

Earth Science Chapter 5: The Theory of Plate Tectonics

*Answer the following questions. Answers that cannot be read will be counted as incorrect.*

1. The \_\_\_\_\_ states that pieces of Earth's lithosphere are in slow, constant motion, driven by convection currents in the mantle.
2. \_\_\_\_\_ are breaks in Earth's crust where rocks have slipped past each other.
3. The place where two plates move apart, or diverge, is called a \_\_\_\_\_  
\_\_\_\_\_.
4. The place where two plates come together, or converge, is called a \_\_\_\_\_  
\_\_\_\_\_.
5. A \_\_\_\_\_ is a place where two plates slip past each other, moving in opposite directions.
