Suturday morning, Nevember 14, 1848. Hake way for the Empire State.-The

Yesterday's meal brought no many returns from New York.—Enough we think to inducate habilibly the result. Had the mail of the 5th, which was due. arrived, we should have had tidings from nearly the whole State. As it is, our advices, though incomplete, whole State. Asit is, our advices, though incomplete, justify the inference that JOHN YOUNG, (WHIG) HAS BEATEN SILAS WRIGHT, (LOCO) AND and fever, and the diarrhoss.

This mail puts us in possession of the melancholy the probable death of Bt. May. Ridge-The glimmer of hope which we entertained has brightened into broad day. Despite Whig disaffiction and Locofoco unanimity; despite the overwhelming strength and popularity of the Locofoco nominee; despite every obstacle which the Whiga had to encourse. counter, they have nobly triumphed—all honor to the

gallant Whigs of the Empire State. The returns received are mostly from the counties around New York city, where the Whig bickerings did their worst, and from the centre of the State. We subjoin those which are reliable.

Young, (W.)

given embrace the latest and apparently most auntic advices. They leave no doubt in our mind of the success of the Whigs.

New Jersey overwhelmingly Whig. The Jersey Blues have proved faithful and staunch beyond our most sanguine expectations. They turned out like men, and resisted the double onset of Locofocoism and Nativism. The result is a somplete and splendid triumph. In the First Congressional District, Jas. G. Hamp-

TON, (W.) is elected by about 400 majority—a most glerious victory.
In the Second District, Wm. A. Nawell, (Whig) is chosen by at least one thousand majority!
In the Third District, Jos. E. Ensann, (Loco) is doubtless elected, as his District comprises the strong Locofoco counties in the State.

In the Fourth District, John Van Dere, (Whig) bents Littleton Kirkpatrick, the Locofoco great gun

A WHIG GAIN In the Fifth District, Dudley S. Grisory, (Whig. selected by about 2,000 majority.

The Legislature will be largely Whig in both branches. Some idea of the popular vote may be

tormed from the following returns :-Morria. Hudson, Bergen, Salem, Somerset, Middlesex,

To these about 6,000 Whig majority, with Seems. Warren and Hunterdon to hear from, which cannot possibly re-duce it to more than 2,000. This will be the largest Whig majority given by New Jersey since the days of Harrison.

WILMOT'S DISTRICT.—The Locos still claim Wil-mot's election as a free trade triumph. Let us com-pare the vote in the district with that of the Presi-dential election:

1844 Commun. 1844 President Susquehanne, Tioga,

Polk's majority in an aggregate of 14,664 votes was 2552. Wilmed's in 10,451 only 747. About two-furds of the Presidential vote was out and twe-thirds of Polk's sanjority was destroyed. Had the whole vote been out, the inference is fair that Wilmot would have been defeated.—Philadelphis North American 25 Now that the Administration has lost New York, where shall it find a resting place for the sole of its foot? Not in Maine, not in New-Hampshire, not in Pennsylvania, not in Maryhand, not in Georgia, not in Florida, not in Ohio. Where, oh where? "Gentle shepherd tell me where!" Gentie shepherd tell me where !**

Orio .- The Leccicco papers are urging that if the Whig Legislature had not changed the Congressional Districts, there would in the next Congress have been 13 Locos to 8 Whigs. Is not this of itself an evidence that the former gerrymander was iniqui-tous? With a Whig majority in the State of 2000, they assert that two-thirds of the members of Con-gress under it would have been Locofoco! Now, the Whigs have a majority of the Legislature and of the

The enemy have withdrawn his troops from Rin-conada and Sairillo without depot, and are concen-trating them at San Luis Potosi. A BROTHER Agent and twelf basiness of humans of humans

Fourteen Whig and eight Democratic Congress men have been elected as tar as heard from. In the present Congress the Whigs have nine members from New York. In the city of New York Nativam, as usual, helped Locofocoism to defeat the Whigs. Mr. Phenkix, (W) is beaten about 40 votes; and Mr. Nonkos & W.) about the same. The Whigs gain a member in the person of Mr. F. Tallakanex, who has a small majority. The Locofoco assembly ticket is chosen with the exception of Mr. Wells, who is sail to have been heaten. Not a word of the probable complexion of the Legislature, of the Lieutenant Governor, or Canal Commissioners.

We have many more seturns from isolated towns, but they are too vegue and in some justances too contralactory to merit entire confidence. Those already given embrace the latest and apparently most au-

him, and strives to keep the place in good order.

All Saint's Day at Maximoron was not agnalized with much orremous. With the exception of an unusually large attendance at mass, there was nothing to indicate the advent of the fats.

Duat.—A difficulty, says the Flag, arose between two of our citizens—Danie! Murphy and John Kinsey—on Mooday last, which was thought to be of sufficient magnitude to be settled with pistols. Accordingly in the evening they required to the Terra guidence. ingly in the evening they repaired to the Texan aid of the river, where, after measuring off the ground the beligerents were, after measuring off the ground-the beligerents were posted, the word given, and both fired. We annex from the Flag such portions of the advices from Monterey as our correspondent has either not notiged or but slightly:—

The Mexicans do not appear to be as well disposed towards the Americans in Monterey as they are here, but that may be owing to a lack of accuming what they are not and ignorance of the deep counterfents that our Mexicane knewn so well how to play off. Our friends says that they do not only look dargers, but that they are them too. A person belonging to the Alabama regiment was recently strolling about outside the camp, when a lancer came down upon him and ran him through several time from Monterey, who has had a good opportunity of forming a correct opinion of the future movements of General Taylor, expresses it as his belief that, after garrisoning bal-tillo, the natin body of the army will take up the lime of march for Tampico, where it will be reinforced preparatory to making a descent on San Louis Potoss, which it is generally supposed will be the next battle scene.

It meems to be an ascertained fact that Gen. Tay-lor's camp, (Mexican russors in this city to the con-tary, notewithstanding) that Shithlis is not to be defend-ed—the whole Mexican force being concentrated at San Louis Protes, which place is being fortified in the

San Louis Potons, which place is being fortified in the atrongest possible manner.

Gen. Woolhad reported himself to General Taylor, as within a short distance of Monclova, and we are informed that a part of his force is to form a junction with Gen. Taylor at Monterey, the remainder moving on to Chmhashua—the whole force being deemed urmecessary for this service.

It is also stated to us that Victoria and all the principal towers in Tamassipas are to be immediately garrisoned, and we would succulate that it is with the ultimate object of placing all the country on the east or northeast side of the Bierra Madre, under the Government and laws of the United States, to be held as a portion of her territory and as an indemnification for the war. The state of feeling on this subject cannot be misunderstood. Every day it becomes more spearent that this range of mountains is henceforth to be the dividing line between Mexico and the United States. It can no longer be viewed as a vague supposition—such we believe to be the fixed intention of the American Government—in no other way can she be idemnified for the war.

October 8th, 1866.

Cottos, during the early part of the present week, was in steady and good demand, and the eligits enocession which was submitted to after the steament arrival on the 30th site, was submitted to after the steament arrival on the 30th site, was agreemently recovered. Yesterday aftermon an active apparentiality elemand sprang po, originated by the receipt of three days later advices from Hew York per ship Margianes, representing that market to be advancing under the indisence of continued antityorable accounts from the Dattes grewing destricts. In canasquence of the general space of these advices, holders have shown less deposition in milt, and present close with an upward tendency. The total subse of the week amount to 32,000 bales.—To day the demand is shripk and general and the sales are 10,000 below, about held of which is on speculation.
