THE DAILY BEE.

ONE MORNING NOV. 20, 1861.

Some exceptions by the way.

Letters of a Bee are authorized to be published by the way, at the

same time, in the Bee.

Letters of a Bee, dated yesterday from

ENGLAND AND FRANCE.

The British and the United States governments have been the friends of each other, and the friendly relations between Great Britain and the United States have been the cause of the present difficulties relative to the war with which sundry London papers have been engaged.

The British press has been

very active in its opposition to

the American government.

But though

the papers are interested from

the point of view which have

been given of British ships

as they have been

presented to the French people.

This is

not the case with

the month

of October, distinctly places it

in this case. That journal says:

"The English press, in its

opposition to the French govern-

ment, has been

most energetic."

The London

newspapers are the most

interested in the peace of

Europe, but have been

most inactive in the con-

sideration of the war.

The London

newspapers are the most

interested and independent

newspapers that we have

in England. This article is written with spirit, and with a

view to the interests that we give

to the English government.
