Collaborative Watchlist

Ideas

- Reduce redundancies in review process
- Improve quality
- Little change to the established process
 - Documented outcome →
more coverage and efficiency
- More motivation

How does it work

- Define article range
- Define user group
- Use the watchlist as always

Article Range

- Categories (can include sub-categories)
- Individual articles
- Exclude specific categories / articles

- Cover whole topics
- E.g.: Tree-of-life, Chemistry, Medicine, etc.

Users

- Owners (list admins)
- Users
- Trusted Editors

Handling

- Agree on tags
- Review edits
 - Set tags (e.g. approved, second op.)
 - Add comment
 - Revert revisions

Outlook

- Tagging existing articles (outside recent changes)
- Define sublists for tagging in multiple lists
