NEW-ORLEANS, SATURDAY MORNING, AUGUST 13. 1831.

ERRATA .- In our MEMORANDA of Thursday last, a typographical error occurred in the

European intelligence, a few days later, will probably reach here by this day's mail, as the York (Liverpool packet of the 24th) and the De Rham (Havre packet of the 20th) were daily expected at New-York.

In the total absence of any thing in the form of news, we throw ourselves upon the ressources of miscellaneous matter. This day's mail, unless barred by the recent rains, will probably furnish more important documents, than those which we have of late received.

In a few remarks copied from the Jamaica Courant of the 8th of July, and transferred from the New-York Courier to the columns of our paper, a federative league between the British colonial settlements of the West Indies and North America is looked upon as a probable result of the change of Parliament in England. revolution, have given rise to indirect representations on the part of the colonists; and the organs of public opinion are not remiss in pointing out the inevitable consequences of what they deem an unequal and oppressive system of government.

## JAMAICA.

It is contemplated in Jamaica to form a fede ration between the various British Colonies in the West-Indies and North America, to protect their rights; which, it is contemplated, may be completely under the popular voice of the British nation in a reformed Parliament, where the colonial interests will neither be directly nor equally represented. It is contended by the Jamaica paper, that their island has as much right to be represented in the British Parliament as South Carolina in the American Congress. The British Parliament claims, and is allowed to exert the power of regulating the trade of the colonies and foreign tariff at her pleasure. Hitherto the colonies have been partially represented-thus Mr. Burge, the agent of the Legislature at London sits in parliament for Sir Christopher Kerrison's borough of Lye-in a reformed parliament—there would be no representation for the Colonies. Mr. Liume and a very influential party in the House of Commons, consider the Colonies a burthen, and this opinion is related by the Colonists stating they are ready to rid the mother country of their real or supposed incumbrance, but that they are not the subjects of parliament but their fellow countrymen. They say that they are able to protect themselves. In consequence many of the troops have been removed from Jamaica

We have obtained from the Department of State some letters from Mr. Reynolds, who embarked in the exploring expedition from this country. They will be found interesting. Wash. Globe.

Los Angeles, Nov. 1830. My Dear Sir-The Indians will not permit us to pass. Fifteen days ago, we left this place in high spirits and fully prepared with presents and interpreters. Our roads bearing off to the southward and eastward, led along a beautiful plain. The volcano of Antuco was visible from the north, the emoke distinctly occur rising and curling among the white grey clouds, while the rays of the sun, reflected from the snowy peaks of the Cordilleras, seemed to set in bolder relief the rich verdure and shrubbery beneath. Four leagues brought us to San Carlos, on the banks of the Rio Bio, in the time of the king a neat little village and fort, but now in a state of

The river is about 200 yards wide, with a deep and rapid current. You would have laughed to see us adopt the Aracaunian method of crossing it. Three logs lashed together, formed our boat : this we tied to a horse's tail, and two getting on at a time, drove him into the water. -and away we went, near half a mile down the stream before we reached the opposite side A party of Indians, wishing to cross, took back our boat; and so on in succession till all were

South of the Rio Bio the country instantaneously assumed a still more rich and beautiful appearance. It is diversified with hills and or beast.

On the second day we reached the residence language signifies "ten guanocos." He is an the Pulches.

Charles the Fifth, when tired of the world, of the Bourbons. could not have chosen a more interesting spot "These are the same propositions as those try by a commercial interchange, and many anfor his retirement. In a valley six leagues from lately submitted at provincial meetings of the the base of the mountains, in a climate where the rigor of winter is unknown, and the heat of best success; while at the same time, M. Casisummer never oppressive, owing to a constant mir Perrier's letter resisting the principle of them are concave, and probably served as shea-southerly breeze, we found the residence of Ma-pledges, has been circulated like a cheap tract thing to enhance the beauty or durability of relguan. Horned cattle and horses and sheep were lying around, giving such evidence of com-fort as is often found among the Cherokees of

