MISCELLANEOUS.

DR. J. C. AYER'S HAIR INVIGORATOR,

AN ELEGANT, SAFE AND ECONOMICAL COMPOUND

FOR RESTORING GRAY HAIR to its original color, without dyeing, and preventing it from falling off.

FOR PREVENTING BALDNESS, where the glands have not entirely lost the power of vitality or reproductive energy remaining.

FOR REMOVING SCURF AND DANDRUFF, and for the cure of all cutaneous diseases of the scalp.

FOR BEAUTIFYING THE HAIR, by imparting to it the unequaled gloss and brilliancy, making it curl gracefully (when healthy and disposed), and to curl readily.

The great popularity and the increasing demand for this unequaled preparation convinces the proprietor that one trial is only necessary to satisfy a discerning public of its superior excellence. Nothing has ever been offered to the people which has given such universal satisfaction, or proved so reliable in all cases of disease originating in the hair or scalp, however inveterate or long standing. Its occasional use will prevent the hair from falling off, and consequent baldness; and, in all cases where the glands are not entirely destroyed, will restore a new growth, and that, too, of the original color. Instances have frequently occurred where persons have used it for the former purpose for a few months only, and have had their heads covered with a new growth of hair, when all other means had been tried in vain. Those who are afflicted with gray hair may rest assured that this preparation will restore it to its original color, with all the freshness and beauty of youth. It will keep it from falling off, and consequent baldness, and will promote a healthy growth. Those who are afflicted with humors in the scalp, in the form of scurf or dandruff, will find that a few applications of the Hair Invigorator will cleanse the scalp and make it white and healthy. Those who are afflicted with any cutaneous disease will find that the Hair Invigorator will cure it in a few days. Those who wish to preserve the hair, and prevent it from becoming gray, will find that a few applications will keep it dark and glossy for years. In fact, it is the only preparation for the hair that can be relied on, after the hair is destroyed. It is the only dressing that will keep the hair in any healthy condition. It is the only preparation that will satisfy the inquiring mind as to the cause of the hair turning gray, falling off, &c. In all cases of sickness, attended with fever, the hair comes off, sometimes in handfuls, after the fever leaves the system. In all such cases the Hair Invigorator should be used, as a few applications will prevent the hair coming off, and will promote a new growth. In cases of scrofula, the hair comes off in patches, sometimes the whole head. In all such cases the Hair Invigorator should be used, as it will restore the hair in a few weeks. In all cases of general debility, the hair comes off more or less. In all such cases the Hair Invigorator should be used, as it will prevent the hair coming off, and will promote a new growth. In all cases of fever, the hair comes off, sometimes the whole head. In all such cases the Hair Invigorator should be used, as it will prevent the hair coming off, and will promote a new growth. In all cases of fever, the hair comes off, sometimes the whole head. In all such cases the Hair Invigorator should be used, as it will prevent the hair coming off, and will promote a new growth.

AYER'S SARSAPARILLA,

A COMPOUND REMEDY, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other ingredients of still greater power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from the various complaints; and that one which will accomplish their cure must be a potent alterative, since this is the form of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiments on the sick, and by the worst cases to be found in the following complaints:

Scrofula and *Scrofulous Complaints; Erysipelas and Eruptive Diseases, Ulcers, Pimples Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia, Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's Fire*, and indeed the whole class of complaints arising from *Impurity of the Blood*.

This compound will be found a great promoter of health, giving tone to the stomach, and, by the purity more which foster to the blood at this season of the year. By the timely expulsion of the many rankling disorders that lurk in the body. Multitudes are by the aid of this remedy, spare themselves from the consequence of disease, and shield their children through which the system will arrive to rid itself of corruption, and vanquish the insidious foes that sap the foundations of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it to obstructed and sluggish in the veins or whenever you feel it is foul, and your feelings will tell your when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood pure, and all is well; but with the pabulum of life disordered, there can be no healthy action. Sooner or later derangement must go wrong, and the great machinery of life is disordered and suffers.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it. Most of them the drug alone has not all the virtue that is claimed for it, or has been presented in inefficient combination. Such as to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

