THE VETERANS' DINNER.

The veterans of 1814 15 met on the 8th of January, at 3 o'clock, P. M., at the St. Louis Exchange, and from thence marched, with a fine band of music at their head, to the Paris Restaurant, No. 25 Bienville street, so skillfully conducted by Mr. Lavrot, who is so well known for his culinary talents. He had prepared a dinner worthy of a Lucullus; and though these venerable men had seen a great deal of service, they were willing to serve again on this occasion, viz: to demolish the fortifications erected by Mr. Lavrot; and, suffice it to say, the veterans, with that ardor so well known to old soldiers, stormed the place, and carried the day. After the capitulation was signed, the following articles were unanimously adopted:

1. The day we celebrate.
2. The President of the United States.
3. The memory of Washington.
4. The Army and Navy of the United States.
5. The memory of our gallant chief.
6. Our country, right or wrong, our country.
7. The Constitution of the United States—the bulwark of our liberties.
8. The Governor of the State of Louisiana, His Excellency Robt. C. Wickliffe.

The Governor rose, and addressed the company in very appropriate terms, creating the greatest enthusiasm.

9. The Mayor of the city of New Orleans, Hon. Chas. M. Waterman.

To which the Mayor responded most happily.

10. The memory of Lafayette, ever dear and sacred to Americans.
11. Our brethren in arms of 1814-15.
12. The matrons of New Orleans of 1814-15—surpassed by none of ancient or modern days.
13. The memory of Coffee, Carroll and Adair.
14. General J. B. Plauche, Major of the Battalion of Orleans—By his activity, bravery and military achievements, he has greatly contributed to the glorious victories of the 23d of December, 1814, and 8th of January, 1815.
15. Our invited guests—Their presence among us has contributed to the festivity of the day.

Capt. DE RIVIERE rose, and said that he was glad to see that we had not forgotten France, by giving the toast to the memory of Lafayette; that it was natural, in the event of a general war, that we should be the ally of France, and that, in that case, we should meet again.

This sentiment met with a hearty response from every one present.

Many other private toasts were given, which added much to the merriment of the day.

THE BANK STATEMENT.

The following is the last weekly statement of our banks. It calls for no particular remark. The circulation is slowly increasing, while the loans have diminished. The banks are wonderfully strong:

FATAL ELECTION RIOT AT QUEBEC.—The Montreal *Herald*, of December 30th, contains some further particulars of the fatal election riot in Quebec, before briefly alluded to by telegraph. It appears any thing over exhibited at the polls either in New York or Philadelphia:

The accounts from Quebec which reached town yesterday by mail give no very little more news than that already received by telegraph. It is evident that the riot, throughout Monday, in the heats of the excitement, was more quite beyond that of the authorities. The forces were furnished by Champlain street and St. Roche; and each side implies the origin to the other. The chief conflict was in St. John suburbs, owing it appears, to a difficulty in polling all the voters which came there from the Quebec. This difficulty led to an incursion from Champlain street, but the invaders were, it seems, beaten back by the sentinels of the place. It was here that Robert Newman and William Wallace received the wounds which caused their death. Messengers also came to the house of a Mr. Falsey, which was set fire by the mob and all the windows smashed. A detachment of the Seventeenth regiment of last class on the ground, under the command of Mr. Clapham, acting as magistrate; but the troops took no active part against the mob. Mr. Ermatural, desiring to clear the voters in Mountain ward, was threatened, and prosecuted by Mr. Aibeyn. Mr. Flanger, also was also threatened in St. Roche. It is said that the ranger took possession of the polls in St. Roche, and a detachment of the Thirty-ninth regiment, under Capt. Stadden, as magistrate, turned out, but they did not find it necessary to act.

MEXICO.

ARRIVAL OF THE STEAMSHIP *ORIZABA*.