On our return we slept another night on the banks of the Rio Bio. The name of this river is connected with all that is interesting and tragie in the early history of Chili. It was here tionalist, who spoke at the Abbe Gregoire's interment, is very prominent in the getting up of were so often repulsed. Army after army crossed this river, for the subjugation of the Indian territory, were as often compelled to retrace their steps, or fall by the war club or apear. Mexico, Colombia, Peru, and the northern parts of Chili, were successively subjugated by the force of Spanish arms, fired by an inextinguishable thirst for gold and dominion while the Rio Bio to this day, forms the line By the way, somebody should induce the seems to strengthen the conjecture that the reand southern boundary of Chili, of which the King not to settle his private accounts in the mote ancestry of the present Mexican Indians,

successful in getting through the territory of other Caciques, and thus disappointed have return-

reconnoitre. We passed the night near the base eithe mountain. Our commander, with an intuitive knowledge of the provess of his soldiers, merer brought our coarage to the "sticking to be the case) with the man of inferior rank.—

The Queen and the King's sister came out, and the man discharging his piece and brought our coarage to the "sticking took him into the palace to settle these seconnal.

of Caili, and to draw on you for the same.

ernor of Valparaiso, recommending us to the day last, a typographical error occurred by the person of the distribution of General Prieto, has also following paragraph: "Twelve vessels were special protection of General Prieto, has also loading at Havre for this port."—It ought to have been received.

You state that you have received a letter from the hon, Martin Van Buren, Secretary of State, was odd enough some of the old Windsor to say, in his sleep—"I tell you I didn't kill him. requesting you to do all that is practicable to cortege of the late British King were there at I only shot at him, and he fell, and then the promote the objects of our private enterprize.

I confess how foolish it is to make such a with which he boards every vessel arriving. leclaration -but here it is written, and shall not be erased.

Very respectfully, your obedient servant, J. N. REYNOLDS.

MICHAEL HOGAN, Esq. American Consul, Valparaiso.

GEORGETOWN, S. C. July 15 .- This day takes, agreably to our calculation, the fortythird since it commenced raining; and if we have not actually had a deluge like that which once drowned the world, we have had what is justly entitled to the appellation of a good soa-king.—Whe have not had four and twenty hours of clear sun in upwards of six weeks. The whole country is inundated-much damage, we are told, is done to the upland crops. Rice too has materially suffered for the want of good seasons for hoeing and ridding it of grass. We learn also to-day that a heavy fresh is coming down the Pee Dee.

Every thing appears to be gloomy. The weather is gloomy—the prospects of crops are gloomy—and Nullification, instead of brightening up a little, looks more gloomy than ever.—

ARKANSAS, July 20.

The Crops .- Accounts from all parts of the Territory agree in stating, that the prospects for very abundant crops of corn, were never better than they are this season. We do not recollect to have heard of a single complaint from any quarter. There will no doubt be a much larger quantity of that article raised in the Territory his year than in any former one. The cotton, in some instances, is rather backward, though generally promising fine crops. All other crops that we have heard spoken of, look very pro-

into the Hoogly.

Europeans bury their dead. Natives of the higher castes burn theirs, those of the lower castes, who are too poor to be at the expense of burning theirs throw them into the river, with all such as have lost their caste.

In coming up the river I saw several corpses floating on the surface of the water, upon one of which 4 or 5 crows were feasting. The city is almost literally alive with crows, kites, and a large kind of birds called adjutants, and at night Jackalls venture into town. These are all the scavengers of the city. It is against the law to kill any of the birds; and if I mistake not, Jackalls have legal protection. Hence they all become very tame. Crows often steal meat from the cook-houses and from the children's hands. The jackall is much like a fox, but considerably and in all the color was perfect. We are not larger. They go in droves and scream and halloo sufficiently conversant with the history of vegealmost exactly like noisy children just let out of

Calcutta is about 15 miles in circumference and contains from half a million to 800,000 souls. The European population is from 6 to 10,000, mostly English. Such a heterogeneous race of I never saw before, as are seen in these streets. Here are people from almost every nation under heaven, dressed in their own native costume and exhibiting their own peculiar manners. The natives of the lower castes are entirely naked, except a narrow strip of coth round the waist. Their features are generally good; not as dark as a negro's but nearly. Their moral ondition is truly deplorable.

