

For your plate tectonics project, you will each need to research a plate event. You must sign up for that event with Mrs. Swagin. You will be completing a powerpoint presentation on this plate event. Below you will see the requirements for this project.

- 1) Fault line or plate boundary where they occurred (10 points)
- 2) Type of volcano or fault line(10 points)
- 3) Number of deaths reported (10 points)
- 4) Major causes of death (10 points)
- 5) Dates and other historical information (10 points)
- 6) How far away effects were felt (10 points)
- 7) Global climate changes (volcanoes only) (10 points)
- 8) Cite your sources (10 points)
- 9) Pictures/video clips (10 points)
- 10) Presentation of 3-5 minutes (10 points)

A video clip can only take up 1 minute of your total time of presentation.
