Question 5	
	solution

```cpp
5. void copyupper()
{
    ifstream fin;

    fin.open("FIRST.TXT");
    ofstream fout;
    fout.open("SECOND.TXT");
    char ch;
    while(!fin.eof())
    {
        fin.get(ch);
        ch=toupper(ch);
        fout<<ch;
    }
    fin.close();
    fout.close();
}
```