The steamship TEXAS, FOSTER, master, arrived last evening. She left VERA CRUZ on the 7th inst., with six cabin and nine steerage passengers. She brought $270,000 50 in specie, consigned as follows:

Garnier & Maurice	$40,000
E. Johnson	40,000
Fry & Brothers	30,000
T. De Bernard	20,000
Hughes & Co.	15,000
Wheeler & Kendall	7,000
Wheeler & Kendall	6,000
T. F. Maitland	5,000
T. F. Maitland	5,000
A. Girard	5,000
T. T. Logan	5,000
A. Bayonet	5,000
J. Cunningham	5,000
Laborde & Z. Lopez	5,000
Wm. Prime & Co.	5,000
Oetker & Co.	5,000

The *Tennessee* left at Vera Cruz ready to sail, the bark *Rapid*, for New York. Brig *Doon*, from New Orleans, arrived at Vera Cruz on the 5th, and the bark *Whiskie* on the 7th, from New York. The British steamer *Clyde* left for Havana on the 5th.

The foreign Ministers at Mexico went in a body, on the 1st instant, to the Palace, and congratulated President Comonfort. The Minister of Guatemala addressed the latter in behalf of his colleagues. The absence of the British Minister was a subject of general comment.

Comonfort is exerting himself in order to bring over to his side the opponents of his late coup d'état. He had already submitted several important measures to the "Government Council," and seemed very anxious that the different parties should unite in order to repell foreign invasion, in case of a rupture with Spain. The Council appointed a committee to form a new ministry, and another one to draw a bill relative to the prosecution of thieves and robbers. A third committee was ordered to report on the law regulating Obrera property. This report will be submitted to the Congress as a basis for a new agreement between the Holy See and the Mexican government.

The Governor of San Luis Potosi has protested against the plan of Tacubaya.

The new constitution of Vera Cruz was promulgated on the 3d inst.

Our papers from the capital having been sent to the Post-office to be distributed this morning, we shall give fuller news to-morrow.

THE NIAGARA'S NEWS.

The steamship *Niagara*, with dates from Liverpool to the 19th ultimo, arrived at Halifax on the 3d instant.

Bullion in the Bank of England has increased largely.

There is nothing later from India.

The Bank of France has reduced the rates of discount to 6 per cent.

The commercial crisis in the North of Europe continued severe. Affairs at Hamburg were improving.

Messrs. Powell & Son, of London, have failed. Liabilities heavy.

The London discount houses were easier, and the applications at the bank had become light.

Financial troubles were being felt among the woolen manufacturers. Messrs. Cheseborough & Sons, of Norshire, had failed, and others were expected to follow.

A further ineffectual attempt to launch the *Leviathan* had been made.

France has imposed a duty on foreign brandies.

The American submarine companies have abandoned the attempt to raise the ships of war sunk in the harbor of Sebastopol.

Financial Affairs in London.

In the money market, on the 16th, there was a further decided tendency towards relaxation among the discount houses, and so-called bills were readily negotiated at from 4½ to 5 per cent. The demand at the bank was very light. The funds were buoyant, owing to the continued influx of gold to the bank, and a consequent expectation of a speedy reduction in the rate of discount.

The following failures were announced: Edward Smith, wool-dealer, of London, with large liabilities; and Sandeidt Brothers, woolen manufacturers, of Leeds, with liabilities of £30,000.

Mr. Jendall, of Leeds, a very extensive operator in wools, was reported to be in temporary difficulty, but actively suspended.

At Hamburg the rate of discount had receded to 9 per cent.

On the 17th instant there was a feeling of increased confidence and a rise in the funds under the influence of the *Atlantic's* news, and specie money was in good supply and the applications at the bank light.

The suspension was announced of Wm. Cheseborough & Son, of Bradford, one of the largest woolen firms in Yorkshire. Their liabilities are not stated.

The Dartford and Gravesend Bank has also stopped, with liabilities of not more than £20,000.

The Burgesses of Hamburg have authorized a new loan, thereby making the amount of loans contracted for about forty millions of francs. The rate of discount there had further receded to seven and nine per cent.

The important failure of Sir S. Morton Peto, largely engaged in the metal trade, in Hamburg, has suspended.

James Nobels, of Kidderminster, carpet manufacturer, has suspended for £35,000.

The official statement of the affairs of the Western Bank of Scotland, the liabilities of over £8,960,000 sterling and a dedotency of over £200,000.

On Friday, the 18th, the stock market further advanced and closed buoyantly.

Telegraphic advices from Hamburg reported a further considerable improvement in financial affairs. W. J. Powell & Son, of London, in the Manchester trade, have suspended with heavy liabilities.

