Wednesday morning, Jan'y.,[31. 1848.

With respect to the Representatives, it would seem that the whige have elected 7, namely one in the first district, three in the fourth, one in the sixth, and two in the seventh; and the locofocos 12 viz:—One in the first, two in 'the second, three in the third, three in the fifth, one in the sixth, one in the eighth, and one OFFICIAL.

In the seventh; and the condition on in the seventh; and the condition on in the seventh, and the condition on in the second, three in the third, and the fifth, one in the sixth, one in the eighth, and one in the sixth, one in the eighth, and one in the sixth, one in the eighth, and one in the sixth, one in the sixth, one in the eighth, and one in the sixth. For sheriff Gen'l Lewis, has 43 mapping to one of the sixth one in the sixth, one in the s

elected.

Such in brief is the distressing, disheartening and to many totally unexpected result. The whige have sustained a complete discomfiture, and the beofocos themselves, are completely astounded at their own success. Either party looked upon a locofoco victory in the city, as among the caretyry of probabilities, and both parties are alike amazed, though with the one astonishment is mingled with sorrow and distray, while with the other it is blended with the widestexultation. The event in the city prefigures with goomy certainty that in the State, and we entertain not a lingering doubt that Isaac Joinson and Texasion Landry, are elected Governor and Licutenant. Governor of Louisianal, and that locofocoism has accured the ascendancy of both branches of the Legislature. In the inidist of the causstrophe, we are somewhat maused at the manner in which the result has borne out the pompous pretensions of that particide gettleman, Mr. Derrighty, whom the self styled Native Americana, put up, for the purpose of diverting from Mr Distrys as many whig votes as possible. Three hundred and ten votes all told, constitute the Native strength in the Parish of Orleans, a number just sufficient to form a corporal's guard. The Natives have pretty effectivally demolished themselves, and while abstracting some three hundred votes from the while strength, have thoroughly exhibited their own inherent weakness.

It is an ungracious and to us a peculiarly distast al cask to hunt about for the causes which have con-ributed to our defeat. Fortunately in the presen-ase they are too palpable to escape observation. The the state of the s nder the new Constitution the vote in our city hi evenue a doubt ingreased fully two thousand. What secure of the fifteen or sixteen hundred suffragers who dad not exercise the privilege! The answer is simple. They stayed away from the polis of ac-count of the awful weather, which prevailed from the some of the setting of the sun. To those who are isware of the activity and dauntless energy of loco occions, it is useless to remark that had it rained pitch ferlis and marlin spikes, the Johnson men would not have left one of their votes unpolled. To khos who are familiar with the whig rank and file it torm as howled around us all Monday, the expecta-on was periectly reasonable that was numbers of artriends would not brave the tury of the wind and rain is order to secure their voice. This was the case at every poll, but more especially did it injure us on the distant wards upon the outskirts of the city, at isoth extremittes. We have not an earthy doubt that the whigs forested from this cause, 1000 or 1200. onto the wings foreign from this cause, food of 1300, with s, while we do not think that our dipochem tost a hundred. To this unfortunate result. Native Americanism as before stated contributed its share taking some three hundred from the whig viet. This however, was expected, and is but a minor exil. With

towever, was expected, and is not a minor evil fair weather and bright steep, the while Gubermajoria taket would have left the city from 600 to 800 vote ahead, the four while candidates for Senators would have been chosen, and we should probably hav elected twielve out of the nineteen Representatives. This explanation is offered by us, not in any man er to pallane our discomfiture. The whig party are to much accustomed to such results, to be ver really approved at them. They are a party of prin greatly annoyed at them. They are a party of prin-ciple: They stand upon high and honorable ground, and the fickle favors of fortune, the aura popularia, proverthally uncertain and inconstant, leave them as ever, eyed in the consciousness of truth and prepared to struggle for its supremacy. But we think the state-nent we have offered due to our country friends who relying upon-the personal popularity of our danddate for Governor and the strength of his party it the pa-rish, chimg to the hope that he would receive a round importy in New Orleans, and will be doubtless tictly disappointed at his defeat. ninjority in New Orleans, and terly disappointed at his defeat.

Maxico.—In the bustle and confusion attending the election on. Monday, we overlooked late news from Mexico which reached our city that day, by way of Passon at appears that the revolution interna-tion by the military under the command of General Passons, had proved completely successful. If they were borne down and overcome by the numerical superiority of the locofocos, the fault is unner of theirs. We cannot say as much for the Whigs of the Second Municipality, who supinely suffered that ancient Gibrature of our faith to be carried by the enemy, and scarcely tired a shot in its defence.

The National Intelligencer of a late date adjuin limening to the debate now going on in the House
of Representatives, and observing the martial spirit

Thus thinking, there came to our recollection a passage in the writings of a finuous author in our mother tongue, who had occasion to speak of the true change.

"It is wonderful with what coolness and indifference the greater part of mankind see war commenced—
Those that hear of it at a distance, or read of it in books, but have never presented its evils to their minds, consider it as little more than a splendid game a proclamation, an army, a battle, and a triumph.—Some indeed must perish in the most successful field, but they die upon the bed of honor, rezign their lines emidet the joys of cosquest, and, filled such knoor, smile in death!

"The life of a modern sodier is ill-represented by heroic fiction. War has means of destruction more formidable than the cannon and the sword.
