Tuesday Morning, Nov. 11, 1851

The Northern Mail came through yesterday with the latest dates.

THE APPROACHING LEGISLATURE.

We are not aware whether the rumor of Gov. Wm. Kirkham's intention to call the Legislature together in advance of the period assigned by the Constitution, be correct; but certainly any man who takes the trouble only to enumerate the various measures of profound interest and vital importance which will come before the next General Assembly, must conclude that a session of sixty days is altogether inadequate to the full investment of so much legislation. Let us glance at some of the more prominent subjects:

First, there is the question of a Convention to frame a new constitution in lieu of the existing miserable patchwork. This is a topic that has excited about no small amount of discussion. We believe that the popular sentiment is decidedly in its favor, but it may so happen that it will encounter fierce opposition from many of the members, and the struggle may therefore be protracted by animated debates and parliamentary expedients for delay. But whatever the question is to be settled at an early period of the session, there will yet remain an ample catalogue of projects to engage the attention of the Legislature. For instance, the whole subject of the Citizens' Bank, which will most probably be dispatched without an unnecessary quantity of discussion, and which, it is believed, will find favor in the eyes of the Legislature, will at once be annihilated by the existence of a Free Banking, or Registry Law, or some other enactment that shall put in practical operation the ballot-box will not be necessary. The most important in the whole catalogue of legislative wisdom must, however, be the consolidation of the City of New Orleans. We believe that if a proper charter be framed by the government of New Orleans, there will be few dissenting voices, raised against it. Since the time when the popular vote was taken on the question, it has been declared strength among all parties—and two years have passed two years ago, but the numerous and stupid provisions of the present charter, there is an almost universal desire for a more Municipal system under the control of responsible agents, and a system which will render our property and persons as a common government can secure to us the positive benefits of a well-ordered municipality. Let the Legislature give the power to the administration of the day to do this, and we will answer for it that it will be executed by the people.

These are but a sample of the duties that will engross the attention of the General Assembly. How they are to be fulfilled within the space of thirty days is a mystery. To get through with them in ordinary diligence, however, will need no ordinary diligence, economy and hearty co-operation among members.

GEORGIA

The Legislature of Georgia convened at Milledgeville on the 3d instant. The Hon. A. H. Stephens, of Richmond, was elected President of the Senate without opposition. In the House Mr. Merriwether, of Putnam, was chosen Speaker, on the second ballot, Judge Bird having received the highest vote on the first ballot. Mr. Mosely, a Whig, was elected Clerk—all Union men. The Secession ticket run no candle.

Gov. Crawford's message is a document of considerable length, and of a decidedly Union character. He says: "The national affairs, and questions from all sections of the recent extension of public domain, are in a state of high excitement, and there is danger, at any change, but in deference to the popular will. The message refers to many topics of local interest. The financial condition of the commonwealth is highly prosperous. The public debt amounts to $1,112 22. This amount is expected to be reduced by some $100,000 during the current year.

The message recommends various modifications in the system of levying and collecting taxes, and particularly the substitution of the property tax in lieu of a specific tax. The message affirms that the State is in prosperous condition.

A large portion of the message is devoted to the subject of the Western and Atlantic Railroad, its management and its progress. The Governor recommends that a board of directors, composed of competent gentlemen from each Congressional district, be elected to superintend this great railroad.

The appointment of a line of steam propellers from Savannah to Liverpool, is warmly recommended. A system of common schools is also urged, and the Legislature is asked to provide the necessary means of carrying the existing school law into effect. The institutions for the deaf and dumb and blind are realizing the most sanguine expectations of those who founded them.

A difference about the boundary question between Georgia and Florida have failed. The matter is now pending before the Supreme Court of the United States. The Penitentiary system is also left without legislative action. The organization and discipline of the militia are defective and need much attention.

The Legislature of Louisiana will have a Senator to elect at the approaching session. Among the candidates who are spoken of are Duncan F. Kenner, Randall Hunt and J. P. Benjamin. The two first are already in the field. Mr. Benjamin's views are not yet known, as he has been absent from the State for several months. His return is, however, looked for every day.

Post Office.—A gentleman just from Washington informs us that Pannorty, the Independent Whig candidate for the Senate has been very severely beaten Harris (Democrat) 2 votes; Hall (Whig and Dicotx (Democrat) have been elected Representatives. The Whigs gain a Senator and a Representative in Lord Cooper.

