

DavydWhaley: Mayhem

Davyd Whaley (b 1967, United States), The beautifully intense, spiritually sequential canvases of meld painterly narration with abstract elegance. Through meandering, rich strokes, thick with electrifying color and forcefully nuanced texture, the artist paints in episodes, with each work an expressionistic moment of his life. Opulently colored paint is profusely layered in an ornate impasto akin to such masters as Vincent Van Gogh, signifying a subtle intrigue, a hidden courage. "
