THE right conditions of this institution
are believed to be the best for the recovery

The parents have been rearing the young birds

All these houses are now available for an extensive display
of tropical birds.
Mr. and Madame BOURGUIN are glad to
offer the opportunity of corresponding to the parents of
the various papers and periodicals, they have
published, concerning the progress of their
work.
The parents will be pleased to receive
information concerning the progress of their
work, and parents may depend upon them in
concerning with those incidental and personal
matters which are peculiar to their experience, and requiring
the knowledge and cold discretion, which must always
be used in such cases.
Mr. and Madame BOURGUIN will not say
anything in praise of their system of education, but
will be pleased to give all the information
possible concerning the same.
