INTELLIGENCE BY THE STEAMER AMERICA.

The steamship *America* have at length arrived, and we have now to complete the summary of news to hand. The latest accounts seem to point to the conclusion that the Austrian thirst for Hungarian blood is not entirely slaked, and then an end to the revolting butcheries perpetrated in defiance of the rights of civilized nations, is approaching.

We have advices from Calcutta to the 7th of September, Hong Kong to the 30th of August. Peace reigns generally throughout India. The Punjaub dominions particularly, even the breath of a rebellion is wanting. Money, it appears, is to be transparent for life.

The news from the Courts is unimportant. The Governor of Mexico has been murdered by the Caciques, but a great deal of sensation has, in consequence, been created. The commercial affairs, on the whole, favorable, but a slight falling off in the imports is noticed. The indigo crop is turned out far more favorable than was anticipated.

France.
