New Orleans, Jackson and Great Northern Railroad.

DURING the continuance of the Bonnet Carre Crevasse, passengers will be transferred between New Orleans and Bonnet Carre (thirty-seven miles from New Orleans) by the train of the Carrollton Railroad to the Lake, and thence by safe and commodious steamboats to the Lake Bridge, beyond which there is no interruption. Passengers will leave New Orleans from the Carrollton Railroad Depot (Corner of Canal and Carrollton) every morning and at 20 minutes past six in the afternoon, returning to New Orleans, will arrive at the Depot, Lake Pontchartrain, at 8 o'clock in the morning, and the same hour in the evening.

The trains for Jackson will leave the depot at the corner of Calliope street at 8 A. M. and 4 P. M. Returning, will leave Keenor at 8.45 A. M. and 4.45 P. M. Freight for the Lake stations will be received at the passenger depot from 9 P. M. until 3.30 P. M. Fare, 40c. each way.

Freight for Manchac and stations above will be received at the warehouse on the south bank of the New Canal, between Liberty and Howard streets, from 7 A. M. to 6 P. M.

No freight will be received unless consigned to agents residing at the established stations on the line of road or its connections.

It will be seen by the foregoing that passengers and freight will be transported without interruption, and that connections with other roads will be made regularly as heretofore

MEDICAL.

The Sp[illegible] Troubles and their Consequences.

FOREWARNED FOREARMED.

[illegible]ve of the South and Southwest have been d[illegible] unusual during the spring. The tide of th[illegible] Waters has been unprecedented, and the shores have been broken down, and the [illegible]on either side much injured by the inundation.

Even where the wealthy planters had secured [illegible] embankments to protect their lands, the accumulating force of the current has borne down all the apparently impregnable walls, and swept the country far and wide. Along most of the tributary streams and the principal rivers pursuing their course to the Gulf of Mexico the same destruction has occurred, and millions of dollars worth of property has been swallowed up in the remorseless waters. But the immediate loss subsequent upon these mighty freshets sinks into insignificance when compared with the more remote but certain disasters that will ensue. The severance may be repaired, and the property engulfed may be at least partially reclaimed. But the waters which have covered the lowlands will remain in marshes and pools, to become stagnant, and give forth miasmatic vapors beneath the summer sun. Then comes the more startling peril. The pestilence threatens the lives of all who reside in the vicinity of these streams. Fevers of the most virulent description will be prevalent, and that scourge of the South YELLOW FEVER, will scatter death in many homes now cheerful and happy. The grim spectre will darken many a door, and upon seven fecundity into mourning. Families will be broken up and dreadfully rendered desolate. The mother will weep for her husband, and refuse to be comforted "because they are not." The husband and father will be struck down even in the sunny hour of prosperity.

These are the sad scenes that are sure to follow a season of floods such as have characterized the spring of the present year. We have a gloomy perspicuous to bear witness that we do not exaggerate the danger that hangs over thousands of people in the Southwestern States. Fortunately, while we know the peril that is to come, we are not compelled to fold our arms and resign ourselves to the worst evils that may ensue. There is both a preventive and a remedy for every form of the destructive pestilence. Every man who values his own existence—every head of a family who cherishes those who look to him, or her, for protection, are solemnly bound to prepare for the dread invader. And this all may do by simply securing a supply of

DR. J. HOSTETTER'S Celebrated Stomach Bitters.

