A more flagrant violation of the more reprehensible squandering o the funds of the people; a more shameful example of the injustice of favor tism, we have never before witnessed in our city affairs. The election came on; the several candidates were ballotted for, and those among the mem bers, who acted from conscientious motives, voted for the editors of the Tribun, whose propositions were much the lowest that were handed halting ordinance, or the misappropriation of the public monies, reled for an applicant, whose proposals were higher, by \$225, than those of the former. The sum of \$1175 was proposed by the Tribun, and that of \$1400 by Mr. Joans. Yet with this difference in the prices; the pa-trons of the council did not hesitate to appoint the latter to the office. Such conduct, in pub lie functionaries, marked by every thing tha defines iniquity and inconsistency, requires not a single reflection. To him, who has delved into the arcana of the history of mankind; to him, who has seen nations, classified in order, in the doonsday book of the universe; it is evident that the subversion of Greece was the inevitable result of existing conjunctures. The nations of autiquity had reached their climacterick; the Grecian empire was lotted out, and quartered among rapacious tetrachs; -and as crumbles the lofty, but timeworn monument, crushing all around it, even so Greece toppled from her high estate, sweeping off nations in her fall. As there had been a gradual rise; so there was a commensurate decadency: it is the compendious history of mankind; past, present and future. Invoke the tablet, the marble, and the pillar, and they will enforce on man the deep lesson of his transitory nature.

Let them be consulted, and they shall tell more than volumes of dissertations. In one of those songs, the oldest probably of the cellection, a species of monologue, in which Stergios, a mountain-chief deplores the oppression of his country, we find the fellowing characteristic language, which loses half of its energy through the medium of a translation, "If the cities have bowed before the Turkman, if they be tenantwas not the order of the day in that sitting of rampart of ice, why should we submit to the infito argue with the benches: the recorder was as your banner where the wolf has fixed his lair. This race of men, evidently descended from the sconian stock, offers a perfect identity with the Anglo Saxons, at the time of the Norman conquest, or the free bands of the Asturias, at the period of the Moorish invasion. They have triumphed-have redeemed their fatherland from the sacrilegious touch of Turkish slavery, and have meritoriously been honored with the title of heroes. Their country, like that of the Goths of Spain, was limited to a few fertile knolls, for their flocks, and seven scattered villages, on the mountains of Thessaly, named finance, in which he may possibly obtain such a state; their lawless occupation, Klephtuchorion, the masses, in which he may possibly obtain such a hamlets of the marauders, whence like the highland res catheran, they came down to the lowlands and lift-
