CHARLESTON, Oct 29

Cotton—We close our annual statement of the import and export of Cotton of the United States, for the last twelve months ending on the 1st inst. The receipts have been 51,925 bales of Long Cottons of every description, and 1,060,647 bales of Short Staple. The foreign export has been 16,080 bales of Long Cotton, and 1,153,561 bales of Uplands, and the stock remaining in the different Southern ports and on shipboard amounts to 5,232 bales of Long Staple, and 108,086 bales of Upland Cotton. It will be seen that there is an excess of 67,841 bales over the last year. Owing to a supposed deficiency, our statements vary from the New York report 1000 bales, which will be readily perceived by reference to his statement of the stock remaining in Charleston on the 1st October, 1836. It should also be observed that 2,397 bales found on board of vessels, likewise differ as to the Natchez crop, 626 bales, impossible to ascertain the quantity of the last year's crop lying over in the different sections of the country, but we have no doubt the receipts would have been in favorable, that the receipts would have been over 1,500,000 bales.

Our receipts for the last week have been 7 bales Sea Island and 3830 bales of Upland Cotton. Classified in the same time,—bales of Sea Island, and 1935 bales of Upland Cotton. On shipboard, not cleared, 60 bales of Sea Island, and 1,000 bales of Upland Cotton. The sales have been 1,994 bales of Uplands, as follow. 178 bales at 12a, 260 at 12½, 14 at 13¢; 209 at 12, 14 at 12½; 161 at 13, 79 at 13½, 12 at 14, 22 at 11, 24 at 11½; 70 at 10¾, 47 at 10¢, 20 at 10½, 128 at 11, 44 at 9¾, 9, 60 at 6¾, 16 at 7¾, 39 at 8, and 4 at 6¢. In Cotton—Messrs at 12¾, 51 Seabrook at 13¾ a 14, 12 Skadden from 9 to 10¢, 10 Hamilton at 12½, 10 Lance damaged, by chains and prime Uplands, and other descriptions are moving so as to reduce our stock at the old crop, but as soon as our supplies increase, we are confident the prices will be sustained. Sales of Sea Island generally are not anxious to press their stocks on the market.

Rice—The receipts of the week for this single are as follows: 65 barrels of the new crop, first in market, at 8½ at the old, 28 barrels at 4½; 64 at 4; 38 at 4½; and 13 barrels at 4¾. We know of none in first hands.

Flour—The demand is good, and the receipts moderated; about 1000 barrels comprise the transactions of the week from 90 to 9.10, a small lot brought 9.15.

Sugar—About 70 hhds Muscovado brought from 8¾ a 10¾, and a small lot of New Orleans, 97¢ a 9¾ which is equal to 9¾ a 10¾ and holders are firm.

Molasses—Sales of 150 hhds Cuba, New Orleans brought unchanged and 60 hhds N Orleans, at 36¢; there is little in first hands.

CHARLESTON, Oct 31.

Cotton—The great demand noticed in our last New York Saturday had been entirely checked, owing to the supplies received within the last few days, and the extreme quotations of last week are with difficulty obtained, although we have noticed decidedness to noting in price.

AUGUSTA, Nov 1.

Remarks—Our business season is now fairly opened, and notwithstanding the recent disturbance in the financial affairs, the operations in this market during the past month have been to a fair extent. Money has been plentiful, and the confidence manifested by merchants; our banks discount as far as they are able, and business goes. Cotton is coming in freely, and at a rate which finds ready purchasers. It will be observed, however, by our tables, that our receipts this week fall short of the receipts during the same period last year 18,196 bales, our shipments, 5,668 bales, but our stock has this year increased 6,021 bales.

