A CURIOUS CASE.—A letter from Washington to the Richmond Tisses mays.—

Fiz.-Sentor Tappan, from Ohio ta Locoforo of blessed memory) was appointed to inspect and arrange the mineralogical rollections brought home by the Eaploring Expedition, by a Committee of Congress In almost all cases there are duplicates. He was allowed by the Committee, for his arrivass, to take one of each, provided he left all the best specimens for deposit here. Like Hoty with the Sub-Treasury, however, he looked upon this as a mere fe from and has sent off to Ohio all the best specimens for his own use; making in the operation in a short time, from 20 to \$25,000. It was discovered a lew days ago, and communicated to the Committee of Congress who appointed him, who instantly repealed the resolution giving the office. He reagned directly, and has made a be-cline for Ohio in quick time. They can do nothing with him, I suppose, for it was simply a breach of privilege. But is in the an unterrified Democrat?

GEN. ARISTA.—The Richmond Emquirer, says.—
It is said that Gen. Arista commanded the Mexican
Army, and was present at the late battle near Gen
Taylor's Camp. A friend has given us some striking
anecdotes of the honesty, intelligence and simple
bearing of Gen. A. For some years he resided at
Clincinnati, and carried on the tinning business. In
the Cuty of Mexico he worked industriously in his
title tin shop. Under the garb of modesty and poverty he concealed an ambitious spirit. His very
simplicity of life saved him from the effects of jealous
and domineering rivalry; but in the exceiment of
war, he was called to take command of the Mexican
Army. He is said to be a man of qualities vasily
superior to those of his countrymen.