Further than this, the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for a dollar. Most of these have been mere decoctions of logwood, and the like, mixed with a little sugar, and a drop of oil of sassafras, and colored with burnt sugar, to make them look like Sarsaparilla. But the most pernicious imposition has been upon the sick, for they not only contain little, if any, Sarsaparilla, but quite counteractive properties, such as Rosin, Bitter-wood, and other cheap and nasty drugs, which, after a painful disappointment has followed the use of the various extracts of pretension which have been thrown upon the market, has shaken confidence and has become synonymous with imposition and deception. Still, the best remedy we can have, and we intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we have reason to believe that in this virtues which are irresistible by the ordinary run of the diseases it is intended for a cure, and restorative to the cases pronounced incurable, and when thoroughly eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

AYER'S CHERRY PECTORAL

FOR THE CURE OF

Coughs, Colds, Influenza, Dyspepsia, Infigestion, Dysentery, Foul Stomach, Hepatitis, Bladder, Fire, Rheumatism, Neuralgia, Headache, Pain, Complaint, Dropsy, Heart Disease, Tumors and Salt Rheum, Worms in all their forms, Erysipelas, as a Dietary, Purifying the Blood.

They are guaranteed, so that the most sensitive can take them with certainty, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 Cents per Box; Five Boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen, and others have voluntarily left their names to certify the unparalleled usefulness of these remedies, but our space limits will not permit the insertion of them. Ayer's Cherry Pectoral is recommended to Druggists, country merchants and physicians as containing the best remedy for coughs, colds, &c. It has been proved, in numerous cases, that by the use of a few bottles, when the first symptoms are manifested, the dangers of the above prevalent diseases are stopped, and a complete cure is brought about in from twenty-four hours to a few days.

The annoying and often fatal consequences of neglected colds, which, from change of climate, are unavoidable, is an inducement to buy RICHARDS PECTORAL SYRUP. For a child has been conquered by its wonderful power, after a long and severe struggle, when contracted in consequence of a cold. Its superiority over all other remedies of the kind. Only twenty-five cents of the same 10 cents will enable every one to procure it.

Dr. Mott's CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of its crude and injurious properties by combustion in Hydrogen. Sanctioned by the highest medical authorities, both in Europe and America, as the most valuable tonic in daily use.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and sallow skin, nervousness indicate the necessity of its use, and almost every conceivable case. Incubious in all maladies to which it is applicable, it is absolutely and positively unrivalled in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Hypochondriasis, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Rheumatism, Neuralgia, Intermittent Fevers, Pimples on the Face, &c.

In cases of GENERAL DEBILITY, whether the result of said disease, or of the continued diminution of nervous and muscular energy from other causes, this vital of this restorative has proved successful to an extraordinary degree. In many cases where forty bottles would render credible, invalids as long bed-ridden as to be carried from their homes, have in a few weeks been restored to perfect health and enabled to resume their accustomed labors in the busy world as if just returned from unrestricted travel in a distant land. Some very signal instances of this kind are adduced of females sufferers, considered victims of apparent marasmus, accompanied by extreme exhaustion, debility, and depression of nervous and dyspeptic aversion to air and exercise for which the physician can no cause.

In NERVOUS AFFECTIONS of all kinds, and for seasons familiar to medical men the operation of this preparation of iron is most successful. In epilepsy, for, in the old-oxides, it is vivaciously tonic, without being acrid or and overheating; and gently, regularly aperient without being drastic or irritating. Most of these who suffer over being gastric purgatives, or inducing a disagreeable constipation.

It is this latter property, among others, which makes it as remedy of unrivalled excellence in *female* cases for which, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which constitutes.

In DYSPEPSIA, innumerable as are its causes, a single box of Dr. Chalybeate Pills, will be found to be the most habitual cases, including the attendant diarrhœa.

In unchecked DIARRHŒA even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the most astonishing results have been witnessed.

In the pallor, loss of flesh and strength, debility the cough, and resultless hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and the fears of physicians very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, that predisposition iron has had far more than the good effect of the most cautiously balanced preparations of iodine without any of their well known disfigures.

The attention of females cannot be too confidently invited to this remedy and restoratives in the cases pen fairly affecting them.

In RHEUMATISM, both chronic and inflammatory, in the latter, however, more decidedly it has been this variably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and unspecific restorative, and its progress in the new settlements of the West will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine which exercises such a controlling and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual flow of animal spirits and cheerful serenity of mind, follow its use.
