Chartres street,

Battle of the Mississippi. ITS GLORIOUS SUCCESS.

We present to our readers, this morning, the first complete and connected report of the But-tic of the Ministrypi that has been published, and we believe that he details may be relief on

The soumender of the blesh

Sorts made it possible; and it is believed, with good reason, that, under instructions from Washington, he was about to construct a Lincoln customhouse at the head of the passes, protected by land batteries. Had he seeseeded in doing this, the blockade of our great outlet would be effectual indeed, and without a formidable naval force to dislodge him, his position weald have been an impregnable one. Commodore Helling, who had recently assumed command of this station, divined the cheary's paysees, and as once set to work preparing an expedition which should drive him out of the river at any rick and less to cer side in doing so OCCUPATION or THE RIVER.

OCCUPATION OF THE RIVER.

In accordance with their programme, on the first of this month the U.S. tenker graffion Water Witch, a small but owife-curving steam. Southwest Pass, firing grape and shells into the banks on each ride as she stemmed along, for the purpose of reconnoitering and discovering any meaked batteries that might have been clanters, especially in those parishes a sugar and cotton are cultivated, the plant heavily in sugar, because an the hands of the cetton planter abbeving and taking off the crop to sugar and molasses, but the cotton is equal to their instructions, retired up the river as the water Witch approached, the Ly tewing the cettor.

cutter.

The Lincoln gunboat came up to the head of the peases and surveyed the land there, landing some of her men, who stripped the telegraph office of its instruments to prevent further com-munication from that point with New Orleans. Pass a Louire, searching for masked batteries fewn that also.

As was expected by our naval officers, this

means of saving their families and effocts in the could not rith away, and replied to the percent of a storm occurring, as it often does, to overflow the settlement. These pilot boats overflow the settlement of not them by the enemy, and also forty whale-boats, to which the small inlets and passes, thus leaving their owners, in the event of a storm, to the mercy of the element.

Several months previously these people, poor as they are, had subscribed the sum of one there is the settlement of the sum of one there is the settlement of the sum of one there is the settlement of the sum of one there is the settlement of the sum of one there is the settlement of the sum of one there is the settlement of the sum of one there is the settlement of the sum of one the settlement of the sum of one there is the settlement of the sum of one the settlement of the sum of one the settlement of the settlement of the sum of one the settlement of the sum of the settlement of the settlement of the settlement of the sum of one the settlement of the settlement

commenced unloading lumber at the head of the passes, for the building of their custombouse. An immense quantity of this material, which

it is none too soon to let the world see that tion ready to consecrate their independence holocaust of their best blood, will not look and neglect a civil remedy which will not sterially in the attainment of the many properties. The properties of the many properties of the m mother of invention, and under the almost material they had collected at such cost for the street in a transport of the dispassionate attention of the agricultural communities of the Bouth.

THER TREENEPE.

Not since the splendid victory at Managers has any exploit performed by the Confederates occasioned so wide spread, intense and unalledged gratification as did the glorious schievement of our little fleet commanded by Commence and the long range of their guns.

The left was provided by the confederates occasioned so wide spread, intense and unalledged gratification as did the glorious schievement of our little fleet commanded by Commence and the long range of their guns.