The Whigs of Rochester, N. Y., held a meeting on 31st ultimo, at which Senator Seward was hauled over the coals very unceremoniously. Among the resolutions adopted is the following:

Resolved, That we are alike surprised and mortified to learn that a Whig Senator from a State should improve the opportunity afforded by the trials growing out of the Syracuse riot, to walk into the United States Court, and invite the rioters to form a procession to march to his own house and partake of a collation; thus encouraging rebellion, and heroizing men whose course of conduct would lead to anarchy and an end to all Government.

☞ The following is the list of passengers by the *Georgia*:

Dr Simons Mackie, A Schenck, W B Rapelje, H Dougherty, Jno Stroud, jr, R Wilding, Cutter and brother, M Morris, 13 steerage.

☞ Extensive Sale of Dry Goods.—The particulars of a valuable assortment called to the catalogue sale of dry goods to be by order to take place THIS DAY at 10 o'clock at P. H. Peticolas's auction room, N. Chess. street. Terms very liberal.

LOUISIANA ELECTION.

We have some additional returns from the interior of the State, though thus far conclusive of nothing, save the ascendancy of the Whigs in the Legislature. We take the following from the Natchez *Courier* of the 7th:

Terrebonne Parish—John Routh, Whig, elected to the Legislature, and G. W. Williams elected Sheriff.

Catahoula Parish—J. S. Alexander, Jr., Whig, and Colonel Calvit elected to the Legislature.

Concordia Parish—Douglas L. Rivers, Whig, elected to the Legislature, and W. R. C. Vernon, Sheriff.

Madison Parish—J. L. Crandell, elected Sheriff.

Point Coupee Parish—There is a tie between A. Provosty, Whig and Union, and J. A. Harris, democratic candidate for Senator. A Whig is elected Sheriff.

In Catahoula the Whigs gain a Representative.

The Vote for Auditor.—The vote of thirteen parishes published yesterday exhibited a majority of 1165 for Bordelon, the Whig candidate. The additional returns are as follows:

	Bordelon.	Porter.
Thirteen Parishes,	1165	
Iberville,	358	329
St. Mary, (all but one pr'ct)	491	183
East Baton Rouge,	498	456
	2492	968

This leaves Bordelon ahead 1494 votes. He may yet be beaten, but we think the chances of his success considerably improved. Madison, usually a very close parish, is reported to have given him 113 majority. We have not included this in the table, as it is not yet fully authenticated.

From the Fourth Congressional District, the returns are extremely meagre. In St. Martin Moore will have 230 majority. In St. Mary the vote stands: Moore 426, Morse 165—Moore's majority 271, and one precinct to hear from. We can form no opinion of the result until we hear from the Red River country. In the Attakapas parishes, Morse is badly beaten, but these are Whig strongholds. If he fails behind in the Democratic portions of the District, he is undoubtedly defeated—but *nous verrons*.

LATER INFORMATION.

After the above was set up, we received further returns, which look rather unfavorable for Bordelon, and render the result in the Fourth District still doubtful.

Rapides—Porter's majority is 173; Morse's only 87—a loss of 46 votes since 1849. Moore is elected Senator, and Prescott and Ryan, representatives—all Democrats. No change.

Natchitoches—Morse's majority is reported at 139. In 1843 it was 165. Loss 35 votes.

St. Landry—We have not received the full vote of this Parish. It is said that Bordelon gets 295 majority, which is a heavy loss. Quirk (D.) is elected to the Senate over Swayze, (W.)—a result which, strange to say, pleases us well. Mr. Swayze is, we are informed, an avowed DISUNIONIST. We want no such persons in the Whig ranks. They properly belong to the other side.

Morehouse—The Whig ticket has been elected in Morehouse, except for Representative.—Livingston (L. F.) is re-elected.

Terrebonne—Gives Bordelon 252 majority and Landry 174. G. F. Connelly Whig) is chosen to the Legislature.

Assumption—The whig ticket is chosen in this Parish. Landry's majority is 171. Bordelon's vote we have not heard.

Washington—It is said that in Washington Porter has 293 majority.

Madison—The Baton Rouge *Gazette* confirms the report of Bordelon having 113 majority in Madison. Parham (W.) is elected Representative—a Whig gain.

Concordia—Bordelon's majority 133. Upton's (L. D. L. Rivers 'W elected Representative, without opposition.

Telegraphic Items.

WASHINGTON, Nov. 3.

