green to seep or have been proved plant-based. Percentage to the genulie erac to have those visions of disasters for companions. Annon a somma arises who has turned philosopher and who been been supported by the service of the senses to it, but sometimes even she has her numeric of teror, and those save caused by the fear-you would be the sense of the service of the service of the companion of the service of the service of the ber being called massallars by her own

## GREAT CENTER OF TRADE.

Burnes Ayres, Argentine, is the Chi-eago of the South Ameri-can Continent.

The greatest city on the South American continent is Buenos Ayros. The population is believed to exceed some continent in the continent of the

number of inhabitants. There are easy about to cities inhabited by white men in all the world which are bigger.

Size is not the only notable form of development. The revenue of the city is about \$5,000,000 are lighter thy more than 12,000 gas jets, over \$5,000 lumps and about 1,250 are lighter thy more than 12,000 gas jets, over \$5,000 lumps and about 1,250 are lights, the latter of 1,000 to 2,000 candle power apiece. There are, 15 theaters or similar places of public amusement and they have about 1,000,000 speciators every year. The street rathery a carry 10,000,000 speciators every year. The street rathery a carry 10,000,000 speciators every year. It is one of the most cosmopolitan of all the earth's centers. Besides the coderlying and still dominant Spatish element which used to have the Argentine in exclusive possession, there is a large Italian population, fast increasing, and the Germanne, English element which used to have the Argentine (Population) and the Carrier of the complex of the city of the complex of the city of the complex of the city are more of intelligence, who know came thing of the importance of sanitary improvements, and are said to be ally to their dailers, to make them of himself and his literatures, in all the world.

The Library.
