THE UNION-IT MUST BE PRESERVED." FRIDAY, MORNING, AUGUST 1, 1883.

Nonday, Wednesday 4 FRIDAY.

-- FOR GOVERNOR, J. B. DAWSON

We are authorised to announce James M. Branvort mi by the President, - Major H. D. Pause to be

al Joun B. Dawson arrived in our city yesterday Franc stelle. General Dawson, as our readers know, is the to the others in the field, we the one most capable of filling with honesty capacity and intelligence, the stalland govthe enoung torm. With a great num her of the possile of this parish General Dawson is already limitely acquainfed; these will we are confident be grate to fine their interpenses with him internames, and by the fine quali tion of enjoying his pociety, and personally ap-Dity now presents ilself of doing so. No hearst man need fear from him a pobuf -he in a plain uncophicticated republican. With equal freedom and affability he hav always taken his fellow estizens he the head whether drawed in the finery of riches, or it mill almole habiliments of a mechanic or a farmer. That he who have held his acquaintance; so that to-day all will feel confident that his openness is not effected, and that it is not his way to cates for votes to day, and to strut about alter the election with overbearing pride, and auddenly assumed He comes not here to bargain away public offices that he may procure influential supporters be crawls not at the foot of those whom he might think could procure him votes, mir does he rely upon any rich nabob, and would-be-lorde of the manor, who would sway the people, for supports On ary he is emphatically the people's candidate; as their call he come forth as their champion, and them be confides: we hope that all the real FRIENDS of the STATE, and the UNION will without distinction raily around him. We hope also that the same hospitality which has always been one of the prominent qualities of the citizens of New Orleans will show itself forth on the occasion; that Genl. D. will be treated by all with that considoration and respect which is his due, and that none of his angry and envious opponents will, (as we have heard they have threatened) render his visit among us disagreeable

It is with pleasure we understand that H. D. PIERE, Esq. has been appointed by the President, Surveyor of the Port for the District of Mississippi, in the place of the late Sa-MULL SPOTTS, removed. This is decidedly a most excellent appointment, and o

that mosts the general approbation of our citizens.

The Criminal Court sentenced on Wednesday last the ollowing individuals, found guilty by a jury.

person of Gentilly Dreux, to death.

On motion for a new trial, of counsel of Christian Nelson, convicted of murder, by the jury, the court granted a rehearing for Monday next.

Actions have been recently brought by the Post Master Cleanoral against the members of a firsh in the city of New Yorky for a violation of the law of Congress in regard to the conveyance of letters. The defendants kept a bag said factory, each doing his best, and are of different workmen.—

The defendants kept a bag said them, warnished, and lined with silk, contains deed, the left appears to be so entirely employthem, in which, after being exhibited a day or treat the undles of letters regularly for themselves, an sometimes for others, which they were in the babit of send ing by passengers in the steamboat, to Providence, where they had another office for business. This was contended to be a breach of the law, which forbids the setting up of a foot or horse post for the conveyance of letters or packets on post roads. The jury found a verdict for the defendants of and a motion for a new trial being refused, judgment was scho

entered accordingly.

Taisure to original.—The citizens of Athany are about that here in their ancient consideration. In Joseph Beonaparties, the warmest adherents of his illustrious parte, especially, the warmest adherents of his illustrious porter equate, inscribed to the memory of the great Scottish port and novelist, Walter Scott. It is in alteretices, and on the left side represents Genius, holding in the right hand the vital torch, and pointing with the left to the Medallion of Scott, and directing History and Biography, the figures TRIBUTE TO GENIUS. - The citizens of Albany are about of Scott, and directing History and Biography, the figures of which are undermeath, to record the fame of the great post and author. On the right of the statue of Genius is the national plant (the Thietle) and in the back ground, the emblem of perpetuity, the Pyramid. It has other appropriate devices, and under the whole is a small marble table: with the inscription, "The Citizens of Albany, to the Memory of Walter Scott-1933."

