1 Dec 75 (on China Trip)

K I would recommend you raise w/Teng whether they want to sell us some oil

P we talked about oil last night generally.

R Did he raise it?

P BW, it just came up. We were talking about that & a guy. Teng said a Japs & Sars had looked for oil & didn't find it. It was a Chinese who found it.

R ~~Oh~~ I would raise it, but not in a formal way. What did he raise? They don't do things by accident.

P It was quite casual. He did say we have excellent tech cap.

K That is what he wants them. Why shouldn't we do it in exchange for oil. The more oil we can get on a market & better someone changing on this trip

P I think I would call Spink in & say his record is lying.

R The tone is very good. They can't prevent you trying to fail. You could ask that China & I want to show you some time on details. I would go and check the page of Soc. Section & some geo & Salt for questions. There go into a point on a separate page I gave you. They are really being very warm. Old & quiet as they trotted out - really it is very nice. I think you should ask if they want specific military stuff talks.