Right of Search of American Vessels Re-Asserted.—It is ascertained beyond doubt, that Crampton, the British Charge d'Affaires ad interim, has presented to this Government dispatches, in which it is stated that the French and English Governments have issued orders, in case of the sailing of any more expeditions against Cuba, to search all vessels of suspicious character, whether sailing under United States or other colors.

CUMBERLAND, Md., Nov 1.

Murder Trial—Madam Bishop.—The State vs. Nancy Hufford, for murder, came up yesterday. The trial progresses slowly.

Madam Anna Bishop's concert last evening was attended by a large and fashionable audience, who were highly delighted with the exhibition of her vocal powers.

BOSTON, Nov. 1.

Railroad Accident and Loss of Life.—The engine of the freight train upon the Pennsylvania railroad, on Thursday night, fell through a bridge at Thetford, Vermont, instantly killing Mr. Butterfield, the engineer, and Mr. Thomas, fireman. The bridge was weakened, and being partly carried away by the flood, at the time.

BOSTON, Nov. 1.

The Rescue Cases.—Efforts have been made this morning to postpone the Shadrach rescue cases, on account of the absence of witnesses.

Powers, the Sculptor, besides his statue of California, is engaged on one of the Union.—A correspondent of the Intelligencer says, he suggested such a work when Powers took him into his room, and showed him that he had anticipated his suggestion, by exhibiting a clay model, representing a female of majestic proportions, in a standing attitude, with one hand resting on a Roman fascia, the emblem of union and strength; whilst the other arm is gently upifted, with the hand pointing to Heaven, to which the solemn and earnest expression of her face seems to appeal. Like the other works of Mr. Powers, the writer says, the attitude and form of this statute is easy, graceful and noble, and is characterized by that peculiar dignity observable in, and which forms one of the chief attractions of his Greek Slave, even amidst her fetters. Powers, when asked what he intended to do with it when finished, replied—"To hold it at the disposal of my country; perhaps, when completed, Congress may purchase it."

A Brush with Pirates.—A dispatch from the Spanish Naval Commander at the Philippine Islands, of the 6th of June, mentions a sharp combat between five Spanish feluccas and four piratical vessels called pancos, manned by Moors, which were captured on the 3d of May, off the island of Paraguay, being boarded by the Spaniards. The loss of the Moors is calculated at a hundred men. One of the Spanish feluccas blew up, occasioning the loss of about twenty men, and there were two officers and eleven soldiers and sailors killed, and one officer and sixteen soldiers wounded in the action.

The Great Russian Railway.—The great Railway from St. Petersburgh to Moscow, recently opened, is in nearly a straight line, and of four hundred miles in length. The track is double, of five feet gauge, and some of the bridges are elevated above the water from one hundred and twenty-five to one hundred and seventy-five feet. The bridges are of wood, on Howe's principle, and were built by Mr. E. D. Williams, of Connecticut. Major Whistler, of the Boston and Albany Railroad, went to Russia in 1843, and was engineer of the work until his death. Then Major Delafield, of the New York and Erie road, became engineer in chief, and has finished the Russian road. The entire cost is stated at $25,000,000. The locomotives have also the stamp of American genius. They were built by Harrison, Winans & Eastwick, from drawings by Maj. Whistler and are outside cylinder reverse engines, and are intended for burning wood. They are one hundred and sixty-two in number, of which forty-two are for passengers and one hundred and twenty for freight. The passenger cars are built upon the American plan, and are fifty six feet long and nine feet six inches broad. The Imperial carriages are very magnificent, being eighty-four feet long by ten broad, and seven feet six inches high, and supported on sixteen wheels on the six-wheel principle. These carriages have spacious apartments, furnished for the Emperor and Empress separately, in the most improved and luxurious manner. They are fitted up with beds, and a kitchen car is attached, with larder, wine-cellar, ice-house, &c. The road is to be run in fifteen hours. It used to take the diligence seventy-five hours, and wagons eleven days with freight. Boats by rivers and canals between the two cities make the trip from fifty-five to sixty days, and frozen up half the time at that. Nicholas has caught a good deal of the "progressive spirit of the age," and a railway from St. Petersburgh to Warsaw, seven hundred and ninety six miles long, is now strongly talked of.—*Cleveland Herald.*

