{l} 
Correct! The labor market follows the law \\
of supply and demand, so an increase in \\
supply leads to a decrease in price as \\
employers do not have to compete as \\
fiercely for workers.
\end{tabular} \\
\hline \hline & & Wages will go down. \\
\hline D. & & \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Wages will go down. The labor market follows the law of supply and demand, so an increase in supply leads to a decrease in price as employers do not have to compete as fiercely for workers.

Question 13c of 30 ( 2 The game of economics 242955 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
A high level of what is most likely to lead to a higher wage?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & Education & \begin{tabular}{l} 
Correct! Education makes a worker a \\
rarer commodity, and rare commodities \\
have higher prices.
\end{tabular} \\

\end{tabular}

Question 15a of 30 ( 2 The game of economics 242959 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question:
Why is a fractional reserve banking system necessary?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
To enable the government to charge lower \\
taxes
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
To provide the regulation of the global \\
economy
\end{tabular} & \\
\hline \hline *. & \begin{tabular}{l} 
To enable banks to loan out money to make a \\
profit
\end{tabular} & \begin{tabular}{l} 
Correct! With a full reserve banking \\
system, banks couldn't make loans and \\
would have no way of making money \\
other than by charging fees.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
To prevent the money supply from growing too \\
quickly
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback

The correct answer is: To enable banks to loan out money to make a profit. With a full reserve banking system, banks couldn't make loans and would have no way of making money other than by charging fees.

Question 15 b of 30 ( 2 The game of economics 242960 )
\begin{tabular}{ll} 
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & What is the purpose of the required reserve ratio?
\end{tabular}
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
To keep central banks from having too much \\
influence over currency exchange rates
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
To provide government planners with accurate \\
information about economic indicators
\end{tabular} & \\
\hline \hline\(*\) C. & \begin{tabular}{l} 
To make sure banks have enough money on \\
hand to meet customers' withdrawal requests
\end{tabular} & \begin{tabular}{l} 
Correct! The required reserve ratio \\
protects banks against bank runs.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
To prevent the government from getting so far \\
into debt that the economy is weakened
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: To make sure banks have enough money on hand to meet customers' withdrawal requests. The required reserve ratio protects banks against bank runs.

Question 15c of 30 ( 2 The game of economics 242961)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Under a fractional reserve banking system, the amount of money loaned out can only increase if what happens?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline A. & Taxes are reduced. & \\
\hline B. & The money supply increases. & \\
\hline C. & There are more government bonds for sale. & \\
\hline \hline *D. & The required reserve ratio is lowered. & \begin{tabular}{l} 
Correct! When the required reserve ratio \\
goes down, banks are legally allowed to \\
tap into their reserves to make more \\
loans.
\end{tabular} \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: The required reserve ratio is lowered. When the required reserve ratio goes down, banks are legally allowed to tap into their reserves to make more loans.

\begin{tabular}{ll} 
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & Which of these is the Fed not able to do?
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & Prevent a budget deficit & \begin{tabular}{l} 
Correct! Congress, not the Fed, \\
determines the budget of the federal \\
government.
\end{tabular} \\
\hline \hline B. & Regulate private banks & \\
\hline \hline C. & Sell government bonds & \\
\hline \hline D. & Increase the money supply & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Prevent a budget deficit. Congress, not the Fed, determines the budget of the federal government.

Question 17a of 30 ( 3 The game of economics 242965 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is most likely to lead to an increase in the price of a company's stock?
\begin{tabular}{|c|c|c|}
\hline & Choice & Feedback \\
\hline A. & Its dividends are reduced. & \\
\hline B. & Its outstanding shares are sold. & \\
\hline * C. & Its profits increase. & Correct! When a company is more profitable, its stock is in higher demand, and higher demand means a higher price. \\
\hline D. & Its market capitalization declines. & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Its profits increase. When a company is more profitable, its stock is in higher demand, and higher demand means a higher price.

