

Medical Holiday in Malaysia

While many would agree that beauty is not merely about having a nice face and a well-proportioned physique, there's truly nothing wrong with wanting the best look that you can achieve.

As human beings, we do such 'enhancements' to ourselves everyday – we brush our teeth to keep it white, we trim our hair every now and then to look as presentable as we can, we bathe and spray fragrance to our bodies to shy away natural odour.

At Makeover Vacations, it's a matter of achieving what you CAN be. And what you can be is the epitome of confidence. Not to mention the envy of others, of course.

A “healthy” Malaysian vacation

If you're unfamiliar with the term “makeover vacation”, it is a holiday getaway that concurrently caters to your need for health treatments – be it dental, medical, surgical, non-surgical, physical or aesthetics and wellness.

If you don't know it already, Malaysia has some of the finest medical and health facilities with highly qualified and experienced surgeons as well as dental and medical practitioners, many of whom are educated and trained overseas.

Despite our health industry being at par with world-class standards, the price of a professional health treatment in Malaysia is generally estimated to be 40% lower than those of its neighboring counterparts and other developed nations throughout the globe.

The country's modern infrastructure, economic and political stability have made Malaysia one of the safest places for tourists to enjoy their much-deserved vacations, regardless if it's a holiday of ultimate luxury shopping in the heart of Kuala Lumpur city, or a quiet, relaxing escape to any of the lush white and blue islands surrounding the country.

Everything about the people of Malaysia or “Malaysians” is multi – multiracial, multi-religion, and multicultural. With a myriad of ethnicities walking the streets, you will definitely blend in the crowd, regardless of where you hail from and what you look like.

If you're a food lover, you may want to make Malaysia your second home, like so many other foreigners have.

With so many cultures residing in one place, the variety of authentic cuisines is simply staggering – from Chinese, Malay, Indian, Japanese, Korean, Vietnamese, Thai, Moroccan, Lebanese, Italian, French, German, Brazilian, Mexican.... well, you get the picture.

The success of Malaysia's health tourism industry is certainly broadening, especially with the continuous support of the Government's Health and Tourism Ministry in making the country a center of service excellence

“We strive to provide each of our patients a ‘branded customer service’. We want to make sure you enjoy coming to us, simply because we want you to come back for more,” says Makeover Vacations Chief Executive Officer Mr. Bani Dom.
