managed it. Doublees be found the mesta is the Treasury, but we may be permitted to dribt whether the bose of hisving paid seventy one million or doubtrs towards clearing off the debt is a textituate boost. The Secretary of the Tractury deserves no praise for having fact-filly applied the finds to the payment of the debt. Aughouset man could have done that much. The butieses of the minister of the finance department includes something more than a proper amplication of the fendle at his first nearest detectment includes something more than a proper application of the funds at his 6's posal. The talents of this minister are to be tested by the answer which he makes to this question. 6'At what cust to the people of the United State-hare you made this reduction of the debt? and his inquiry opens up an extensive subject of inversionation. In what condition, we might ask the Secretary, does he leave the people wire se finances he is administering, after extension from them the coun of three hundred and extensing from them the coun of three hundred and extensy millions of differs? In their labor rand wormy of a statesman, but we find Mr or woll is esting only of the burden that he r present generation to carry and of me up under it. We repeat this is
