MEMORANDUM For: Collection Management & Dissemination

SUBJECT: (S) MFR to Remove Requirements for ISN US9CH-000250DP who has been Recommended for Transfer to the Control of Another Country for Continued Detention.

1. (S) Ali Mohammad, (ISN US9CH-000250DP) is a Chinese national born on 26 August 1974 (age 29) in Urumchi, China (CH). ISN US9CH-000250DP is recommended for Transfer for Continued Detention to Another Government. Detainee is part of the Central Asia Regional Team detainee roster.
2. (S/NF) ASSESSMENT: The Detainee Assessment Branch (DAB) through analysis and coordination with internal and external agencies and using recommendations from the Regional Teams have assessed the detainee listed above and determined he is a medium threat risk and has been fully exploited.
3. (S/NF) RECOMMENDATION: Based on the aforementioned assessment, the Detainee Assessment Branch (DAB) in concurrence with Regional Tiger Team recommends the removal of all remaining HUMINT Collection Requirements levied against the detainee cited in this memo. (This memo does not pertain to outstanding Source Directed Requirements (SDR) or IIR Evaluations still levied against the detainee, these two types of requirements must be responded to with an IIR or Negative Response message.)
4. Please remove these requirements from ISN US9CH-000250DP's collection plan.
