De Beckker Jonas	0477233764	jonas.debeckker@gmail.com
Spaas Maxime	0496415153	maxime.spaas@student.groept.be

Problems will occur during this project. We have to look after all the deadlines so we don't miss any of them. When a problem occurs there will be an appropriate solution.

- A team member complains about the subtask that is assigned to him
 - Some one else can do his task and transfer his task to the other member.
 - When the project already reaches a phase where there can't be a transfer in tasks then we will help the team member so his task becomes less heavy.
- A team member disagrees with the other one.
 - We will all sit together and talk this over so we can continue with a good atmosphere.
- We can't decide between two solutions.
 - We will cast a vote and the solution that gets the highest vote wins.
- It is possible that we have to get some extra material to modify our project.
 - We will discuss together to decide if the cost is really necessary for our project.
 - The cost will be paid together if it is necessary.
- A team member will probably not be able to attend the discussion seminar.
 - A team member are supposed to give the reason why he or she can not attend the meeting.
 - The team leaders will decide if the reason is proper.
 - If the team leaders agree with it, the member is allowed to miss the meeting, otherwise he or she should attend the meeting.

The principles that all members must follow

All team members must follow the following rules so that our project can proceed smoothly.

- In generally, all members must fulfill the task assigned to him on time.
- It is forbidden for all team members to plagiarize the other teams project.
- All team members will follow the team decision.
- All team members have the right to express their perspectives.
- The task will be allocated appropriately according the team members ability and speciality. The work capacity should be suitable for the team members.
- The team leader can not command the team members, and the members have the right to reject the leaders.