GREAT BRITAIN.—Operations were resumed upon the *Leviathan* on the 16th, but, with the most tremendous pressure, the vessel was only moved three feet, when the work was suspended one day. No less than three hydraulic rams, one powerful Arak or windlass, and the double chains which drag the vessel towards the river, having been all burst and broken. The Times thinks that half the hydraulic power of the United Kingdom will be required to overcome the difficulties.

Admiral Sir F. Beaufort is dead.

A special agent of the East India Company had confirmed the grant of a pension of £1,000 a year to General Wilson, and £500 a year each to Lady Neill and Mrs. Wilcheimer.

General Havelock is gazetted to the Colonelcy of the Third regiment.

Another public meeting in favor of reform for India had been held in London.

The latest step in British reform agitation is the presentation to Lord Palmerston of a memorial very influentially signed in favor of a special representation in Parliament of the educated classes.

FRANCE.—An imperial decree announces that foreign brandies are to be subjected, on importation into France, to a duty of twenty francs per hectolitre of pure alcohol.

Rigaut rumored in Paris that the Emperor intended to grant a portion of the punishment incurred by the Prince, and that a general amnesty for press offences would appear in the *Moniteur* on New Year's day. It was also said that a decree of exile which exists against Generals Bedeau and Changarnier is to be repealed.

The Bank of France has reduced its rate of discount to six per cent. for all descriptions of bills. Additional confidence was inspired by this, and the funds closed on the 16th at 67f. 25.

It was stated that instructions had been sent to the French Minister in China to cooperate effectively with Lord Elgin and the English naval and military commanders.

BELGIUM.—The Belgium Legislature commenced its session on the 15th ultimo, without any formality. Prince de Ligne was appointed President of the Senate. It was officially announced to the Representatives that the Orleanist ex-Prince was in an interesting condition. In the Hague, in the second chamber, a resolution in favor of abolition of the usury law was adopted after an important debate.

SPAIN.—An amnesty for political offenses in the transatlantic possession of Spain has been granted.

A meeting of the Cortes had been postponed till January 20, when the Queen will open the session in person.

SARDINIA.—The Legislative session opened at Turin on the 14th. The King in his speech hoped for continued co-operation in the development of liberal principles which are the inalienable basis of the national policy, and referring to the continued interruption of relations with Austria, said that the civil and commercial intercourse of the two countries was not in the least affected thereby.

PRUSSIA.—A Berlin dispatch says that diplomatic relations will probably be soon resumed between Prussia and Switzerland.

RUSSIA.—The Paris correspondent of the London *Times* says: The American brig *Ocean Rose*, having on board the engineers and machinery that were to have been employed in the raising of the vessels sunk at Sebastopol, has returned to Constantinople. The vessels were reported by the divers to be so thoroughly buried in mud and rock that any raising of them is out of the question, and difficulties and expense of doing so have determined to accept the probable proposals of salvage.

A dispatch from St. Petersburg announces the important victory over the Schamyl tribes. A great number of them were killed, and a large number of their villages burned.

HOMBURG.—The Landgravial crisis in Homburg continued very severe. Two gendarmes from the government had gone to Homburg with money to support the Prussian force whose presence would be prejudicial to the Landgravine.

TURKEY.—A number of new and important reforms were decreed by the Sultan. The Bank of Ottoman had determined merely to issue notes to the amount of three millions of francs in the Turkish territories, with a view to establishing a healthy relation between the value of the precious metals.

PORTUGAL.—The Paris *Pays* says that the Queen of Portugal has given the necessary guarantees for the payment of the Portuguese debt to England, and that the Portuguese Government has consented to the appointment of a Commissioner, as mediator, to settle the matter.

SWEDEN.—Gustavus Adolphus, the King of Sweden, died on the 8th inst., at Stockholm.

ADVANCED years often cause us to feel the necessity of a remedy to cause artificial means by which to rally and restore temporary strength and being to our impaired faculties, which is most efficaciously done by the use of Moschzisker's celebrated Balsam Cordial, before meals. Those who are troubled with dyspepsia, or its attendant evils, such as nervousness, loss of appetite, &c., &c., will receive the most speedy relief by using this medicine, if the person is weak in body, will convince the most credulous of its restorative effects, to which thousands can testify who used it for years, and under no circumstances would they be without it.