NEW HARMONY, Ind. June 25. Indian Relics .- In the vicinity of this town der they are printed : are abundant evidences, that at a former period a large population inhabited this bank of the Wa- Upon every article that enters into the mouth, bluffs; and on the northwest extremity of the town are many tumuli, which the annual efforts of the plough have not reduced to the common opened one of these mounds and found an arwhich crumbled under the touch. A more in teresting relic, however, which occurred with them was a small wooden instrument, shaped somewhat like a common retort, but less curved, about four inches long. It had been entirely On every value that is added to it by the indus-covered or sheathed with copper, which is now try of man. completely oxydized; the included wood is much decayed, but evidently owes its preservation to the protection of the copper sheathing. We have no conjecture relative to the use to which this instrument was applied. But it affords an additional proof that the aborigines have been transmitted to every part of the councurious with articles of the metal of various forms, in attestation of this traffic. Many of them are concave, and probably served as sheahave decayed and disappeared. Some arrow heads and knives of flint were also found in the which are often picked up from the surface. The arrow heads are familiar to every one, but the instrument which may have been used as a knife, requires more particular observation. It in form resembling the obsidian knives of ancient Asteques or rather perhaps the Toultees that we have found in abundance in the vicinity of the town of Chalco in Mexico, and which are figured in one of the late numbers of Siliman's Journal.

We have compared several specimens of the flint and obsidian blades, and find them to cor-respond as accurately as the difference of the material would admit, even when wrought by the same artist.

We presume not to say, how far this fact may solemn sitting of several days, that the peerage ought not to be hereditary."

By the way, somebody should induce the seems to strengthen the conjecture that the reand that of the Toultees from the North, but it ce,' replied the peasant, 'you may set it down a seems to strengthen the conjecture that the re-waggon-load, for my wife and I are going to erected those mounds and embankments so liberally scattered over this country, the origin of which is unknown to the tradition of our red

point," by seaking close quarters, and for this took him into the palace to seitle these accounts, it was presumed, and the architect accompanied them.

The true and the range sister came out, and the discharging his piece and bringing the unfortunate man to the ground, and another immediately firing and completing the work of death.

All the parties were apprehended except the two actual perpetrators, who escaped. One of those aug. 11 J. W. ZACHARIE & Co.

with the intelligence that Pinchara, with all his forces, was retreating across the mountains.

We have now the pleasure of acknowledging the receipt of your letter, dated the lat of October. It has been sent here, during our absence, by the British Consul, Mr. Rouse, who states you have authorised him to furnish us all the murderers of the Norfolk constable, whose names were given as William and-Pearson. The description of the r persons also correspontook Cox into custody and lodged him in the House of Correction at that town. He then proceeded to Stockton, and secured the other person, who had been Cox's companion. On beingtaken up he acknowledged that Cox was an assumed name, and that his real name is William Pearson, that the other man's name is also Peason, who is his relation. Both are now in Norwich Castle, awaiting their trials for the murder thus singularly discovered by a dream.

> EXTRAORDINARY CASE.—Charles Newman. an orphan boy, twelve years of age, residing with his uncle, Mr. James Castles, of Chelsea, had a fever about six weeks ago, with vomitings for which emetics were given, but, though the fever went off, they continued, and he began to have a very craving appetite, which if not immediately indulged, he would satisfy by gnawing his own flesh. Scarce any thing, however, passed his stomach, all being thrown up again Medicines of every description, including mer-It has been for several weeks past quite sickly cury and mineral water, were given to him in in Calcutta. Intermittent and bilious fevers, the vain. Cart having been taken for six days of the quantity loads of dead bodies in coarse rough boxes, are of meat, pudding, pie, potatoes, and bread, in often seen passing along the streets to be thrown cluding milk, broth, and water, which he consu med, it amounted in weight to 79 lbs. 5 oz.