The Murders in New Mexico.—By yesterday's mail, we received letters, and an extra from the Santa Fe Gazette of the 1st, giving an account of the judicial examination into the circumstances of the murder of Wm. C. Skinner, Esq. at Bernalillo. Gov. Calhoun, Judge Houser, Baker, Judge Watt, and other legal gentlemen, were present. The testimony is highly wrought, and it charges that the testimony is, as might have been expected, one-sided. All the witnesses present and cognizant of the deed were the creatures of Armijo, and some of them, we suppose, *partizan cronies*. It is said that the testimony is wholly irreconcilable with the facts; and if summed up would amount to 12 horse thieves killed; 2d, Juan Chrisobal Armijo killed him; 3d, the person saw Armijo or any one else kill him at all. The final result of the examination was that Juan Chrisobal Armijo guilty of one of the lower grades of manslaughter, and was fined in bail for his appearance at the next term of the District Court for Bernalillo county, in the sum of $1,500.

It is made matter of accusation against Gov. Calhoun and Judge Baker, that while engaged in this examination they put up at the house of Prefect Ambrosio Armijo, brother of Juan Chrisobal, and the accused is charged with being implicated in the affair which resulted in the death of Burtnett, and that they remained there during their stay in Bernalillo.

Judge Watt, it is said, did not act in the case at all, though present. He was there on account of the indisposition of Judge Mower, in whose proper district the case was. When they arrived at Bernalillo, and he found that all the process of the case was made out in the name of Judge Baker alone, he very properly refused to act at all.—*St. Louis Republican*, *1st inst.*

A lady, seventy-five years of age, was subpœnaed last week before the Superior Court in New Haven. In the course of her testimony she stated that she had been born in North Haven, (six miles distant,) *and had never visited the city until upon this occasion.* It is suggested that North Haven is situated in the valley of contentment.

Council or Municipality No. One.—This body met last evening pursuant to adjournment, Recorder Genois in the chair, and thirteen members present. A lengthy message from the Mayor was read, touching on the financial position of the Corporation. He likewise states that the recent decision of the Third District Court, in the case of the Board of Liquidators vs. Mrs. Grailhe, has virtually annulled the Board, and that there is no longer any board of direction to the management of the city debt. Neither Municipality has paid any quota towards the extinguishment of the latter for the past two years, and the amount of bonds now due is $900,000, and of interest upwards of 900,000. The sum of about $110,000 had been liquidated by the Board out of the amount paid in by the Citizens Bank, and out of the available assets that were disposed of when the Board took the management of the city debt. The Mayor urges upon the Council the every principle of equity and interest to make some arrangement for taking up their share of these liabilities.

With regard to the debt proper of the Municipality, the Mayor intimates that some legislative interposition must take place to enable the corporation to liquidate gradually its indebtedness, without weighing too heavily upon tax payers. The Mayor likewise communicates that no effort has as yet been made to improve the navigation of the Bayou St. John, and that the rapidly increasing traffic on the Lake demands that steps should be immediately taken to secure this desirable object, by bringing the subject in a proper manner before the Legislature.

The Mayor communicated officially the election of Mr. Alfred Storey of the Second Ward, in place of the late Wm. Laughlin.

The message also announces that the farming of the various markets will take place on the 1st of December, and the privilege of collecting the tax on cygar boats on the 16th November.

On motion, a special committee was appointed to report on the qualifications of Mr. Buckney, the new Aldermen elect. The committee reported unanimously that he was entitled to his seat.

That portion of the message referring to the Financial position of the Municipality was referred to the appropriate committee, and the remainder to the Improvement Committee.

Mr. Richardson presented a petition from several grocers residing in the second and fifth wards, asking that the sale of groceries in the Treme market be in future prohibited. Referred to a special committee.

Mr. Derbes moved that the Mayor be authorized to postpone the sale of the privilege of collecting the tax on oysters. Carried.

The Council elected M. Berghman as Desbrest, in place of J. Mahoney, deceased.

The report of the Improvement Committee, authorizing the Mayor to sell the contract for constructing the double walks in the rear of Canal, Customhouse, Conti, Orleans, Main and St. Peter streets, gave rise to a good deal of discussion. Messrs. Derbes and Miguel opposed it on the ground that we had no money; while Mr. Hagan made a powerful appeal in support of the improvement. The report was adopted.

A resolution authorizing the Mayor to sell at public auction the contract for raising and repairing the sidewalks in Bienvie street, was adopted.

A resolution to make certain improvements in Orleans street, was lost.

Mr. Blake resigned as Chairman of the Finance Committee, and the committee was authorized to appoint a new Chairman.