Question 17b of \(\mathbf{3 0}\) ( 3 The game of economics 242966 )
Question Type:
Maximum Score:
Question: \(\quad\)\begin{tabular}{l|l|l|}
\hline \hline & Choice & Wultiple Choice \\
\hline \hline A. & An increase in demand for the company's stock & \begin{tabular}{l} 
Correct! Stocks, like other goods, follow \\
the law of supply and demand, so an \\
increase in demand leads to higher prices.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
An increase in demand for the company's \\
products
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
An increase in the exchange rate for the U.S. \\
dollar
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
An increase in tariffs paid by the company's \\
competitors
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: An increase in demand for the company's stock. Stocks, like other goods, follow the law of supply and demand, so an increase in demand leads to higher prices.

Question 17 c of 30 ( 3 The game of economics 242967 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is most likely to lead to a decrease in the price of a company's stock?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & Its annual profits decrease. & \begin{tabular}{l} 
Correct! When a company is less \\
profitable, there's less demand for its \\
stock, and lower demand means a lower \\
price.
\end{tabular} \\
\hline B. & Its outstanding shares are sold. & \\
\hline \hline C. & Its suppliers decrease their prices. & \\
\hline \hline D. & Its competitors go out of business. & \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: Its annual profits decrease. When a company is less profitable, there's less demand for its stock, and lower demand means a lower price.

\hline \hline & Global I ncorrect Feedback \\
\hline \hline & \begin{tabular}{l} 
The correct answers are: Capital gains tax: \(10 \%\) \\
on profits from the sale of a house; \\
Consumption tax: 6\% tax on all sales; Excise \\
tax: \(\$ 5\) tax on a cable television line; Payroll \\
tax: \(15 \%\) tax to pay for Social Security.
\end{tabular} \\
\hline
\end{tabular}

Question 20c of 30 ( 3 The game of economics 242976 )
\(\begin{array}{ll}\text { Maximum Attempts: } & 1 \\ \text { Question Type: } & \text { Matching }\end{array}\)

Question 21a of 30(2 The game of economics 242977)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: The government needs to provide public goods for what reason?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
Private companies cannot profit by providing \\
them.
\end{tabular} & \begin{tabular}{l} 
Correct! The non-excludability of public \\
goods makes it difficult to profit from \\
them.
\end{tabular} \\
\hline B. & \begin{tabular}{l} 
They are necessary for raising the standard of \\
living.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The government can reduce taxes by profiting \\
from public goods.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Citizens demand government regulation to \\
protect their freedom.
\end{tabular} & \\
\hline \hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Private companies cannot profit by providing them. The non-excludability of public goods makes it difficult to profit from them.

Question 21b of 30 ( 2 The game of economics 242978 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Why are private companies unlikely to provide public goods?
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Public goods are inferior goods that can never \\
be sold for a very high price.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Private companies are prevented by the \\
government from producing public goods.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The fungibility of public goods makes it easy \\
for consumers to substitute merit goods.
\end{tabular} & \\
\hline \hline *D. & \begin{tabular}{l} 
The non-excludability of public goods makes it \\
difficult to profit from them.
\end{tabular} & \begin{tabular}{l} 
Correct! Non-excludable goods have a \\
free-rider problem that undercuts profits.
\end{tabular} \\
\hline \hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: The non-excludability of public goods makes it difficult to profit from them. Non-excludable goods have a free-rider problem that undercuts profits.

Question 21c of 30 ( 2 The game of economics 242979 )

\section*{Maximum Attempts: 1}

Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these prevents private companies from deciding to produce public goods?
\begin{tabular}{|l||l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Government regulations & \\
\hline \hline B. & Protective tariffs & \\
\hline \hline C. & Decreasing marginal utility & \\
\hline \hline *D. & The profit motive & \begin{tabular}{l} 
Correct! The non-excludability of public \\
goods makes it difficult to profit from \\
them.
\end{tabular} \\
\hline
\end{tabular}

\section*{Global I ncorrect Feedback}

The correct answer is: The profit motive. The non-excludability of public goods makes it difficult to profit from them.

Question 22a of 30(1 The game of economics 242980)
```

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these promotes greater efficiency and lower prices by
protecting competition?

