

THE BEE.

PRINTED AND PUBLISHED BY JEROME BAYON, DELAUP & CO. NEW-ORLEANS. MONDAY (MORNING) FEBRUARY 28, 1831.

STEPHEN MAZUREAU, Esq. at the solicitation of a number of his friends, has consented to become a candidate for the Legislature, in place of Gen. Gainnier, resigned.

The hopeless irregularity of the mails (still attributable, no doubt, to the overcasting snow storm) and the disordered condition in which their contents are received, mock all attempts to give the proceedings of Congress, regularly or with any regard to dates. We received on Saturday the National Journal of the 8th and 11th inst. from which a summary is copied.

By the schooner Emperor and Preto, arrived yesterday from Tampico, we received papers of a late date from Mexico. The most important news which they contain is the announcement, by a despatch from the Alcalde of Huasteco to the commandant of the department of Ejutla, of the almost total defeat of Guerrero's party, and the capture of that chief. It appears he was taken at Acapulco, on the South Sea, and conveyed thence to Huasteco on board the Sardinian brig Colombia. The despatch is dated on the 24th of January, and states that the brig arrived on the 20th. It was transmitted by the commandant of Ejutla to the Governor of Oaxaca, and by him forwarded to the Minister. Guerrero left Huasteco on the 26th for Oaxaca, guarded by a strong escort. From thence he will doubtless be conducted to Mexico, where the judgment of a council of War will speedily decide his fate.

The following list comprises the names of the Members of Congress, who voted to repeal the 25th Section of the Judiciary Act—Jackson men we believe, without any exception: Messrs. Alexander, Allen, Alston, Angel, Barnwell, Bell, Jones, Blinn, Bouldin, Campbell, Chandler, Claiborne, Clay, Coleman, Conner, Daniel, Davenport, W. R. Davis, Desha, Draper, Foster, Gaither, Gordon, Hall, Harvey, Hayes, Hinds, Jarvis, Richard, Johnson, Lamar, Leconte, Lewis, Lyall, Lumpkin, Lyon, Martin, Thomas Maxwell, M. Coy, Nockles, Overton, Patton, Pettis, Polk, Potter, Rusk, Wiley, Thompson, Trezant, Tucker, Wickliffe, Wild, Yancy, &c.

DUTIES ON SUGARS.

In the Senate of the United States Feb. 7th. Mr. BROWN, pursuant to notice given, asked and obtained leave to introduce a bill to reduce and fix the duties on imported sugars. On its being read a second time, with consent of the Senate, for the purpose of reference.

Mr. BROWN moved that it be referred to the Committee on Commerce. Mr. JOHNSON moved as an amendment, that it be referred to the Committee on Manufactures. The Senate divided when Mr. BROWN'S motion was lost. The Yeas 16, Nays 25. The amendment was then carried.

CONGRESSIONAL.

In the Senate, yesterday, the Chair communicated a letter from the Chief of the General Land Office, accompanied by a voluminous report on the subject of the various mail contracts made by himself and his predecessor in office. The report has been read in obedience to a resolution of the last Session. It embraces a detail of 1700 post routes, values of 1100 contracts, and occupies nearly 600 large folio pages. The bill appropriating \$5000 annually, to the General Land Office, was finally passed on the 27th inst. Mr. Brown introduced a bill to reduce the duties on sugars; and Mr. Benton gave notice of introducing a bill to alter the present duty on salt. Mr. Grundy's resolution relative to the examination of witnesses by the Select Committee on the Post Office was again debated. Mr. Holmes concluded his speech against adopting the resolution, in the course of which he inadvertently in foreign language on the system of prescription and removal from office pursued under the administration of the present Postmaster General, Mr. Grundy followed in reply, and defended the conduct of the Department in that respect. Mr. Grundy's concluding words laid on the table, to be again taken up to-day.

PROSCRIPTION.

