

# THE NEW ORLEANS BEE.

Office, 78 Chartres street

FRIDAY MORNING, OCTOBER 20, 1865.

**Messrs. Brooks & Mackay,** No. 86 Camp street, have no "Cleve States" in front of their door; but have the *Wise Men* shoes in the City.

**Action Taken this Day.**

By D. E. Murphy, at the Commercial Cotton Press.

10<sup>th</sup> Copies of the Bee can always be found at Mr. Auguste Simon's Bookseller, No. 85 Bayou street, between Union and Pardieu.

On second thought, may well be found sheriff's and auction sales, bank notices and various miscellaneous advertisements.

The next of our news of events under the general head of Organization of Labor, will appear to-morrow morning, and will contain many interesting and instructive facts relative to the immigration of laborers into the French colonies.

**The New & Famed.—The immense and universal demand for the Fragment Report is a marvel in the annals of Industry! It exceeds that of all other documents combined. Neither sold from the stomach, nor any other corresponding element generated by indigence, can affect a set of teeth regularly paid for the Fragment Vegetable, antiseptic and preservative.**

We requested to call the attention of cotton buyers to D. E. Murphy's advertisement.

**Death of Mr. A. Drusone.**—We are grieved to have to record the death of an old and honored citizen, and a venerable veteran of the war of 1812-15, Mr. A. Drusone, who died yesterday at the age of eighty-nine years. Mr. Drusone was one of the most considerate planters of the parish of St. John the Baptist, which he was originally called. He now rests in the State Cemetery. His son, the father-in-law of Gen. Beauregard, and Mr. John Middell, Esq., enjoyed the esteem of his fellow citizens and leaves behind an honorable memory.

The remains of the deceased will be removed this morning at 8 o'clock, from his residence on Esplanade street, to the steamer National, to be conveyed for burial in the family tomb in the parish of St. John the Baptist.

**Circular from the Fragment Bureau.**—We publish an important circular from this Bureau, now administered by Gen. Fuller, in relation to the sale and transfer of real estate, and to the unlawful selling of wood on leased land. The first portion of the circular is more or less identical with sales and transfers, except as to property in actual possession of the Bureau, in the same intent and effect as a circular order on the same subject just issued from Gen. Canby's headquarters.

**The Un-American Citizens House.**—We are glad to learn from Mr. Overall, of the Commercial Building Room, at the corner of St. Charles and Commercial Place, that his enterprise is meeting with substantial support. Mr. Overall deserves to be known that he will continue to favor every subscriber with the publication of their names in the *Scout*.

**The ANGLICAN ECLIPSE.**—A few gentlemen, assisted by Prof. Dow, assembled at the City Hall, yesterday evening, for telescopic observation of the Solar Eclipse. They marked the time of the beginning, middle and end.

Beginning, 7:31-10-20.  
Middle, 8:06-12-12.  
End, 10:10-15-55.

The atmosphere was very clear and serene, and at the moment of greatest observation, about two-thirds of the sun was covered. Two white spots were distinctly visible on the disk, and the shadow of the moon cast upon the earth was clearly discernible.

The steamship *Harpur*, from New York, had arrived here where the *Gilding Star* is.

**Rebuilding the Levees.**

Governor Wells has issued a notice to levee commissioners to repair and reinforce the existing sections of levees, and to bring the river from the lower end of Jefferson parish to the northern boundaries of the State. These proposals are to be deposited in the Executive office, to be referred to the Levee Commissioners and endorsed "Proposed for Building Levees."

W. W. Page, E. E. Kitteridge, Wm. J. Minor, T. L. Clapp, and A. D. M. Harrelson, Esq., T. G. Clark, and A. J. Jones, of the Board of Engineers, which consists of the Board of Levee Commissioners and the Board of Engineers, will be appointed to examine the proposed sections of levees, and to report to the Levee Commissioners.

The State of Mississippi, which was the second State to secede, is the first to inaugurate the establishment of regular civil government under the President. On the 16th inst., Gov. Sharkey, Vicksburg, chair, which, as Provost Marshal, he has been holding, assumed the office of Provost Marshal, and the last advice given to him was to maintain the law and order of the State.

The atmosphere was very clear and serene, and at the moment of greatest observation, about two-thirds of the sun was covered. Two white spots were distinctly visible on the disk, and the shadow of the moon cast upon the earth was clearly discernible.
