OFFICE SE CHARTRES ST.

THE DAILY BEE. WEDNERDAY MORNING, AUG. 26.

The distinctions between the Northern and the Senderu Democracy are bigoeing se crossingly fine, that ere long a militin sizes magnifying microsteps will be required to discern them. We honestly contess that we have labored to little purpose in the street; it may be that the blending of the two in a common thems is a subject of sciedar to common thems is a subject of sciedar to such with the required to proseoute the indian war.

common thast is a subject of rajdolag to both, and that the Democracy regard it as a merit that no difference of ceptates should divide thest from Maine to Meanstep). In a purely party sense there is reason in the Democracy, to be ever victorious, must be united and homogeneous. While bapded to mitted and homogeneous. While bapded to gether by the ligament of common tenests, there is small doubt it will remain invincible.

Common the distribution of the distri whited and homogeneous. While bashed to get the to you be ignament of common leasts, there is small doubt it will remain invited. The question may, however, be maded whether there is not something more essential to national digitly and honor than the cosesion of party, and whether political affiniations may not be accomplished at too great a sacrifice. For instance, if the Democracy of the Northarae universally in favor of the admission of Kanasa as a free State, and approve unreservedity of the doctrines enuousted by Gov. Walker, oan the Ibe mocracy of the South preserve their party connections with them, without surrendering those sectional rights of which they have always professed to be the champions? This is exactly what has occurred. The course and policy pursued by Walker are the subjects of instinct pagesyrice in the Northern Democratic powering. The surrendering those sectional rights of instinct pagesyrice in the Northern Democratic powering. The surrendering those sectional rights of instinct pagesyrice in the Northern Democratic powering. The surrendering those sectional rights of which they have a delighted at the present pagesyrice in the Northern Democratic powering. The surrendering those sectional rights of which they have a delighted at the present pagesyrice in the Northern Democratic powering. The surrendering the subjects of instinct pagesyrice in the Northern Democratic powering in the Nor

should have a Constitution prohibiting shave ry, and that any plan by which the admini tration directly or indirectly favors this con-summation will commend it to the support of that large and influential class of Democrats who went over to Black Republicaniam last year, is the belief that Mr. BUCHAMAN'S elecsen would be a boom and benefit to the S ath. We cannot find a subtary Northern Democratic sheet that fails cordially to sus-tast Gev. Walker and his address and Topeka Speech. And if confirmation of the fact were needed, we might point ito the ex-plicat arowal of the Washington Falor in its articles defending WALKER, that to denounce the Governor of Kansas, and to repudiate cy of the North, and to weaken the party. It is clear, then, that the harmomous reunten of the Democracy simply means an ident ty of conviction on both sides of Mason A Dixos's line. Now, as the North yields nothing to the South on vital holists of Democratic faith, but adheres tensions. ly to its modified system of anti-slave ry Democracy, the South must give up to the North, else this identity becomes in possible. This is precisely the goal whither Southern Democratic opinion to rapidly tending. From the most severe and vehineut demonstation of the Waiter freachery t is gradually quavering down to a tope whiming apology, or, as we have seen in the Washington organ, of bold vindication. The Scathern Democratic presses which at first ere falling into line, and bewing before the behests of the administration and its official exponent with wonderful rapidity. Some o them follow the Crion and assert that Wars ER is right, and that none oppose but save distunctionats and abolitionats. A larger num-ber concede that he has committed indisher concede that he has committed indis-retions, but defend the President, from een sure, and declars categorically that he will make it all right. Many preserved a Carthu-sian adence, doubtless considering that the least said about the matter, the sponer will

There is to be one more violent struggle between the contending parties in Kansas, in spite of the conditionary policy of the Territoria such artists, and the Legislature next of the State Constitution of the Legislature next of the State Constitution of the Certain of the State Constitution of the special purpose of viting there is no doubt, and which ade will be most benefited by illegal voting is quite uncertain. The free State party have resorted to a thorough midtary organization, for the purpose, as they say, of protecting the policy from vicinies. The United States trapps will probably be employed for the same purpose; and serious disturbances are expected to recur.
