COMMERCIAL.

OFFICE OF THE BEE,
Friday Evening, Nov. 16, 1860.

Our general market has exhibited but little animation during the past week, though a fair demand has prevailed for Cotton during a portion of the time, and Sugar and Molasses have gone off freely at unvarying rates. In Tobacco nothing of any moment has been done. The receipts of Western Produce have been light, and prices for some of the leading articles have advanced, but with only limited movement. Freights have been steady, and Exchange is easier.

The Asia's advices, with Liverpool dates to the 20th ultimo, were received on Tuesday, having been anticipated by the Hungarian's accounts, noticed in our last weekly report. The sales of Cotton for the week ending October 20th were 86,000 bales, including 20,000 for speculation and export, about Cotton having advanced ⅛@¼d. The stock on hand was 673,000 bales, including 337,000 American. As Havre prices had slightly advanced, with sales of 6000 bales during the week.

COTTON—Arrived since the 11th instant, 69,531 bales. Cleared in the same time for Liverpool 26,944 bales, Cork 1716, Havre 8842, Barcelona 2700, Bremen 5133, Vera Cruz 571, Havana 1, and Mobile 2154 bales; together, 44,497 bales, making an addition to the stock of 25,034 bales, and leaving on hand, including all on shipboard not cleared this day, a stock of 307,943 bales.

The Cotton market opened this week with an inactive appearance, and the sales of Saturday and Monday together embraced only 700 bales, though prices were pretty well maintained within the range of our previously advanced quotations. On Tuesday of our fair demand prevailed, and results in sales of 10,000 bales, and on Wednesday 9000 bales changed hands, without al crabon in the range. Yesterday's business embraced some 10,000 bales, and to-day about 14,000 bales were taken, making a total for the week of 51,000 bales, the market closing at the range of our quotations, as follow:
