Mayor Heath transmitted to the Board of Assistant Aldermen, at their session on Taesday evening last, a message setting forth that the Commander of the District, Major Ges. Bashanan, had requested the opinion of the Cuncil on the question as to whether the Comstitution lastly framed by the Dryades arrest Convention contained any provision inconsistent with those of the city charter respecting the time for holding the election of municipal officers, and also requested informatics as to the regular day for such election of the Cuncil he had sought the opinion of the City Attorner, Judge A. M. Buchanan, and Mr. J. S. Whitakar, as additional counsel, on the points respecting which the Commander of the District had requested information, and accompanied his message with the written opinion of those special properties of the municipal election is the second Monday of March, and 24. That the regular day established by the city charter for the municipal election is the second Monday of March, and 24. That the new Constitution (Art. 154) requires an election to be held for eity officers at the same time and place as the election of the Constitution of resident and the country of the Constitution of the Constitution

Proposition itself that the election can be beld.

It is needless to remark that the Constitution is the foods mental law of the State, and is one thing, and an ordinance passed by the Conventions, and an ordinance passed by the Convention of the State, and is one thing, and Congress in the Reconstruction only of those officers provided for in the Constitution and not in the ordinance promulgated by the several Conventions.

The proposed Constitution is entirely silent. The proposed Constitution is entirely silent in the state of municipal officers, and there are the conventions.

The proposed Consitution is entirely silent on the subject of municipal officers, and there fore can not have porvioled for them. The ordinance authorizing their election is without any warrant in the acts of Congress, and is entirely void.

The confusion that would result from any other view is apparent at a glance; for if city officers were to be elected at the coming election, their term of office would be altrogether undefined, as well as would the officers themselves be without a proper limitation as respects their duties.

The third member of the Committee dissential from the foregoing report, and the subject was possiponed until the next regular meeting.