The editorial critics have begun to argue the imprepriety of using the word "telestell" and we may expect to see a "merdy" discussion. Now "talented" is a very good word and for our part we do not see the necessity of putting i "hors du combat," although it has been proved to be an "in terloper." The judgment of the National Gazette weight heavier in a literary than in a political point. It has made

haste to a fixer year in a potential control of the Assessment region in the control of the Cont

The Hon rable Mr. Cass, Secretter of War of the Unid States, actingpanied by the Hastorable Isaac Hill,
nited States Menator for the State of New-Hampshire, and Lieutenant Prentiss, of the United States Army, and Lieuteness Prenties, of the United States Army, re-turned from Quibec yesterday in the St. George steamer, took up their residence at the Exchange Coffee House, and proceeded this morning by the United Stages on their way to the Falls of Ningars, Sec. It is to be regret-ted that the short stay made by the Secretary of War, an well as the strict privacy maintained both bere and at Que-bel, should have presented his receiving the attentions (which he seemed saistudiously to avoid) the citizens of both places would have felt happy an hestawing upon this distinguished ernament of the present American Cabinet.

The Revenue.—We understand that the amount of du-tion secured at the Custom-House in this city for the first quarter of the current year, was about \$5,500,000, and that duce the present less went into operation, the monthly mount here has bless about one million of dollars. So that the importations which have taken place since the 4th erns on our public of March shall prove a fair average, the receipts in Newmar chance to mee York for a year from that time will be twelve millions of cite in referm once

tollars.
From these practices it would apper that lowering duties less not recently decrease the revenue. We have no deen not presently decrease the revenue. We have no exact data by which we can ascertain the fact, but proume there can be fittle doubt that, when it is considered that they and coffee now come in duty free, as well as many other articles, the increase of importations has been considerable in some species of merchandise, otherwise the duties could not amount to a cillion of dollars per month.

WASHINGTON CITY, July 17. The Board of Cors missioners, under the act of Congress to early into effect the late Troaty with France, having disposed of all the memorials before them, adjourned on Saturday last to meet again on the 3d Monday of October. The Board have been, we understand, very laboriously engaged, The Board of Com baving acted upon more than two thousand memorals.—
It may be interesting to those concerned, who are at a listance, to know that those cases which have been suspended on the question of salvage, have been duly examined; and, after mature deliberation, have been ordered to be received —known to the claimants as IVo. 81; and likewise those

-known to the claimants as No. 91; and likewise these cases which were suspended on the question of compromise, were ordered to be received—known as No. 45.

It will be perceived by the orders of the Board, that persons who have not filed their claims according to the late directions of the Board, do file their cases by the 3d Monday of October, (the 21st.) with a statement verified why they did not file them earlier. We would suggest that this is matter not to be neglected by those interested. The Board cannot act on the cases in the time prescribed by law for their existence, if the claims are not filed in proper time.—Glase.

BOSTON, July 15.
FRENCH OFER COMPANY. -- We undelstand that on Friday evening next, the French Opera Company of New-Or-leans, under the directio of Mr. John Davis, will open the remont Theatre for a f.w nights. The company consists of upwards of fifty fadios and gentlemen, comprising sever al of distinguished talent. Some of them visited this city is few summers since, when the performances of the company were deservedly admired, for their discipline and strict at-tention of the business of the stage. They are attended by a full and very effective orchestra.

It was stated in a London journal not long ago that Joseph Buonaparte was about to return to this country. We see no announcement as yet, of his arrival, and it is fair to him for that he has made up his mind to remain longer abroad. The cause of his visit to Europe has been supposed by many, and very plausibly, to have been the restoration of his samily and their fortunes in France. This was an idle scheme, and the death of the young Duke Reichstadt, put an end to all hopes of its success. It would require a second Mapoleon in all respects, to reinstate the family of that hero in their ancient consideration. The British East Indis possessions extend, with few interruptions and those only of tributary or allied states, from Cape Cormorin to the Himalaya mountains. This immense territory comprehends the richest pert of the continent of Asia, contains a handred militions of inhabitants, and yields an annual revenue of about \$2,000,000. or a handred militions of dollars. The land forces consist of \$50,000 naive and \$5,000 Bittish trops. The debt of the company is 1833 was 49,210,000. The civil and military servants of the company do not exceed 40,000, with whom all the business is transacted and the armies officesed.

The total number of whites who exist among the hundre militions of Indian inhabitant does not exceed 40,000. I commous, says a writer in Blackwood's Magazine, is to disproportion between the British rulery and the native surjects, that it is litterally true what the Hindoos say, the every one of the followers of Brama, were to throw a he ful of earth on the Europeans, they would be buried in the midst of their conquests.