```
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & Antitrust laws & \begin{tabular}{l} 
Correct! Antitrust laws prevent market \\
concentration to ensure that companies \\
have to remain efficient and productive in \\
order to make profits.
\end{tabular} \\
\hline B. & Small-claims courts & \\
\hline \hline C. & Government contractors & \\
\hline \hline D. & Environmental-protection laws & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Antitrust laws. Antitrust laws prevent market concentration to ensure that companies have to remain efficient and productive in order to make profits.

Question 22b of 30(1 The game of economics 242981)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score:
Question:
2

Antitrust laws promote greater efficiency and lower prices by protecting what?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Workers & \\
\hline \hline B. & Consumers & \\
\hline \hline *. & Competition & \begin{tabular}{l} 
Correct! Antitrust laws prevent market \\

\hline
\end{tabular}

Question 25c of 30 ( 3 The game of economics 242991 )
\begin{tabular}{ll} 
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & \begin{tabular}{l} 
When does Country \(X\) have an absolute advantage over Country \(Y\) in \\
\end{tabular} \\
the production of corn?
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *A. & \begin{tabular}{l} 
Country X can grow corn more cheaply than \\
Country Y.
\end{tabular} & \begin{tabular}{l} 
Correct! Absolute advantage exists when \\
production is at its peak of efficiency.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
Country Y has high opportunity costs for \\
growing corn.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
The population of Country X consumes less \\
corn than is grown.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
The global demand for corn is higher than the \\
supply from Country Y.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Country X can grow corn more cheaply than Country Y. Absolute advantage exists when production is at its peak of efficiency.

Question 26a of 30 (1 The game of economics 242992)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these results from the mobility of production that characterizes the current global economy?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & Outsourcing & \begin{tabular}{l} 
Correct! Companies can send jobs \\
overseas when it's possible to move \\
productive processes around the world \\
more easily.
\end{tabular} \\
\hline B. & Protectionism & \\
\hline \hline C. & Immigration & \\
\hline \hline D. & Terrorism & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: Outsourcing. Companies \\
\hline
\end{tabular}
can send jobs overseas when it's possible to move productive processes around the world more easily.

Question 26b of 30(1 The game of economics 242993)
\begin{tabular}{ll} 
Maximum Attempts: & 1 \\
Question Type: & Multiple Choice \\
Maximum Score: & 2 \\
Question: & Companies use offshoring in order to do what?
\end{tabular}
\begin{tabular}{|l|l|l|}
\hline & Choice & Feedback \\
\hline \hline A. & Lobby the government & \\
\hline B. & Increase market share & \\
\hline \hline *C. & Reduce labor costs & \begin{tabular}{l} 
Correct! Offshoring manufacturing or \\
service to low-cost countries helps \\
companies keep their productive costs \\
and prices down.
\end{tabular} \\
\hline D. & Protect infant industries & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Reduce labor costs.
Offshoring manufacturing or service to low-cost countries helps companies keep their productive costs and prices down.

Question 26c of 30(1 The game of economics 242994)

Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Low wages in the underdeveloped world give U.S. companies an incentive to do what?
\begin{tabular}{|l|l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Lobby & \\
\hline \hline B. & Boycott & \\
\hline \hline C. & Colonize & \\

Question 27a of 30 ( 2 The game of economics 242995 )
\begin{tabular}{|c|c|c|}
\hline \multicolumn{3}{|l|}{Maximum Attempts: 1} \\
\hline Question Type: & \multicolumn{2}{|l|}{Multiple Choice} \\
\hline \multicolumn{3}{|l|}{Maximum Score: 2} \\
\hline \multicolumn{3}{|l|}{Question: Why is renting an apartment usually cheaper than buying a house?} \\
\hline & Choice & Feedback \\
\hline A. & Apartments are usually smaller than houses. & \\
\hline B. & Leases have lower interest rates than mortgages. & \\
\hline C. & Renting involves hidden costs like the security deposit. & \\
\hline * D. & Buying a house is an investment that pays off in the long run. & Correct! Buying a house involves paying off a loan and eventually owning the home, while renting is just giving money to a landlord. \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Buying a house is an investment that pays off in the long run. Buying a house involves paying off a loan and eventually owning the home, while renting is just giving money to a landlord.

