TWO STEAMBOATS FOR SALE.

The subscribers are directed to dispose of, at private sale, the following described light draught steamboats, viz:—

One Boat—Length of keel, 146 feet; on deck, 154 feet, breath of beam, 26 feet; floor, 31, and depth of hold, 4 feet, 10 inches. She has two boilers, 42 inches diameter, 24 feet long, length of cylinder, 6 feet, 4 ins, 16 inch stroke, and wears a 38 foot wheel, and has low backers; and draws, when trimed, only 30 inches. Has fifteen lengths of flues, and a large double Hall—was built in July, 1844, and was running but a very short period.

It will be immediately perceived, upon perusal of the above, the capacities she is fitted for, that this boat would be a most advantageous purchase, at the very moderate price we are authorised to dispose of her.

One Boat—4 years old, was hauled out last season and the ensuing repairing of the capacity of 1100 bales cotton, well found in every respect and in excellent condition, has 4 double flued boilers and an 8 feet stroke engine, all of which were entirely new when placed on board and have never been injured.

This excellent boat will be sold cheap, and would prove a lucrative concern to an experienced purchaser.
