are taken up by persons in connection or in sombina-tion with companies of speculators is becoming a theme of much just complaint. Fur years a system of fraud and speculation has been carried on, alike injurious to the individual states and the general government. The system now in vogue and carried to a great extent in this state, is, for individuals either well acquainted with see, to locate such sections in their own name; but, in fact, in connexion or in behalf of a company of speculators; thus securing the fairest portion of the landsmuch to the detriment of the honest and some fide sattlers, and the prosperity of the state. We are aware estilatances in which thousands of acres of the best lands in the state have been taken up; and upon which, thousands of dollars' gain to the now epulent and wealthy citizen will arise, and this must come out of the

wealthy citizen will arise, and this must come out of the actual settlor.

This matter strongly recommends itself to the attention of Congress. There is no necessity of making way with the public lands with great rapidity, they had far better fall, by degrees, isto the hands of the honest cultivators, at the low government price, than he thus bought up by avaricious speculators, to be held by them until a favorable chaince of disposing to seeme sattler arrives, and they are embled to make twenty or thirty dollars per sere.

It appears to us that Congress will soon see the necessity of passing laws restricting the sale of the public

cessity of passing laws restricting the sale of the public lands to those who are actual cultivators, or only to those who will perform settling duties on each section, and no one individual ought to be permitted to take up more than five sections, and then required to improve a portion of each section; and the government, on her part, ought to lay out roads and great every facility to part, ought to ity out roads and greek every mentty to such purchasers. Great advantages to the states in which the public lands are situated, would certainly arise from such arrangements; and we believe that but a slight falling off in the amount of lands sold would