Question 27b of \(\mathbf{3 0}\) ( 2 The game of economics 242996 )

\begin{tabular}{|l|}
\hline Global I ncorrect Feedback \\
\hline \hline The correct answer is: Mortgage payments \\
\hline
\end{tabular}
increase the homeowner's equity. Buying a house involves paying off a loan and eventually owning the home, while renting is just giving money to a landlord.

Question 27 c of 30 ( 2 The game of economics 242997 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is a disadvantage of buying a house instead of renting?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Homeowners have to get liability insurance. & \\
\hline \hline *B. & \begin{tabular}{l} 
Homeowners must pay for all repairs \\
themselves.
\end{tabular} & \begin{tabular}{l} 
Correct! The landlord, not the renter, \\
pays for repairs to an apartment.
\end{tabular} \\
\hline \hline C. & \begin{tabular}{l} 
Homeowners are in a higher income tax \\
bracket.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Homeowners are not allowed to move out \\
when they want.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Homeowners must pay for all repairs themselves. The landlord, not the renter, pays for repairs to an apartment.

Question Type: Multiple Choice
Maximum Score: 2
Question:
Why are student loans usually guaranteed by the government?
\begin{tabular}{|l||l||l|}
\hline & Choice & Feedback \\
\hline \hline A. & \begin{tabular}{l} 
Banks charge low interest rates for student \\
loans.
\end{tabular} & \\
\hline \hline B. & \begin{tabular}{l} 
Banks are required to maintain a certain \\
reserve ratio.
\end{tabular} & \\
\hline \hline *C. & \begin{tabular}{l} 
Banks don't have any collateral for student \\
loans.
\end{tabular} & \begin{tabular}{l} 
Correct! Student loans are unsecured, \\
making them more risky than other loans.
\end{tabular} \\
\hline \hline D. & \begin{tabular}{l} 
Banks would give students credit cards they \\
can't afford.
\end{tabular} & \\
\hline \hline
\end{tabular}
\begin{tabular}{|l|}
\hline Global Incorrect Feedback \\
\hline \hline The correct answer is: Banks don't have any \\
collateral for student loans. Student loans are \\
unsecured, making them more risky than other \\
loans.
\end{tabular}

Question 30b of \(\mathbf{3 0}\) ( 2 The game of economics 243005 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: Which of these is a form of self-help financial aid?
\begin{tabular}{|l||l||l|}
\hline \hline & Choice & Feedback \\
\hline \hline A. & Liability coverage & \\
\hline \hline B. & Scholarships & \\
\hline \hline C. & Tuition fees & \\
\hline \hline & & \begin{tabular}{l} 
Correct! Student loans must be paid back, \\
which is why students are helping \\
themselves pay for their education rather \\
than getting gifts.
\end{tabular} \\
\hline *. & Student loans & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Student loans. Student loans must be paid back, which is why students are helping themselves pay for their education rather than getting gifts.

Question 30c of \(\mathbf{3 0}\) ( 2 The game of economics 243006 )
Maximum Attempts: 1
Question Type: Multiple Choice
Maximum Score: 2
Question: What is one of the features of most student loans?
\begin{tabular}{|l|l|l|}
\hline \hline & Choice & Feedback \\
\hline \hline *. & \begin{tabular}{l} 
Students don't have to begin repaying until \\
they're done with school.
\end{tabular} & \begin{tabular}{l} 
Correct! Banks know that students are \\
more likely to be able to repay a loan \\
once they've graduated and gotten a \\
decent job.
\end{tabular} \\
\hline \hline B. & \begin{tabular}{l} 
Collateral is provided through the purchase of \\
a leased automobile.
\end{tabular} & \\
\hline \hline C. & \begin{tabular}{l} 
Loan insurance is required in case the student \\
suffers an injury or illness.
\end{tabular} & \\
\hline \hline D. & \begin{tabular}{l} 
Interest rates are high to cover the risk of \\
students defaulting on their loans.
\end{tabular} & \\
\hline
\end{tabular}

Global I ncorrect Feedback
The correct answer is: Students don't have to begin repaying until they're done with school. Banks know that students are more likely to be able to repay a loan once they've graduated and gotten a decent job.```