> > Vegetable Phenomenon.-Yesterday, Doctor Edward J. Coxe presented us with a lemon which grew at the country residence of Lewis Clapier, Esq. On opening the lemon longitudi-nally, it was discovered, that almost every seed had germinated, and from two or three roots had shot down, and branches risen upwards, with perfect leaves, making miniature lemon trees within the lemon. Not only was the shape of these entirely developed, but the trunk, branches and leaves were of the rich green color that belongs to the lemon tree in its usual state. Different seeds presented various stages of progress. In some, the "sprouts" were just breaking from the shell, in others, the leaf was out, tation to know, whether such a propensity to germinate has been frequently observed in the emon-We believe an instance occurred some years since, in professor Coxe's garden, and perhaps the present notice will elicit proofs of the frequent occurrence of what now appears a vegetable phenomenon. It may be proper to state, the lemons are from last year's blossoms -U. S. Gazette.

UNIVERSALITY OF TAXATION. NEORMATION WANTED of James Murphy Milner, who left the city of New-York sometime in the fall of 1829, and was last heard of in New-Orleans in February, 1830. The said James Murphy Milner is about 36 years of age, five feet four inches high, rather stout, with light brown hair and dark eyes. He is supposed to have visited Charleston, S. C. Macon and Columbus, Geo. Mobile, Alab. and New-Orleans. Any information respecting the above individual (whether living or dead,) will be thankfully received at the office of the Truth Teller, New-York.

N. B. The editor of the Bee in N. Orleans. also the editors of the papers in Columbus and Macon will please give the above a few insertions, and forward their accounts as above. To obtain information, any reasonable ex-

pense would be cheerfully paid. RUNAWAY SLAVE. URSIN, a small black boy about 13 or 14 years of agevery slender for his years, has a black skin, large eyes, long eye-lids-bushy eye-brows, a

great deal of down on his upper lip, remarkably active, and quick in his mo-tions. He is characterized by his uncommon intelligence, and is known in almost every parish of the state, where he always acconthe sub-criber in his different trips. Yesterday at 4 p.m. he absconded, for the third time within something less than 3 months, at the very moment that he had been ordered to bring medecine which he had been sent for. As this boy has within the last six days, incessantly errand in spite of the indulgence with which his former conduct had been overlooked, the subscriber is induced to believe that said boy is instigated by some person, he therefore offers a liberal reward to whoever will bring him back, either to Français street No.----Marigny faubourg. Washington square, or to his plantation near Bayon Plaquemines, or lodge him in one of the parish juils of this state. If this slave be suborned, hidden or harboured, one hundred dollars reward is hereby offered to whoever will enable the subscriber to bring the delinquent to

punishment.
Captains of st. am boats are requested to institute the most vigorous search on board of their respective boats, at the moment of starting, for said boy, too well known to the crews and waiters of said steamboats, possesses the facility, more than any other, of evading the vigilance of CUVILLIER. aug. 9

RUNAWAY SLAVE. RANAWAY from the sub-

scriber's, on the 1st of this month, a young mulatto girl named CAROLINE, a hair dresser, about 16 years of age, and 5 feet in height, french measure. She is always neatly dressed, and speaks the English somewhat, she is a creole of the country. Five dollars reward will be given to whoever, will bring her back to her owner, or take her to jail. Persons harbouring said slave, or assisting in

her evasion will be prosecuted according to law. DARTNERSHIP .- Notice is hereby given. that I have taken into partnership my brother, Lubin Garnier, and that from and after the 1st of August, 1831, our commercial affairs

Garnier.

will be conducted under the firm of J. & L. JOHN GARNIER. TEN DOLLARS REWARD.

Ranaway about a month ago an American negro named JACKSON JACOB; he is twenty two years of aga five feet two inches high—thicket and inches high hickset and flatnosed. Sa. 1
