

Cycle Kids

To me, being a Cycle Kid means that you are able to ride a bike, learn how to ride if you don't know how, have fun, and do all of that while being safe. I always can not wait to go to class every week. Although I do not like homework, it helps me learn stuff and have fun. Really, the whole thing is fun because you are with your friends.

The people who did not know how to ride a bike could choose to go on a bike or not. I did not know how to ride well so my teacher Mr. Holloway, told me to take it slow and have confidence in myself. I listened to him and now I love riding bikes. I am really privileged to be in the only grade at W.S.N. S. who is taking this class because this year I learned how to keep my balance and now I can ride.

If I win the bike, I would be so happy. I would ride it everywhere and would bring it to Cycle Kids every week. I would wear my new helmet every time I ride and I will practice my hand signals so that the cars know where I am going. I would tell everyone that I won the bike for taking this class and writing an essay for Cycle Kids. Even if I do not win the bike, I am happy to know I can ride a bike safely.

I am so happy that I get an opportunity like this to win a bike, it is so exciting. Thank you for your time and for teaching me to ride safely.
