ENCOURAGING NEWS.

The schooner Chipole, Capt. Lockwoos, arrived on Tuesday from Minstittan, which she feft on the 28th ult. We learn from the Picayane that the Chipole book down Cel. SUMMERS, the agent of the company, and one of the associates in the contract for erecting the requisite bridges and piers, at Venton, on the Pacific, and Suchli, on the Continuouslous river. That journal says further:

Col. Summan's party met with a cordial reception, and the inhabitants on the lethman were in the highest spirits at the prospect of the early opening of the route for travel and traffic. s expressed by th mal and cathusias en. WM. WALKER in thi

were in the highest spirits at the prospect of the early opening of the route for travel and traffic.

Vessels had already commenced arriving at Vestess from California, and three more are reported under way, full of passengers. The last arrival brought about forty, searly all of whom have settled permanently on the lathmus, and have made extensive purchases of lend. Amongst the passengers by the Chipsel were a gentleman and his wife, who expected the lathmus in the days and a half. They speak in the very highest terms of the coute, and represent the country as beautiful beyond conception. The port of Vestions is described in the world, the anchorage being extremely asfe, with deep water at a stoney throw from shore.

The finishing of the road, under the energetic direction of Col. Summers, will now be processed with rapidly, so that by the lat Octuber a regular line of stages will cross the lathmus semi-munithly, and perhaps weekly, commering at both sides with fine passenger we we learn that therety after the arrival of the contract o

ishimus semi-monthly, and werhaps weekly, connecting at both sides with five passenger at earners.

We learn that shortly after the arrival of the Chigoda at Minatitlan, a schooner, called the Vision, made her appearance, chartered by A. G. Sloo and his friends, and claimed admittance under the right and privileges concerded to the company. The Moriton of the company of the first can attherities, however, fastly refused to recognize these assumptions, and proceeded to enforce the port and customhouse regardations, as against any other stranger.

This is certainly encouraging intelligence, and should stimulate the friends of the enterprise to renewed exertion. We amittipase the pleasure it will congry to the heart of Senator Benjamin, and timeriani little doubt that he will avail Bimeelf of the earliest opportunity to submit it to the Postmaster General, and to urge upon that functionary the expediency of effecting a contract with the Tehuantepec Company for the transportation of the mails. Despite the malevoket instinuations of certain parties we are completely persuaded that Senator Benjamin is not of the mails.