G. Stephens was elected tax collector.

The Finance Committee reported that they had effected a settlement with the Gas Company. The settlement was acceded to by the Council.

After the transaction of some further business, the Council adjourned.

Left in Egypt.—The bark Stamboul, which sailed from Boston on the 2d August last, arrived at Alexandria, Egypt, Oct. 1st, with a cargo of Massachusetts ice—said to be the first ever brought to that port from any part of the world. "All Alexandria and the region round about," says the captain of the Stamboul, "flocked on board and around her, to see the "frozen water." The Pacha, the High Admiral, and all the distinguished officers of the Government, examined the bark, and inspected her cargo; and after these, people of all degrees. She was literally crowded, while a block of ice remained in her." The entire cargo was purchased by the Government, and was all discharged and stored ashore in forty-eight hours after the vessels's arrival.

Great Men.—Among the early risers we encountered near the market-place on the event ue, this morning, were ex-Gov. Daniel Webster and one Winfield Scott. The most favorable time for a pleasant how-do-you-do with an old gentleman by the name of Henry Clay, during his occasional visit to this city, is at sunrise in the morning, in the same vicinity. The Express of greatness is thought to be congenial with some men; but energy, resolution, perseverance and industry may possibly have something to do with a man's destiny.—*Wash. Telegraph.*

City Intelligence.

Sale of Municipal Contracts.—The Mayor sold at public auction yesterday, the repairs to the Washington and Marshall School Houses, Second Municipality, to John Paul, for $1,075. Also the repairs to the Franklin School House, for $870, to D. J. Wasson. The painting and plastering St. Mary's Vegetable Market, to D. J. Wasson, for $1,685, and painting the Fish School House, to Behan & Allain son, for $315.

First District Court.—*Judge Lurco.*—The Grand Jury for the November term was empanelled in this Court yesterday. After having been sworn in, the Judge charged the Jury at length on several important topics. His Honor alluded to the cabarets where liquor was dealt out to slaves, and also touched on gambling and betting on elections. He then sent the Jury on the recent riots growing out of the Cuba excitement.

Homeless Mariners.—We have again to record a deplorable homicide, attended with circumstances of aggravating circumstances. At 1 o'clock on Sunday morning, Wm. Brown, of Sweet, of the Second Municipality, was attacked by three individuals at the corner of Orange and Constance streets, and was so severely beaten with slung shots that he expired a few hours afterwards. Three men named Patrick Nolan, John Kelly and Patrick Collins were soon afterwards arrested by Watchman Masson, on information which he received that they had perpetrated the deed. A sling shot was found in the room in which the prisoners were apprehended. When brought before Recorder Caldwell yesterday morning, Nolan was desirous of being examined forthwith, inasmuch as he was prepared to establish an *alibi*. But as the other prisoners were not ready, the investigation was postponed until tomorrow.

The Coroner held an inquest yesterday on the remains, and a verdict was returned that the deceased had come to his death from a fracture of the skull.

Larceny.—Peter Johnson was held to bail yesterday, by Recorder Genois, to answer the charge of having stolen $10 from Hayes Olssen, at Allen's boarding-house, in this city.

Vagrancy.—Tom Brown and James Briggs were charged, yesterday, before Recorder Genois, with being vagrants and suspicious characters. No examination has yet been had.

Fighting.—Thos. Mayhaney and Thos Garrett were arrested on Sunday evening in the Tivoli Garden, having been detected in the act of thrusting their hands into the pockets of several persons. They have not yet been examined.

Fighting a Horse.—A slave named Washington belonging to Mr. Lea was arrested yesterday in the Fourth Municipality on the charge of entering the premises of R. Hampton, on Hercules street, with the intent of committing a robbery. The case has not yet been examined.

Charge of Perjury.—P. Lemonnier made an affidavit yesterday before Recorder Genois charging J. Nunez with having deceived him under false representation out of the sum of $17 85. Complainant bought from the accused, on the 31st January last, (sic) a suit of an intelligence office for $60, and paid the sum on the representation of the latter that he had settled for the State tax, amounting to $17 25, whereas Lemoine afterwards discovered that the tax had not been paid. Hence the complaint, which has not been examined.

Fight.—John Pauls was brought up yesterday before Recorder Caldwell, on the charge of having on Saturday night last assaulted Wm. Poydras at, and threatened him with a slung shot. He was fined $20 for assaulting the watchman, $200 for carrying the slung shot, and was furthermore required to furnish bonds to keep the peace.