Renowned throughout the new world for its wonderful strengthening and curative properties. This medicine, which is composed of powerful but perfectly harmless vegetables, is also a prompt, a profound physician, and has ever been warmly eulogized by the most prominent lovers of medical science. Mild and palatable to the taste—potent as a tonic—it gives vigor to the digestive organs, and fresh energy to the whole system. The Bitters fortify the constitution age not disease, and you hear of the regions most cursed by deadly miasma. It is well known if the liver can be kept healthy and the stomach stimulated to perform its functions with ordinary vigor, there is little danger of a man being seriously affected by any of the fevers which assail the system through those means. Hostetter's Stomach Bitters will accomplish this good work. It has proved successful in the most sickly seasons that have ever been experienced in those sections of the country which are liable to be afflicted with malaria. Thus much for the merit of this medicine as a preventive. As a remedy, it operates with astonishing rapidity. It will check any tendency to Diarrhœa and Dysentery, restore tone to the digestive organs, arouse the appetite, and by infusing a cheerful vigor throughout the system, enable the natural powers to throw off the incubus of disease. The most desperate cases of bilious fever, Typhoid fever, fever and ague, and intermittent fever, yield to the influence of this magical medicine, and hundreds of persons have learned to place unbounded confidence in its extraordinary qualities. The people of the South and West, who have not yet tried HOSTETTER'S CELEBRATED STOMACH BITTERS, and who must be aware of its virtues from information, has his summer and fall, should at once provide themselves with this famous article. Even if they should use other medicines, this will not interfere, but rather facilitate beneficial operation.

BEWARE OF COUNTERFEITERS. The genuine Bitters is prepared by HOSTETTER & SMITH, of Pittsburg, Pa., in the true preventive and remedy. All imitations will prove delusive. Remember and get Hostetter's Celebrated Stomach Bitters, and thus be certified against the coming pestilence.

HOSTETTER'S
CELEBRATED
STOMACH BITTERS

Has, for its medical and tonic virtues, and as a preventive and cure for all stomach diseases so prevalent, especially in seasons of epidemic in our Southwestern country, become a standard family and plantation remedy, and has acquired a celebrity and sale throughout the land heretofore unknown to any medical preparation, and in consequence of which unprincipled parties here and in other cities have counterfeited and are selling their vile mixture in our bottles and name, through unauthorized street hawkers, &c. To caution upon the representation of the genuine Hostetter Stomach Bitters. We also bear of travelers in the country offering to sell Bitters cheap, who are also no doubt engaged in the same nefarious business. Druggists and grocers should look out for these fellows, and ascertain all strangers offering Hostetter's Bitters for sale at a reduction, as no reduction has been made by the proprietors. Purchase of no one but responsible parties or their authorised agents, who would be above any such mean consideration. Hostetter's genuine Stomach Bitters are never sold at auction or by street drug brokers, or any irresponsible parties whatever; but can be had of any of the leading Druggists and Grocers in New Orleans.

Caution should be exercised by persons purchasing our Hostetter's Stomach Bitters to see that every bottle has the fac simile of our written signature on the label, which, no doubt, th fear of imprisonment has prevented being put on any of the counterfeits that have been brought to our notice. Also notice that the name, Dr J Hostetter's Stomach Bitters, is blown on the side of the bottles, and stamped on the cap covering the cork.

All orders for the genuine article of Hostetter's Stomach Bitters must be addressed to the proprietors,

AYER'S
AGUE CURE,
FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangements, caused by the malaria of miasmatic countries.

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Ague Cure" expels the miasmatic poison of Fever and Ague from the system and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. Thus it is only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body, and in bilious districts, where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains no quinine or mineral, consequently it produces no sickness or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if it had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangements of the Stomach; all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the system, and consequently cures them all alike. It is an invaluable remedy to emigrants and persons traveling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the influence, will be protected from such system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and no one will ever suffer from intermittent if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Search out the lurking principle of the blood, and invigorate every portion of the human organism, infusing into the system new life and restoring its healthy vitalities. As a consequence of these, their action, the invalid who is bowed down with pain or physical debility is surprised to find health and energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American almanac, containing certificates of the most eminent and distinguished men in the following complaints: Costiveness, Heartburn, Headache arising from Indigestion, Foul Stomach, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints arising from a disordered condition or obstruction of its functions. They are an excellent alternative for the renovation of the blood and the restoration of health and strength to the system debilitated by disease.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority as a safe and sure medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. No other known remedies thrust upon the community have fallen more completely discarded, than our good friends by every trial, the more completely are they satisfied they can never forget, and acquaint even the numerous and too remediable to the people.