It will scarcely be contended that any division of men into parties of nearly equal numbers, can be such as to give one all the talents, honesty, and worth of community. Why, then, the intolerance which we see every day practiced? Why shall men of acknowledged talents, experience, and merit, be proscribed and the public be deprived of the benefit that might accrue from their counsel or employment in the public service? The excellence of Republican Government is not confined to the guarantee of a right of suffrage; it looks to something further—to an equality of privileges, in the fullest sense of that term—excludes the idea of all right in the majority to practise tyranny and intolerance; and presumes the minority to be possessed of rights which cannot be forfeited on account of any opinion honestly entertained. In fine, Republican Government is founded on the presumption of benevolence in the body of the People, and its design is to draw forth that spirit to protect the weak against the strong, and dispense equal justice to all. If, in the original formation of a political society, one portion of the people should say to the other, "we will agree to join with you in the formation of a commonwealth; if you shall have an equal vote with us, but none of you must set up, or act upon any opinion of your own; nor expect at any time to share in the conducting of public affairs; these must be enjoyed by us alone"—how would such a proposition be received by men of intelligence desiring to be free? Would it not be spurned with contempt? Yet this is substantially the condition of a moiety of the people of the Union at present Administration to control. What ought to characterize him as a man of talents, well versed in the knowledge of men and of the world, and of considerable experience, and honest will; but still express his conviction that it would never do to confer upon him any trust, or give him any countenance which might tend in the least to increase his consequence? Such declarations in respect to ordinary matters could not fail to excite a positive perversion of principle, yet we every day see them pronounced upon us; and no better reason assigned for it, than because the persons thus proscribed and put out of the pale of social equality, do not merit the respect and superiority, do not believe in the President; and that, too, by persons who, in the discussion of other matters, will lecture on the beauty of Christian charity!!!

This spirit, although so repugnant to the best principles of our nature, to reason and revelation, is of very ancient origin, and has ever been much away: it was in full vigour and operation on the plains of Duru, where Nebuchadnezzar set up his Golden Image, and demanded of all men to fall down and worship it; or, in Persia, to be cast into the fiery furnace. It is the same spirit which, during the prevalence of superstition, caused conquerors to be worshipped as Gods; and which subsequently has held men in abject subjection to Kings and Emperors. Here it assumes the name of Republicanism, while it aims at the disfranchisement of one half of community.—Ohio Ch.

the Post-Office inquiry, is still under debate, Mr. Clayton continued his remarks—argued against adopting the resolution, and offered a bill to further amend the mal-administration of the Post-Office department. He was followed by Mr. Benton on a point of order, to have the minutes of the whole proceedings erased from the Journal, as informal. Mr. Woodbury followed in defence of the present Post-Office management, and had not concluded when the Senate adjourned.

In the House of Representatives, yesterday, a bill declaratory of the law concerning contents of Court, was reported by Mr. Buchanan, from the Committee on the Judiciary. A report of a very important character was made by Mr. Hemphill, from the Committee on Roads and Canals, advocating the policy of Internal Improvement, and containing certain resolutions corresponding with that sentiment. It was committed to the Committee of the Whole on the State of the Union, and ordered to be printed; and a motion, made by Mr. Vance, to print an additional number of 6000 copies, stands over this day. The bill to authorize the construction of a Rail Road within the District of Columbia, and a number of other bills relating to the District of Columbia, were acted on in Committee, and ordered to be engrossed for a third reading.—National Journal.

COMMERCIAL.

From Wille's Commercial Report, of Feb. 26 GENERAL REMARKS.—The weather during the week has been mild and generally favorable for our door business. The Mississippi has fallen six inches since our last, and yesterday noon it was five feet six inches below ordinary high water level. Our market, with the exception of a further decline in cotton, a fall and rise to former quotations in Flour, and an improvement in Freights, has otherwise undergone but few material alterations since our report. The navigation of the Mississippi and the Ohio rivers above their junction and tributaries streams, continue to be interrupted by ice; the duration of which it is thought will soon be over, when no doubt a much more extensive business will be done, particularly in the western trade.

COTTON.—Arrived this week, from the interior and Mississippi 6133 bales, Tennessee and North Alabama 6905, across Lake Pontchartrain 56, Arkansas Territory 30, together 15,514 bales. Cleared in the same time, for Liverpool 6305, Havre 1960, Trieste 943, Bremen 110, Boston 1706, New York 1084, Philadelphia 749, Baltimore 259—in all 23,115; and marking an addition to stock of 2398 bales, including all on ship-board not cleared yesterday morning. The apparent business in the fore part of the week was confined to the weighing, marking and delivery of a large portion of the operations noticed in our previous report. The sales have not been extensive, neither can the demand be fairly considered as good, notwithstanding a further decline of nearly one quarter of a cent per pound. Using the Liverpool classification for Louisiana and Mississippi, we quote viz:

Table with 2 columns: Quality and Price. Ordinary 7 1/8, Middling 8 1/8, Fair 8 1/4, Good Fair 9 1/4, Good and fine 9 1/4.

In Tennessee and North Alabama there is very little doing with the exception of some shipping on owners account, owing to circumstances as related before, of its being generally limited much over at what is considered a fair value of the article, compared with other descriptions. We have commenced quotations for specified qualities which are to be considered as nominal, and are for the crop from plantations of good merchantable quality, and in a store, and generally held at 51 cents, for prime and 50 cents, for second, and 49 cents, for third, and 48 cents, for fourth, and 47 cents, for fifth, and 46 cents, for sixth, and 45 cents, for seventh, and 44 cents, for eighth, and