Cotton—During the first week of the month the receipts of cotton were heavy, and the prices declining from 9 to 10 a 10¢ for old, and 9½ to 10¢ a 11 for new. The receipts have been 23,392 bales, nearly all of which have been purchased on arrival: the exact part having been sold and shipped to the North. From warehouse the sales have also been heavy amount to 12,000 bales, which were distributed as follows: 17 at 6¢; 6 at 6½; 15 at 6¾, 14 at 6¢, 7, 31 at 7¼, 127 at 7½, 32 at 7¾ 228 at 8¢, 87 at 8½, 76 at 8¾, 4 at 8¢, 271 at 9¢, 155 at 9½, 611 at 9¾, 685 at 10¢, 94 at 10½, 1,198 at 10¾, 476 at 10¢, 1,088 at 10, 16 at 10 1/16, 716 at 10¾, 18 at 9/16, 943 at 10¢, 813 at 10¾, 708 at 10¢, 974 at 10½, 414 at 10¢, 43 at 10 9/16, 17 at 10¢ and 161 bales at 11 a ¢. Our rise in the low cost, which is a great drawback to purchasers; as soon as it is at any good standard, we expect a demand from the staple will increase. We quote old mess, 10¢ a 10½; new 9½ a 10¢—strictly old mess, 10¢ cash—and of new a square below 10—but both these descriptions are scarce, and there is very little if any new in market but will bring more than our present quotations.

FOREIGN MARKETS.

LIVERPOOL, Sept 30.

There has been a great falling off in the demand since our last, and consequently a very heavy market, which has continued to vex buyers who have attended, as many have abstained from purchasing and at easier prices, those of last week being nearly 1 per cent. The sales to day are 3,000 to 3,500 bags of all kinds, Orleans 1,000.

LIVERPOOL, Sept 30.

Our advices are to the evening of Saturday, Sept 30th.

Review of the week ending September 30.

Cotton—The demand has been limited, and while holders have not pressed their sales, yet the market has been heavy, and the prices of the week's transactions 1 per cent lower. The sales of the week have been 18,000 bales, of which 1000 Americans; Exporters 1000 bales, Speculators 400 Bengal; and there have been forwarded to the country nearly during the week 3,000 Americans, 1,000 Egyptian, 200 Pernambuco, and 400 Bahia.

The import this week is 4,054 bags, and this makes an import from 1st October to the 1st inst. of 13,060, viz: 7,000 Bengal, 1,200 Surat, 1,200 Madras, 1,000 Bombay, 1,000 Egyptian, 200 Alabama, 200 Pernambuco, 1,000 Bahia, 1,000 Maranham, 200 Egyptian and 200 Surat 24 a 5/8.

Tobacco—The sales of the week are about 350 hhds including which, the sales of the week consist of 300 hhds Virginia leaf and 150 hhds of Kentucky leaf and 100 hhds of Kentucky twist and 100 hhds of stems. The demand for manufacturing leaf has improved, and the sales have been taken by manufacturers, and the prices of the same description of leaf have advanced 1 per cent, and every other description is quite supported. Virginia may be quoted from 7 to 8¢, and Kentucky leaf has improved 1 per cent, and Kentucky twist and stems 1 per cent last year.

An unexpected discovery has been made respecting the financial mismanagement of the Bank of England in the United States, lately alluded to, and which now wears the appearance of a deep laid scheme, originating in the recovery of debts in which the the bank has an interest, but also to place the trade between the two countries once more upon a sound and wholesome footing. In propounding the means by which desirable objects might have sought advice from the elders of their own body, or from the bankers and capitalists of the city, but in a deeper scheme, though the element on which it was to work was of proper knowledge being found, it would be unreasonable to say that it could not exist. The annexed letter, which would have told its tale impressively without a word of introduction will at once enlighten on this weighty matter, the progress alluded to and its author. The name of the gentlemen employed on the mission is Cowell, and he is to be attended by one of the principal clerks from the Bank of England.

[Here follows the letter from Captain Stockton, of the navy, which we published some days since.]

By the advices from Hamburgh, the price of gold is 439 per mark, which at the English mint price of 3l. 17s. 10½d. the ounce for standard gold, gives an exchange of 25 9d, and the exchange at Paris on London at short being 13 11f, it follows that gold is 0 12 per cent dearer at Hamburgh than in London.

The premium on gold, at Paris, is 8 per mille