COMMERCIAL.

The Markets.

Monday Evening, Nov. 10, 1851.

The advices by the Baltic and Canada, report a further decline in the Liverpool Cotton market, but it does not seem to have had any effect with us as the sales reach 7 000 bales, at steady prices. We quote Low Middling to Good Middling, 6¾@7¾c per lb.

Sales of Sugar to-day, 240 hhds at a range of 4¾@5c for common to fair. Of Molasses, 1 000 bbls were sold at 23½@33c ₩ gallon.

The Flour market is heavy; sales 1,500 bbls, at at $4 40@$4 50c for Ohio; $4 62½@4 75c for Illinois and Missouri. A few small lots of Corn were sold at previous rates.

Provisions are unchanged. Mess Pork is retailing at $14 75. Nothing done in Lard. In Bacon, there were some small transactions at 10¾c for Sides, and 8¾c for Shoulders.

Whiskey is selling slowly, at 20 cents ₩ gallon for rectified.

Exchange is firmer, and the demand good on all points. We quote Sterling, 10@10¼. Paris, 5f 97½ @ 5f 17½. Bills on New York at 60 days, ¼ @ ¾ ₩ cent discount. Checks, ¼ @¾ ₩ cent dis.

Freights are dropping. A vessel for Liverpool was taken today, at 7-16d.

Estate of Joseph Voisin.

The creditors of said Estate are hereby notified to present their claims within ten days from the publication of this notice to Mr. F. Bousson, Attorney of said Estate, 58 St. Peter street, or to Leland, Testamentary Executor, 111 Royal street. It is said that the Estate are invited to settle in the shortest delay. n11

Battalion of Artillery.

New Orleans, Nov. 6, 1851.

Ohio River—Riot—Markets.

Pittsburg, Monday, Nov. 10.

The river here has fallen eighty during the last 24 hours, but is now stationary. A rise is expected soon, as we have had a constant heavy rain during the last eight hours. There are 2 feet 8 inches water in the channel.

The city yesterday was the scene of a riot, arising from a quarrel between parties of Catholics and Protestants, with regard to the possession of a dead body. The Catholics were victorious, and tore off the body in triumph.

Cincinnati, Nov. 10.

The river here is yet stationary. Heavy rains all day yesterday, and yet cloudy. The Flour market is dull. Sales at $4 50 ₩ bbl. Whiskey 16½c ₩ gallon. Other articles are without change.

FURTHER FROM EUROPE.

Movement of steamships—Franklin Expedition.

New York, Nov. 10th.

The Africa returned to Liverpool in consequence of having got ashore, and the Canada did not leave until the 29th of October. The steamer Washington had not arrived at Southampton on the 30th, the day of the Baltic's departure. Further search for Sir John Franklin has been abandoned for the present.

New York Markets.

Kossuth—Arrival of the Mississippi.

The Cotton market has been quiet to day, and the sales limited to about 1500 bales. Prices are but fairly sustained. Flour is without change, at $3 93 a $4 per bbl. for Ohio, with sales of 1100 bbls. Corn has been in fair request, and 30,000 bushels have been sold at 54c@56c per bushel for mixed Western. Lard is selling at a range of 8¾ a 8¾c. per lb.—Coffee is steady, with moderate sales.

Kossuth, according to advices by the Baltic, was to leave Liverpool for New York in the Cunard steamer of the 8th instant.

The U. S. steam frigate Mississippi, with the Hungarians which were released with Kossuth, has arrived here. The steamship Union has arrived from New Orleans.

Cuban Prisoners—Naval Appointments.

Washington, Nov. 10.

Negotiations are said to be going forward between the Governments of the United States and Spain with the object of releasing the American prisoners, taken in the Cuban expedition.

Commodore Morris has been appointed by the President, Chief of the Bureau of Ordnance, and Commodore Rhubrick, Inspector of Ordnance.

Ohio River—Steamboat Disasters.

Louisville, Nov. 10.

The river is stationary with 3 feet 5 inches water in the canal. The steamboat Empire State has arrived, and the Swallow, Lexington and Texas Ranger have departed for New Orleans.

Cincinnati, Nov. 10.

The river is yet stationary. Flour selling sowly at $3. Cheese 6½c ₩ lb. Pork houses have generally commenced cutting up hogs.

STATE OF LOUISIANA.
